THE PITTSBURG DISPATCH FRIDAY, AUGUST 12, 1892.

**GRESHAM A FLOPPER** 

ing to the effect that Judge Gresham had concluded to take the stump in the interest of the Third party, and would make his opening speech at Indianapolis. The latter part of July Chairman Taubeneck received this intelligence from the Chairman of the State Committee of Indi-

ana, to whom Judge Gresham had written declaring his intentions and setting forth his reasons for making a campaign in the interest of General Weaver. In his report to the National headquarters the Chairman of the State Committee of Indiana states that Judge Gresham, in apprising him of his intentions, informed him by letter that he did not refuse the Presidental nomination because he was not in sympathy with the party, but for a reason that was entirely personal and not political.

Chairman Taubeneck Is Delighted.

"How do you like that for a piece of news?" asked Mr. Taubeneck. "It means that one speech from Gresham, no matter whether he makes more than one in our favor, setting forth our objects and indorsing our platform, will win over more than 500,000 votes for the People's party that we would have been unable to control otherwise. With a flattering prospect now in Indiana, the encouraging reports received from the South, and with the silver States behind us, we have good cause to feel hope-

Chairman Taubeneck was asked if he would give Secretary Stoel's letter for publication. This he refused to do.

A special from New York says: Ex-Attorney General Michener, who was General New's able assistant in securing the renomination of President Harrison at Minneapolis, was one of the most welcome visitors at Republican headquarters to-day if he did bring bad news. Bad news it was, for General Michener brought the tidings that Judge Walter Q. Gresham, of Indiana, is in anything but a friendly mood toward the President

# Judge Gresham Feels Slighted.

Judge Gresham has not spoken to the President for eight or nine years, and, although he worked very hard for him in 1888 in Indiana, it was simply for the good of the party. For his work Judge Gresham thought he was entitled to at least a place on the Supreme Bench of the United States, and the fact that he did not get it has em-bittered him more than ever. When the Farmers' Alliance, knowing

Joseph, of Union county, as electors at large. Cole, Sprewd Sheriff's Work. Judge Lynch Cheated Out of a Victim **GETTING INTO SHAPE.** Democratic Headquarters the Scene Considerable Activity-Whitney Issues a Statement-Sorry He Has Been Made a Bone of Contention NEW YORK, Aug. 11.-Things are getting in shape at National Democratic headquar-ters. Hon. Don M. Dickinson, whom the DESPITE MRS. KING'S PLEADINGS fellows at Republican headquarters refer to as "the man with the ginger-ale sidewhiskers," arrived from Detroit to-day, and NASHVILLE, Aug. 11.-Colonel H. Clay King, who shot and killed David H. Posin his wake came Benjamin T. Cable, of Ditnois, ex-Secretary William C. Whitney ton in Memphis over a year ago, who was and others. There was a quorum of the then convicted and sentenced to be hanged, campaign committee on hand, and Chairand whose sentence was affirmed by the Suman Dickinson called them together in the preme Court of the State, and who subse evening. Only routine matters were dis-cussed. The gratifying information was imparted that money is coming in rapidly. Hon. William C. Whitney had read of the quently made a fruitless effort to obtain a writ of habeas corpus from the Federal Court, and later was saved from the galaches and pains of the anti-snappers over his elevation, and he prepared a statement. It was pounded out on one of the many type-writers at headquarters, and it is as follows: lows by a commutation granted by Governor Buchanan, is to-day an inmate of the Tennessee Penitentiary. was pounded out on one of the many type-writers at headquarters, and it is as follows: I quite agree with Mr. Grace. I have no doubt it is quite true, as he says, that there is some dissatisfaction owing to the promi-nence given to me and Tammany Hall. My part has been greatly magnified; it has been made too much of. I have not been a party to it myself, and have refused all bonors in connection with the campaign. These things will wear off. Mr. Grace himself will be very influential in smoothing out differences. It will take a little time. After such a con-test over the nomination as there has been we must expect individual jealousies. In the main our people are united. There is a grand public spirit actuating the party at this moment-a determination to win. I have never seen a campaign open with the same spirit of loyalty and devotion. Mr. Cleveland has publicly stated his determin-ation to forget that there have been any differences. In a short time no one in the syracuse movement will be looking around to see whom he is locking arms with, whether a Tammany man or one of his own people. I see this coming very rapidiy, and an very sorry at any time to be myself the cause of any bad feeling. Taken from Memphis last night to escape mob violence, he arrived here at 7 o'clock this morning in custody of Sheriff McLendon, of Shelby county, and was at once conveyed to the State prison, passing beyond the door at the main entrance of the great stone building. Colonel King was immediately placed behind the bars, and a receipt for the prisoner was handed to the Sheriff. Colonel King, who, when he reached the city, was attired in a neat suit of black, met Mrs. King, his devoted wite, and her son at the depot, the two having come to the city on different roads. Miss King, his daughter, accompanied her mother and brother from Memphis to Nashville, coming on the Nashville, Chattanooga and St. At Republican National headquarters in

