It is high tide at the seashore and the ton of the season in the mountains. The weather generally has been good, and Pittsburg folk by the thousand have had a delightful time during the week at the various resorts. On the coast good fishing and fine bathing is reported. Things will remain at full pressure for several weeks now, and, taken altogether, it promises to be one of the best paying summers for many years to hotel men.

J. M. D. Ferguson, of Pittsburg, is located at Congress Hall for an indefinite sojourn. Robert Mills and N. J. Sharpless, of McKeesport, are sojourning at Congress Hall.

John J. McKenna, of Pittsburg, is resting at the Stockton. This has been the greatest week of the sea-

is doing his customary afternoon on Fifth avenue. The residents of the Gas City are everywhere - in the ocean and out of it. but always in the vicinity. The interest of the busy week cen-

tered in the outcome of the baby show, which was the greatest thing of the kind ever held in Atlantic City, or any other place, for that matter. But the reason the Pittsburg colony is so enthusiastic over the outcome is because the prize for the prettiest baby was won by little Harry Hopkins, a son of H. F. W. Hopkins, of Pittsburg, and the prize for the fattest baby was won by Joseph M. Vincent, a baby was won by Joseph M. Vincent, a youthful kicker from Allegheny City. As these were the only prizes offered, except one for the prettiest pair of twins, it is difficult to see how the Western end of Pennsylvania could have gotten any more out of it. There were nearly 290 bables in the big pavilion on the ocean pler when the competition closed. It was not a catch-penny affair. Messrs. Young and McShea offered the silver mugs as prizes merely as a compliment to the patrons of the pler, but the outcome might have been a little more satisfactory if Philadelphia had only captured one of the prizes.

outcome might have been a little more satisfactory if Philadelphia had only captured one of the prizes.

What in the world appears to be the matter with style in and about Pittsburg? I do not mean that there is anything particularly wrong about the style of the average Pittsburg voung lady at the seashore, but she is certainly making all she possibly can out of the prevailing craze for red dresses. Now, I do not mean to say that all the red dresses on the boardwalk are worn by girls from the Gas City, but it is a fact, nevertheless, that they are owners of at least 75 per cent of the encarmined raiment. But don't imagine for minute that these red dresses are not the very prettiest that can be worn by a presty girl. They are, and the girls appear to be aware of the fact as well as anybody. Yesterday a bevy of six young ladies who are putting in a decidedly pleasant summer at Congress Hall, where they arrived last week from their bomes in Pittsburg, created a decided flutter in the male heart by appearing on the boardwalk, each wearing a red dress and each carrying a lace parasol to match. A beardwalk, each wearing a red dress and each carrying a lace parasol to match. A specimen dude made two of three attempts to get within speaking distance, but the rebuff he met with indicated that the girls could take care of themselves. The young ladies are in no way related to one another, but they have hired a chaperon who thoroughly understands her business. She keeps in the background discreetly, but hovers near enough to see that no harm comes to her charges. Under these circumstances it is no wonder the pretty girls wear anything they please. A Pair of Pudamucks.

Probably the oddest spectacle seen on the boardwalk this season was Philip Flinn and Eddie Martin, of Pittsburg, leading along by a slender chain a lively and victous pair of pudamucks. The animals were raised by Stockton. She is a refined blonde of winling manners.

Andy Mansman, of Pittsburg, is a popular ground to Atlantic City by Frank A. Brown, a hebdominal drummer of Baltimore, who paid a large price for them for the purpose of presenting to his sister, but Brown became afraid of them after they reached the cocan. This was because Mr. Brown did not understand the nature of the rane animnis. He was both smazed and frightened when the bowlerged pudamuck began to slowly change the color of his coast from a somber gray to a lively blue, closely resembling the color of the ocean. The other pudamuck began to change his ralebow stripes for a color bearing a close resemblance to beach and. Brown did not care to handle them after the change, and he gave one each to Flinn and Martin. The pretty girls made much fuss over the wonderful little feilows, and fed them handful after handful of geogleflips, of which he gave one each to Flinn and Martin. The pretty girls made much fuss over the wonderful little fellows, and fed them handful after handful of googleflips, of which they are very fond. Martin intends sending his as a pre-ent to Councilman Hugh Ferguson, while Flinn will keep his as a pet.

