## IRON TRADE REVIEW

Steel Slabs and Billets in Good Demand and Tending Upward.

WHAT IS DONE IN THE VALLEYS.

The Demand for Old Iron and Steel Rails ls Growing Better.

BESSEMER PIG AND GRAY FORGE FIRM

OFFICE OF THE DISPATCH, PITTSBURG, FRIDAY, July 22.

RAW IRON AND STEEL -Business during the week has been restricted to limited amounts, caused, no doubt, by the labor troubles. The situation is certainly a very unsatisfactory as well as a costly one, and how long this condition of affairs is to continue is a question that no one can an-

Trade at present is a barren subject; barren because it is for the present practically divested of the features which alone invest it with absorbing interest. It is not dead, but it is resting, and there is but little in its present condition that demands industrious consideration. Demand has no spur, and the prices that rule are midsummer prices, and these, so far as the future is concerned, mean nothing.

The business for the past six months, so far as it relates to the management of industrial affairs, is bad enough, but the last half year starts out with an occurrence which, in irrational proceedings, injurious consequences, horrible tragic features and uncivilized methods, so far belittles any happening recorded in the annals of the past that the gravest of them surink into in-

The shutting down of so many mills at various points has contailed consumption of pig iron very materially; still the supply continues largely in excess of the demand. The late reduction in prices in the East produced no effect in this market. With Bessemer at \$14 and gray forge at \$12.75, holders of standard brands refuse all offers to lower prices. Convention runs quite as holders of standard brands refuse all offers of lower prices. Competition runs quite as sharp as at any previous time this season, and brands that do not command the esteem of co.sumers, which may be offered with any pressure, have to be let go at rates attractive to the buyer.

Pitzburg-made iron and steel commands the best prices that rule the market, the fact being well known by consumers that the material purchased will at all times sand the expected test; consequently buyers run no risk. The stock of iron in the hands of makers in this district is not large, still the amount is sufficient for all necessary purposes. The demand for some time was confined to the better grades.

The market contains two sets of pur-

was confined to the better grades.

The market contains two sets of purchasers of pir iron, the first buying for consumption, the second purchasing on speculation on account of the low prices miling in the market at present. Parties well versed in the value of iron contend that money is perfectly safe that is invested in billets, gray forge and Bessemer at present rates; that as soon as the present labor difficulties are adjusted prices will take an upward turn.

Important News From the Valleys. The situation is as quiet as it can be under the circumstances. Only one sheet mill it in operation, employing about 25 hands. The other mills are busy making annual repairs, taking stock and putting in improved and habor-saving devices. In the Mahaning Val-ley consolidation of the iron manufacturing indictries is still under consideration, one important move in that direction having already been consummated. The steel plant project is so far under way that the location is being considered.

Railway officials will meet this week with the incorporators to agree upon terminals

the incorporators to agree unon terminals and local freight matters. Work will be commenced on the works inside of 30 days. One concern is patting down three additional sheet mills, and several tin plate mills are also under consideration. All the furnaces are in blast except Hubbard No. 2, hary and Struthers. Hannah will shortly blow out for renains.

harry and Struthers. Hannah will shortly blow out for repairs. In the Shegango Valley the Chair, Spear-man No. 2. Etna and Sharon and Neshan-nock are blowing; everything else is at rest. The new steel plant of the Shenango Steel Company will commence operations October 1, as will also the new tinplate mill at New Castle.

112.707 tons. Adding the production of the two half years we have the extraordinary production of 9.710,819 gross tons in 12 month, which is 508,116 tons in excess of 1890. Notwithstanding the non-settlement of the scale question, we can report a fair amount of business. Steel billots are firm with a good trade demand. Prices tend upward, Bessemer is steady, last week's prices being well maintained. Gray torge is not very active, but prices show no decline. Muck har is dull and neglected. Scrap material is har is dull and neglected. Scrap material is dull. Old iron and steel rails are firmer. COKE-SMELTED LAKE AND NATIVE ORG.

