THE TEST OF PROFESSIONS. The immediate effect of the dastardly assault upon Mr. Frick, Saturday afternoon, has been to set aside all theoretic discussion of the labor troubles in favor of the one common and determined demand for obedience to and enforcement of the laws in every particular.

It is but a few days since that the labor leaders, Johann Most, sought to publicly incite violation of the laws in this city. At various times during the continuance of the present labor troubles in this district the Anarchists and Socialists have flooded the city and adjacent towns, even the camp of the military itself, with violent incendiary circulars.

It is protected by that clause of the first amendment of the Constitution of the United States, which prohibits the passage by Congress of laws abridging the freedom of speech? Perhaps; but it certainly is within reach of the Seventh Section of the Constitution of Pennsylvania which says, "and every citizen may freely speak, write and print on any subject, being responsible for the abuse of that liberty."

It is therefore within the province of the Legislature of Pennsylvania to define what that "abuse" shall consist of and how it shall be punished.

The coward who attempted to murder Mr. Frick is an admitted disciple of the doctrine of annihilation of any person obnoxious to him or his fellows. He has openly preached this creed. He has for years called for the destruction of life and property, and for the grip of the law and at last he has himself put the dastardly theory into cowardly practice.

It is high time such men and such doctrines should be driven from American soil. The knife of the Mafia and the bullet or bomb of the Nihilist must not again find judgment in American victims. They must be crushed in incipientcy. To permit them to bud as theories is to permit them to flower as assassinations.

There is a bank in our law records, upon which experience has written, "This way lies anarchy!"

THE ADVANCE OF THE BICYCLE WORK. The advance of the bicycle was illustrated in Washington recently by a parade of uniformed policemen mounted on those wheels, which swept through streets and wheeled around corners at a rate of speed unknown to the average municipal guardian.

Attempts have been made recently to introduce the bicycle as a military mount, and the reports have taken a decidedly favorable view of its success in that line.

THE MOST NOTABLE EXPERIMENT has been that of using the bicycle in the bearing of dispatches and the run for that purpose from Chicago to New York was considered a demonstration of its high utility.

But for police purposes the bicycle has a destined utility. Most city streets are practicable for bicycles and the well-paved ones allow as good or better time to be made as by a mounted officer.

THE COST OF PRODUCTION. That old question of labor cost in a finished product is taken up by the New York Times with a repetition of the same errors that committed by the World the other day, referred to in this column.

It is not so very long since these same Tories were bounding Parnell and trying to drive him from public life, if not into prison, by forged letters under the cry of "Parnellism and crime."

political raison d'etre on maintaining the memory of the leader, were to support Salisbury in preference to Gladstone.

HOW TO REACH THEM. It has been customary to take the Anarchists and Nihilists in this country as a subject of levity, to call them "blather-skites," and to leave them in peace to hatch such plots against the laws as they may see fit.

It is but a few days since that the labor leaders, Johann Most, sought to publicly incite violation of the laws in this city.

THE PRESS OF ONE OPINION. A Menace to Public Security. It is with a feeling of great relief that the public learns that the man who yesterday attempted to assassinate Mr. H. C. Frick is not a Homestead striker or even an American laborer.
