full equipment of men. Working on the Jebbing Scale, The jobbing scale is all but settled. Sec-retary Jarret, of the Association of Iron and Steel Sheet Manufacturers met Presi-dent Weihe, of the Amalgamated Association Saturday night. Some concessions were made by Mr. Welhe, but the scale was far from being fixed after their conference.

Mr. Jarret called upon Mr. Weine again
yesterday. They discussed the jobbing
scale and some other items were fixed.

The two officials would probably have settled their differences yesterday, but President Weihe was called to attend the meeting of the Lawrenceville workers. Today there will be another conference, when President Weihe expects that the prices for

certain special gauges and sizes will be de-termined and the jobbing scale signed.

As soon as this is accomplished five more mills under the jurisdiction of the Amalga-mated Association will be put in operation The concessions in the jobbing sheet mills will be about 10 per cent of the former prices, or about the same as the reductions

THEY WANT MORE MONEY.

B. & O. Telegraph Operators Preparing Scale of Wages for the Boad,

The telegraph operators from 22 divisions of the B. & O. road are holding a meeting at the St. Charles Hotel to consider the question of wages and a number of grievances. J. T. Nolan, of Washington, is the Chairman and E. D. Greib, Secretary. The operators belong to the Order of Railway Telegraphers. Mr. Nolan says they have 36,000 members in the United States. The boys claim that for the skill required they are paid less than any other class of men in the railroad business. For one thing they want the minimum rate of wages fixed at \$50 per month, and they think they ought to be paid for overtime, especially when they are held by wrecks. Mr. Nolan was careful to explain that they had no special grievances against the B. & O. road. They will ask for a small advance in wages, and believe they will get it. The grevances are not of the same order, but each man has something to complain about. The scale of wages prepared will be presented to the Baltimore & Ohio road, to be adopted on the line between Philadelphia and Chicago. If successful a scale will be arranged tor The advance in the rate per hour will be from 2 to 3 cents, and not 25 cents, as re

Three New Signatures.

Excluding the Pittsburg manufacturers there are now 93 iron firms who have signed the new Amaigamated scale. Three new firms were added to the list yesterday. They were the Labelle Iron Company, the Etna Iron and Steel Company, of Bridge-port, O., and the Terre Haute Iron and Steel Company. These companies have not yet forwarded their steel scales.

The New Iron Scale,

The Iron Scale Committee, consisting of two local iron manufacturers and two members of the Amalgamated Association, have formulated some of their plans for the printing of the new scale. After the Conlerence Committee returns from Youngs-town the matter will be entirely adjusted.

Mill Men Refuse to Work.

At the iron works of Spang, Chalfant & Co., in Etna, although the Amalgamated scale has been signed, the workmen have refused to return to work. They demand that the non-union men employed in the plate mill be discharged. This the firm retuses to do and the mill is idle.

Reseming Work at Briddock. The rod mill of the Braddock wire mil

started up yesterday, and the nail mill will resume operations to-morrow morning. Furnace A, of the Carnegie blast furnaces, was blown out yesterday for repairs. Furnace F is also out of blast.

Glass Works Start Up. The co-operative glass works at Beaver

Falls started yesterday morning, after being idle for six weeks. The prospects are good for a big fall and winter trade. There Is No Place Like Home.

Samuel Paisley, Superintendent of Highland Park and the East End streets, accompanied by Foreman Burke, returned from a ten days' trip West vesterday. They collected data and ideas in Chicago and other cities which will be incorporated in Pitta-burg park improvements. Paisley says he saw no parks while away equal to those in this city.

Gets Another Trial for Selling Tobies. The case of James Wamples fined \$25

and costs by 'Squire Hughes on information of Constable Long for selling tobies and cigars on Sunday at McKeesport, was carried to the Common Pleas Court yesterday. The case will be argued before the court in

CLASSES OF TEACHERS.

New Method to Be Adopted at the Allegheny County Institute.

