orporations of this kind in Europe, and es-pecially in England, has been so very satis-factory, now ver, that American capitalists who gave the subject close attention became fully convinced that the oppo-sition here to industrial corporations was due almost entirely to ignorance as to their real merit, and that all that was neces-sary was to educate the people by a few practical illustrations. The Standard Oll Company was the ploneer enterprise of this kind, but its stock was very closely held and it was not until Cotton Oll, the Sugar Trust and one or two others were brought out, that the public really begin to take general interest in stocks of this class. One of the particularly favorable features connected with the industrial stocks, is that the prop-erties represented, the accounts and every-thing connected therewith, undergo a searching investigation by able experts be fore the stocks are placed on the market. The handsome dividends which the com-panice have so far been able to pay make them also very attractive to people who have money to invest. More Scourities Listed.

# A LITTLE WHEAT FLURRY.

fair at 16%@17c.

and a superior and a second second second second

#### horts Scare and Rush to Cover-Corn and Oats Firm--Provisions Lower.

CHICAGO, July 21.-The only feature of special interest in the trading on the board to-day was a flurry in wheat shortly after the opening, when the shorts became fright-ened at the strength of that cereal and rushed to cover. The wheat market started quiet at a slight decline with September at quiet at a slight decline with September at 78%c. For 15 minutes thereafter a lively basiness was done accompanying a quick spurt to 79%c, with perhaps a few sales as high as 79%c. The hot weather prevailing throughout the spring wheat belt was the most potent factor in bringing about the stampede. Over a very large section spring wheat is now in the milk, and it was feared that the hot temper-ature reported yesterday, ranging up to 10% might seriously damage the plant. The early cables were firm in tone. The re-outing cable was 6d higher and Liverpool (10% might, but autices from the conti-nent were less stisfactory. Farls was from 10% bigher, but autices from the conti-ment were lows and St. Louis speculator, too, had been crowding the wires with sel-ing orders since the time of the early up,

 Skins, 2/205c.
 Philase phis-Flour firm. Wheat firmer; No. 3 red, July. 85/205/c; August. 84/205c; September, 85/205/c; October, 35/2065/c; Corn quiet; No. 3 mized in grain depot, 50/2065/c; Steamer No. 2 mized, track, 54c; No. 3 yel-low, in grain depot, 50/205/c; Septem-ber and October, 53/205/c; Septem-ber and October, 53/205/c; Septem-ber and October, 53/205/c; Octa-Car lots steady; futures dull; No. 3 white 37c; No. 2 white, 39/2; do track, 40c; No. 2 white, July 39/209/c; August, 55/205/c; September and October, 37/2088c; Butter firm and in good demand; Petusylvania creamery, ex-tra, 22/225/c; Pennsylvania firsta, 17c.
 Cincinnati-Flour firmer. Wheat stronger; 000 preferred stock and \$7,000,000 common stock, which are regular company's certifi-cates simply substituted for the voting trust certificates, the voting trust having expired July 15. General Electric Company-\$4,000,000 5 per cent gold debenture bonds or 1922. The authorized issue of these bonds is \$10,000,000, of which but \$4,000,000 will be issued at pres-ent, and this amount has been fully sub-soribed. They are convertible into full-paid common stock on the basis of \$120 of bonds for \$100 of stock. A million and a half of the proceeds of these bonds has been used toward extinguishing the floating debt, and it is intended to use the balance for the same purpose, either directly or by the pur-ohase from the companies of the stocks and bonds or other securities held by them. The P. R. R. in Line,

The P. R. R. in Line.

29c. Eggs steady; Pennsyivania firsts, 17c. Cincinnati-Flour firmer. Wheat stronger; No. 2 red, 754;c. Receipts, 8,000 bushels; shipments. 8,000 bushels. Corn scarce and stronger: No. 2 mixed, 323;@341;c. Rye nom-inal; No. 2, 70c. Pork easy: \$12 25. Lard in fair demand at \$7 05. Bulk meats easier at \$7 75@7 873; Eacon steady at \$9 00@9 133; Whisky steady: sales, 837 bbls at \$1 16. Butter steady. Sugar dull. Eggs heavy at 11@11;c. Cheese steady. According to the Philadelphia Inquirer, the Pennsylvania Bailroad will shortly announce an advance of about 25 cents a ton on tidewater shipments. The new rate will non tidewater shipments. The new rate will go into effect on August 1, and the required ten days' notice will be sent to the Inter-state Commission to-day. In April Mr. Joyce fixed the rate from the mines to tidewater at \$1 44, being 40 per cent of the estimated selling price at tidewater, which was be-lieved to be \$3 50. The new rate will be between \$1 65 and \$1 70. There are a large number of individual shippers on the Penn-sylvania Exifoad's lines; in fact the bulk of the tonnage is furnished by independent operators. The important point in the transaction is that it explodes the silly rumors that the Pennsylvania wants to fight the anthracite coal trade. The com-pany is as anxious to make money as any other, and will not throw away a quarter of a dollar a ton on a business argregating nearly 5,000,000 tons a year when there is no occasion for doing so. Financial Notes. 11@11%c. Cheese steady. Totede-Wheat active and lower: No. 2 cash, and July, 81%c: August, 86%c: Sep-tember. 81%c. Corn dull and steady; No. 2 cash, 50%c: No. 3, 80c. merchant steel Chicago reports further large season contracts. Steel rails con-tinue very quiet, the only transaction of magnitude being a sale of 10,000 tons by an by an Eastern mill to a Western road, which is chiefly interesting as indicating the harmony between the mills. From London by cable to-day, the foreign markets are thus reviewed: Prices for pig from warrants have remained almost sta-tionary at 41s@iis 4d for Scotch, 40,040, 3d for Cleveland, and 48, 6d for hematic. Oper-ations have been moderate and traders hold aloof, although consumptive demand for some kinds of iron is rather better. Stocks in public stores show a further slight de-crease, being at present about 419,000 tons Scotch and 31,000 tons Cleveland. The pig tin market improved during the week, after small holders had liquidated and responded to better advices from America, but buyers have interly become scarce and prices again receded. Straits shipments during the past fortnight reported as being 1,225 tons and spot stock 1,607 tons, the bulk of which is in strong hands. The tin plate market is without encouraging feature. Steel ship plates are somewhat firmer. Makers now generally quoting £6 2s 6d f. o, b. ds over

business going. We note a sale of 3,000 tons of blooms by an fastern rail mill. In
