## PURE WATER WANTED.

Allegheny Residents Think it Should Be Included in the

PROPOSED CITY IMPROVEMENTS.

Letters approving an increase of Bouded Indebtedness to

MAKE NORTH SIDE STREETS PASSABLE

Prominent Alleghenians are sending in letters of hearty approval of Mayor Kennedy's plan for the improvement of the city's streets by increasing the bonded indebtedness of Allegheny, and Dr. W. S. Huselton, a large property owner, suggests that pure water be obtained at the same

Last Saturday Mayor Kennedy sent out a large number of circular letters to the residents and property owners of Allegheny detailing his plan for the improvements, and yesterday a large number of answers, all of them commendatory, were brought in by the morning mail delivery. In speak-ing of the promptness with which the circulars have been attended to, the Mayor said it showed, to his mind, that the plan would prove acceptable to the property owners, and the result would probably be he improvement of the streets of Allegheny.

The Mayor Expects Some Opposition. "The deplorable condition of our streets has long been prominently in my mind," continued the Mayor, "and now that I hav an idea that may meet with the approval of the citizens of Allegheny, I shall use the most strenuous endeavor to push the matter to completion. There undoubtedly will be various people coming forward with objections, but I think they will be in such a small minority that we will have comparatively little doubt in obtaining better streets. I apprehend that the principal difficulty among these objectionists will be in the matter of letting the contracts for the work, the people fearing there will be some great steal, but I desire to say that no opportunity will be given anyone to do anything not in the strictest accord with legismate dealings. The money will be intrusted to gentlemen whose names are above reproach to completion. There undoubtedly will be gentlemen whose names are above reproach or question, and as a result the money will all be handled according to the taxpayers' best wishes and desires. No one will be able to say, 'History has repeated itself,' for the contracts will be legitimately let and there will be no opportunity for their.

A Committee of Business Meu, One of the property owners who answered the circular suggested that a committee of business men who have property in Alle-gheny, be appointed to handle the moneys and see that everything is carried out to the and see that everything is carried out to the best interests of the taxpayers. This shows that the matter I have just spoken of is the first to agitate the minds of the people. Others have written me, and while they heartily approve the plan are desirous of impressing upon my mind that their streets should be repaired before any others are touched, but altogether the taxpayers are consistent, impartial and are in hearty sympathy with the movement.

"There is no question of the needs of the city and the important question of increasing the values of property by improving the thoroughfares is that which occurs first of all to the taxpayers. There is no doubt

of all to the taxpayers. There is no doub but that real estate will have a great risk with good streets, for it will not only bene fit the residents, but will make Allegheny one of the most picturesque cities in the country.'

Good Streets Increase Values

Among the communications was one from James S. Atterbury, who said the present condition of streets unquestionably has a tendency to depreciate property values, and in consideration of the fact that this feature will be eliminated by the improvement of the streets, he is most heartily in favor the issuance of bonds and the plan for the improvement.

Nicholas Sneitzer approves the plan, and declares it will prove a large saving in the long run. Mr. Sneitzer alludes to posterity and says that such a work as is suggested by the Mayor would be a most desirable heritage to the sons and daughters of Alle-

ghenians.
The suggestion of Dr. Huselton to furnish pure water at the same time the streets are improved is a matter that has long been agitating Alleghenians, and many plans have been promulgated, but on account of the unfeasibility or impracticability have been dropped. Mayor Kennedy did not wish to discuss the matter in its present stage, but said he believed the idea to be a good one. good one.

### RETALIATION UNWELCOME.

Canadians Somewhat Excited Over the Action of This Government-They Think at Least 30 Days' Notice Ought to Have

TORONTO, ONT., July 25.-There is good deal of feeling evinced here over the action of the United States with regard to canal tolls. Some persons run away with the idea that the tolls to be imposed by President Harrison at the Sault Ste. Marie Canal will be put at the maximum where the retaliatory measure calls for it, namely, \$2 per ton for freight and \$5 per head for passengers. Calmer thinking men, how-ever, believe that the President will not do this. They are of the opinion that as there is no minimum toll set he will be guided by the Canadian rate at the Welland Canal and

the Canadian rate at the Welland Canal and will put on a tax of 20 cents per ton.

Quite a number of members of the Canadian Marine Association applaud the Dominion Government for the ground they have taken, and hope that it will be stuck to all through. It means only a year or so of trouble for Canadian craft, for it is expected that the Canadian canal at Sault Ste. Marie will be ready in 1894.

It seems to be the concensus of opinion that 30 days' notice should have been given by the United States authorities at least.

The Empire, the chief Government organ, in an article on the retaliation bill, says: in an article on the retaliation bill, says:

"The action now taken by Congress once more emphasizes to Canadians the necessity of having a canal on our own territory at Sault Ste. Marie and that it should be pushed to completion, as the Government is doing, with all due speed. When that is accomplished we will have complete naviration through our own country and be independent of anything our neighbors may do. Until that time, though always anxious to live on good terms, and willing to make reasonable concessions to that end, Canada is not to be diverted from manfully looking after her own interests by threats of retaliation."

The Emmer thinks the Dominion Goven

The Empire thinks the Dominion Gov-ernment has taken a fair and dignified stand in the matter from the beginning, but all discussion and negotiations have been useless. The American Government seemed determined to prevent Canada from en couraging its own interests in any way.