The forty-second annual session of the Allegheny County Teachers' Institute will open in the Pittsburg High School next Monday atternoon. The instructors will be Hon. D. J. Waller, Superintendent of Public Instruction of State of Pennsylvania; Hon. A. S. Draper, ex-State Superintendent of New York; Dr. A. E. Winship, Boston, Mass.; Miss Mathilde E. Coffin, Detroit, Mich.; Dr. A. E. Maltby, Slippery Rock, Pa.; Dr. T. B. Noss, California, Pa.; Professor Charles W. Deane, Indiana, Pa.,

and Professor Emory P. Russel, Boston, Mass. This year the institute will be divided into classes, thus: Class A, primary work; class B, intermediate work; class C, grammar school work; class D, ungraded school work. This division is expected to overthe difficulties arising from attempting to instruct a large body of teachers in one room during an entire week. Thursday afternoon has been set apart as Directors day, and addresses will be made by Hon. D. J. Waller, Hon. A. S. Draper and Dr.

CLUBBED HIS WIFE.

The Wife of Charles E. Gray Now Under

the Care of Dr. Mover. Charles E. Gray, a Ross street resident, was committed to jail vesterday by Magis trate Gripp to await a hearing on a charge of aggravated assault and battery, preferred by Inspector McKelvey. On Saturday morning last the prisoner attacked his wife and used her up so badly that the woman is under the care of Police Surgeon Moyer, and unable to leave her bed. Gray will have a

Lost for the Sixth Time.

Mrs. Caroline Weir, who is slightly demented, wandered away from her home at No. 61 Lowry street, Allegheny, yesterday forenoon and is lost." She is the wife of Charles Weir, is 52 years old, has dark hair tinged with gray and is of slight build. She wore a light blue sunbonnet and a blue calico wrapper. This is the sixth time she has wandered from home. She usually makes for the country, and has been found many miles from the city.

STARTED A NEW MIL

The Bessemer Converter at Homestead Now Running on Single Turn.

FIRED AT THE UNION MEN

Who Pursued One of the Workers Who Took Their Places.

A TINNER HELD UP BY MAIDENS.

Chairman Frick Expected to Be at His Office This Morning.

THE FIRM IS SANGUINE OF SUCCESS

The feature of yesterday ar Homestead was the starting of the new Bessemer converting mill on single turn and saccessfully. Shortly after 1 o'clock Manager Potter and a number of other Carnegie Company officials assembled at the new building. A turn of men was singled out and brought into the works. The new and ponderous machinery was explained in every detail. Each man was shown what he had to do,

and they all proved to be apt pupils. This mill was just completed a short time ago, and until yesterday had never been operated. It has one of the departments that the strikers said could not be success

fully run. The first heat was started shortly after 1 o'clock and by 4:30 three heats of 12 tons each had been run. The ingots were pronounced very good. The machinery was run as smoothly as though the men who operated it had spent a lifetime in the study of its operation.

Superintendent Potter Makes a Statement As the first heat was started Manager Potter remarked, "Here is a mill that a union man has never worked in and he

To-uight the department is to be put on

double turn. Early this morning a locked-out man Hunter, accompanied by another former employe of the mill, who was unknown, entered the works at Munhall. Their actions were considered peculiar by the watchmen and they started in pursuit of the two men. A chase followed. In the race Hunter fell into a hole and broke his leg. His companion escaped.

Hunter was taken into the mill hospital and cared for until yesterday morning. He was then brought into the West Penn Hospital, where he is now.

It was said yesterday that Hunter and his companion were the men sent into the mill to bring the 600 non-union men out, who were to leave the works in a body yesterday morning. Early in the morning several hundred of the locked-out men were scattered along Eighth avenue waiting for the arrival of the deserters. The crowd waited until after dinner, but the procession did not appear.

Giving the Passengers a Benison.

Considerable excitement was caused scross the river at the Salt Works yesterday afternoon. It is customary for a crowd of Homesteaders-men and women-to congregate at the ferry on the Homestead side. They have learned that the ferry is used quite extensively by the non-union men. When one of the new men leaves the mill and starts across the river the air resounds with unpleasant cries of "scab" and "blackleg." After the men have a start of 12 or 15 feet of locked-out men.