ing on the Nashville, Chattanooga and St. Louis Railway, via Mackenzie, while Colonel King and Shëriff McLendon went on the Chesapeake and Ohio Railroad as far as Nortonsville, Ky., and taking the Louisville and Nashville Railroad there, came to the city, the train reaching here a few minutes after the one on which Mra King, her son and daughter were pas-sencers. was the gossip that the President is to stop was the gossip that the President is to stop over in New York on his return from Loon Lake, the first week in September or there-abouts; that the New Yorkers, it is declared, are to get up a reception for him in Madi-son Square Garden; that all the chieftians are to be on hand, and that the President is to make the greatest encade of his life sengers. Mrs. King, and son accompanied Colonel King and Sheriff McLendon to the peni-tentiary, while Miss King came up town. While on the way to the prison Colonel King signified his desire for a drink of whisky, and the carriage was stopped long enough for the prisoner to satisfy his ap-petite for liquor. are to be on hand, and that the President is to make the greatest speech of his life. William Brookfield, Chairman of the State Committee and President of the County Committee, has been with the Presi-dent at Loon Lake for several days. It is given out that the Republican Na-tional Committee will not openly take a hand in the Atshama dimute between Kolb

hand in the Alabama dispute between Koll and Jones, but, at the the same time, that Private Conference With His Wife, fight has been determined upon, and that it will be directed through the underground wires leading out of Hon. Thomas Henry Carter's bureau at 618 Fifth avenue.

# COON PLAYING IN HARD LUCK.

an Ex-Government Official Prevented h Politicians From Getting Office Again.

WASHINGTON, Aug. 11.-[Special.]-Every time a vacancy of any importance o curs in the Treasury Department the name of ex-Assistant Secretary Charles E. Coon. of New York, is brought to the front by some of his over-zealous friends. The resignation of Assistant Secretary Crounse, and the probable retirement of Assistant Secreta-ry Nettleton at an early day, will create two vacancies in the Treasury Department, both of which Mr. Coon-formerly occupied. He was an efficient officer during his long service in the Treasury Department, prior to the Cleveland administration, and many of his friends would like to see him re-enter the public service. When the Harrison ad-ministration was inaugurated a strong pressure was brought to bear upon the late Secretary Windom to restore Mr. Coon to his former position as Assistant Secretary. The opposition came from prominent New Yorkers, who did not consider him of suf-

gusted with the proceedings and proceeded to paint the town red. He proclaimed him-self Sheriff of the county, entered business establishments and ordered the doors closed claiming to have an execution. The pro-prietors insisted on the papers, which he was unable to show.

by a Shrewd Sheriff's Work.

prietors insisted on the papers, which he was unable to show. At one place he became so abusive that an officer was called in and the Sheriff locked in the city prison, where he de-stroyed a portion of the cell and became so abusive that the hose was turned on him. To-night he was released on bond and said he guessed he had made a fool of himself. THE RIDE TO STATE'S PRISON. Warden Elevins Compelled to Fut the

# TIME FOR PRECAUTION.

Care Being Taken in New York to Preven the Spread of Smallpox-Instructions as WASHINGTON, Aug. 11.-"A very great deal will be accomplished," said Prof. to Vaccination and Sanitary Inspection-Vigi'ance the Price of Health, Asaph Hall, "by the observations taken of

NEW YORK, Aug. 11.-[Special.]-Because of the large number of cases of smallpox which have occurred in this city during the past month, President Wilson, of the Health Board, Dr. Cyrus Edson, the sanitary superintendent, and Dr. Charles F. Roberts, Chief of the Bureau of Contagious doubt will now be certainty. Diseases, have held conferences to decide what steps to take to guard against a possiwith a great deal of interest. This article ble epidemic. was of more than ordinary interest to me from the fact of the great advantage of

Dr. Edson said to-day that at vesterday's conference it was decided that while during conference it was decided that while during the present season the danger from small-pox was at its minimum, the appearance of so many cases indicates a possible outbreak of the disease during the coming fall and winter. It was resolved to adopt energetio measures to guard against such a possibility. The district within which the disease has his zenith. Besides this, he is at an elevation of 8,000 feet above the sea level, and consequently looks through much less atmosphere and mist than I do here at Wash-The district within which the disease has been mainly confined lies between Canal and Fourieenth streets, Broadway and the North river. This territory has been di-vided into 20 districts, to each of which will be assigned a sanitary inspector. The inspectors will begin to-morrow a house-to-house visitation of the districts. They are to observe and report the sanitary condition and with the planet Mars sway off to the

