NEWS FROM THE CHOLERA DISTRICTS

BUELOVA, Aug. 2.—The Spanish vessels which gathered to take part in the celebration of the four hundredth anniversary of sailing of Columbus on his voyage of discovery weighed anchor at 5 o'clock this morning and proceeded for Palos, the port on which Columbus departed on August 1492. The warships of foreign nations which have been sent to represent their governments in the celebration, followed the Spanish vessels.

The caravan, which was constructed entirely on the lines of the Santa Maria, the largest of the three vessels on which the Columbus expedition sailed, will complete its preparations at Palos, and at daybreak-morrow, August 3, she will, should the wind be favorable, pass through lines formed by the various squadrons outside the bar. The caravan will sail for Havana January, and it is expected will arrive March 1. She will make the voyage without any escort.

The cholera, which was constructed in Central Russia. Three cases have been reported at Jelitz, a town of about 20,000 inhabitants in the Government of Orel, on the Soons Bystriaz river. A Vienna physician who was sent to inquire into the report that cholera had broken out in the villages of Trzebechia and Szczajow, in Galicia, states that the rumors are entirely without foundation, and that the whole place is satisfactory.

BUZZARD'S BAY, Aug. 2.—[Special.]—Miss Ruth Burnett, daughter of ex-Congressman Bissell, of Southboro, Mass., arrived here to-day and is being entertained by Mrs. Grover Cleveland at Gray Gables. Miss Burnett is the young lady whose name was conferred upon baby Ruth by the Clevelands when the little one was born last October. Mrs. Cleveland and Miss Burnett are close chums. They enjoyed the afternoon in a drive about town together.

At last night the Old Colony Club did not hear from the invitation extended to Mr. Cleveland, inviting him to attend the club's fish dinner to be given in his honor at Falmouth, August 13, and now they are anxiously awaiting the return of the club's President, Actor Joseph Jefferson, from his Canada salmon fishing trip to learn whether Mr. Cleveland is willing to present his appearance at the dinner, or if he has been discovered. His steamer is estimated to amount to 1,700,000 German marks.

In Austrian Professor Maps Out the Work of the International Conference.

VIENNA, Aug. 2.—The *New Freie Presse* to-day publishes the details of a scheme laborated by Prof. Soeter to harmonize the monetary systems of the world. The professor recommends that the coming International Monetary Conference agree that 20 gold coin containing less than 2,8065 grams of fine gold be allowed to be coined or circulated in the contracting countries; that silver be coined in the proportion of 20 value units of silver to one of gold; that silver be legal tender up to \$20, and that silver coins follow the fixed rate of parity to be withdrawn from circulation. Prof. Soeter contends that everything depends upon the attitude of Great Britain.

THE QUEEN'S SPEECH MONDAY.

And the Vote Which Elects Saltbury May Be Taken the Next Day.

LONDON, Aug. 3.—The speech that the division in the House of Commons on the address in reply to the speech from the throne will probably occur Tuesday. It has been arranged that the speech from the throne shall be read Monday. The amendment to the address will be moved from the back opposition benches after the case of the Government is stated.

Mr. Gladstone will speak, but no one on the front opposition bench will take part in the debate. As the Government does not desire to prolong the discussion, it will be for the Parnellites to determine whether the debate shall continue beyond the second night.

RUSSIANS AGGRESSIVE.

Excitement in London Over a Report That the Czar's Troops Have Occupied the Pamir Region—An Attempt to Ascribe It to Gladstone's Success.

[BY CANARY TO THE DISPATCH.]

LONDON, Aug. 2.—A dispatch from Calcutta says that three detachments of Russian troops have occupied the Pamir region, as far as the Hindu Koosh, holding the country from which Colonel Yanoff, of the Russian army, retired last year. This news excites considerable interest, and it is believed that the sudden activity is due to the success of Mr. Gladstone in the elections and a conviction at St. Petersburg that Mr. Gladstone will not be as active as Lord Salisbury in obstructing Russian aggression.

The aggression of the Russians has caused much stir at the foreign office, and it is said that Lord Salisbury is actively engaged upon the matter. The chief supporters by the present Russian aggression are China and Afghanistan. China is perhaps the larger loser and her history in Central Asia shows that there is no part of her empire in regard to which she is more sensitive than Central Asia, or for the retention of which she is more willing to persistently fight.

CHOLERA'S ONWARD MARCH.

It Has Surely Reached Moscow, but Is Probably Not in Galicia—Frightful Mortality in the Caucasus—Barrages in Persia—in Central Russia.

ST. PETERSBURG, Aug. 2.—It is accepted that cholera has appeared in Moscow. The disease has made its appearance in Briansk, capital of the Government of Briansk, 110 miles southeast of Moscow. The epidemic is decreasing in the Volga districts, but is increasing in the Don territory, including the Government of Rostov, where 1,055 new cases and 447 deaths occurred in one day.

The cholera has further advanced in Central Russia. Three cases have been reported at Jelitz, a town of about 20,000 inhabitants in the Government of Orel, on the Soons Bystriaz river. A Vienna physician who was sent to inquire into the report that cholera had broken out in the villages of Trzebechia and Szczajow, in Galicia, states that the rumors are entirely without foundation, and that the whole place is satisfactory.

Gaozor was broken Monday for a mammoth new distillery at Carthage, a Cincinnati suburb, to be erected by Caleb Dodsworth, who, with his Clifton Springs distillery, bought the Whisky Trust for years.

Mr. Somerby replied: "I must again remark that on this subject the Philadelphia matter is an important factor in this suit, and it would not be proper to talk. I believe that the assets of the bank are more than sufficient to take care of any funds that the plaintiff may have." He then added:

"I am going to examine thoroughly before I talk to anyone, and I have no fears for the result."

Mr. Somerby probably declined to make any other statement. He will attend a meeting of the Executive Committee this afternoon.
