#### A MIGHTY MOVEMENT.

Eighty Thousand Crushed Colliers Combat a Coal Combination.

TWELVE THOUSAND TRAIN HANDS

Express a Willingness to Add Their Forces to the Miners.

THE CAUSES OF DISSATISFACTION

(SPECIAL TELEGRAM TO THE DISPATCH.) SHAMORIN, July 30.-The movement among the colliery operatives to organize a union similar in general features to the old, disrupted, but once very powerful, Miners and Laborers' Benevolent Association, occasions much attention and discussion throughout the entire anthracite coal mining country. When it is known that between 70,000 and 80,000 mine workers are interested in the movement, it will be readily seen that the undertaking is a mighty one. Then, too, besides the great srmy of colliers directly enlisted in the labor union enterprise, it is understood that 12,000 train hands employed upon the coal roads have expressed a willingness to act in

concert with the miners.

A bitter antipathy has been engendered against the Philadelphia and Reading Railroad Company, and this animosity increases as the days lengthen. The corporation has always been regarded as a soulless, grind-ing monopoly, and, now that the corpora-tion has absorbed every line of railroad traversing the black diamond fields (with the exception of those roads operated by well as virtually controlling all collieries, the Philadelphia and Reading Company wields a power that is at once colossal and oppressive. More than three-fourths of the al tonnage of the Schuvlkill, Lehigh, Wyoming and Lackawanna regions is under the palm of the hated corporation.

Gradual Reduction of Wages,

Ever since the consummation of the deal that placed the Lehigh Valley, the Delaware, Lackawanna and Western and the New Jersey Central Railroads under the management of the Philadelphia and Reading Company has the policy of the reduction of wages been pursued in all depart-ments, a feature that has always characterized the corporation. Not only has com-pensation been reduced to the lowest possible figure — the starvation point — but wholesale discharges have been made in the colliery and railroad departments. Many faithful and deserving men, who have numerated, were removed from positions they held for years, and these men are now idle, with no prospect of securing employ-ment, as their days of usefulness are nearly

With the advent of the hot summer months, and the consequent general de-pression in the coal market, announcement made through the coal agents of the Philadelphia and Reading Railroad Com-pany that the working time at the mines would be shortened. No sooner had this order been enforced than the miners were startled by the publication of an order that wage swould be reduced 10 per cent. The reduction affected between 10,000 and 15,000 industrious, poverty-stricken miners, who have large families dependent upon them, most of whom have experienced untold and deplorable miseries. To stand a 10 per cent cutting down of the already too meager pay meant complete starvation for themselves and families.

Too Much to Be Stood.

The long-oppressed and suffering miners have borne much, but this large percentage sliced from their poor pay was too much. There has been no regularly organized miners' union in the Pennsylvania anthracite coal fields since 1875, when the once formidable Miners' and Laborers' Benevolent ssociation was bankrupted and disrupted closing up its career as the never-to-be-forgotten "long strike" ended, the malconoperators and returning to work. The great struggle between the mine owners and colliers for supremacy lasted for a year.

Fully aware that it would be useless to appeal to the monopolizing Philadelphia and Reading Company for an entire aboli-tion, or some modification, of the obnexious, and what is regarded as an unwarranted and unjust edict, as all previous appeals of such a nature have been in vain, it was resolved by the intelligent and sensible leaders among the men to organize an association for their mutual protection and advantage. As the outcome of this resolution, meeting were held here and elsewhere, and, after considerable animated discussion upon the subject, it was agreed to establish a union similar in style and its general principles to the former popular Miners' and Laborers' Benevolent Association.

Success From the Very Start. Starting the most actively and harmoniously, success attended the miners from the beginning, and what a week ago represented a body of men numbering several thousands has rapidly grown into an organization whose roll of membership has the signature of 10,000 hardy sons of toil, who are thor-oughly in earnest and united in a sentiment that means disaster to that wicked, demor alizing and oppressive monopoly, the Phila-delphia and Reading Railroad. What has been commenced here is but the beginning of the end, as from all quarters of the vast anthracite coal country come well accred-ited statements showing that all classes of nine laborers and railroad men are in full and entire sympathy with the movement that promises the elevation of the grounddown employes of the coal and railroad

THE DISPATCH correspondent has visited every portion of the Schuylkill, Lehigh, Wyoming and Lackawanna regions, having been located in many of the promiregions, nent mining centers for a lengthy period, and miners and business people have been interviewed upon the topic now uppermost in the minds of the people, that is, the innugaration of the onslaught upon the corporation and its associated interests, and the general opinion is that the contest that has been commenced will augment in extent and vigor until the whole hard coal country will be involved.