#### PICKING UP AT CINCINNATL

Number of Large Contracts Closed and Som Others Pending. CINCINNATI, July 22. - [Special.]-Bogers, Brown & Co. say: Not much business was expected during the past week, but a num-ber of large contracts have been closed and several others are pending. The aggregate tonnage has been satisfactory, but the prices obtained were not up to former quotation. Sales of mill, mottled and soft grades were made, for which furnaces cannot realize the cost of production. The question now is how long will the furnaces pursue their present policy? Stocks have decreased, but still sellers are found at constantly lessenting prices.

still sellers are found at constantly lessening prices.

The Pittsburg lockout has no appreciable
effect on the mills in this section, unless in
the way of an increased inquiry for bar iron.
There is a limited call for muck bar trom
mills whose puddling capacity is not equal
to their ability to manufacture the fluissed
product. Prices low in sympathy with pig.
Car works are crowded with orders and
their prospects are good for running rull
during the remainder of the year. Charcoal
irons remain unchanged with a fair demand.

Fair'y Active at St. Louis, Sr. Louis, July 22.-[Special.]-Rogers, Brown & Merwin say: The market is fairly active. Inquiries are numerous, but som special low prices, made in exceptional cases, seem to have had a depressing effect cases, seem to have had a depressing effect on prices in general. There seems to be more of a disposition on part of the buyer to contract now at current prices for require-ments the balance of the year. Furnaces are still holding for short deliveries. The car works, stove foundries and agricultural concerns are extremely busy, and, in fact, only the jobbing foundries are short of work.

No Change at Birmingham BIRMINGHAM, ALA., July 22 .- [Special.]-There is no change in the iron market which con is no change in the iron market which con-tinues unquotable in figures. It is sold at what it will bring, the prime consideration being to keep down stocks which show a constant tendency to increase. Last week the Tennessee Coal and Iron Company sold 17,000 tons in one block, though the price is unknown. A few furnaces are out for repairs, but otherwise production continues unchecked by the market conditions.

PHILADELPHIA, July 22.—[Sperial.]—Rogers, Brown & Co. say: Inquiries for foundry irons have been more numerous than usual this week, and orders for small lots have come in very freely. Owing to the uncer-tainty of the labor question, very little has been done in mill grades. Steel is in great demand and none to be had for spot de

N-w York Metal Market. New York, July 22.—Pig iron dull; American, \$13 50@15 00. Copper strong: lake, \$11 65 @11 75. Lend casy; domestic, \$4 05@4 15. Tin closed easier; straits, \$20 55.

SUPPORT WITHDRAWN

AND THE MARKET SETTLES BACK INTO THE RUT OF DULLNESS.

, & Q Withdraws From the Wester Traffic Association, Which Helps Chec the Upward Movement-Vanderbilts th Strong Points.

NEW YORK, July 22.-The stock mar ket to-day was less animated and price moved within narrower limits throughou the day, except in a few specialties which were subjected to stimulus from the inside and the business done dwindled steadily gradually getting back to the dullness which has been so oppressive during the last two months. The power which stimu lated the advance was entirely withdrawn to-day, and this, coupled with the actual notice of withdrawal of the Burlington and Quincy from the West-ern Traffic Association, gave the upward movement a blow from which it could not recover. The sales of the day were princi pally by the traders, who, having taken the long side for a quick turn, were not long in fong side for a quick turn, were not long in getting out when the support was with-drawn from the market. There was no dis-position shown to again short the market, however, and the duliness also brought with it the stagnation in prices which accom-panied it before. Burlington was inclined to weakness, but it declined only a small fraction, and that was afterward partially recovered, while in the Vande-bilts positive As soon as the from workers' scale of wages and the repairs are completed the valleys will be very active in the mill trade, as manufactured stocks are very low and prices have been advanced from \$1 to \$2 per 1001.

The Production of Piz Iron.

The total production in the first half of 182 was 4.792.056 gross tons, against 4.911.763 tons in the second balf of 1891, a decrease of 112.707 tons. Adding the production of the two half years we have the extraordinary.

