"You hear many lies told as history, sir," he said, "do you know what Mr. Pitt's last words were?"

"Of course," said Mr. Disraeli, "they are well known: "O my country! how I love my country!"

"Nonsense," said the old man. "I'll tell you how it was. Late one night I was called out of bed by a messenger in a post-chaise, shouting to me outside of the window.

"What is it?" I said.

"So I went; and as we drove along he told me that Mr. Pitt had not been able to take any food, but he had suddenly said, 'I think I could eat one of Bellamy's mutton pies.' And so I was sent for post-haste. When we arrived Mr. Pitt was dead. Them was his last words: 'I think I could eat one of Bellamy's meat pies.'"

## A ROOM WITH A HISTORY.

Many Notables Spent Their Nights in a Little Ohio Tavern.

In a village tavern at Caldwell, O., there as room of rare historic interest. It is the best room in the house, and there the greatest men in the nation, year after year since the war, bave rested and refreshed their weary bodies after speaking. The first to occupy the room was General Sherman, and Generals Poe, Bacon and Tonstelott, of his staff, in 1874, during the great reunion which was the first of all and odel of all since held everywhere.

Next came General Cocknell, then and at present United States Senator from Missouri, in 1875, on a similar occasion. The great cavalry leader, General Kilpatrick, gave it additional glory by reposing within its sacred precincts in 1876. Here also at other times slumbered the singing chaplain, McCabe, and Boston Corbett, who killed Booth, Corporal Tanner and the Drummer of Chicamauga.

Later, in 1879, the peerless Garfield closed his eyes and slumbered after making three speeches in this county in one day. In 1881 came Governor Foster to the same old bostelry, and he was assigned, of course, to "the best room in the house," the "Sherman room," as it is called. In 1882 John man room, as it is called. In 1882 John Sherman easily found repose within its historic walls. And the fiery Foraker calmed himself to rest in the same place in 1884, and again in 1888.

Boutelle, of Maine, made his pilgrimage hither in 1888, and Alger uncovered his head as he entered it to repose for the night in 1890. The last distinguished man to occupy it was General Green B. Raum. Com-missioner of Pensions, July 22 of the present year, during the last reunion.

## A FREAK OF LIGHTNING.

The Globe of Fire Was Shining, Yet Did Not Emit Any Beat. ers' Journal.

A very singular story is told concerning the vagaries of one mass of globe lightning. A tailor in the Rue St. Jaques, in the neighborhood of the Tal de Grace, was getting his dinner one day during a thunderstorm, when he heard a loud clap, and soon the chimney-board fell down, and a globe

of fire as big as a child's head came out quietly and moved slowly about the room at a small height above the fleor.

The spectator in conversation afterward with M. Babbinet, of the Academie des Sciences, said it looked like a good-sized kitten rolled up into a ball and moving without showing its paws. It was bright and shining, yet he felt no sensation of heat. The globe came near his feet; but by mov-The globe came near his feet; but by mov-ing them gently aside he avoided the contact. ### The Treatment of Constipation and Ordinary Dyspepsia.

Sir Thompson, the English professor, believes that in the vast majority of cases chronic constipation may be successfully overcome by a teaspoonful of the genuine imported Carlsbad Sprudel Salt dissolved in a tumberful of water (half a pint), cold or hot, early in the morning, and if necessary on going to bed. Out-door exercise will aid its action materially.

Use only the genuine, which has the signature of "Eisner & Mendelson Co., Sole Agents, New York," on every bottle.

## A VERY ONE-SIDED GAME.

How Our Sluggers Touched Up Mr. Hawke and Won Quite Easily.

Von der Ahe and his Browns were very easy marks for our sluggers yesterday, to say the least of it. The locals had their playing clothes on again and they jumped NCTORY

and frisked about like winners from the start. Winning ball has a very salutary effect on Pittsburgers generally and the cranks in particular. The first inning settled all pretentions to a contest as the home players took

a big lead at that early stage and after that the game was certainly too onesided to be anything like interesting. The bold start of the home players also had a depressing effect on the visitors because they were convinced that their show for victory was a

Where Some Money Was Lost,

The weather was excellent and the attendance was about 1,200 people. Von der Ahe would certainly have attracted a much larger crowd had he brought Old Sport Galvin along with him and put him in to pitch a game. Hundreds were eager to see Jimmy face his old colleagues and in his not doing so Von der Ahe lost several hundred dollars.

