The Sixth National Convention of the

street, is now an affair of the past. The

final adjournment of the delegates occurred

last evening at 5:30 o'clock, and the visitors

made preparations to return to their homes.

During the morning session it was thought exceedingly doubtful that the busi-ness could be completed before this morn-

ing, but the delegates, many of whom were

anxious to return home, insisted that only

important matters be considered and the

balance be thrown aside. Accordingly the

men started in with a rush and by 11:30

o'clock they were able to adjourn. Most of

Mr. Dunnavant says in spite of the labor troubles the road is breaking all its records. The summer excursion business was never so heavy. Yesterday morning the Pennsylyania road had 600 people on its special excursion to Atlantic City.

Resalind from Nellie B and Raven was a good third. Time, 2:1634.

When Allan Lowe Loomed Up. result of the heat was quite a surprise, as Alian Lowe loomed up and won it handily. Mary Centlivre led from the wire into the stretch with Raven a close second and Allan Lowe third. When fairly in the stretch Allan Lowe set sail for the leaders with a vengeance, and soon collared Raven, who was tired and beaten about 150 yards from home. Allan Lowe passed the other mare and won a good heat with a little to spare. Linden and Nellie B. also came with a rush near the wire and secured second and third place respectively. Time, 2:1634.

When the third heat started Allan Lowe sold even against the field, and there was

some heavy selling at that. Allan got a good send off and led from start to finish. Linden made a fight with him. Allan Lowe led into the stretch by a length and a half. Coming down the stretch Linden made his effort but failed to eatch the leader, who won by a half length. Time, 2:1814.

Allan Lowe was still a favorite over the field when the fourth heat started. The re-

sult of the heat was a surprise. The favorite led right to the lower turn with Linden a good second and Nellie B a close third. Just before entering the homestretch Allan Lowe made a bad break and described heat Linden sking the lead with dropped back, Linden taking the lead with Nellie B at his wheel. The pair made a good fight home. The mare thoroughly outpaced the stallion and won an exciting heat by a neck. Time, 2:1814. H B P was dis-Nellie B Captured the Shekels.

When the heat started the field sold for \$50 and Nellie B \$25. Nellie B got well away and she was never headed. Linder made the fight with her and kept her com pany right into the stretch where they lought it out. Linden had the mare beaten near the wire but he quit like a cur and the mare won by a neck. O B and Raven were

distanced. Time, 2:20.

Linden, not having won a heat in five was sent to the barn, and did not start in the sixth heat. The pools sold; "Nellie B \$25, and the field \$20. Rains threatened once or twice, but it blew past and led at the quarter, where Rosalind Wilkes was a close second. The other two were lapped for a close third. Splan and Turner tried hard to catch the leaders, but they couldn't make it. Rosalind Wilkes made a wretched break on the lower turn and dropped to the rear. Diamond and Mambrino Maid were almost lapped on entering the homestretch. They made a good fight, but the Maid made a little break near the wire. Aline came with a rush near the finish, and in the last few strides nipped victory from the others. The Maid soon recovered her break and best Diamond for second place by a head, Aline being first by that distance. Time, 2:2034. Quite a Sensational Feature.

Aline won the third heat after quite a tussle with Diamond. The latter went off tussle with Diamond. The latter went off in the lead and held it until the three-quarters, where Aline went to the front. He won a poor heat handily by 2:23/5.

The fourth heat was a sensational one. The judges had some suspicion about "Uncle" John Turner, who was driving Rosalind Wilkes, and C. H. Brewster, who was driving Diamond. Both drivers were ordered down, and J. C. Collius went up behind Rosalind Wilkes and W. S. Evans up behind Diamond. The change was up behind Diamond. The change was cheered. The pools were selling at \$50 for Aline and \$10 for the field. Rosalind Wilkes went to the front at the start and was never headed. Mambrino Maid kept in second place until the homestretch was reached, when Aline passed her, but Aline could not get ahead of Rosalind, who won

the best heat so far in the race by a half length. Time, 2:18%. The victory was loudly cheered. fifth heat started. Rosalind Wilkes took the lead at the start and was never headed.

She won easily, Aline breaking in the homestretch. Time, 2:20.

The sixth heat was productive of another surprise. Everybody thought that Rosalind Wilkes would win it, but she didn't. Aline trotted her to a standstill in the homestretch and won handily by a length.