#### PROVISIONS HIGHER.

But Corn and Wheat Weaken a Little-Onts Slow and Unchanged. CHICAGO, July 22.—The hot weather had

depressing effect on the crowd on the board to-day, and they consequently did very lit-tle business. Prices underwent very little change, but what alteration there was on grain was against prices, wheat closing from the to the lower and corn at a decline of the Provisions maintained their recent bullish tone and ended at an improvement of 10c in in pork and ribs and 2140 in lard.

The opening in wheat was weak at a loss

of 1/6%c, September starting at 78@78%c, but during the succeeding two hours the but during the succeeding two hours the tendency was upward and September advanced to 78½4278½c. At this point rumors of heavy offerings of new wheat began to be circulated upon the floor and a reactionary movement set in which carried September about noon back to 78c. The receipts here were in excess of the estimate, being 241 cars. The northwest report 877 cars there. The clearance of wheat and flour from the principal Atlantic port was reported as equal to 885,000 bushels. Cables were low at the close. Liverpool was ½4 lower. London, 3d to 6d; Paris 70 centimes for flour and 10@20 for wheat, and Berlin declined ½. Antwerp alone was higher with 12½ centimes improvement. The market remained very quiet and closed at 78½278½c for September.

Corn was rather firm early in the session, influenced by the Corn was rather firm early in the session, influenced by the large shipments from store, the firmness in wheat and reports of het winds in Kansas which started shorts to buying. Later better reports were received, the hot winds being denied, and with the break in wheat early buyers became discouraged and sold out, resulting in a decline of about %c.

of about 3/c.
Oats were slow and without much change.
September sold at 80½,600%.
Hog products were strong and higher.
The receipts of live hogs were 6,000 less than The receipts of live hogs were 6,000 less than expected, and prices at the yards 5@100 higher. Shorts were good buyers, and September pork sold from \$11 95 to \$12 07%, and closed at \$12 02%. The demand for cash stuff is still reported to be good. Lard sold at \$7 25@7 27%, and ribs ranged at \$7 47%@7 72%, each closing at the highest figure. Estimated receipts for to-morrow: Wheat, 340 cars; corn, 275 cars; oats, 210 cars; hogs, 12,000 head. Cash quotations were as follows:

Cash quotations were as follows:
Flour quiet and unchanged. # DULLNESS CONTINUES

But Firmness Still Prevails and Encouraging Signs Develop.

NO MATERIAL CHANGE IN PRICES.

Street Railway Bonds Most Prominent in the Exchange Yesterday.

GOSSIP, SALES AND FINAL QUOTATION

FRIDAY, July 22. Trading at the first call of the local sto and bond list to-day was fair, giving promi of a comparatively active day, despite t torridity of the weather, but the promi was not fulfilled, as the subsequent ca were very quiet and featureless affai The business of the day covered Wheeli Gas, Philadelphia Company, Pittsburg a Pirmingham Traction 5s, Pleasant Vallconsolidated 5s, Duquesne Traction 5s, Westinghouse Electric scrip and Westinghouse Airbrake. Wheeling Gas sold down to 18½, closing at 18½ asked; Philadelphia Company sold at 19 and closing at 18½ @19; Pittsburg and Birmingham 5s sold at 101½, Pleasant Valley 5s at 101 and interest, Duquesne 5s at 100%, Airbrake at 125 and Westinghouse Electric scrip at 87. The feeling generally was strong, but changes were few and without significance. Airbrake closed nominally at 123@125, with 125 bid for a small lot. Luster fluctuated somewhat without sales, closing at 11@14; U. S. Glass common recovered to 64½ bid; the street rallway shares were steady to strong, the new electric stocks were in demand, Bridgewater Gas was quoted at 25 bid, Pipeage was steady, and Pleasant Valley Bailway closed a little higher at 25½@26½. Everything else was unchanged and more or less neglected. consolidated 5s, Duquesne Traction 5 There was an excellent demand for Phila-

