A STATEMENT TO NON-UNION MEN.

President Weihe Talks of the Work Done by the New Hands.

REPORT OF ONE WHO IS REFUSED WORK.

Both the non-union men in the Homestead mills and the union men outside the works put in an exceedingly quiet day yesterday. Early in the morning there was a rumor on the streets that there had been serious trouble at Duquesne, and the fact that the Sixteenth Regiment went to the scene on a special train gave a color of truth to the story.

They Say the Wages Are Good.

Mr. Potter admitted that there had been no applications yesterday from the old men. He said furthermore that the experienced workmen who came from the East had told him that they could make 50 per cent better wages at Homestead than at the mills where they were formerly employed.

WHAT HE WITNESSED.

A Man Who Visits the Homestead Mill Makes a Statement. "I spent several hours in the Homestead mill," said William Gwin, of Lawrenceville, yesterday, "and during that time I visited every department in the plant."

No Danger of Violence.

"In view of these reports, which we believe to be true, the men of Homestead and vicinity feel it to be their duty to communicate with you if possible, and inform you that you have nothing to fear from them, and that the statement after the meeting of our men in regard to violence are wholly untrue."

The Organ of the Iron Trade Says the Backbone of the Strike is Broken.

WATCHING THE TIDE.

The Police Disperse the Crowd Assembled on the Monongahela Wharf.

The demonstrations of the crowd attracted about the wharf by the departure of the Tide were more pronounced than ever yesterday. Heretofore little was done or said to attract attention, and the men were allowed to leave for Homestead without interference. It was different yesterday.

were men who had come on the Tide with the intention of jumping off at the last minute. However this may be, the incident caused not a little excitement. The police arrested the Smithfield street bridges and all riders and also dispersed the crowd at the wharf.

PRESIDENT WEIHE SPEAKS.

He Discusses the Labor Situation at Homestead—Some of the Interesting Details Regarding the Reports He Has Received From the Carnegie Plant.

"Contributions to the workmen's fund at Homestead are coming in with rapidity," said President Weihe yesterday, "and if our friends continue to aid us so bountifully as they have in the past few weeks the Amalgamated Association need have no fear for the future."

In speaking further of the affairs at Homestead, the official said: "While I believe it possible that the Carnegie Steel Company would employ 2,200 workmen in their mill, I do not think over 100 of that number are constantly and actually employed."

"These 100 may be skilled workmen, while the balance are only there to discourage the workmen outside, but in this they are meeting with poor success, for not a day passes that we do not receive some reliable report concerning the outside workmen who are being employed."

Superintendent Potter announced that by Monday every department of the mill would be running full time. He also denied the report that there had been any smashup in the works.

seating capacity has all been done within the past two years. The first ward has 8 rooms more than they need; fourth ward, 3 rooms; ninth and tenth wards could spare 12 rooms; twelfth ward could dispense with 6 of the twenty-fourth ward, I think, has 5 rooms too many. This tells the tale of how the people are rushing for the East End.