In the backstretch Aline broke and dropped back nearly four lengths, but she came

with the exception of Paul Radford eight of them made a circuit of the bases. A rumble of thunder hastened the local team's effort after the second inning, and they did not try to score again until after five innings were played. Um pire Lynch took a hand in the proceedings during the third inning when Dannie Richardson allowed himself to be put out to expedite matters, and in threatening tones commanded such nonsense to

cease immediately. Couldn't Even Furnish Decent Sport. This led to a remonstrance from the Senators, and Beckley on first added to the din by declaring that the home team was not furnishing good enough sport for their patrons.

Sixteen hundred spectators, however, applauded Dannie when the fifth inning ended with Washington still eight runs in front, and the threatened thunder and rainstorm did not materialize after all.

No more runs were made until the eighth inning, when the Senators increased their lead by two, through four clean hits in succession by Radford, Duryea, Milligan and Cooney, the last named a recent acquisition from Anson's colts, making a good impression at short field. For eight innings Pittsburg had been unable to get a man around the bases and it looked like a shut-out up to the final inning.

Scratched to Prevent a Whitewash, Richardson's base on balls, Radford's double and another single by Duryea sent two more runs upon the Senatorial score board, and Pittsburg mustered for a batting rally to escape a whitewash. Pitcher Killen had supplanted Tommy Dowd at left field, and Farrell gave him a chance to hunt leather while the batter scampered to third base. He did not remain there, long, how-ever, for Kelly followed the example set ever, for Kelly followed the example set him and drove a sky-scraper over Killen's head for another three-bagger. This might have been stretched into a home run, but Kelly was kept on the bag, and Captain Burns essayed to bring him home. The strikes were called on him, however, and as Miller and Donovan furnished easy outs, one earned run was all that the visitors could gather in. the proper medicines, and in every detail each case is worked out until a cure is effected.

There is not a city or town within the radius of 100 miles in which Drs. Copeland, Hall and Byers have not a number of grateful patients who gladly proclaim the good results of their treatment. Every patient whose testimony appears to-day was treated exclusively by their system of home treatment. The majority of these patients never received a personal examination, their cases being diagnosed from the answers to the symptom blank. Among this number may be mentioned Mr. John A. Wilson, of Percy, Fayette county, Pa., whose testimony appears below:

A COMPLICATED CASE,

But It Quickly Yields to Intelligent Treatment-Many Doctors Handled It, but Drs. Copeland, Hall and Byers Were the Only Ones Who Brought Any Relief to the Sufferer.

Mr. Wilson is aged 69 years, a weaver of carpets by occupation, and resides at Percy, Fayette county, Pa., although he receives his mail at Mt. Braddock, "I have been troubled over two years with my head and stomach which resulted from neglected solds," said Mr. Wilson. "I had violent headaches over forehead and through temples, my nostrils were clogged up with tough mucous which dropped into my throat, causing a continuous effort to raise by hawk-ing and spitting. When I would lie down at night this mucous would fill my throat so completely I would almost suffocate for breath. I also had buzzing and roaring

noises in my ears.

"Finally a cough set in which racked me greatly and I had pains shooting through my lungs to shoulder-blade. As my stomach inter on became affected, and I began to lose

in strength and flesh, I became alarmed concerning my condition. I had no relish for anything and eating caused considerable distress. Every meal was followed by nausen, bloating up and rifting of gas, dizziness, nalpitation and fluttering of heart, cold extremities; hot and cold flashes, etc. I lost 36 pounds during the last year.

"As I doctored continually for two years without receiving any benefit I thought there was no help for me. My health got so bad I could not do my work and I felt there was no place for me but in the grave. At last I happened to read what Drs. Copeland, Hall and Byers were doing for cases similar to mine and I determined to write to them. I have only been taking their medicihe a little over one month, started my second month on July 2, and am glad to say that I have improved in health and weight wonderfully. My weight has increased from 160 pounds to 173 pounds and I feel better than I have for two years. My sleep is sound, as I am not troubled with the dropping of mucous and the racking cough has disappeared.

"I feel like an entirely different person. If anyone doubts the truthrulness of this statement they can call or write and I will verify the same."

BRONCHIAL ASTHMA.