Hawke, lately of the Reading State League club, pitched for the visitors and it wouldn't be truthful to say that he did well. But he didn't do as bad as the score would indicate. At times his support was very bad and in the seventh inning when six runs were made only one of them was earned. His delivery was hit hard and he started off so wildly in the first inning that he became quite annerved. The crowd began to make Jokes on his name and several times he was

A Comedy of Errors The Dispatch team met and vanquished the Leader nine yesterday, although it was doubtful to the last. The Leader nine appeared in new uniforms, and presented very neat appearance. In spite of the big lead the Dispatch secured in the first in-ning, the Leader, by the aid of a few well placed hits and numerous errors by their opponents, succeeded in tightening up the score in the fourth and fifth innings. In the tourth inning Depuy, of the Dispatch, made a fine hit to left field fence, which resulted

After a Great Struggle. GRAND CIRCUIT TROTTING RACES,

MONMOUTH PARK RACE TRACK, Aug. 9.-Champion day was favored with fair weather, a fast track and 10,000 spectators, who enjoyed a full meed of pleasure and over much excitement while the racing progressed. The expected feature of the programme, the Junior Champion stakes, resulted in a hollow victory for Don Alonzo, the giant son of Long Taw and Round Dance, he winning the \$16,440 prize in the commonest of canters. In fact, it was no race at all, as far as first money was concerned. Alonzo's immense stature enabled him to take two strides to his opponents' one. He covered the six furlongs in 1:121/4. The majority of the spectators had put their wagers on Lady Violet, the 13 to 5 favorite and the winner, who was well backed by his stable followers at 7 to 2,

did not receive the applause that his performance merited. The Champion stakes were then disposed of and one of the most exciting and hardest fought equine battles of the year was the result. The seven starters raced in a solid bunch, with Demuth cutting out the pace at a lively clip for a mile and a furlong. They then lined themselves across the home-stretch, in a beautiful bunch, with whips flying and spurs plunging into heaving sides in quest of every ounce of speed. In the final sixteenth Lamplighter forged ahead, and Jockey Simms stopped whipping and began riding the brown great colt with his began riding the brown great coit with his hands, finally winning by a length in 2:32%, which is a quarter of a second faster than the record Firenzi made several years ago. Banquet took second money from Loco-hatchee. Montana, the equal 2 to 1 favorite with Lamplighter, straggled in fifth. He was ridden by Fitzpatrick, Snapper Garri-

was ridden by Fitzpatrick, Snapper Garrison being too weak to ride to-day.

In the fifth race Julien pinned Sleipner against the rail in the last sixteenth and forced Sloan to pull up in order to save himself and Sleipner going over the fence. Julien, 15 to 1, won by a head. Foul was claimed, but not allowed, and Sleipner's backers howled derisively at the stewards. Kingston, 10 to 4, won the first race in a gallop from his only opponent, Russell, 3 to 1, and Trouble, 11 to 5, whipped out, took the second from the Carmen colt, 20 to 1, who beat Lite Boat, the 7 to 5 favorite, a short head for the place. Nomad, 7 to 1, captured the last race in galloping style; Milt Young, 10 to 1, being second.

First race, seven furlongs—Kingston, 10 to 4, won galloping by a head; Russell, 7 to 2, second. Time, 1:26%.

Second race, six furlongs—Trouble, 11 to 5, won by a length, whipping: Carmen colt, second by a head, whipping: Life Boat, 7 to 3, third by four lengths, whipping. Time, 1:14%.

3, third by four lengths, whipping. Time, 1:14%.

Third race, six furlongs—Don Alonzo won by three lengths, galloping; Lady Violet, 13 to 5, second by two lengths, whipping; Dr. Rice, 6 to 1, third by a length and a half, whipping. Time, 1:12%.

Fourth race, the Champion stakes, one mile and a quarter—Lampiighter, 2 to 1, won by one length, driving; Banquet, 12 to 1, second by a length and a half, whipping; Locohatchee, 6 to 1, third by two lengths, whipping. Time, 2:23%.

Fifth race, one mile and a furlong—Julien won by a neck, whipping; Sielpner, 5 to 2, second by two lengths, whipping; Mr. Sass, 10 to 1, third by a length, whipping. Time, 1:53%.

10 to 1, third by a long of the light and a hali; Mitt Young, 10 to 1, second by four lengths, whipping: Rocket, 12 to 1, third by three parts of a length, whipping. Time, 1:41%.