It is intimated that fully three-fourths of the colliers employed in Schuylkill, North-umberland and Columbia counties are actively engaged in the strike movement, and as able and popular representatives have been dispatched to all the surrounding coal countries to secure the co-operation and assistance of the dissatisfied and grumbling workingmen, it is certainly sate to pre-dict that the crusade against the offending monopolists will be overwhelming in great-

Extent of the Strike Mo vement.

An Open Letter From President Welhe. The following letter of acceptance will scarcely need any explanation Pirishted, July 20, 1892.

ness when the miners have been crushed

hir. M. Saller, Esq.:

Dean Sin-Your favor of to-day in which
you offer to set aside a liberal percent of the
liberal amount of your sales, beginning Monday, August 1, and ending Saturday night,
August 6, for the benefit of the locked-out august 6, for the benefit of the locked-out workmen, is hereby acknowledged.

In reply, I desire to eay that in accepting your generous proffer of aid, on behalf of those who are engaged in this struggle for the existence of organized labor and those who have been bereit of loving support in the recent and experience at Homestead, I can convey to you more fully that words can express their appreciation of your noble effort and liberal hand.

With many thanks for your kindness, I am yours, very respectfully.

with many sampours, very respectfully, William Weine.

In pursuance of our expressed offer to the President of the Analizamated Association, we offer for this weak our goods at the usual reductions and will set aside 5 per cent of the gross amounts received from our sales. Workmen, now is your chance to express your sympath; to your brothers in a practical way. You receive the goods; your suffering brother workmen at Homestead are benefited just to the extent of your liberality in purchasing. Help the locked-out workmen by suying your goods this week of Sailer, corner of sanithfield and 1-amond. Once you have hought of us you are our customer. you have bought of us you are our customer always.

#### IS DRILLING ITSELF IN.

tewart & Co.'s Well, on the Robb, North of Oakdale, Is Showing for a Producer No Change in McDonald's Production Yesterday-The Crescent Line Ready to

There were few new developments in the oilfields of the Southwest yesterday. Stewart & Ca's No. 1, on the Robb prop erty, north and west of Oakdale, which was reported to be showing rather light Friday, had improved somewhat yesterday. It is just in the top of the fifth sand and was shut down until the boiler was moved back. Friday night it seemed to be drilling itself in and made several nice flows. The owners expected to get it drilled in late last night.

It is located on the same property as the well of the Oakdale Gas Company and the wen of the Oakdale Gas Company and the Woodland Oil Company, on the Robb acre, which started at 65 barrels an hour.

The Forest Oil Company did not get its No. 1 on the Kato Shane into the Gordon yesterday as expected, but with good luck it will be drilled in to-morrow. It is only a few feet from Greenlee & Foret's No. 2 Kirk in the southeastern end of the Meise pool

The Forest's Nos. 4 and 6 on the Mary Campbell farm, in the Meise district, and No. 3 on the McClellan heirs, located north-east of Oakdale, will be finished up this

east of Oakdale, will be finished up this week.

The Boval Gas Company's No. 8 on the Ed McDonald property, located about haif a mile up the hollow back of McDonald, was reported yesterday to be in the sand and flowing at the rate of 100 barrels a day.

The Royal's No. 5 on the K. McDonald is due to reach the sand to-morrow. Their No. 2 on the Moore farm, south of Venice, is reaching 55 barrels a day from the tourth sand, and No. 1 on the same farm, which reached the fourth last fall and started at 40 barrels a day, is now making from 50 to 55 barrels a day, from that rock.

Greenlee & Forst's No. 7, on the Wade farm, south of McDonald, which was shot last week, is now making about 140 barrels a day from the Gordon sand.

Guffey & Queen are only drilling one well at present. It is on the Joseph Ritter farm, in the gas district back of Verona, and is down 1.60 feet. They expect to go 2.300 feet, and will have to put in 1,950 feet of casing.

Apple, Mercer & Co. have rigs up for Noa. 2 and 3 on the Eph. Weils farm, below Sistersville, and have started to drill on the Michael property.