South. "I note that Prof. Pickering mentions having seen two large areas near the Equato observe and report the sanitary condition

of each house. These instructions to the inspectors were ssued by Dr. Roberts:

issued by Dr. Roberts: You will visit every apartment therein occupied by a family in the district assigned you. Examine thoroughly, and fully satisfy yourself whether there is or has been any case of smallpox in the premises. Take memorandum of each house by number, and number of families visited in each. If a case is found, developed or suspicious, telephone this office immediately. Vaccinate all per-sons who wish or who have been in any way exposed. Recommend every one to be re-vaccinated as soon as the cool weather will admit, both adults and children. Before vaccinating, cleanse that portion of the arm where the virus is to be applied with an antiseptic solution. Virus needles, antiseptic solution, and lint will be supplied at this office. Make return of those visited at your regular weekly report. More persons have been vaccinated dur-

More persons have been vaccinated dur-More persons have been vaccinated dur-ing the past six months than during any similar period. Up to August 1 86,000 vac-cinations were made. The physician who attended Joseph Daneri, the Italian candy maker who was found dead yesterday from smallpox in the tenement at 101 West Hous-ton street, has been asked to explain to the health dearst why he foiled to explain the direction of the seas. I, too, saw it. "The large dark area which Prof. Pickerhealth department, why he failed to report

the case. IGNORANCE AIDS CHOLERA.

#### Another Fleres Plague Blot Reported From a Turkish Province.

CONSTANTINOPLE, Aug. 11.-A dispatch received here from Trebizond states that on August 5 a serious disturbance occurred at Platana, seven miles west of Trebizond. The trouble arose from the enforcement of sanitary regulations adopted by the Turkish officials to prevent the spread of cholera. Nearly 1,500 persons were detained at the lazaretto at Planata and they attempted to break through the sanitary cordon. The break through the sanitary cordon. The local authorities were powerless to handle the crowd and a battalion of troops was hastily summoned to quelt the disturbance. The soldiers responded and orders were given for the crowd to disperse. They refused to do so and the commander ordered his men to fire. At the first volley seven persons were killed and a large number were wounded

killed and a large number were wounded. The people were terror-stricken and fied back to the lazaretto. Advices from the Crimes and the Cau-casus state that the cholera is decreasing in

# ing material for maps, which, made under such favorable conditions, will be more valuable than any yet produced. I look for good results also at the Lick Observatory. "The main object of his visit to Arequipe, you know, was to photograph the stars, nebule, alusters and spectra. He sends us the photographs that he takes down there, and we study them here. You see it is like this: The brain is here, the eye is there. Incidentally he is making a careful observa-tion of Mars. Down there, you see, he has PROBING THE MYSTERY The Telescopes Piercing Farther Into ADDITIONAL LIGHT EXPECTED. Incidentally he is making a careful observa-tion of Mars. Down there, you see, he has all the night to work, for Mars is visible from sunset to sunrise. The senson of rainy weather comes all at one time of the year. During August there will not be one un-pleasant night there, while here we will probably have so many each week. Value of the Observation Being Taken in THE VIEWS OF LEADING ASTRONOMERS A Good Chance for Study.

A Good Chance for Study. "He will not make many photographs of Mars, but careful drawings. By Mars being visible all night, you see, he can take sev-eral views of a certain point on its surface when one side is visible during the early evening; early the next morning another side isseen. This gives a good opportunity for study. The huge areas of snow he speaks of seeing are nothing but white spots near the poles. They are supposed to be snow because when near the sun they grow smaller and when turned from the sun they Mars at the present time. I am greatly encouraged by the results, not only of my own bservations, but more particularly by the lieve that a good many things about which heretofore there has been an element of smaller and when turned from the sun they grow smaller and when turned from the sun they appear larger. The blue line near the Equator is said to be an ocean, but we have no more proof that this is so than we have that the green spots are vast forests or that the red spots are vast areas of red stone or the red spots are vast areas of red stone or rocky mountains. Next spring my brother will return, stopping first in Chili to observe the eclipse of the sun, which occurs April 15 to 16. Mr. Bailey will then take charge of the station, for we intend to keep some one there all the time."

# LABOR LEADER RIVALRY

May Drive the New fork Walking Delegate Out of the Field-A Scheme on Foot That Would Abolish the Present System Employed in the Ble City.

