# HE SAW FOR HIMSELF.

A Leading Tin Plate Maker of Wales **Converted** to Protection

Lis Shrewd Observances of the Infant Industry of America.

A TALK ON THE PRESENT CAMPAIGN

LONDON, July 30 .- J. H. Rogers, Chairman of the Tin Plate Makers' Association of Walss, has just returned from the United States. ) His visit there was to ascertain what prospects the Welsh tin plate makers have of regaining the American trade, which was for many years before the new Republican tariff law their most profitable market.

The Industrial World, of Swanses, the official organ of the association, publishes in its issue of July 15 a long interview with Chairman Rogers, which will carry consternation to American free traders. Chairman Rogers speaks as a hard-headed busipess man, and his remarks show that he is a keen observer of American affairs. The Welsh tin plate organ's reporter first asked him:

"As a result of your recent visit to the United States can you give some idea of the prospects of the Democratic party in view of the coming Presidental election?" "Well," was Mr. Rogers' reply, 'it is gen-

erally regarded that the fight will be an exceedingly close one.

Repub Jean Chances of Success.

"The Republicans say they will certainly resurn their President, and the Democrats, on the other hand, are conally confident, The general opinion is that the Democrats cannot win unless they carry New York State, but the Republicans may possibly win even if they lose this State. The parties are so closely balanced that it is really impossible to say which will win.' "Supposing Mr. Cleveland were elected,

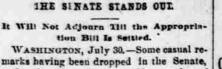

what do you think would be the effect of his policy!

"I think the result would be that the duties would be gradually lowered, and that wages would consequently fail. The working classes would, of course, not be willing to remain without work, and manufacturers would have to reduce wages to enable them to compete successfully with cher countries. Wages in America are at present about double what they are here, but if America adopted free trade they would probably be reduced by one-half, and become equal to the wages paid here. and become equal to the wages puid here. The question of free trade or protection is, therefore, of far more importance to the working class of America than it is to any class in this country. In America the working class earn high wages at present, and the cost of living out there is so little more than it is here that they have much greater comfort and are able to save more rapidly.

The Cost of Living in America

The reporter here reminded Mr. Rogers of the statements that had often been made during the last 12 months as an argument to prevent the tin platers of Wales to emi-grate to America, that the heat and the cost of living was much greater in the United States than in our own country. Mr. Rogers replied that as a matter of fact such was not the case. True, house rent was higher there, but the necessities of life to workingmen and their families were very cheap. The best class of clothing was also more expensive, but that for working men was not. The weather was exceedingly but during his visit, and one of the first things Mr. Bogers did was to purchase a cool, thin suit, when a cost him 25 shillings, which he did

Reterring to the cost of living. Mr. Rogers instanced the case of a Llanelly tin

to-day, in discussion about the exodus of Senators from the Capitol, and as to the BY HIS VISIT TO THIS COUNTRY. probabilities of their not being a quorum present next week, a series of remonstrances

against such a state of things was made by Senators Allison and Sherman-both joining in the declaration that Cougress would not adjourn until the sundry civil appropriation bill was disposed of, and that there could not be a final adjournment with-

there could not be a final adjournment with-out a quorum in each body. The Senate adopted a resolution on Mr. Sherman's motion, instructing the Vice President to telegraph to absent Senators to re-turn to the city, and to notity those in the city to remain until the final ad-journment of Congress. Mr. Washburn made a futile attempt te get unanimous consent to have the anti-option bill voted on next week, and then adopted the sueon next week, and then adopted the sug-gestion of Mr. Gibson, of Louisiana, to let the matter go over till next session as the unfinished business. That course was

The House resolutions as to the death of Representative Craig, of Pennsylvania, were laid before the Senate, and Mr. Quay thereupon offered resolutions, which were adopted, expressing the Senate's deep sen-sibilities at the announcement, and providing for a committee of three Senators to attend the funeral. Messra Cameron, Carey and Gorman were ap-pointed. The Senate, then, as a further mark of respect to Mr. Craig's memory, adjourned till Monday. Similar resolutions were unanimously adopted in the House and a committee consisting of Messra Kribbs, Seerley, Gillespie, Caminetti, Huff. Raines and Brosius was appointed to attend

at old Salem yesterday.