TROTTERS AT ROCHESTER, A Splendid Opening Day and Records Low ered on a Fast Track-California's Vinette Takes the 2:16 Pacing Race in Three

Straight Heats-Some Heavy Dumps, ROCHESTER, Aug. 9.—[Special.]—The fifth neeting of the Grand Circuit began here to day under the most auspicious circum-stances. The weather was all that could be lesired, and no one has ever seen the Roch ester track in better condition, Records were lowered from the start, four of the five heat winners finishing with faster marks to their credit. For a first day the attendance was good and the betting was lively and well sustained to the end.

George W. Archer, President of the association, started the field with E. B. Parsons, of this city, and Chas. H. Page, of Philadelphia, as associate judges. T. O. King, of Hartford, Conn., and "Captain Jack" Dawson, of New York, were timers.

In the 2:29 the contest was a fight between Jesse Hanson and Burt Sheidon, with So Long the daugerous horse in each heat, but again the blocky little grayrnined his chance. After winning the first heat Jesse Hanson went unsteady, Burt Sheldon putting in two heats, though the third should have gone to Hanson. The talent did not lose confidence in the Eastern gelding or old "Jack" Bowen, and he justified their confidence and landed one more. His first heat, in 2:174, lowers his previous record three and a half seconds and takes him out of the 2:21 class. Sheldon chipped half a second off his Pittsburg mark in his first heat.

half a second off his Pittsburg mark in his first heat.

Partly on form, but mainly from local sentiment the Rochester stallion Vitello, owned by C. S. Upton, was backed against the field at 5 to 4 for the 2:16 pace. He won the first heat in 2:14%, half a second faster than his record, thus going into the free-lorall, and the young mare Vinette from California, who won a heat in 2:13% at Buffalo from Vitelle and chased him home in three fast heats, reversed the placings at the other town and won her first victory in three driving finishes.

The Boston stallion, Lamont, was a 5 to 4 favorite for the 2:29 trot. Mart Demarest brought the grandson of Belmont to the score in grand condition. The first heat was only an exercise jog. But in the next two heats Lamont had to show his speed, Nellie R, who won a heat at Buffalo in 2:21%, forcing the stallion out in 2:20 and 2:30% considerably below what he scored at Buffalo. Mayor S. T. Dickinson says that he will miderably below wint he scored at Bonfalo.

## THE PITTSBURG RIFLE CLUB.

It Is Now Thorough'y Organized and Spien did Ranges Will Be Purchased. The Pittsburg Rifle Club is now a tangible affair. A meeting was held recently in the office of the Pittsburg Gas Company, when a temporary organization was effected. On account of the extremely hot weather and the lateness in sending out the notices of the meeting to those interested, there was not a full meeting. However, they organized. with the following officers: George Hodg don, President: W. H. McClelland, Secretary and Treasurer. The Secretary was author ized to purchase a piece of property on Davis Island and have the deed made in his pavis Island and have the deed made in his name as trustee until they obtain their charter, which will be applied for in a short time. The piece of ground bought is on the upper end of the island just below the Government property and consists of 13 acres. Upon this the most complete 200, 800, 900, and 1,000 yard ranges in the country will be erected.

Low yard ranges in the country will be erected.

They also propose to build an elegant club house, the plans of which are now ready. They have already chartered a small steam launch by which they will convey their members to and from the city. Of the 125 shares of stock, the whole amount which they have to dispose of, 85 shares have already been subscribed for. By their next meeting, which will be held this coming Monday, they expect to have all their stock taken up. The subscribers have been notified to pay their first installment on their subscription, which is 50 per cent. The members think the indications point to the organization of one of the strongest rifle clubs in the land.

An Irish Village Being Arranged to Exhibit at Chicago.

ITALY'S QUEEN TO SHOW LACES.

Australia Promises to Take an Active Part

in the Exposition, BUT HAS SOME GRIEVANCES ALREADY

NEW YORK, Aug. 9 .- An Irish village is

being arranged for exhibition at the World's Fair under the auspices of the Countess of Aberdeen and Mrs. Ernest Hart. The latter has the following to say in regard to it: "We shall have seven cottages in which peasant girls and lads from Donegal and elsewhere will be seen at work, weaving, spinning, dyeing, sprigging, carving, etc. The girls will look very pretty in Conne-mara red petticoats, fishwife skirts and blouses and scarlet cloaks. In one cottage a girl will be seen dyeing and spinning famous hand and hearth homespuns, the wool, the lichens and heather of her native bog outside. This operation is certain to prove immensely attractive to sightseers, as

well as the carding, spinning and bobbin "Between this and the next cottage there will be a model dairy in which dairy maids will be at work, churning and buttermaking. I can assure our American cousins they will have a chance of tasting some good butter, as we shall send over some of the world-famed Kerry cows, which will be stabled at the rear. In another cottage which is under the especial care of the Irish Industries' Association, every description of Irish lace will be shown. Sprigging and veining, which are employed in the production of the beau-tiful hemstitched handkerchiefs of Belfast, will be shown."