Mrs. John Shore, No. 774 Presqueisle St., Youngstown, O., Suffered for Years With Bronchial Asthma, Which Was Fast Developing Into Consumption, Asthma is rarely a disease of itself. It

arises from numerous causes—diseases of the kidneys, stomach, heart, nerves, lungs, blood and nose. If these several causes were well understood and treated accord-ingly, there would be fewer trascible asthmatics. Catarrh of the nose, moist, dry, atrophic, hypertrophic, is now regarded the most frequent cause of asthma-reflected asthma, it is called. The cause, of course, indicates the treatment—cure the catarrh, correct the deformity in the nostrils, if there be any, and the asthma will disappear. "I take pleasure," writes Mrs. Shore's husband, "in informing you that my wife has improved wonderfully since she began your treatment. She has been able to eat her meuls regularly, her cough has improved, and she has gained about ten pounds in weight. She is able to sleep all night now, without coughing, where before she had to be propped up to get her breath. Her general health is greatly improved, and she is able to take a walk every day. My head is clear, memory good, and the dizziness all gone. My whole system is again in good health. Am breathing once more through my nostrils, which I could not do last fail, and realize that of all God's blessings there is none like good health. I thank you for the interest manifested in my case, and have recommended a gentleman, whose case is similar to mine, to try a course of your treatment."

A SENSATIONAL DAY.

The Judges at Homewood

Exciting Struggle. A SURPRISE IN THE PREE-FOR-ALL TROT

Is was quite a sensational day at Homewood race track yesterday. There were no records broken or very fast time made, but the hot favorites, those "lead-pipe" sure things, were knocked clean out of sight. The talent was again left to mourn, as not a favorite won a race.

And what was claimed to be a "job" was stopped, and two drivers taken down and others put in their places. This change caused quite a sensation because on wof the drivers ordered down was no less a personage than "Uncle" John E. Turner. This happened in the free-for-all trot. It would probably be unsafe to say that either of the dent the crowd thought they had. Resalind Wilkes was backed heavily by the public to win the race. Many thousands of dollars were invested on the race. The first three hears were trotted in remarkably slow time, and when the time of the third hear was anunced as 2:2414, and Rosalind Wilkes only

third at that, there was a general howl. Brewster Was Aiso Called Down. The trotting of Diamond was also unsatisfactory to the judges, so they decided on a change. Consequently John C. Collins was put up behind Rosalina Wilkes and W. S Evans up behind Diamond, C. H. rewster being ordered down.
Turner argued strongly against the change.

He claimed the mare had not been settled to her trotting and that he expected to win

the next three heats. He assured the judges that he would try for the next heat and if the mare's performance wasn't satisfactory they could declare the heat off. This had no effect on the judges and Collins landed Rosalina Wilkes a winner in the tourth and fifth heats, but the mare was too tired to stay the sixth heath out. got second money and Collins was given \$50 out of the winnings for driving her. Many people argued that Turner would certainty have done as well with the le thought otherwise. As matters have won the first three heats, but there are some fanny things in the trotting business, and after the second heat Splan informed he judges that he intended to lay Mambrice Maid up for the third heat. Starter Martin lerget to announce this to the pub-

lie, and some money was dropped on the Maid as a result. Aline, the winner of the tree-for-all, is by Almont Boy, and was an outsider in the pools. An Easy One for Bert Sheldon, Jr. The first race was somewhat easy for Bert Sheldon, Jr. He won in three traight heats. He was well backed, but Martin K was the hot favorite for the race. The win-mer is by Warwick Boy, and ton the race

by steady and game treating.

There was some good speculation on the oducers' stand-for 2:24 pacers. Mary aver was the "hot shot" for the race, Linden as second choice. The Pittsg borse, Raven, was also well backed, at the witner showed up in Nellie B, ster six heats had been paced. and everything was pleasant. The 2:21 Class Trotters. Black clouds were beginning to hover round when Starter Martin sounded the bell for the first race, the 2:21 trot. But the threatening clouds had no dampening effect on the spectators at the nuction pools. Selling was extremely brisk, and every horse in the race was well backed. Martin K had most friends, and was bought at a lively rate for \$30; Bert Sheldon, Jr., \$25; Mollie S. Lightfoot and Wauseon, each \$20; Pedro L, \$15. The positions drawn were as follows: Martin K the pole, Bert Shel-don second, Mollie S. Lightfoot third, Wauseon fourth, and Pedro L fifth. Mollie Lightfoot was about three lengths behind the other four when the word was

given. Martin K went up just after starting, and Bert Sheldon and Pedro L went to the front neck and neck. Going down hind. At this early stage Mollie S. Lightfoot and Wauseon were out of it. Bert Sheldon, Jr., and Pedro L made a fine to the wire and was beaten by a half length.
Mollie S. Lightfoot was distanced and
Martin K was a bed third. Time, 2:1814.
Bert Sheldon was slightly a favorite when