-The International Association of Jour-neymen Plumbers and Gas Fitters passed resolutions of sympathy for Homestead workmen.

One of the Principal Industries of Western Pennsylvania.

A Puddler's Life One of Exposure to Extreme Heat and Cold, Causing Catarrhal and Other Complicated Kindred Ailments.

The puddling of iron, or process of con-verting cast iron into wrought or malleable iron, for the purpose of manufacture, is one of the principal industries of Western Penn-sylvania. This is done in large furnaces erected for that purpose, and the metal is subjected to the continual action of intense heat for hours. Frequent stirring is neces-sary by men employed for that purpose who are therefore known as puddlers. These puddlers are compelled to face the most intense heat for hours at a time, both

winter and summer. In winter time they

become overheated and then cool off sud-denly, subjecting them to catarrh of the head, throat and stomach, bronchitts, asthma, rheumatism, lumbago, sciatica, neuralgia, etc. During these hot days, while workmen not subjected to any other heat than the natural heat of summer are frequently overcome while at work, these puddlers are exposed to the additional heat of the farmace and great masses of moiten metal which frequently send the tempera-ture above 200, making them more liable to sunstroke, brain and nervous troubles, gen-eral prostration, etc. Mo one better than a physician who hears duly the stories of pain and suffering caused by exposure to this flerce heat can appre-ciate or sympathize with these brave men in their struggie with life. But few puddlers on account of exposure to such extreme changes in temperature that are subject to catarrh, bronchitis, chronic cough, asthma, rheumatism, neuralgis, dyspepsia, nervous prostration, general debility, etc., etc. ome overheated and then cool off sud-

## A PUDDLER'S STORY.

Mr. George Hagan, Employed at the Clinton Mills, Describes His Sufferings From Bead and Stomach Troub's and Subse-

quent Cure by Drs. Copetand, Hall and Byers, Mr. Hagan, a puddler by occupation, is employed at the Clinton mills and resides at Clinton row, West Carson street, Southside. "I had been troubled with my head a long time," says Mr. Hagan, "which I know now

came from repeated colds from exposure at my work. No one can understand what my work. No one can understand what tortures I endured with the pain in my head at times. I often feit I would go crazy with it. I had terrible neuralgic pains all through my head, and, although my nostrils were perfectly clear and I could breathe well through them, they often felt dry and parched, the same as my throat, tongue and month.

"My stomach also became affected to such an extent that I lost my appetite and what little I ate caused pain and a heavy feeling,

Mr. George Hagan, Clinton Row, W. Carson St.

Different Forms of Catarrh.

The above case of Mr. Hagan clearly de-

ribes the form of catarrh known as dry

catarrh or sneezing catarrh. Like many

from France.

-Kansas corn has not been badly affected in the least by the heat.

-North Dakota has quarantined against Manitoba on account of smallpox. -Clovis Bonaparte is suing his discarded wife Rosalie before a London court for an-

nullment of marriage. -The 200th auniversary of the hanging of Rebecca Nurse for witchcraft was celebrated

-The strike at the St. Louis Refining and Smelting Works is over. All the dissatisfied employes have returned to work.

with bloating and belching up of sour gas. Drs. Copeland, Hall and Eyers, whom I con-sulted, explained to me that all these troubles came from neglected colds, causing a catarrhal inflammation of the parts, and promised a cure if I would attend faithfully to taking up medicing but said I would

due to catarrh.

this plain truth.

land, Hall & Byers.

A BOLD MOVE.

Business-Like Basis.