There are more drum fish in the vicinity of Atlantic City than in any other stretch of beach along the entire Atlantic Ocean. An immense school have been feeding in this vicinity for three weeks past, and as There are more drum fish in the vicinity of Atlantic City than in any other stretch of beach along the entire Atlantic Ocean. An immense school have been teeding in this vicinity for three weeks past, and as the claims are thicker than ever known before the chances are the fish will not desert this locality until winter sets in. The men who love the sport of capturing the gamey bir fellows are having their fill of it at present. It is no unusual thing to see a boat come into the inlet with half a dozen of the fish, weighing all the way from 40 to 50 pounds each, the result of a two-hour trip. No bait is used because the contented fellows 40 not eat until they are hungry and the minute that occurs they all begin to drum, and immediately disappear from the surface. The drumming noise is made by a peculiarly constructed arrangement in the throat. The sound is not unlike the druming made by pounding on a big drum that has been muffed. A half dozen big hooks are lashed together, and the boat containing the fishermen comes close to the school, larily sunning itself on the top of the water. The fish all head in the same direction like a flock of sheep. The hooks are cast 20 or 30 leet a head of the fish and rapidly pulled toward the boat. In nine cases out of ten the hook catches a big fellow in the mouth, and he usually makes it interesting for those who are in the boat. In she lowest estimate there are fully 100,000 of these big fish in the school off here. Half a dozen or them have been captured alive and are at present swimming in a specially

This is the first year that a gennine, tallyho coach has enlivened the avenues about the city. On Wednesday last the coach was hired by a party from Pittsburg and Allegheny. Mr. John Tetlow, of Allegheny, father of Miss Carrie Tetlow, who is conceded to be one of the prettiest girls in Atlantic City this season, issued the invitations, and the gay ride wound up with an elaborate dinner at Congress Hall. Mr. Tetlow who is a skillful driver, acted as whip for the occasion, and after the principal avenues had been driven over, proposed a decided novelty. This was nothing less than a drive along the beach front. The party agreed and the beautiful coach with its charming load started up the beach at a gallop, with gay ribbons flying and horns tooting. Mr. Tetlow varied the programme by turning into the ocean and galloping along for several blocks with the horses over their knees in the water. The spectacle was a pretty one and was witnessed by thousands who lined the boardwalk and beach.

spit out) of the alum water, climb the sixty-foot high observatory where a view of the mountains and Ebens-

Pitteburgers Who Are Seeking Rest and Comfort in Canada. ORILIA, ONT., Aug. 6. - [Special.] - The wave of fierce heat drove many Pitts-

burg people as near the northern end of civilization as railgo. Americans come here to rest and "rough it," generally-not to wear fine clothes. and go to fashionable churches on FIM. Sundays. A mem-Pittsburg club told us, "We always leave dress coats and like belongings

camping. This industrious little town was not in existence ten years ago, and it rushed up to dignity after the fashion of Oklahoma. In 1883, just one month after the first tree was cut down, there had grown up a row of log huts. And this was the infancy of North Bay. Now it has over 2,000 inhabitants, a Mayor and Council, good hotels, houses and general public buildings. Lake Tallion, which is to be the site of the camp, is one of a chain of lakes. And the people tell us "it is full of bass, pike, salmon, trout and muskailonge." Deer are very plentiful, and that gigantic creature, the moose, is often seen in droves of five and six.

Dr. Sutton, of Pittsburg, who has been going the rounds of several Northern resorts, is now enjoying the cool winds of the Georgian Bay, at the new and fashionable resort of Penetonguiskene, Ont.