Yesterday afternoon a colored man left the works and started across the Mononga-hely. He had left the wharf some little distance when a crowd of the Homesteaders distance when a crowd of the Homesteaders jumped into skiffs and pursued him. He reached the other side first. When he landed he started on a run down along the bank and out onto a coal tipple. At this point a number of soldiers were in swimming. A sergeant of the Fifteenth Regiment had just come out of the water as the race from the boats began. Grasping his gun he fired at the approaching men. The shot was a little low and missed the pursuers. It served to change their course, however, for they beat a hasty retreat. The colored man was so badly scared that he started in the same direction his assailants had fled

Held Up by Two Maidens. A little later in the day a tinner came into Homestead. He said he was looking for work in some of the tin shops of the town. His story, although doubtlessly true, did not go. He, too, was chased over the waters, and when found by the deputy sheriffs he was corralled in a clump of bushes, with two fair girls guarding him. The man was so badly scared he could not speak. The deputies chased the girls away

and took the fellow over to the provost guard's headquarters. There he again told the same story he did when he arrived in Homestead. When restored to his self-possession, the tinner grew very mad over his treatment and for the mills and arrive went up to the mills and arrive went up to the mills and arrived and the self-possession. spite went up to the mills and secured work.

After these two outbreaks Company I of
the Fitteenth Regiment was ordered out.
It formed in a skirmish line and searched the bushes for quite a distance up and down the river. None of the locked-out men could be found. The guard force will be increased at this point and the practice of chasing non-union men broken up.

The Advisory Board deny that they

waited on the business men of Home-stead and requested them not to sell to non-union men. "Such a move has possibly been made," said one of the members last night, "but it was not authorized by the Advisory Boord

The Move Would Be Absurd.

"It would be an absurd movement to make. In such matters it is the merchant's business to use his own discretion. There are some Homestead men who have taken upon themselves to make this request of the business men, but whoever they are they had not the power to act. David Lynch, one of the prominent mem-bers of the Homestead Advisory Board,

attended the mass meeting of the Lawrence ville strikers yesterday afternoon. "They are just as firm as ever," he said last night. "Like we of Homestead they know that they will win the battle. The men the company are running into the Upper and Lower mills are like the fellows they are bringing to into the Upper and Lower mills are like the fellows they are bringing to Homestead. They will never be able to run the mill. The company know this and only bring them as a bluff. It expects to win by a break in our ranks, not by the importation of new men. Its hopes will be forlorn ones. If there was ever a thing which strengthmed the leaked out men, it will be the leaked out men.

ened the locked-out men it was the promise of aid from the Federation of Labor. Men Strengthened by Promise of Ald. "That organization will at once levy a 10 per cent assessment on its many thousand members. Soon money will be pouring into Homestead and no man need want because

he has not the price to buy."

There were but few new men brought into the mills yesterday. A number of those here left yesterday afternoon to go down to Pittsburg. They will work in the Lawrenceville mills. One of the recruits yesterday was a young man whose family name is well known in Western Pennsyl-

estate. His family consisted of two young men, who never knew what it was to earn a penny, though they had spent many. Since then they have battled against the world's hard sides. One has been more or less successful. The other has seen nothing but hard luck. Yesterday he presented himself to Manager Potter and requested work. He was given a position and this morning he will start life afresh in the new Bessemer Converting

MR. FRICK COMING BACK.

The Chairman of the Carnegie Company Expected to Return To-Day-Secretary Lovejoy Says the Firm is Satisfied With

the Work Done at the Mills. Secretary Lovejoy says H. C. Frick will be home this morning. He is supposed to be either at Ligonier or Cresson. Where ever he is, Phil Knox and a half dozen from men accompanied him. They did not leave the city in a body, but met afterward. Mr. Knox will return with the Chairman.