Owing to the Saturday half holiday there

Michael property.

Owing to the Saturday half holiday there were no statements of the runs and shipments of the various pipe lines given out It was reported last evening that the Crescent Pipe Line would be ready to pipe oil this week to its tanks in the vicinity of Harrisburg.

this week to be the Harrishurg.

The Producers' Company has secured all the rights of way for the line which it contemplates constructing to the refineries in the united country. templates constructing to the refineries in the upper country.

The Bradford Near of Friday says: W. W. Montgomery leaves to-day for Sumatra under a one-year drilling contract for the Royal Netherlands Oil Company. His father, W. B. Montgomery, has been in Sumatra for over a year drilling for the same company. So iar only one well has been drilled, but that is a "stayer." For the last six years it has flowed 200 barrels a day.

The Gauges. The production of McDonald was unchanged yesterday. The hourly gauges of the larger wells at McDonald yesterday were as follows: Robb No. 3, Florence Oil

Company, 29; Sinclair Oil Company's No. 1, 30;
People's Gas Company's No. 148, 50; Oakdale
Oil Company's No. 2 Morgan. 29; Forst &
Greenlee's No. 6 Marshall. 45; J. M. Guffey's No. 2. Shaue, 20; Woodland Oil Company's No. 2 Crawford, 20. The estimated production was 21,500; stock in the field, 43,500. The Oil Market.

Fluctuations were narrow, moving only \$4c each way, closing steady; Pennsylvania oil, spot sales, 13,000 barreis; opening, 52c; highest, 524c; lowest, 52c; closing, 52c; Pennsylvania oil Angust option sales, 175.000 barreis; opening, 514c; highest, 514c; lowest, 514c; closing, 514c. Lima oil, no sales; total sales, 188,000 barreis.

#### THEATRICAL GOSSIP.

Those who had begun to despair of ever seeing or hearing anything new at a min strel show were happily surprised at the many new jokes, new acts, new sones and novel features contained in the programme given by Lew Dockstader's Minstrels during the last tour. The reliable old veteran Harry J. Clapham, who was then and is now the manager of this very successful organization, assures us that this season's company is far superior to that of last sessor pany is far superior to that of last season, and the programme to be presented will be brighter, funnier, and in every particular better. This is perhaps claiming a good deal, but in proof of his assertions Manager Clapham offers these names: In the first place he has secured Frank Dumont, the minstrel Shakespeare, who, it is claimed, is the wittiest writer and the best producer of sketches that minstrelsy has ever known. Then there is George Powers, banjo soloist of rare accomplishments and general comedian: Falke and Semons, who present a musical act which is a novelty; William Rowe, the graceful dancer, in a taking dancing specialty on a pedestal eight feet high: Blocksom and Burns in a new laushing act called "Fannabalisur," the magnificent Columbia Quartet, and John C. Harrington, a talented singing and dancing comedian. The vocal department is unusually strong, and contains eight soloists and a grand chorus under the direction of Mr. Harry Leighton. Dumont's sketch, "The Cake Walk," and his musical burlesque, "Rustic Anna," will be given here, and are said to be delightfully humorons. They have scored strong successes. Lew Dockstader, of course, will be in the front line, and his new specialty, "Ward McAllister," is said to be great. The date fixed for Dockstader's organization here is next Thursday, Friday and Saturday nights and Saturday mathee at the Bijon opened yesterday for the season.

Thus week at Harris' Theater will be interand the programme to be presented will be

This week at Harris' Theater will be interesting, for the managers are going to pre-sent a masterpiece of the great French dramatist, Sardou. It is a four-act piece en titled "Satan." It has many thrilling features, among which may be mentioned a the second act, and a grand bal masque which is the feature of the last act, and will which is the feature of the last act, and will be presented with a wealth of scenery and costumes such as are seidom seen in this city. The leading parts are to be in the hands of George A. B. Johnston, a virile and a polished actor, and Miss Rose Osborne, an actress of experience and ability. The cast is as follows: Pau Duplement, George A. D. Johnston: Henri Morrell, Edwin Young; Ganard, Frank K. Wallace; Leon de Savigne and Pierre, Stuart Anderson; Franck, Louis R. Wolfe; Detective, C. E. Ward; Julia de Noutelle, Georgia Levard: Eurice, Mamie Egberts, and Matteline de Savigne, Rose Osborne.