# short testimonials are given, and we ask the public to read them carefully and profit by

he moral they convey. HEADACHE FOR EIGHT YEARS.

The Case of Mr. Conrad Sanders, a Steel Worker of Jones & Laughlins' Mills, Residing at 2716 Shelly Street, South side.

"I suffered from catarrhal headache for eight years," said Mr. Sanders, "but re-cently it grew so serious I could not endure it longer. At times I was entirely unfit for work. No one who does not understand the ravages that this disease can make on the system can appreciate how thoroughly broken down and miserable I was. Under Drs. Copeland, Hall & Byers' treatment my head is clear and I feel like another man. I didn't know that medicine could work such a change in a person. I am more than pleased with the result."

ALMOST CRAZED BY PAIN

Was Mr. Fred Lyons, an Employe of the Westinghouse Machine Company.

"I am glad to make a public statement o my case," says Mr. Lyons. "Drs. Copeland my case," says Mr. Lyons. "Drs. Copeland, Hall & Byers have accomplished so much for me. I suffered severe neuralgio pains through my head that almost drove me wiid. I also had pains in my chest—sharp, shooting pains like the stab of a knile. I would have pains in my back and under my shoulder blades. I would also have dis-tressing pains after eating. Under Drs. Copeland, Hall & Byers' treatment all these distressing pains have left me, and I feel like a new person."

A NEGLECTED COLD

Brought on a Serious Catarrhal Trouble Says Mr. Fred, Hinkel, a Gardener

Residing at West View. "It took time and perseverance, but Drs

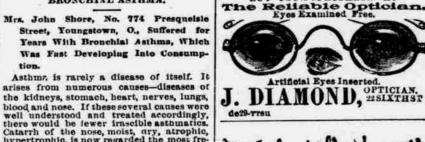

"It took time and perseverance, but Drs. Copeland, Hall & Byers finally cured my catarrh," says Mr. Hinkel. "For the first two months I did not improve, but the third month was better, and after that I improved rapidly, until now I am cured, and I can't give them too much praise. My trouble be-gan a long time ago from neglected colds. I had severe pains in my head, over my eyes and in my chest. My nose was always stopped up with muons, which dropped back into my throat. I was constantly hawking and spitting, and I had a hacking cough that was very troublesome. The trouble extend-ed to my stomach, and my health rapidly broke down. I am very grateful to Drs. Copeland, Hall & Byers for their successful treatment."

SPENT \$130 AND ONE TEAR'S TIME

With Doctors Without Avail-Six Weeks' Treatment and an Expenditure of \$10 With Drs. Copeland, Hall & Byers Erings Great Results. A well-known business man was heard to

make the following remark in Drs. Cope-land, Hall & Byers' Reception Parlors this land, Hall & Byers' Reception Parlors this week: "I tell you the good that these doc-tors are accomplishing in this neighborhood in the treatment of all ehronic cases sur-passes anything I ever heard of. In my own case I have doctored for over a year and spent \$180 without the least benefit. I have just been under treatment here six weeks and paid \$10, and am feeling almost as well as I ever did in my ilfe. I know of one large establishment in this city where five of the workmen were cured of long standing trou-bies by Drs. Copeland, Hall & Byers."

the kidneys, stomach, heart, nerves, lungs, blood and nose. If these several causes were well understood and treated accordingly, there would be lewer inselble astumatics. Catarrh of the nose, moist, dry, atrophic, hypertrophic, is now regarded the most fre-quent cause of asthma-reflected asthma, it is called. The cause, of course, indicates the treatment-cure the catarrh, coffect the deformity in the nostrils, if there be any, and the asthma will disappear. "I take pleasure," writes Mrs. Shore's husband, "in informing you that my wife has improved wonderfully since she began your treatment. She has been able to eat her meals regularly, her cough has im-proved and she has gained about ten pounds in weight. She is able to sleep all night now without coughing, where before she had to be propped up to get her breath. Her gen-eral heath is greatly improved and she is able to take a walk every day. I do not know how to thank you for your skill in doing her so much good in so short a time." PATENTS. 0. D. LEVIS (next Leader) 181 Fifth av., Pittsburg, Pa.

plate worker, for whom he had found em-ployment, who told him that not only was he in a position to live comfortably upon the wages he earned, about 36s. (\$9) a week, but he was able to send about a half of it to his family at home.