NEW YORK, Aug. 11.-[Special.]-Dis-trict Assembly 253, Knights of Labor, feeltor which are permanently blue. He says that the total size of the area is about 500,-000 square miles. I have seen these also, but I have not seen the small dark spot he ing slighted by the way in which it has been overlooked in the settlement of the mentions as having appeared in the south-ern snow cap. He says that this spot lengthened rapidly and that early in July it was 1,000 miles long, dividing the snow late building strike by the Board of Walking Delegates, is, it was stated to-day, considering a plan for doing away with the in half. "This occurred before I began my ob board altogether. During the strike a great deal of rivalry developed between the two bodles. A member of the district said to-

rate what Prof. Pickering says. He also states that 1,600,000 square miles of snow have melted within the last 30 days, and day; "Our idea is to abolish the board alto-gether, and have 12 or 13 inspectors apthat the snow has apparently been trans-ferred into the seas across land. This is unpointed under one chief. They would be very carefully picked from the chief trades, doubtedly the case, and, as you know, it is because this white substance melts, which leads us astronomers to call it snow. and would perhaps have higher salaries, than the walking delegates. The plan is to assign an inspector to one district of the city and make him responsible for it. We suggested it some time ago, and will bring "I am much gratified that Prof. Picker-ing, as well as myself, has observed the dark line in the form of a Y-shaped mark in

it up again. "How are these inspectors to be selected?"

ing believes to be a lake or sea did appear near the melting snow, and later the out-lines of the northern sea were again seen stretching north from the snow. "We would issue a call to all the local assemblies in our district to send the names of eligible men to a general meeting of the district. The selection will be made with due regard to the special fitness of each

TRADITION RUINED. The Cruiser Marblehead Is Christened by a Married Woman INSTEAD OF BY A YOUNG MAIDEN.

> Description of the Warship Launched at Boston Yesterday.

7

A SFA TERROR WITH 20 HUGE GUNS

Boston, Aug. 11.-Before 1 o'clock, the hour set for the launching of United States cruiser No. 11, the immense shipyard of Harrison & Loring, South Boston, was a lively place, with its busy shipwrights hur-rying to and fro under the towering mass of steel, putting on the final touches of lubricator to insure a perfect launch.

Added to this scene of busy work was that of the gay holiday makers who had come by invitation of the contractors to see the ship meet the water. There were hupdreds of them, and, like the ship, they were dressed in their gayest colors. Assistant Secretary of the Navy James Russell Soley represented the Government at Washington, and Governor Russell and a number of members of the Legislature were present for Massachusetts. The city of Boston was also well represented by members of the Board of Aldermen and the Common Council.

Mrs. C. F. Allen Breaks the Bottle.

At the appointed hour the signal was given to knock away the shores, and amid the cheers of the spectators cruiser No. 11 slipped slowly down the ways into the water, christened the Marblehead. Mrs. C. F. Allen broke the customary bottle of wine over the ship's bows as the vessel

plunged into the sea. The principal dimensions of the vessel The principal dimensions of the vessel are; Length on mean load water line, 257 feet; extreme breadth, 37 feet; depth of hold to under side of spar deck plank amid-ships, 19 feet 6 inches; draft of water mean normal, 14 feet 6 inches; displacement in tons to load water line, 2,000; area of im-mersed midship section, 665 square feet; indicated horse power, 5,400; maximum speed per hour, 18 knots in smooth water. She is a twip screw protected eminer

She is a twin screw protected cruiser, with poop and forecastle decks and an open gun deck between, fitted with a water-tight deck of 17½ pounds, plating at the sides, reduced to 12 pounds in the center, and en-

tending the entire length of the vessel. The torpedo outfit will consist of six tor-pedo guns for launching torpedoes. There will be an electric light plant on board.

How the Cruiser Will Be Armed.

The battery will consist of two six-inch breech-loading rifles, eight five-inch breech-loading rifles mounted in sponsons four on each side of the cruiser; six six-pound and two one-pound rapid-firing guns and two gatling guns.

The motive power for the twin screws will be furnished by two triple-expansion engines of the vertical inverted type, one

engines of the vertical inverted type, one on each side of the vessel. The vessel was designed by Chief Con-tractor Theodore B. Wilson, of the United States Navy. The machinery, which is to be placed into position a few months after the launching, was designed by Engineer in Chief George W. Mellville, of the Navy Department. Department.

Department. A dispatch from Washington says: It was at last determined by the Navy De-partment who should christen the cruiser Marblehead, and that/duty devolved upon Mrs. Charles H. Allen, wife of one of the constructors of the vessel. There has been some dispute as to the propriety of having a married woman christen a vessel, the usual custom being to have the duty performed by a young maiden, but in view of formed by a young maiden, but in view of the fact that two naval vessels, the Balti-more and Raleigh, were christened by mar-ried ladies, the precedents are regarded as no longer binding.