THE Duquesno Theater will be redec orated from ceiling to root before it opens next month, Henderson Brothers, of New York, having orders to make the theater as York, having orders to make the theater as good as new. Manager McCollough gives the following list of attractions actually booked for the coming season: Thomas W. Keene, Boyt's "A Temperance Town;" "Isle of Champagne" Opera Company, "Tar and Tartar" Opera Company, Hoyt's "A Hole in the Ground," Mason & Manola Company, Sadie Scanlan, Wilson Barrett, Hoyt's "A Trip to Chinatown," Lillian Russell, Hoyt's "A Trass Steer," Evans & Hoey, Nat Goodwin, De Wolfe Hopper, Margaret Mather, American Extravaganza Company in "All Balia," Stuart Robson, Julia Marowe, Williard, Mrs. Bermard Beere, the great Hermann, William II. Crance and Modjeska.

Gronge C. Jenks has written a comic opera Grouge C. JENES has written a comic opera in conjunction with Mr. Guenther, the well-

known musician, which New York man-agers and actors who have read it seem to think a very clever work. It will be pro-duced the coming season by one or the best comic opera companies in the country. Manager Will is once more redecorating the lobby of the Grand Opera House, which will be opened August 16. VALLEY CAMP.

#### CHOLERA LOVES DIRT

Three of Germany's Eminent Physicians Sav America Is Safe if

CLEANLINESS IS MADE A VIRTUE.

fanitary Measures and Inspection of Ships Will Do the lest.

OUR GREATEST DANGER FROM CANADA

BERLIN, July 30 .- The Reichsanzeiger to day prints a long article on the precauintroduction and spread of cholera, and this fact leads many to believe that the authorities consider an epidemic of the disease imminent. The representative of the Associated Press has interviewed three of the medical authorities of Germany-Prof. Koch, Dr. Virchow and Dr. Hirsch, of the Berlin University, all of whom have served upon sanitary committees in past epidemics

Dr. Virehow will shortly go to Russia to study the epidemic there. In his conversation with the Associated Press representative Dr. Virchow said the cholera appeared to be localized in Russia at present, but it may appear here at any time. Concerning America he said: "No one need tell your people that they must remove all dust and dirt and exercise the utmost cleanliness and they will be all right."

Dr. Hirech said: "I had for ned an opinion that the disease had changed its character, owing to the immunity of other places, in spite of the constant recurrence of the disease in Italy and the South of France since 1883; but its rapid progress in Russia and its reported appearance in Northern France proves otherwise. I think that, sooner or later, it will attack all

Europe.
"There is, however, little fear of an epidemic in Berlin, as the city's sanitary condition is perfect. I have thoroughly studied the condition of America, and there is little danger of an outbreak of the disease there, provided thorough cleanliness is maintained and sanitary precautions are adopted. With a complete inspection of all steamers arriving at American ports there is little danger of infection through travel-

"One danger to America is the Canadian frontier. Canada has imported several epidemics of cholera and typhus fever from England, and might do so again. The greatest danger is in the importation of rags. The American authorities should strictly prohibit the importation of rags from an infected district, or from any district where cholera might be suspected of existing. Immense quantities of rags, gathered in all parts of Europe, are shipped from Stettin, Konigsberg and Hamburg, and these may carry infection, as they are subject to little or no inspection."

Prof. Koch referred the reporter to the article in the Reichauszelger previously men-

article in the Reichanzeiger previously men-tioned. As the article in question is sup-posed to be the work of Prof. Koch, it is as-sumed that he also expects that the cholern will spread to Berlin. SINGULAR FATALITY ON SPRING HILL

Two Men, a Horse and Buggy Precipitate Down a Steep Decline.