No informations were made vesterday The Twenty-ninth street mill will be started after the Thirty-third and Homestead are in good running order. Mr. Lovejoy states that three train of rolls are now going double turn in the Thirty-third street mill. The other four will be started by next Saturday. The new open hearth department at Homestead

was put in operation for the first time yes terday. Mr. Lovejoy says this will greatly facilitate matters, as the men can handle hot steel in two hours, while it takes them ten hours to dispose of the cold steel.

The Secretary laughs at the story that the inspectors had found fault the inspectors had found fault with the product at Homestead. He says he talked with the Government men in the last two days, and they expressed themselves as well please and had no complaints to make. Mr. Lovejoy adds that President Gompers knows that more than 600 men are employed in the works. The number now is 1,700, and they have all been assorted. No more rollers are wanted, and all the men are working to the satisfaction of Superintend

ent Potter.
The Philadelphia Company received orders yesterday from the Carnegie Com-pany to keep on the gas at the Upper Union Mills, as they proposed to go on double turn.

BOTH SIDES SUCCESSFUL

The Situation at the Upper Union Mill Re

mains Unchanged. At the Upper Union Mills of the Car negie Steel Company yesterday Manager Dillon reports that although five or six of their non-union men tailed to report yesterday morning they did not miss them. He further stated that the management had succeeded in securing 30 new recruits and that the mill would be run double turn to-

The Press Committee representing the locked-out men claim that all is not as reported in the mill. They have induced five of the best roughers and catchers in the mill to join the Amalgamated forces. It is also stated that the 20-inch mill which was broken down on Saturday has not been re-paired. A workman in the Twenty-ninth treet mill says the furnaces in that works were all dampened yesterday morning. The furnaces have been burning four weeks. Nothing has been done in the lower mill since the strike and now it is closed down completely.

The locked-out men held a large meeting yesterday afternoon in Union Hall, at Thirty-second street and Liberty avenue. The men were addressed upon the situation by Vice President Weigh, Chairman War-ren and Richard Nichols, and David Lynch, of Homestead. There were various other speakers, and all spoke upon the same sub-

Previous to the meeting there were various rumors afloat to the effect that a compromise would be suggested, but this talk was declared to be without foundation, and the subject was not broached.

NOT MANY SICK OR HURT.

Dr. Foster Defends the Sanitary Condition

Dr. Foster, of Crafton, the consulting physician in the Homestead mill, had something to say yesterday about the sanitary condition of the works. Dr. Wibel, formerly of the West Penn Hospital is in charge of the men. There are not as many accidents or as much sickness as occurs during a military encampment. A consump-tive and an Italian who allowed a piece of iron to fall on his toes were sent to the West Penn Hospital. Dr. Wibel has a good hospital tent, and is well supplied with medicines. Dr. Foster says the qual-ity of food served is first-class.

HOPING FOR THE END.

If Men Are Needed at Homestead After Sept. 1 New Ones Will Be Sent There. Adjutant General W. W. Greenland ame down from Clarion yesterday morning and returned to Harrisburg last evening. He had a conference with General Wiles last Saturday. Mr. Greenland hopes that the trouble will be over by September 1. If it is not he thinks the men will be changed, and he intimated that the local regiments would be called upon again. He says the boys are not having a picuic at Homestead. The guard duty is severe, but the troopers are not complaining.

MILL WORKERS DIVIDED.

ome of the Workers at Duquesne Again

Leave the Mills. In Duquesne a committee has been go ing around from house to house urging the workmen to make another stand for higher wages. The committee is meeting with considerable success. They induced 125 of the old men to come out, all of whom were initiated into the Amalgamated Asso-ciation Saturday night. To prevent just such moves as this the company are erect-ing accommodations for the workmen in the mill yards. On Saturday \$2,000 were dis-tributed among the families in need.

Clifford Still in Jall, Jack Clifford, the Homestead man charged with murder and riot, is still in jail. Bail to the amount of \$7,000 was accepted by Judge Ewing, and an effort was made to find Mrs. Gusky yesterday to provide for the other \$5,000 needed. The court docket was taken to her home, but the lady had come down town to attend to some business.