### Sult for Conspiracy and Libel. Parquato Guarana, Konio Bias and Vet

Private Conference With His Wife. When Colonel King had been turned over to the custody of Warden Blevins, Mrs. King, who was somewhat agitated, asked the Warden to allow her to speak to her husband in private. Permission being given, Colonel King and his wife retired to an adjoining room. After the husband and wife had a long talk they returned to the Warden's office, and Colonel King asked Mr. Blevins for a drink of whisky. The Warden replied that his request could not be granted. be granted. Mrs. King then brought up the question whether her husband would have to wear stripes. She pleaded in a most earnest

stripes. She pleaded in a most earnest manner with the Warden, citing the high position of the family, the number of prominent people who had asked the Gov-ernor to commute the sentence imposed upon her husband, the age of the prisoner, and finally saying that Grover Cleveland had written a letter to one of King's relatives favoring executive elemency. Her needing was in warden Bleving say. pleading was in vain, Warden Blevins saying: "Madame, if Grover Cleveland should come with you personally, or if any other man should come, I should still put the stripes upon Colonel King, as upon any

Buchanan says you may leave them off, will you?" The reply was "No. Madame; it is my duty, as Warden of the penitentiary, to

other prisoner. The Colonel Must Wear the Stripes. Mrs. King then inquired, "If Governor

until death closes his remarkable career on a pardon is granted by some Governor. Be-

ing old and unused to manual labor, he will

be given light employment. Sheriff McLendon said that yesterday aft-

the free trade views of Judge Gresham, offered him their candidacy for the Presidency, he thought of it for same time. It was a great relief to President Harrison when he refused the nomination, for Gres-ham has not only a grand following among the Republicans in Indiana, but all over the country. They assert that they know him to be a man of sterling worth, perfectly honest, and strongly in favor of a pure ballot The Judge carries his dislike to such an extent that he will have nothing to do with the President, but Gresham' friends have been frequently recognized in Indiana. The attitude of Gresham will probably cause the defection of many votes in Indiana. Preparatory steps are bein taken to put extra speakers in Indiana, and General Michener will have personal charge of the campaign in that State.

# Some People Not Much Surprised.

A telegram from Indianapolis says: Henry Vincent, editor of the Non-Conforspeaking of the telegram from St. Loui announcing that Judge Gresham would take the stump in the interest of the People's party remarked, with a smile, that it sh of a surprise to him.

"Last July, when the committee waited upon Judge Gresham with a view to induc ing him to accept the nomination." said Mr. Vincent, "he gave the members to un-derstand that he would make several speeches before the campaign closed. There is no question in my mind that the story is genuine. When Otto Gresham was here, about a week ago, he informed me that in a few days he would have some good news for the People's party, and I suppose he referred to his father's intention

to take the stump. "Of course the majority of the Judge's speeches will be delivered in Indians, although he may make some in Illinois, where his popularity is fully as great as it is in this State. It may sound like an exaggeration, but I believe that Judge Gresham will make 50,000 votes for us right here in Indiana. He is in hearty sympathy with the movement, and will, beyond all question, wield a most powerful influence in this State.

None of the People's party men here knew anything further of the letter. John Strange, the State Chairman, lives off the line of telegraph communication and could not be reached to-night. Republicans pro fess not to believe the dispatch, and point to the fact that the Judge, when right ! line with the Republican party, retused to make speeches on the ground that such a course would be unbecoming in a man on the Federal bench.

A telegram from Boston says: A careful inquiry at all the hotels in Boston show that Judge Gresham has gone to Cape Cod. His exact present whereabouts cannot h He left word that he would ascertained. not return until the last of the month.

# ANOTHER HEARS THE NEWS.

The Prohibition Presidental Candidate No. tified of His Nomination.