There was an excellent demand for Philadelphia Company, Central Traction and a few other leading items, but all orders seemed to be limited to prices that holders did not care to accept. Talking on this point and the reports of duliness with a prominent broker he displayed an order book well filled with buying and selling orders in various stocks and bonds, saying he could not execute the buying orders owing to the firmness of holders, nor the selling orders because he was limited to prices a little above the market. Another exhibited a bundle of Junction Rallroad 63 and said there was considerable doing in Junction stocks and bonds and kindred securities. The demand for street railway bonds outside the Exchange was also quite marked, and inquiry for school bonds was noted from investors of small means. The demand for bonds, together with a little fresh nosing around for stocks in a small way, indicated a revival of interest on the part of the public, and predictions of an early season of comparative activity were made by various close observers.

The story about the Central Passenger Railway Company's intention to construct an electric line to East Liberty and eventually to Wilkinsburg, to be operated by the Central Traction Company, which was printed in The Disparch this morning, attracted considerable discussion on the street today, the majority believing the scheme to be inspired by the Pittsburg-Duquesne combine and only another step in the direction of consolidating all the street railway lines of the two cities under one management. A director of the Central Passenger Railway Company said to-day that the company had resolved to do just what was outlined in The Disparch, and that work would be commenced as soon as the necessary ordinances were secured.

More Electric Combine Talk.

More Electric Combine Talk. The Boston papers are again talking abou the Electric Combine absorbing outside companies. A recent issue of the Globe con-

tains the following: "There are no indica-tions of any immediate combining of the General Electric and Westinghouse companies, all reports to the contrary notwithstanding. The Westinghouse Company is evidently doing a large business, and has placed large contracts, but at prices which competitive contracts, but at prices which competitive companies figure must show a considerable loss. This gross business, however, is making the Westinghouse people very independent, and probably removes the chances of combination farther away than ever. The report that the Fort Wayne is to be taken in by the General Electric Company is denied. It has been thought that the company would be absorbed on the basis of a 4 per cent guarantee, the same as it nave to day, but this is antee, the same as it pays to day, but this is not likely until relations between the not likely until relations between the Genpanies are closer than is the case now."

The Herald says: "The bond circular of Messrs. Lee, Higginson & Co. says that of the \$40,000,000 General Electric Company stock \$30,007,200 is issued. Of \$10,000,000 preferred \$4,156,300 is issued. The expected denial that this company will absorb the Westinghouse Company is on time. But in the same breath it is stated that the General Electric Company will not guarantee 4 per cent on Fort Wayne stock 'until the relations between the General Electric and Westinghouse Companies are closer than is the case now.' This can be variously understood, but presumably means that Fort Wayne will be used as a club to compel the Westinghouse Company to surrender, or, at least, to abandon its sharp competition. There may be no immediate prospect of consolidation, but the chances of consolidation in due time are considered better than ever." are considered better than ever.'

Some of Mr. Keene's Bull Talk. Mr. Keene, the great Wall street leader, has been talking in an optimistic strain lately, and his views have been scattered broadcast. Following is a part of his latest utterance: "I think the outlook for railway tonnage is very encouraging. Our crops are as good as they have been in any year in the past ten-if we except last year, when they were abnormal. The wheat and oats crops are both full and of good grading crops are both full and of good grading quality. The corn crop, upon which great stress is laid by persons who hold pessimistic views, will, I think, with reasonably favorable weather, make a yield of not less than 1,600,000,000 of bushels. The excess of old corn in the country over that which is usually held by the farmers from one crop to the other is not less, according to the best information obtainable by me, than 250,000,000 of bushels. The hay crop is the largest ever harvested in the United States. The excessive rainfall has given to the farmers such abundant pasturage that the saving in grain usually fed to stock in ordinary seasons will go far toward compensating for any deficiency in this year's corn yield. Ahead of the railroads there is also the great passenger and general traffic which the World's Fair will stimulate, the net results of which will be large but difficult now to estimate."