Beaver Falls Men Hopeful,

The mills of the Carnegie Company at Beaver Falls still remain idle and deserted. and show no signs of resumption. The men as a rule are firm and hopeful that they will yet win. They still keep a lookout for non-union men coming in on trains.

Allegheny Council Reapportionment, There was to have been last evening a meeting of the Allegheny committee on the reapportionment of members of Common Council, of which there are five members. Only Messrs. Einstein and Neeb appeared, and another meeting was called for 7 o'clock Thursday evening. The plan before the committee reduces the Common Councilmen from 53 to 43. The Fourteenth will have one new member, and the reductions are as follows: The Second ward from 9 to 7, the Third from 8 to 4, the Fourth from to 4, the Ninth from 2 to 1, and the Twelfth

from 2 to 1.

Milk Dumped in the Sewer Milk Inspector Price returned unexpect edly from a week's vacation yesterday. Some of the farmers were taken by surprise. At the Lake Eric depot 200 gallons of milk name is well known in Western Pennsylvania in politics and professional circles.

His father was one of the ablest jurists inspected. Fifty-five gallons were found to Pennsylvania ever produced. Some years ago the old man died, leaving a worthless The guilty parties will be prosecuted.

HER FALL WAS FATAL.

Miss Blanche Baldsley Dying at the Allegheny General Hospital.

SAMUEL SHARP TO BE ARRESTED.

Charles Herricks Seriously Wounded by

His Cwn Rifle. HARRY PAINTER'S MYSTERIOUS BURT

Miss Blanche Baldsley, of Connellsville, who has been at the Allegheny General Hospital since last Friday evening, may be lead by the time this paper is issued. At 11 o'clock last night the hospital physician said that she had been in an uncor condition since Sunday evening and that nothing could be done to aid her. She was injured internally by her terrible fall over the rocks and her death was expected hourly.

There is something mysterious about this ease. Samuel Sharp, the man who fell over with her, is at the hospital with a broken leg. He and Miss Baldsley have told different stories. He said that she slipped on the brink of the cliff, and pulled him over as he reached to save her. She said that he suggested that the hill would be an elegant place to fall from, and seized her as if to throw her over. She began tusseling with him, when the earth gave away and both went down together.

Several Arrests Will Follow, Miss Baldslev had been visiting a married sister on Jefferson street, and on Friday evening went out with a lady friend for a walk. The police have been investigating the case, and have the following information: The two young women, while walking on Federal street, met Sharp and a companion and struck a casual acquaintance. The quartet, after walking a few blocks. turned west into Ohio street, and proceeded through the park to Monument Hill. The police are not inclined to believe either of the stories told by the injured persons. Superintendent Muth said last evening that if the girl should die Sharp would be immediately placed under arrest. A thorough inquiry will then be made into all the cir-cumstances. The police have the names of the two other persons who accompanied Sharp and Miss Baldsley, but will not yet

make them public.

There is doubt as to whether Sharp is the real name of the man. He represented him-self to be a traveling salesman for a tobacco manufacturer of Allegheny. There is a man named Samuel Sharp who is a passenger brakeman on the Baltimore and Ohio Rail-road, running through Connellsville, Miss

Shot Himself in the Side,

Charles Herrick was received at the Alle gheny General Hospital yesterday after-noon severely wounded by a gun shot. He gave his address as No. 32 Cherry street. He said that he was with a camping party down the Ohio river opposite Shousetown, and yesterday afternoon went with a com-panion to shoot at blackbirds among the reeds by the river. His rifle trigger was caught in some matted grass, the weapon was discharged and the ball entered Herrick's side at the fifth rib. It passed upward and caused a very serious wound, which seems likely to be fatal. The man was brought to Allegheny on a Ft. Wayne train, but at midnight the surgeons had not

been able to find the ball.

Harry Painter, a cork worker living at No. 86 River avenue, Allegheny, was con-veyed to the General Hospital shortly after 5 o'clock last evening, in an unconscious condition. The circumstances connected with his injury are rather peculiar. At about 4:30 o'clock Dr. McCreight, at No 42, Anderson street, was hurrically called to at-tend an injured man in a stable about half

Mysteriously Wounded in a Stable. When he went there he found Painter lying on the stable floor unconscious, with a long cut on his head just back of the forehend, and blood all over his face and clothes. Three men were present, and they had a bucket of water and a sponge. They desired the doctor to attend to the man right there and fix him up. They said the wounded man had been in a fight.