WACO, TEX., Aug. 11.-The Notification Committee of the National Prohibition party reached here to-day, and to-night, in the presence of more than 1,000 people, the formal notification was made. Hon. George C. Christian, of Arkansas, chairman, de-

livered the address of notification The address of acceptance by Dr. Cranfill was characteristic. It was eloquent and full of humor. Taylor, Treasurer; T. E. W. Ad-auns, Auditor General: Myron H. Walker, of Grand Rapids, Attorney General; A. M. Ben-edict, Commissioner State Land Office: Rob-ert D. Avana, Superintendent of Public In-struction; Dr. Alfred M. Webster, Member of State Board of Education. LONDON, Aug. 11 .- Many alarming reports have been spread lately regarding the health of Mr. Gladstone, some of them stating that it was believed he was on the verge of collapse, and that he would never

verge of compact, and that he would never be able to stand the worry and strain of Parliamentary battle. His masterly speech Tuesday on the amendment to the address in reply to the Queen's speech showed no failure in his mental capacity. As to his physical health, Herbert Glad-Cosmas Garniski Tells a Woful Tale at the

stone, his son, calls recent reports "mere rubbish." He intimates that these reports Cosmas Garniski was brought to the rubbish." He in timates that these reports were spread by the Tories for a purpose. Considerable comment was caused by Mr. Gladstone suddenly leaving the House of Commons Tuesday, and it was hinted that his speech had proved too much of a strain upon him. Herbert Gladstone explains his father's sudden withdrawal as being solely Southside Hospital yesterday by the patrol wagon suffering from starvation. He was in a pitiable condition, and was so weak that he could hardly walk. He was given medical attention, but will not likely be able to leave the hospital for ten days or

due to his desire to catch a train. MADE A FOOL OF HIMSELF.

# An Ohio Sheriff, While Away From He Has the Hose Turned on Him.

COLUMBUS, O., Aug. 11.-[Special]-Sheriff A. J. Crilley, of Licking county, came over from Newark yesterday to at-tend the meeting of the Democratic State Sheriff A. J. Crilley, of Licking county, came over from Newark yesterday to at-tend the meeting of the Democratic State Executive Committee. He became dis-Pummell, laborer.

Mrs. King, who was deeply moved, asked if her husband's face and head must be virulence. In Northern and Central Russie owever, the disease is increasing, and in shaved and received a reply in the nega-Moscow, 23 more factories have tive. Warden Blevins also informed Mrs. losed, owing to the spread of the lague. The Grand Duke Sergius, King that she might call upon her husband Wishing to avoid seeing her husband in a convict's cell Mrs. King then left the prison. After her departure Colonel King was brought into the clothing room, where of Moscow, has surprised the Governor people by his display of personal energy in dealing with the plague; while the Grand Duchess Elizabeth, granddaughter of Queen was brought into the clothing room, where he was measured and his description entered in the records. He then put on the stripes, and at 10 o'clock the great gate at the inner entrance was opened and a mo-ment later it closed upon him. He was con-ducted to wing No. 3, where he will remain

Victoria, devotes her personal attention to the relief of the sufferers. Besides the sanitary precautions taken, prayers are of-fered up daily in the churches for the abatefered un nent of the pestilence.

# WINNIPEG SOCIETY CONVULSED

### By a Scandal Affecting a Man Prominent in Milltary Circles.

WINNIPEG, MANITOBA, Aug. 11.-Th arrest of Colonel Ray, & prominent banker and military man of Port Arthur, wellknown throughout the entire Dominion has created a tremendous sensation. Colonel Ray met on the street Mrs. Bathurst, wife of Dr. Bathurst, a well-known physician, and engaged her in conversation over church matters. They walked toward the Bathurst residence and when it was reached. the Colonel asked permission to enter to continue the conversation.

A few minutes after entering, Ray grossly insulted the lady, the effect of which so startled her that she swooned away. When the lady recovered she at once alarmed the household. Colonel Ray away. once alarmed the housenoin. Concertainty hearing that proceedings were to be taken, wrote a friend a check for \$5,000 to suppress This she indignantly refused and at once swore out a warrant for the man's arrest, which was executed. Dr. Bathurst, who was out of the city, did not return until the following day. He is furious over the affair and swears to shoot Bay if he escapes justice in the courts. Ray is out on bail.

### ANOTHER SEARLES FIGHT. Tasked.

### Forty Relatives to Bring Suit Against the Beneficiary of the Will,

NEW YORK, Aug. 11.-The announce ment to-day that the relatives of the late Mrs. Hopkins-Searles are about to bring suit against her husband for what they considered their fair share in the estate, caused surprise in this city. The attorneys for Mr. Searles say there is no possibility of such a suit, in as much as the relatives of Mrs. Searles have no claim whatever upon her husband. If they have any claims to put forth, the time to have done so was before the will was admitted to probate and the estate placed in the hands of Mrs. Searles execut

The 'relatives declare that after he had made a settlement with Timothy Hopkins, Mrs. Searles' adopted son, Mr. Searles promised them each \$25,000 if they would to oppose the admission of the will to pro-bate. There are 40 odd relatives of Mrs. bate. Searles, and they, it is said, propose to join issue and do what they can legally to recover what they claim as their own.