Financial Notes.

Financial Notes. At nuction in New York yesterday 25 shares Standard Oil Trust sold at 161. Memberships in the Boston Stock Ex-change are quoted at \$17,500 bid, \$19,500 asked, and are about the strongest thing in the market.

There was a little Pittsburg buying of

can handle.

A bid of 1 per cent has been made in Philadelphia for whatever dividend on a block of Reading stock may be declared within a for a carpet store.

W. C. Lyne has bought an acreage tract

and a favorable bank statement is looked for Saturday. Were it not that Congress still has a few days left for mischief, and that threats of the passage of the anti-option law have not lost their force, all the im-mediate factors could be termed decidedly bullish.

Off 'change H. M. Long sold \$2,000 Pleasan Valley Consolidated 5s at 101 and interest. Sales and Closing Prices. Transactions on call at the Exchange were as follows:

## POINTS ON REALTY.

Several Good-Sized Sales Concluded, In volving East End and Allegheny Properties-Investors Still Reaching Out Into the County-Building and Other Notes. Mr. J. C. Dick is stirring things up all along the real estate line. He returned home from Atlantic City this morning, and getting down to work at once, closed several mportant deals during the day. One of these involves two properties, 459 and 461, corner Fifth avenue and Vine street, which he bought at figures close to \$20,000. He proposes to thoroughly remodel, if not rebuild, the existing structures. In either event they will be made equal in convenience and appearance to the bost business houses in that part of the city.

The same gentleman has, within a week or two, put the finishing touches to several or two, put the finishing touches to several other transactions. He bought 80x84 feet of ground on Haiffield street, Lawrenceville, with three brick houses, for \$8,500. He also acquired two properties on Resnes street, near the park, Allegheny, for \$10,000. He sold 90 feet on Boquet street and 175 on Wilmot, the former at \$90 and the latter at \$40 a foot front. Another sale by the same indefatigable operator was that of a block of 40 lots in his Hazelwood plan. Houses will be erected on the majority of these lots at once.

Sales of county property show no diminution. The expansion of the city is pushing the suburbs farther out, and rapid transit is the suburbs farther out, and rapid transit is making outlying districts available for homes which a few years ago were used only for agricultural purposes. Among recent sales disclosed by the court records are the following: C. F. McKenna to A. J. Schulte, three acres and a fraction with improvements in Upper St. Clair township, for \$13,200. Ferdinand Ritchen to Levi Risher, two acres, improved, in Lincoln township, for \$2,500. George Kramer to Robert Nili, 48x 110 feet, with a good house, in Braddock township, for \$3,500. It is said an offer of almost \$20,000 has been made for the farm formerly owned by W. H. Devore, in Sterrett township, back of Wilkinsburg.

Five permits—nearly all good ones—were issued to-day for 16 buildings and alteraissued to-day for 16 buildings and alterations, the estimated cost aggregating \$25,000.
Those of most importance are: Booth &
Flinn, 12 frame buildings on Addison street,
Thirteenth ward, \$14,400; Misses Beeler,
brick dwelling on Wilkins avenue, Twentysecond ward, \$5,000: Henna Brothers, brick
store and dwelling on Liberty avenue, Sixteenth ward, \$4,400. Wm. Bote, frame dwelling on Duff street, Thirteenth ward, \$1,155. There is a good opening in Wilkinsburg

near Sewickley, which he will sell or subhear Sewickley, which he will sell or sub-divide. Property thereabouts is looking up. Mr. Addison Hoffman, of Wilkinsburg, will next week leave for California, where he will purchase land and permanently locate. The Knoxville Land Improvement Com-pany is dickering for acreage adjoining that borough. Growth is so rapid that a fresh supply of building lots has become neces-

supply of building lots has become necessary.

New business centers are springing up on nearly all the thoroughfares leading to the East End. High rents are driving small traders out of the downtown quarter.

The Squirrel Hill district possesses all the requisites for a boom except rapid transit, and this will be supplied before many months come and go. Large investors are buying in this locality.