By a most peculiar accident Charles Volz, Auditor, of Reserve township, was killed, and Joseph Wolfinger, of No. 88 Hill street, was badly injured. Between 12 and 1 o'clock yesterday morning the two men were driving along the narrow street on the nummit of Spring Hill, Allegheny. The coadway is very narrow and reaches to the edge of the hill, which is most precipitous in places. Wolfinger alighted at his barn and began to lead his horse within, but the animal became balky and backed toward the edge of the hill. Wolfinger endeavored to stop him but was weekleted. to stop him, but was unable to do so and a moment later the two men, horse and buggy of 35 feet. The horse fell on Volz and crushed him so badly that he died at 1:30 o'clock. Wolfinger was badly although not fatally injured and the horse escaped un-

#### **BAD SHIN BONE SORE**

Grew Worse Under Many Doctors and Many Remedies. Entirely Cured by Cuticura,

In September, 1837, I had a sore come on my shin bone, just above the ankle. It began to pain me so much that I thought best to consult a doctor. He said it was a bad looking sore, and it might be a month or two before it got well. I thought I could not endure it that length of time. I tried his remedies, and the sore kept growing worse. Then I tried another doctor, and received no help. Then another, who was sure he could help me, but still the sore kept growing worse, kept growing harger all the time. I had another doctor examine it. He thought that perhaps the bone was affected, and I had better go up to Alkany. I had a good surgeon examine it, and he said the bone was not affected, and that it could be curred, but I had to sit with my foot elevated. A surgeon doctor from the city of New York, stopping at ear house, said the same thing. In September, 188, I was about my work as usual, I went to put on something to ease the pain, a stream of blood pourred out. Got a doctor as soon as possible. It was thirteen weeks and two days before I went out of the house again. A gentleman boarding with us wrote you for your book. His wire had told me what a wonderful remedy CUTICURA was, and what it had done for her little girl. I said to the lady. 'I have a mind to try CUTICURA.' She said, 'I have some with me I will give you.''I commenced at once, and it was the first ointment that I ever put on that agreed with the sore. Then I felt encouraged, for I had used so many different kinds and received no good. Then I got the CUTICURA curreura. She and curroura RESOLVENT, and the sore is ensured healed, and has been for the past eight or nine months. I say CUTICURA curreura Soap and CUTICURA RESOLVENT, and the sore is ensurinely healed, and has been for the past eight or nine months. I say CUTICURA curreura Soap and CUTICURA has been for the past eight or lively healed, and has been for the past eight or him more people would try it.

## Our Baby

Was a beauty, fair, plump and healthy. Bu when two years old Serofula Humor spread over her head, neck and forehead down

cial effect from Hood's Sarsaparilla was that she began to show more life and have an an-petite. Then the humor soon began to sub-side, the liching and hurning chard, and the sores entirely healed up. She is now per-fectly well, and so different from before tak-

Hood's Sarsaparilla that she spems like another child." I. W. FREDERICK, Danforth street, near Crescent avc., Cypress Hill, Brooklyn, N. Y.

ion. In experimenting in the laundry with a new bleach for fine fabrics it was discovered that all spots, freckies, tan and other discolorations were quickly removed from the hands and arms without the elightent injury to the skin. The discovery was submitted to experienced Dermatologies and Physicians who prepared for us the formula of the marvelous Derma-lloyale. THERE INVER WAS ANYTHING LIKE IT. It is perfectly harmless and so simple a child can use it. Apply at night—the improvement apparent after a single application will surprise and delight you. It quickly dissolves and removes the worst forms of moth-patches, brown or liver spots, freckles, blackheads, blotches, sallowness, redness, tan and every discoloration of the cutiele. One bottle completely removes and cures the most aggravatel case and thoroughly clears, whitems and leautifies the complexion. It has never failed—it cannot rate. At is highly recommended by Physicians and its sure results warrant us in offering

\$500 REWARD.—To assure the public of its merits we agree to forfeit Five Hundred Dollars case, for any case of moth-patches, brown apples, liver spots, blackheads, ngly or muddy skin, ununtural redness, freckles, tan or any other cutaneous discolorations, (excepting birth-marks, scars, and those of a scrotulous or kindred mature) that Derma-Royale will not quickly remove and cure. We also agree to forfeit Five Hundred Dollars to any person whose skin can be injured in the slightest possible manner, or to anyone whose complexion (no matter how but it may be,) will not be cleared, whitened, im-Put up in elegant style in large eightrice, 81. EVERY BOTTLE GUARANTEEL Derma-Royale sent to any address, safely packed and securely sealed from observation, safe delivery guaranteed, on receipt of price, 31.00 per bot-tle. Send money by registered letter or money order with your full post-office address written plainly; be sure to give your County, and mention this paper. Correspondence sacredly private. Postage stamps received the same as cash.