# CRUSHED UNDER A STONE WALL.

Five Killed and Two Injured by a Collaps at Hartford City, Ind.

HARTFORD CITY, IND., Aug. 11 .- This afternoon at 3:45 o'clock a heavy stone wall in the tankroom of the Hartford City Glass Works caved in, killing five men and badly injuring two others. The falling of the wall was caused by the pressure of a heavy dirt filling placed behind the walls and de-fective masonry. At the time of the acci-dent the men were attempting to prop the

And the second is the second

We have every reason to believe that there is animal and vegetable life there, but whether it will be known positively or not I would not undertake to say. That would be a guess, and guessing is not

n my line." What do you think will be accomplished if the immense telescope now talked of is

built? "I have very little definite information with regard to this new telescope. The in-tention is, however, I understand, to make it several times larger than the celebrated Lick telescope. This, of course, would be a great advantage, even assuming that in the process of construction no improvement were discovered.

"The Frenchman who wants to construct this telescope, however, wants to construct upon a new principle, and of course there is an element of doubt, therefore, as to its

success. So I guess we'd better wait until the instrument is constructed before you try to have me draw any more conclusions.' Interested at Harvard Observatory A dispatch from Boston says: Prof. E. C. Pickering, of the Harvard Observatory, had read with a good deal of interest the dispatch from his brother, W. H. Picker-ing, located at the Harvard branch station

in Arequipa, Peru, observing the opposition of Mars. "This is the first news that we have received here of my brother," said he. "We know that he went to South America with the intention of doing the best work possible and do not doubt that he is doing so. The description of the equipment which my brother took with him is all right with one exception. That is the statement that the exception. That is the statement that the visual 12-inch telescope was last year sent to Arequipa. Such is not the case, the in-strument still being here with us. The 13-inch photographic telescope they have is also visual, although I see the description does not say so. The lens of this 13-inch telescope is normalized and the terminet of the terminet telescope is very convenient, as by turning it one way it can be photographic and by turning it the other way it is made visual." "Is this your invention, Mr. Pickering?"

Invented the Double Telesco

"Yes, partly so," said he. "I got them up with Mr. Clark, the telescope maker. It was a very singular fact, though, that Sir George Stokes, President of the Royal Society, and Sir Howard Grubb, of England, produced a similar invention at the very same time. It is something that astrono-mers had long felt the need of. The first photograph ever taken of a star was taken July 17, 1850, and was the result of an experiment in stellar photography under the direction of Prof. W. C. Bond. Mr. J. A. Ripple placed a sensitive daguerrotype plate in the focus of a 15-inch equatoria telescope, which, by means of its driving clock, was kept pointed upon the star. The

result was very satisfactory. "Newspapers have made the point about the peculiar advantages of our station in Arequipa sufficiently clear. The air is so much steadier there that with his 13-inch telescope my brother can get better results in Are quipa than we can up here with a 28-inch telescope. If some man of wealth wants to do a good thing he can send a big telescope down there, and better opportunities for observing Mars and the other planets and stars will be had than ever before." "How much would it cost to send a big 36-inch telescope down there?" I asked.

Chance for a Rich Man.

"Well, the telescope alone would cost about \$100,000, then the cost of mounting would be considerable and also the work of erecting a building for it. I would not say that you could see men digging canals on Mars, but there would be better results than in any other part of the world. I sup-pose there are wealthy men in New York or other parts of the country that would give the necessary money if the matter was

or other parts of the country that would give the necessary money if the matter was brought to their attention. "My brother, you know, made a study of Mars before going to Arequips, so that he could learn just how much more could be seen down there than here. He is collect-

the kindness to come up to his room he would show him papers to prove that his name was Moore. The detective went up to the room, where

the young man showed him papers lying in the bottom of a large sample trunk. Balley atooped over to pick them up, when his prisoner seized him by the heels, dumped him into the trunk, slammed the lid, locked the door of the room and made his escape. It was 15 minutes before the detective was eleased from the room, and he is now huntng for his man with small chance of find-

HE DISAPPEARED MYSTERIOUSLY.

The 2-Year-Old Boy of John Bats Found in the Road.

Anthony, the 2-year-old boy of John Batz, of St. Clair township, who disappeared so mysteriously Wednesday night at 11 o'clock, was returned to his parents yesterday morning shortly after 6 o'clock. For a time it was thought the child had been kidnsped, and his parents

child had been klonkped, and his parents were greatly alarmed. Yesterday morning his father appeared at the Twenty-eighth ward station and reported that his child had disappeared, but the police could do nothing as it was outside the city limits. He said that he had left the child was unwell. His wife had gene away to visit Mrs wife had gone away to visit Mrs. Stein, a sick neighbor. He went into the house, but when he came out about midnight the child was missing. A search

was instituted, but without success. Mrs. Michael Glekl, who brought the child back, said that about 2 o'clock in the morning she was awakened by the furious barking of their dog. On going out she found the little boy in the road and took him in. She had kept him till on learning where he belonged she returned him imme

diately. How the child could have gotten away without attracting attention is still a mys-tery. The door was said to be tightly fastened and could hardly be opened by the little fellow. He was also found quite a distance from home, and that at an un seemly hour.

