

ARTFUL ARGUMENTS.

Campaign Literature Scattered Broadcast by the Leaders. ONE WAY OF CAPTURING VOTES Employed by Both Parties Regardless of the Strict Truth. DEVIANT WAYS OF BALLOT CATCHERS

[FROM A STAFF CORRESPONDENT.] PITTSBURGH, Aug. 16.—Never before in the history of the country have political parties shown such an earnest solicitude for the farmer and the workman and woman generally. Just now tons upon tons of matter, franked or postage paid, are being sent out from both headquarters of the Congressional committee...

Among the speakers will be Rev. John Alex. Dowd, Bishop J. N. Fitzgerald, Rev. J. R. Daniels, Rev. Lyman Palmer, Dr. and Mrs. Boynton, Mrs. Davis, Elder R. C. Stratton, Rev. J. E. Irvine and Mrs. Irvine. Tennis will be furnished free and board at low rates. The Pittsburg party will leave over the Pittsburg and Lake Erie road in a special train on August 23.

A bill in equity was filed yesterday by Messrs. Bair and Garzani against W. S. Jackson, D. R. Warden, T. L. Shields, J. H. Nelson, J. G. Hathaway and the National Wrapping Machine Company. The plaintiffs state that they hold a judgment for \$4,281.66 against the defendant company on which an execution was issued. Nothing was derived from it and they now want the defendant stockholders compelled to pay into the treasury the amount of the capital stock necessary to obtain the character. This is asserted to be \$30,000, and more than sufficient to pay the company's indebtedness. An accounting and an order to pay creditors is sought.

Charles Herrick, the blackbird hunter, passes away yesterday. Charles Herrick, the young man from Washington, Pa., who accidentally shot himself while hunting blackbirds near Shousetown Monday, died at the Allegheny General Hospital at about 3:30 o'clock yesterday. The surgeons were not able to locate the ball until after his death, when they found that it was lodged in his right lung, after having penetrated his liver. Word was sent to the man's relatives at Washington. The coroner will hold an inquest this afternoon.

It has just been issued as a campaign leaflet, but strangely enough its twin report, made by the majority of the committee, does not accompany the report of the majority. Had the views of the minority been presented with those of the majority everybody could have taken their choice, and I fear the majority view would have suffered from the contrast. For instance, the assertion is made and dwelt upon that prices of farm property and products have steadily declined under all the tariff laws enacted since the war, whereas the statistics have been more prosperous and remunerative; and that under the tariff of 1846, farmers enjoyed their greatest prosperity.

It is good policy to buy the best—we have the best, but they don't cost much now. Alligator or grain, in the new cabin and club shapes. JOS. HORNE & CO.'S Penn Avenue Stores.

Instances of Misrepresentation. In exhibiting the decline of prices of farm products comparisons are not made between the same years on all products. Various years are selected when the article discussed was sold at a high price at the earlier date and at a low price at the later date, the difference being plainly due to causes entirely apart from the tariff.

On the other hand, take a single instance of republican misrepresentation. One of the "cute" little productions of the managers of that party is a map about 450 inches in size showing that the average wage of farm laborers by the day, without board, in the Republican States is \$1.33, while the average in the Democratic States is but 87 cents per day.

It is observable that upon this miniature map New York is printed in blue like the other Republican States, and the men at headquarters put it. Now, everyone knows that the great bulk of the farm labor is not paid for "by the day, without board," in the North, while in the South the farm laborer is almost invariably employed "with board," which condition would tend to make the wage of the day laborer without board higher in the North and lower in the South. At any rate the day farm laborer with or without board is an exception in the North, save in the harvest time or when there is special work to be done, and the daily wage is, therefore, no criterion by which to decide the average pay of all farm laborers.

A statement of the average wage of workmen by the month with and without board is carefully avoided, though statistics on this point were as easily procured as those upon the other. The Republican States, including New York, are printed in blue, and the Democratic States, excepting New York, in yellow. But all of the yellow States with the exception of Texas, Missouri and Virginia, are crossed with brown bars, to show that they permit the employment of convict labor by private persons or corporations. Only two blue States, Nebraska and Washington, have the bar sinister. This is an argument which will have greater weight than the distorted wage argument in the present contest of the labeling classes, and in view of the war against convict labor in Tennessee and other States.

On the reverse side of this little "labor chart" are several quotations which are pertinent and no more suggestive than the wage comparison. Here is one from Governor McKinley: There is no nation in the world under any system where the same reward is given to the laborer of men's hands as in the United States.

The three following are from Democrats: Lewis of Alabama; McDuffie, of South Carolina, and DeJarnette, of Virginia, in the order given: But for the operation of the tariff laws in enhancing the price of Northern labor the status of things would have been completely the reverse of what it now is, and a day's

labor in the cotton field would have commanded two days of Northern manufacturing labor. The people of the North will continue to manufacture if the duties are entirely repealed. The only difference would be that they would have to curtail their enormous profits and reduce the extravagant wages of their labor and sell their manufactures cheaper. Capital owns all labor from which its nature so lowers the man as to make him unfit for society and self government. This capital and labor in our new Republic will work in beautiful harmony, and it is this that African slavery furnishes the only basis upon which republican liberty can be preserved.

One advantage the Republicans will have this year in the distribution of literature, which they did not have in 1888, is that the postoffice is nearly all in the hands of Republicans, and the postmasters can be effectively used as missionaries in the circulation of tracts. It may be assumed that they will be worked for all they are worth, regardless of civil service laws, offensive partisanship or pernicious activity.

FAITH HEALERS IN CAMP. They Will Meet at Westley Park, Near Niagara Falls. Arrangements are being made by the local followers of faith healing by holiness to attend the international camping for the promotion of salvation healing through faith in Christ. It will be held at Westley Park, Niagara Falls, from August 22 to September 2.

Among the speakers will be Rev. John Alex. Dowd, Bishop J. N. Fitzgerald, Rev. J. R. Daniels, Rev. Lyman Palmer, Dr. and Mrs. Boynton, Mrs. Davis, Elder R. C. Stratton, Rev. J. E. Irvine and Mrs. Irvine. Tennis will be furnished free and board at low rates. The Pittsburg party will leave over the Pittsburg and Lake Erie road in a special train on August 23.

THE 800 FARES CHOLELA.

In Complaints That Canada's Sanitary Regulations Are Not of the Best. SAULT STE. MARIE, MICH., Aug. 16.—The "800" is threatened with cholera, perhaps more so than any other city in the country. Thousands of immigrants pass through here each year, and now hundreds are coming daily, whence they proceed to the Northwest. Quarantine and general official health regulations and barriers to disease hardly exist in Canada. There is so much more necessary for the strictest precautions being taken here. Local authorities insist on a Government quarantine here against the crowd of foreigners who come over in the Canadian vessels.