Conversation then ensued upon the con-dition of trade in South Wales, Mr. Rogers declaring that it was really worse now than it was 12 months ago, which was proved by the number of works which were either partially or wholly idle. He could not acco for it and feared that a bad period had set in, while he could see no prospect of a change.

#### Only a Secondary Consideration.

Mr. Rogers was then asked whether he had read the recent utterances of Mr. D. Randell, member of Parliament, who de-clared that the action of Messrs. Morewood & Co. in erecting works in the United Sintes before waiting to see the result of the November elections was not only "selfish and snicidal," but also "ill-timed, mis-judged and unpatriotic."

Mr. Rogers smiled and said in reply that the November elections, however they might go, would have no effect upon what they were doing. The McKinley tariff was only a secondary consideration in their action. "Capital," he added, "is sensitive and timid and will always flow to the countries which offer most security and the most free opportunities for untrammeled devel-opment, and where capital is most abundant there will be the greatest prosperity, most regular employment and most happi-

duced wages will have to be correspond-ingly reduced, but our aim is that wages shall be so far reduced that our manufacturers can undersell Europe in neutral markets such as India, Australia, etc.; but we believe that the cost of living and of luxuries should also be so reduced that workmen would be as well off at the lower wages as they are now at the higher wages.

Several Works in Course of Erection. "Are there any other works in course of

erection in America now?" "Yes, there are several. I only visited a few. The manufacture of tin plates is, however, very rapidly taking root in the United States, and some very magnificent plants have been erected. In one works which I visited was the finest which I have ever seen. An enormous steel and tin plate con-cern is being built in Chicago."

## ANOTHER REVOLT IN CHINA.

tions of Chinese customs officers. These officials have recently been imposing fresh exactions upon the people until their capacity has been exhausted, and a general anticustoms war was declared. Many large commercial houses suspended business, and the streets were crowded with excited people, vowing vengeance upon the customs authorities.

No hoats with cargoes were allowed to land. Soldiers guarded the custom houses and had several encounters with the people. On June 28 several people were killed and hundreds wounded. Fearing that there would be a general looting of the town, Consel General Water, representing the Consul General Waters, representing the British Government, sent to Hong Kong for assistance, and the gunboat Tweed was sent up.

to taking my medicine, but said I would probably have to continue under treatment time. probably have to continue under treatment three or four months. "I have just completed my first month's treatment and can say that I am entirely curred. I haven't a pain or ache about me, and I feel as well as I ever did, but to make sure I am going to continue under treat-ment another month. I take pleasure in recommending Drs. Copeland, Hall and Byers to all persons afflicted as I was, as I know they understand their business thor-oughly."

EYE TROUBLE RESULTING FROM CATARRH,

The Case of Miss Lizzis Kelly Illustrating the Extension of Catarrh to the Eye and Its Appendages, the Ravages Caused by This Catarrhal Inflammation, and Its Ultimate Cure by Drs. Copeland, Hall and Byers.