Dr. McCreight refused to be a party to
keeping the matter quiet, and keeping the matter quiet, and went for a policeman. Officer Neumer was found, and when he reached the stable the three men had fled. He called a patrol wagon and sent Painter to the lockup, under a charge of disorderly

conduct.

As soon as his condition was seen there he was sent to the hospital. Under the care of the surgeon and nurses he recovered con-sciousness last night, but was too weak to be bothered with questions concerning his assailants. The cut on his head is three inches long, but the skull was not fractured. The wound could not have been made with a man's fist. Painter's assailant is said to be a man named Dougherty.

DIED FROM APOPLEXY.

Sudden Decease of Thomas Cavanaugh

While Trying to Work. Thomas Cavanaugh, aged 46 years, a cut ter employed by Henry G. Hale, died suddenly yesterday morning while at work. He resided at 106 Charles street, Allegheny. Cavanaugh had been complaining for some six weers past of not feeling well, but still persisted in keeping at work. Yesterday morning his sister entreated him not to go to work, but he insisted that he must. He attended mass at the Cathedral in the

morning and returned to work about 10 o'clock. He attempted to do some work, but had to retire to the back room where h sat down in a chair, but was finally compelled to lie down on the sofa. The men employed about the store thought nothing of this, as since he has not been well he has

been accustomed to taking rests.

About 11 o'clock young Mr. Hale, who was attending a customer in the front part of the store, heard a peculiar noise in the back room, and, rushing back, found Cavanaugh struggling for his breath. Mr. Hale's brother ran for a doctor, and re-turned with Drs. McClelland and Sullivan. The man died of apoplexy before the doctors arrived. His body was removed to the morgue at 11:30. An inquest will be held to-day.

Mr. Cavanaugh has been one of Mr. Hale's most trusted men for the past eight years, and is well known about the city.

Run Over by a Wagon.

John O'Connor, aged 24, a driver for the Singer-Nimick Manufacturing Company on West Carson street, Southside, was run over by his wagon and instantly killed yes-terday afternoon about 2 o'clock while hauling a heavy load of machinery. His body was removed to his home at No. 72 Eighth street, Southside.

Killed at a Pile Driver. Henry Loel, 31 years old, was working at the pile driver on Greenfield avenue, and when the hammer descended a stick from

the pile was knocked out of place and strik-ing him under the chin, killed him in-stantly. The decessed boarded at 533 Forbes street and has a wife and two chil-dren living in Ireland. An inquest will be held to-day. Crushed Under a Fall of Iron. Patrick Ryan, aged 32 years, employed at the Keystone Bridge Works, had both legs

His Body Found Floating. The body of the boy who was drowned in the Monongahela river near the Union

Mills Sunday afternoon was recovered last

Siate Badly Crushed Him. An unknown Frenchman was brought to the West Penn Hospital last night. He is about 50 years of age, and was employed in the coal mines at McDonald. His leg was so badly crushed under a fall of slate that it was found necessary to amputate it. He is in a serious condition.

CHIODO RELD FOR COURT.

leged Firebug.

Strong Evidence Produced Against the Al-Antonio Chiodo, the Italian charged with

setting fire to Thomas Lindsay's residence, n Linden avenue, Saturday night, and with feloniously shooting at a member of Mr. Lindsay's family two weeks ago, was held for court without bail by Magistrate Hyndman last night. The hearing was held at the Nineteenth ward station. The story of the firing of Mr. Lindsay's house was told as related by THE DISPATCH yesterday. Mary McNamee, the servant girl in the house, on account of jealousy of whom Chiodo is thought to have committed the crime, told her story and identified the revolver found on Chiodo as the one he had threateningly displayed when she had been forced into her promise of marriage to him. threateningly displayed when she had been forced into her promise of marriage to him. She also produced a letter received from Chiodo in which he proclaims his love for her, wants her to make his supper and keep his house clean, and asking her to indicate the kind of earrings and silk dress he will buy her. The letter was written by a friend, as Chiodo could not write English himself. Toney Alcorra testified that Chiodo had been away from home the night of the fire, returning about 12 o'clock. This was just after the fire was discovered. Chiodo did not testify, but he told a reporter he was not out of the house all that evening. The shooting and arson he denies any knowl

GAVE HER BABY WHISEY.

