The directors and friends of education are cordially invited, however, to attend any or all sessions of the institute, and it is probable, judging from last year, that the invitation by friends will be accepted.

for Many Tournaments

Hereabouts.

Thicken in Number as the Season Pushes Its Way Onward.

PLANS OF THE PITTSBURG CLUB.

Proposed Reorganization of the Once Noted Lifle Club.

NOTES OF THE CYCLERS IN MANY FIELDS |

HERE was a time when rowing regattas on the waters hereabouts were the chief events of the year, but for some reason this exciting branch of amateur sport has been allowed to sink into a state of "innocuous desuetude" that is fast growing painful. It is really distressing to read of regattas on the Hud-

son or some other water course that is no better for the purpose than our own, and to think that the wealth and beauty and lashion of Western Pennsylvania might be enjoying the same kind of sport if its citizens were only enterprising enough to bring about a reinstatement. There are in this vicinity as many people who take interest in regattas as there are in any other inland section of the Union, and they believe that with careful fostering from a small start this season, the sport might easily be brought to the front, but no one seems willing to take the initial step.

To make up for what is lacking in watery

Selds the tennis associations are preparing to make matters lively enough on the courts during the next month or so. There is to be a tournament at Latrobe this week, and in the course of the next few weeks there will be three tournaments at the Pittsburg Tennis Club's grounds, one at the Sewickley Athletic Club's grounds, another at Cora-opelis, one at the East End Gym courts and another is in prospect at Kiskiminetas. In one of the Pittsburg Tennis Club's tournaments the enthusiasts will probably have an opportunity of seeing some of the best players of the time. It is expected that they will be induced to stop over here on their way home from the big tourneys in the East.

Football is coming into life with a vigor-ous activity that promises well for excellent sport commencing next month. Several teams are in process of formation and more are in contemplation. All of the players are enthusiastic, more enthusiastic than they were last year and they will go into the contests determined to win, whatever the physical consequences.

The Pittsburg Tennis Club has three tournaments on hand, a club tournament, a mixed doubles tournament and an invita tion tournament. The affairs of the club are in very good shape at present, and the in all that goes on, so that all three of these tourneys are certain to be the greatest of successes. Before any of them come off, the new clubbouse will be ready for becompancy, and it will be a great addition to the grounds. It contains a addition to the grounds. It contains a large partie and dressing rooms for the la-dies who are members of the club, and there are ample accommodations for the men. There will be shower baths of the latest approved plan and other luxurious accessories that cannot be dispensed with in an aggregation like the Pittsburg T. C. It will be only a week or so before the last bit of work on the house will be done, and then the members will move their belongings up from the old house they have occupied, and there will be a grand housewarming. At present a good many of the members are off to the seaside, but they will be back in time to take part in the tourneys.

J. H. Dippold, who is one of the best road riders in this vicinity, took to the wheel in 1887. He is one of the charter members of the Allegheny Cyclers, and is the oldest member of that organization in town now. The attractions of the road outweigh everything else with him and he has never yet taken to the racing track, but he takes a long tour in some direction every year. He has been East as far as Boston on his wheel, West as far as Chicago and St. Louis, South to Fredericksburg, Va., and North to Buffalo and Niagara Falls. He ins also made some good time over rough roads. On one occasion he made 108 miles in nine hours and 45

Pittsburg was at one time noted all over the country for her expert rifle team. The old Pittsburg Rifle Club possessed as good a 1,000-yard team as was to be found within 500 miles, and their 200-yard team was as fine as any in the country. The interest in rifle-shooting has died out, however, and l'ittaburg does not now possess a thriving club in that line. The shotgun offered ad-vantages in the esse by which one can become an expert shot, and the exciting sport of shooting live birds diverted the attenthat the earty list will be larger than last committee has in hand the open meeting of September 3 and also the last field meeting of the Pittsburg splayers will be there and representatives of several active dubs in the vicinity. The events will be gentlemen's singles and doublets; first, considering in law or of the rife, and the promoters of the reorganization think the time is now ripe for forming a strong club. The promoters of the new club are Christopher Magee, Jr., George Hodgdon, Dr. Kearey, D. H. Stonet, Dr. D. B. Rameys, G. E. Painter, G. A. Painter, L. Bread, Dr. H. P. Orr and Dr. Winslow. A meeting to effect an organization will be bested Menday evening. Representatives of the different rife clubs, which are barely existing in this city, will be present and will doubtless merge their associations into the new organization.

"It is proposed to make this strictly a first-class club in every way," and Dr. D. D.