The case of Miss Lizzie Kelly, residing at

The case of Miss Lizzie Keily, residing at No. 1 Ferry street, Sharpsburg, clearly illus-trates the extension of catarrhal trouble to the eye and its appendages. "I had been troubled with my eyes for a long time," says Miss Kelly, "and doctored for them almost continually with little or no benefit until 1 went to Drs. Copeland, Hall and Byers. Every doctor I consulted pre-

Dry catarrh, or a dry and parched condi-Dry catarrh, or a dry and parched condi-tion of the mucus lining membrane of nose and throat is generally the form of catarrh that causes the agonizing neuralgic head-aches both in the front and back portion of the head, with a stinging, aching pain in the throat. The mouth is often parched and dry and tongue fissured and sore. The muscles of the back part of the neck often feel sore and stiff and pains flit at times through the chest to shoulder binde. So necusioned are Drs. Copeland, Hall and Byers to find an irritable condi-tion of the back part of the throat in pa-tients complaining of intense pain in the back of the head with desire to draw the head backward, that they have come to ac-cept this condition of the throat as the cause of the exhausting coeipiral headaches nervous people often suffer with. They ex-plain it by the theory that the pain is re-flected by the nerves concerned in the pharyngeal inflammation, and that this theory is correct is borne out by the fact that as soon as this irritation is reduced by their treatment the beadaches cease. This inflammation often extends up-ward into the lungs and stomach, causing a long train of symptoms that causet by a dia of symptoms that causet by a constant of symptoms that causet be ox-plained any other way than by accepting this plain truth. tion of the mucus lining membrane of nos

Miss Lizzie Kely, No. 1 F rry st. Sharpsburg. Tious to visiting them prescribed some eye lotion which relieved for awhile, but soon I was as bad as ever. "The Copeland, Hall and Byers gave me a careful examination and told me that, though my case was a very aggravated one, as it was complicated with a general scrott-lous condition of the system, they could cure though my case was a very aggravated one, how would not tooch the case unless I would promise to stay under treatment six months. As I was impressed with their knowl-edge of my symptoms I readily gave the re-quired promise, when they put me on a thorough course of treatment, both local and internal. "Besides the eye trouble I had sovere head-ache, my nostrik were inflamed and ulcer-storough course of treatment, both local and internal. "Besides the eye trouble I had sovere head-ache, my nostrik were inflamed and ulcer-storough course of treatment, both local and internal. "Besides the eye trouble I had sovere head-ache, my nostrik were inflamed and ulcer-storough course of treatment, both local and internal. "Besides the eye trouble I had sovere head-ache, my nostrik were inflamed and ulcer-store filed with tough mucous, which caused onsiderable hawking to dislodge. my appe-tie was poor and stomach deranged. Alto-genthe, I was in a bad state of health gen-arily, weak, nervous, debilitated and de-seve, The pain and sensitiveness soon left them, and long before the six months were up the ulcerated surfaces were healed. Oc-casionally after catching a severe cold they presistent treatment has worked the desired result. Naturally I feel very grateful to these doctors for the benefit received at these doctors for the benefit received at their hands, as their course of treatment ju-results of their method of treatment in dis-enses similar to mine." almost doubled, proving that their efforts to render medical assistance to suffering hu-manity at reasonable rates has been appre-ciated. Heretofore this rate applied only to catarthal troubles and kindred aliments. This small sum brings the services of a physician within the reach of every one and does away with expensive drug bills. There is no excuse now for a sufferer to silently endure his disease for fear of the expense at-tached to consulting a specialist. All skin and blood diseases, such as eo-zema, hives, blotches, pimples, acne, ring-worm, tetter, sait rheeum, circonic ulcers, etc., are included in the \$5 rate. All kidney, bladder and rectal troubles, such as diabetes, Bright's, gravel, piles, fissure, fistula, etc., are also treated for \$5 a month, medicine included. Rheumatism, neuralizia, lumbago, scrof-ula, dyspepsia, chronic diarrines, dysentery, constipation, dropsy, liver complaint, jaun-dice, glandular tunors, excessive accumu-lation of flesh, etc., are lation of flesh, etc., are successfully treated for \$5 a month. Drs. Copeland, Hall and Byers are the originators of the \$5 a month treatment, or the system of reducing the practice of med-icine to a busiaces-like basis; and though many may imitate their style of advertis-ing, the therough, conscientious and skill-ful method of their treatment can be ap-proached by none.