Italy's Queen to Exhibit Laces. The Countess Brazza, writing to Mrs. Potter Palmer from Venice, touching the hoped-for exhibit at the World's Fair of the historical collection of laces, the property of the Queen of Italy, makes several interesting statements. The Countess says the Queen intends to send the crown laces, "a thing never done by any sovereign of this or any other country. The history of lace begins 1,000 years before Christ, with photog-raphs of objects found in the Egyptian tombs."

raphs of objects found in the Egyptian tombs."

Canada has determined to send an Indian exhibit to the World's Fair.

Sir George Dibbs, the Premier of New South Wales, arrived here on the Umbria today and he feels bitter toward the management of the World's Fair. According to him, the exhibit of New South Wales, which is slmost the only English colony that intends to exhibit, promises to be a failure, and this is what he says: "New South Wales was almost the only colony that intended to exhibit. Our exhibition will be about one-fourth of which it would have been if the Chicago managers had dealt with us as we had been promised. They sentan agent out, by what authority I do not know, who promised everything we might desire in the way of space and accommodations. After we had committed ourselves and spent about \$100,000, they told us that the agent was acting without authority and that we could not have space at all adequate to our wants. The result will be that it will practically runn our exhibit.

particular showing separately. We wanted to make our exhibit on bloc. To classify it will only be to weaken it. We wanted a colective exhibit, but the Fair arrangements do not allow of focusing, and without that do not allow of focusing, and without that I cannot see what advantage there is in the colony's exhibiting at all. If our woods have to be in one place, our gold in another, our silver and wool scattered about among various buildings, the advantage to us of such a display becomes very doubtful.

"I am sure that if we had learned at first what a have since learned we would not "I am sure that if we had learned at first what we have since learned, we would not have exhibited at all. The trouble is we have now gone too far to go out now. As it, our exhibit will be a failure to a large extent. I do not think the colony will exhibit again. My vote and influence shall always be against it, at least.

"Of course, we do not expect to rival America and other older countries. As I

"Our exhibit will be largely in raw ma-

America and other older countries. As I have said, our exhibit would have been chiefly in raw materials, but it would have had an element of noveity that would have made it injeresting even to Americans. As it is, it will be a miserable failure.

"And you may put it down, the feeling is very bitter throughout England. They have an idea that the Fair is not being managed with the usual intelligence that Americans bring to bear on such big enterprises.

Wool Is Australia's Strong Point, "Our most interesting exhibit will probably be in wool, especially merino wools. There has been a great deal of talk as to whether they should be admitted duty free. Well, we do hot care whether they are or not. You have got to have our fine clas wools to mix with your coarse wools. It makes no difference whether you get them direct or go to London for them. It is a wonder to me that the intelligence of the people of America can't see that.

"Heretofore Americans have had it all their own way in our markets, but we are going to take a leaf out of your book. We will manufacture our own wooden nature. will manufacture our own wooden nutmegr hereafter. We have discovered that when a country reaches a certain size it must man-utacture, grow and produce for itself. is insatiable. Espionage is the main emhabitants. On the other hand, if a stranger takes up his abode among them, he becomes a center of observation-a target of conjecture-a standing topic of conversation. His antecedents are inquired into, his character is canvassed, his manner of life is carefully noted, his dress, features, fortune, if he has one, want of it it he has not, are all made the subject of carnest discussion.

But in a bustling city you can settle down anywhere without attracting the slightest attention. You care for nobody, and nobody cares for you, as the song says.

The family in the adjoining house does not recognize you when it sees you, and if you do not publish your name on a door plate, and your servants are not on visiting terms with the kitchen circle next door, you may remain for a twelvemonth a itterly unknown to the beings whos laughter you can hear through the party wall, as if you dwelt in Central Africa. People talk of seeking retirement in the country. The idea is ridiculous. If you want to be isolated from the world, live quietly in the midst of a densely populated and have district. Captain J. J. Vandergrift was among the and busy district.