B. Ramsey. "It is our intention to buy a piece of ground which, strange as it may sound, will not improve. "In our old club we had experience enough in this line to know exactly what we want. We would no sooner get a rifle range fixed up nicely than people would commance to build up around us. Then the next thing we would hear would be all sorts of complaints about the noise we made in firing, and finally an injunctions would come, preventing us from using the range, and compelling us to move. No, this time we will buy some out-of-the-world lot which has not the least prospect of improving a home club will make a hard fight to keep them. Messra. Joseph C. Head, C. H. Wakefield and John Henderson are members of the managing committee. While doing Southwestern Ohio on their wheels, Messra Charles Gilbert and Joe

DeRoy spent several very pleasant days with the Fred Will Fishing Club, of the West End, at their camp on Will's creek. Among the members of the club then in camp were the following gentlemen: Fred Will, B. Dugan, T. J. Shaughnessy, T. A. Dugan, J. Lauth, R. F. Walsh, J. Hart-THE OPEN AIR MEETINGS | has not the least prospect of improving a cent's worth. We have a suitable lot now in view. On this we will erect complete 1,000, 900, 800 and 200 yard ranges. We are to have a fine clubhouse which will be a feature. Out of the members we now have man, William Flynn, T. L. McHugh, J. F. Madden, J. Gaudly, J. Will, P. J. Dugan, William Dempsy, P. Walsh, F. Kelly, P. William Dempsy, P. Waish, F. Kelly, P. J. Sullivan and William Hartman. The boys have been having a very pleasant summer and will be sorry when they have to leave their picturesque camp behind and come back to the stern realities, etc., for another year. They will bring with them, however, enough fairy tales of huge fishes to last until the next season. feature. Out of the members we now have in view, we could to-day get afteam of ten men who would campare favorably with any in the country. If we can judge by the team we had some years ago, when the inducements offered for rifle practice were very slim, the recoil of the heavy guns we used being sufficient excuse for any man tiring of the sport, we should have a team now that could sweep the country."

Some of the old members of the Pittsburg Rifle Club have fine records. Mr. G. E. The Young Men's Catholic Club, of the West End, will have a big field day at Painter is probably the most expert shotgun and rifle target shot in the country.

roads of Western Pennsylvania and adjacent sections of the union. He is a m ber of the Allegheny Cyclers and commenced riding in 1889. As with many others in the club the race track has no attraction for him, and he has so far taken a large amount of pleasure in viewing the country from his wheel. A year ago he rode to Chantauqua and return, and last year he rolled out four centuries. So far this year he has made one century, but he is trying another to-day, to New Castle and return, and he expects to make five or six before the season is over.

Since May 1 he has been on his wheel whenever business and weather permitted, and his mileage record so far shows that he has worked the treadles for 1,899 miles. He says his cyclometer will show 5,000 miles before the year is over. He expects to be one of the party to go down the Shenandoah Valley this summer and will set a lively pace for the rest of them.

Sewickley is getting ready for a tennis Sewickley is getting ready for a tennis tournament, to be held there the last week in August. Messra. Christy, Porter and Woods have been appointed on the Committee of Arrangements and if anyone can carry it through to a success these three gentlemen can. Sewickley is a battlefield on which the tennis champious delight to meet and the entry list will be a large one. It will undoubtedly include nearly all of those who were at the Pittaburg Tennis Club's tournament and more besidea. The Sewickley Athletic Association can afford to offer handsome prizea. It cleared somewhere in the neighborhood of \$500 by its circus lately and is in good financial condition. Its courts are in good order and the surroundings are pleasant, so that the attendance will probably be all that could be desired, more than enough to pay all the expenses of the tourney.

William H. Wilson is an active member of the Allegheny 'Cyclers, the Keystone Wheelmen, the Columbus Century Club, the Three A's and other verseries are readed. On the evening before, the annual boat carnival, on Wesley Lake, a pretty sheet of water separating Asbury Park and Ocean Grove, was witnessed by the largest number of people ever assembled on a single occasion here. He will race under the Three A's colors and judging from the time he made at a private trial a short time since, a trifle over 3 minutes, he will be a formidable opponent to some of the older bands. He was in the 15-mile road race of the Key-stones yesterday, an account of which will be found in another column,

To-day and yesterday were particularly bright occasions on account of the bicycle races in the athletic grounds and the presence there as a participant of Mr. Arthur A Zimmerman, the champion wheelman, who has just returned from his tramps in England. Last evening the local club of higher clists and numbers of visiting wheelmen held a lantern parade along the beach on the famous old boardwalk, one of the most the famous old boardwalk, one of the most beautiful sights of the summer. The wheels were beautifully ornamented and carried just sufficient light to bring out the design which the rider desired to produce. Thirry lady biopoclists from all parts of the country took part in the parade. Prizes will later be awarded for the best decorations on this occasion. Mayor Edwin Stewart, of Philadelphia, and Mayor Daniel J. Bechtel, of Trenton, reviewed the parade and will act as judges in awarding the prizes.