Baxter, Thompson & Co. will soon be in a position to report several large sales.

C. H. Love says there is more inquiry for real estate than usual in midsummer. Black & Baird sold to James Nesbit to

J. Walter Hay lots Nos. 14, 18 and 19 in Kenilworth place plan, on Herron Hill, for \$1,700.

John F. Sweeny sold to James Nesbit, the Allegheny contractor, for J. W. Hay, a block of lots on Clarissa street, Kenilworth place, each having a frontage of 23 feet on Clarissa street, and extending back 100 feet to n 20-foot alley. Consideration private. John K. Ewing & Co. sold to David Grant for F. G. Rohrkaste a lot 20x100 on Grant avenue, being No. 87 in the Rohrkaste plan, Tenth ward, Allegheny, for \$250, on monthly payments. payments.

George Schmidt sold another lot on Lookout avenue, 20x140 feet to an alley, and being No. 150 in his Eureka place plan, Oakdale, for \$550, to Victor E. Kelley on easy
monthly payments.

#### IN COMMERCIAL LINES.

Prices of Staples Are Practically Unchanged and the Markets Generally Featureless-Raw Sugar Higher and Refined Firmer in the East-Canned Goods Booming. FRIDAY, July 22. Trade in commercial circles was com

paratively quiet to-day, quite an unusual thing for Friday, as operations on that day are, as a rule, heavier than on any other day of the week on account of the preparations of city and nearby retailers to meet the increased demand of Saturday. No one complained of positive duliness, however, excepting the grain and feed commission men, who continued to report a languishing market. Prices of staples were without material change and the markets generally were teatureless.

Grain, Flour and Feed. Wheat, corn and oats continue dull and scarce and strong, with higher prices prob-able. No sales occurred on call at the Grain and Flour Exchange to-day. Following were the bids and offers:

FIVE DAYS. TEN DAYS. No. 2 yellow shelled corn, No. 2 white oats. No. 2 white oats. Winter wheat bran JULY. No 2 yellow ear corn..... Receipts bulletined: Via the P. & L. Groceries. Raw sugars were reported higher in the East to-day and refined firmer. The sugar narket is vory active and will continue t be animated until the canning and preserv ing season is over. Coffee is stendy, rice ing season is over. Conee is steady, rice firm and molasses and syrups dull and nominal. There are very few fish of any kind on the market and dealers are not quoting. A few mackerel, 2s and 3s, are offering, but there is no demand. Canned goods continue active and buoyant. The latest intelligence from primary points is as follows:

New California prunes 60s to 90s in bags realized as high as 8½c f. o. b. on the coast. That price was said to have subsequently been bid.

That price was said to have subsequently been bid.

Purchases have been made in the New York market of choice new crop evaporated apricots, Royal variety, at 13c f. o. b. on the coast. For Moorparks 14c is asked.

The dried lima bean market continues strong. Offers of \$1 \$5 per busnel on certain lots were rejused, and \$2 upward is asked.

One Maine factory has thus far packed about 600 cases late run sardines, and, quality being attractive, the goods found sale at \$3 65 in New York.

Owing to the high prices asked for California prunes, buyers in several quarters are inquiring about French prune prospects with more than ordinary anxiety.

Some few small parcels of gallon canned pie peaches, Eastern and California goods, have been picked up at \$3 6003 10 from second hands, but anything under \$3 25 is strictly exceptional. second hands, but anything under \$3.25 is strictly exceptional.

About five carloads of 1891 crop California bag raisins have been sold in the East the past lew days at 4c for 2 crown, 41/264/2 for 3-crown and 5c for 4-crown quality. Apparently there is some awakening in raisins.

Three-pound standard Southern canned peaches that were sold at \$1.85@1.90 are now quoted at \$1.35@1.20, and 3-b seconds are up to \$1.60@1.70, according to brand. Two-pound seconds were quoted at \$1.35 bid, \$1.50 asked.