Mrs. Flizpatrick Was Drunk and Frequently Let the Child Fall. Mrs. Mary Fitzpatrick was drunk last evening and paraded up and down Carey alley on the Southside with a baby in her arms. She frequently dropped the child, and when the mother was arrested its little body was badly bruised in places. It was

body was badly bruised in places. It was found that the woman had given the baby whisky, and it was drunk. A physician was called, and after careful treatment it was brought around. The mother was locked up and a neighbor agreed to take care of the baby.

Last winter the woman was arrested for the same offense. She fought desperately when Sergeant McQuade tried to take the child from her. After she went to sleep in a cell the little one was recovered. It was drunk, but was soon sobered by the officer.

DEATH'S WORK OF A WEEK. In Pittsburg 110 Persons Die, and 36

Allegheny City. The report of the Bureau of Health for the week ending August 6 shows a total of 110 deaths in Pittsburg. Of these deaths 3 were caused by typhoid fever, 16 by consumption, 3 by convulsions, 4 by pneu-monia, 17 by choleraic diarrhea, and 3 by

old age. Fifteen were Coroner's cases.

With the population estimated at 255,000. this gives an annual death rate of 22.47 per The number of deaths in Allegheny last week was 36, of which 20 were males and 16 females. With the exception of the week

for any week during this summer. MILLS IN OPERATION.

ending June 12, when the total number of deaths was 30, this is the lowest death rate

A Number of Southside Industries Began

Work Yesterday. All of the glass factories on the Southside controlled by the United States Glass Company resumed operations yesterday. Work was also commenced at the following mills: The Sligo plate mill, the puddling department in the plant of A.M. Byers & Co., and the eight inch bar mill in the Tenth street plant of the Oliver Iron and Steel

Last evening the Oliver Company started the ten inch mill, and it is promised that in their works on Fifteenth street operations will be resumed to-day or to-morrow. The puddling department at the Sligo mill will be running to-morrow, and it is expected that Painter & Sons will be ready about the same time.

McIntyre's Oneer Antics

John McIntyre knocked down Max Raden in front of Alderman Donovan's office yesterday. Raden didn't know the man, and the attack was unexpected. He charged him with assault and battery, and, when the constable tried to arrest him, he gave the officer a lively chase. He escaped but soon came back. It is thought he is

John Miller Reported Dead.

John Miller, a barkeeper for Donahue on Liberty street, left for Atlantic City Saturday evening to spend his vacation. Yesterday it was reported that he had died, and Mrs. Miller left for the seashore last evening very much worried. Mr. Donahue doubted the story. He thought if his barkeeper was ill that he would be the first man to hear about it.

Grasshoppers in Allegheny City. Allegheny City was yesterday visited by clouds of grasshoppers. They hopped about in the streets, were crushed under foot by pedestrians, flew into street cars invaded offices and dwellings and were source of great nuisance. There were swarms of them, as thick as in an oats field in har-

vest time. They came all at once. In the

forenoon there were none; in the afternoon the city was full of them. As a rule they were under the medium size.

A Delicate Operation. Mr. S. S. Aley, of Punxsutawney, came to the city last week to have a case of lupus of the eye operated upon by Dr. Sadler, of the eye operated upon by Dr. Sadler, of Penn avenue. Such cases are comparatively rare and soon involve the loss of sight if not skillfully treated. In this case it was the right lower lid which was affected. Dr. Sadler cut out the granular tissue and applied the electric cautery, thus effectually destroying all the diseased cells. The operation was a complete success, and was performed so quickly that the patient suffered scarcely any pain.

servedly popular than now.

