THE PEOPLE'S PARTY

To Be Organized in Allegheny County To-Day-The Leaders Very Sanguine of Making a Good Showing at the Novem ber Election-A Broad Platform

The People's party will organize the campaign in Allegheny county to-day. A preiminary meeting was held last night by some of the leaders at the Home Hotel, at which C. A. Burrows, Thomas J. Roney and other prominent members of the party were present. The situation was thoroughly discussed and a plan of campaign formulated to be presented to the county convention, which will be held this afternoon in Curry University Hall, at Sixth street and Penn avenue.

It is the purpose of those who have is sued the call for the convention to put in the field a People's party ticket, which will polled by a third party. The People's party is a collection of nearly all the dissatisfied elements. They expect to absorb the Alliance, Bellamy's Nationalist party nd all other isolated parties throughout the country.

"We expect to carry several States," said one of the most enthusiastic members of the committee. "By indorsing free silver we shall get all the free silver Democrats and free silver Republicans. We are eminently a labor party. We do not exactly agree with the Socialists, but we do hold this true that wealth belongs to him who creates it, and every dollar taken without an equiva-leat is robbery. We believe the Government should own the railroads, telegraph lines, etc. We believe in a graduated inme tax and the establishing of savings banks by the Government."

A Cool but Vain Attempt at Suicide.

Charlotte Deculso coolly threw herself into the Allegheny river at 10 o'clock yes- and they are waiting patiently for the order terday morning in an unaccounable endeavor to take her own life. She was rescued and taken to the Central police sta tion, but refused to tell why she wished to commit the rush net.

The mother was anxious to tak advantage of every chance to save her child, and said she wished to have the baby taken the records which are now held by the Adjutant of the Tenth Regiment and also filed at Harrisburg. "Another phase of this question which

has not attracted attention is the fact that the law makes all those who took any part whatever in the punishment of Iams party defendants equally with the others. An unlawful order from a superior officer is no

excuse for an unlawful act. We are not after these parties, however. It is the officers in charge who ought to have known the laws well enough to know how far they could go without overstepping the bounds of their authority. In support of the stand we have taken we have received letters from some of the most eminent lawyers of Washington City as well as from the Judge Advocate General of the United States Army, who gave his opinion that the hang-ing by the thumbs was an atrocity and un-

supported by military laws. A Chance to Dodge Creditors.

"To illustrate how loosely the military code is drawn up I will refer you to the clause in reference to the serving of legal processes upon members of the National Guard. It says in substance that no legal process can be served upon a member of the ilitia while enlisted in service or until 30

days have elapsed after his discharge. Why, I the clause was taken literally as it reads it the field a People's party ticket, which will include all county officers, candidates for Assembly, State Senate and Congress. The leaders say they purpose to make a vigor-ous canvas and to poll the largest vote ever polled by a third party. The People's administering of punishment expressly states that the law of the United States army shall be followed as closely as prac-ticable. It would naturally be supposed that a man's being a citizen and not a regu-lar soldier would be an argument for the ameliorating of the punishment rather than increasing it. We do not care to give out