TO MEET TO-DAY.

Green Bottle Manufacturers and Their Em ployes Will Confer,

The Western bottle manufacturers and their employes will meet this morning to arrange a scale for the ensuing year. A peedy settlement is expected.

Mr. Harvey, one of the committeemen, last evening said: "The delegates have mostly arrived and will be ready to meet to-morrow. It is probable that the old scale will be adopted with very few changes. We expect that the session will only last

one day. The condition of the green bottle business is very encouraging, and the men are all satisfied."

# A DESERTER'S BREAK FOR LIBERTY.

# He Leaps From a Train Near Altoons While Going 40 Miles an Honr.

ALTOONA, Aug. 11 .-- C. L. Killen, s deserter from the United States army on his way from Pittsburg to New York to stand trial, jumped from the Eastern express to-

trial, jumped from the Lastern express to-night near McGarvey. The train was run-ning 40 miles an hour. The prisoner was in charge of Martin Melvin, Sergeant from the Pittsburg re-cruiting station. An extended search has been made, but Killen had not been found at 1 clubr. at 1 o'clock

A Texas Family Stricken by Lightning. ABBOTT, TEX., Aug. 11.-Lightning struck the house of J. H. Williams this

morning, horribly shoeking the whole family. A 6-year-old boy was instantly killed and another boy and girl were so badly burned it is thought they cannot re-OOTEZ

Donpi, Italians, were committed to jail yesterday by Alderman Cahill on charges of conspiracy and criminal libel preferred by John Ruban, of Seventeenth street and Penn avenue. Mr. Ruban alleges that the defendants have for the past year been writing threatening letters to him accusing him of some trifling matter which occurre in the old country. He also claims that they drove him out of his home on High street by telling the landlord untrue stories about him. The case will be heard to-mor row.

Checked-the progress of Con-sumption. It's cured, too, if it's taken in time. What is needed is the one unfail-ing remedy for Scrotula in all its forms-for one of those forms (Lung-scrotula) is Con-

Purify your ng. Rid it of the blood-that's the first thing. Rid it of the taints and poisons that make it easy for this dreaded disease to fasten its hold. Then if you haven't delayed too long, you can be

cured. From beginning to ene, the remedy is Dr. Plerce's Golden Medical Discovery. It's the most potent blood-cleanser, strength-restorer, and flesh-builder known to medical science. Consumption, and every form of Scrofula and blood-taint, all yield to it. For Weak Lungs, Spitting of Blood, Bronchitis, Asth-ma, and all severe, Ingering Coughs, it's an unequaled remedy—and the only one for the Blood and Lungs that's guaranteed. If it doesn't benefit or cure, in every case, you have your money back.

I am having a big sale on my 2-pound con Columbia River Salmon at 200 a can. The best bargain in salmon ever offered.

I want all my customers to embrace the privilege of buying the very best Granulated Sugar at 4% a pound by the barrel. This magnanimous offer will continue for another week.

It appears to many incredible that I should sell Vancleef Flour at \$1 29, but come and see.

My 25c Coffee is 28c everywhere. New pack early June Peas at 10c a can. New pack early June Peas, small and fine flavored, 2 cans for 25c.

McKee's IXL Wax Soap has the call, and to wonder, when it is full weight and 7 ounds for 25c; by the box, \$8 35.

Kirkoline Sosp Powder, & 4-pound box for 20c. This is only 5c a pound and you are paying 13c a pound for all other scap pow-ders. Don't willfully throw, your money

away. This is the place to get the finest Lim-

berger Cheese at reduced price. I am still selling the fancy French Pea, Bartlet Moyne, at 2 cans for 25c. Mustard Sardines, 3 cans for 25c. 50 Boxes Olene Soap at a bargain.

Werk's German Mottled Soap, 33 a box. Don't fail to get a bottle of our Sounce anilla for 20

Moore & Brady's Cove Oysters, 3 cans for

New Lake Herring, per kit, 55c. Fine Roasted coffee 3 pounds for 50c. I sell a whole box of Colgate's Soap for 55c. Send for price list, and order by mail. Goods sent anywhere, freight prepaid.