THE PENNSY'S EXHIBIT.

One Feature at Chicago Will Be a Fine Depot-The Company Not Revealing Its Plans to Rivals-A Chaf With Mr.

George W. Massey, National World's

Massey.

Fair Commissioner for Delaware, Superintendent of Motive Power Theo. N. Ely, of the Pennsylvania foad, and Architect Thompson were on the limited last evening bound for Chicago. Mr. Ely was going there to make arrangements for the railroad exhibit. He said he didn't want to throw much light on their plans, as the other lines are on the qui vive and are watching them closely. One of the features will be a four-tracked depot, to be located near the main entrance, that will cost \$75,000. It has not been decided whether the material will be stone, brick or iron. The road also will exhibit a magnificent vestibule train in the hibit a magnificent vestibule train in the transportation department. Mr. Ely says their ideas are elaborate, and the display of the road won't be surpassed by their rivals. The space will be let shortly, and as it is limited it will interfere with many of the exhibits.

exhibita.

George W. Massey is a staunch upholder of Chicago and the Fair. He claims if it had not been for the procrastinating efforts of the minority, the appropriation would have been passed in spite of the antipathy of the New York members. He is satisfied, however, that the company will get \$3,750, 000 out of the silver granted. He figures that the medallions can be sold for 75 cents apiece or more. On account of their memo-rial qualities they will sell at a good price. The managers will be careful not to glut the market, and in this way keep up the

Mr. Massey says protection is sure to win the day for the Republicans as against Cleveland's tariff reform. He was at the national headquarters last Tuesday, and found that the committee was organized and getting down to work. The chairman is not a demonstrative man, but he is methodical and, above all, never loses his

QUAY IN A SILENT WOOD.

He Professes Not to Be Posted on the Sub Ject of National Politics Senator Quay and his son, Dick, went to Philadelphia last evening to see State

Chairman Frank Reeder. The Senator thinks he has been away from headquarters long enough, and he is anx-ious to known how things are going. He claimed to be ignorant on the subject of national politics. All his information he receives from the newspathings are pers. The ex-National Chairman appeared o be very indifferent about the result in November. He will be responsible for Pennsylvania, but will not do much work outside of the State. Asked if the Home-stead trouble would affect the vote, he replied that he didn't know. He hadn't thought much about it. He supposed Har-rison would win, judging from what he nears and reads.

Knights Will Bear Music.

Three soloists of high reputation, includng Mr. A. G. Hewitt, the cornetist, are to play to-night at the grand concert given by the Iroquois Band, of Lancaster, in honor of the conclave of Knights of Pythias at the Grand Opera House. The concert will be-gin at 8:15, and it is expected that all or nearly all the visiting knights with many rom this city will be present.

It Ought to Be Popular,

Bakers as a class are not particularly progressive in a business way. There are exceptions, however, and one of the most notable of these is the Marvin bakery of this city. Mr. Marvin never lets slip an opportunity to please the nublic. Even the issues of the Presidental campaign have received his attention, and the result is a "Grandfather's Hat" cake that has made its appearance within the last few days, and which no doubt will be found at all the leading grocery stores. It is said to be a delightful cake, and if a name goes for anything, it ought to be immensely popular. A New Kind of Diamond.

A New Kind of Diamond.

James S. Kirk & Co., of Chicago, have put upon the market lately, as a result of their half century's experience, their Dusky Diamond Soap, a some adapted to all household uses. By a happy but peculiar combination they are enabled to use tar in this soap, and there is no one that needs to be told that tur is recognized as the greatest of the healing agents. It also is recognized for its softening qualities, and any one troubled with hard hands, cracked hands, sore hands, will become enthusiastic over the "Dusky Diamond," Soap after once using it. Your grocer keeps it. Fall Overcoats, It will soon be time for fall overcoats. Yours may need cleaning. Pfeifer's, 443 Smithfield street, 100 Federal street, Allegheny, does this. We repair them also. Best work. Tel. 1264-3469.
