DOWNED THEM AGAIN.

The Local Beroes Get Another Game From the Troub esome Senators. Local cranks will be highly pleased at the

uncertain, that the whoops of victory could not be given until the very last of the visitors had been downed. There were many stages where a Ryan, m.... 0 0 1 0 0 Shindle, 3 ... 2 2 1 7 0 good hit would have done lots of damage to the locals, but that timely hit was absent, although the probability of its coming kept the 1,300 spectators moving uneasily in their seats.

The Marquis Was All Right,

Marquis Markabus Baldwin returned from British dominions, where he had been invoking the aid of the fates, and he stepped into the box yesterday to pitch looking the pictures of vigor and confidence. Up to yesterday the Marquis had been the most unlucky pitcher in the business, and it was hoped that his Canadian tour would have some talismanic effect on his fortune. Whether or not the good influences had been courted and wop by him, he did well yesterday. He pitched a fine game, although at one stage it looked as if he was Clausen and Kee e pitched great ball going to be the same unlucky Baldwin. That was in the proverbial eighth inning. The score was 3 to 1 in favor of the home team. With one man out, Dowd made a single and Hoy made another. Twitchell knocked a fly, which Donovan caught. Big Milligan tollowed and sent a grounder to Sht gart, who tried to throw the runner out at second and was too late. The bases were now full, and a good single meant tieing the score. Everybody said: "It's just Baldwin's luck." But everybody was disappointed, as Berger, who was the next batter, only knocked the ball between the plate and the pitcher's box, and Baldwin threw Dowd out at the plate. The support given Baldwin was first class all round. Miller Had an injured Leg.

Miller played under difficulties on account of an injured leg, and he went to right field in the eighth inning and retired from the game at the end of the inning. Manatee played right in the ninth, and re-

tired one man. Killen pitched admirably, and, having had his attention called to the rules, he did not overstep the lines of his position when delivering the ball, except on one occasion. Somehow or other Frank is not a tavorite here, and the cranks and fans gave strong manifestations of that fact. But he can pitch ball, and he did it with a vengeance yesterday. Timely hitting only deteated his team. He was presented with a splen-did diamond when he went to bat, but he failed to make a hit in response.

W. C. Wilson, ex-umpire of the Southern League, umpired the game and really did very well. He is an active and decisive young man and a veteran in the business could not improved very much on his work. There were a few little kicks at decisions, of course, but these little kicks characterize almost every game that is played. At any rate the umpiring did not cause the defeat of the Senators yesterday.

Started to Score the Runs.

The third inning was reached before a run was made and then the visitors got the first was made and then the visitors got the first tally. They were first at bat and the run was made on really good ball playing. After two men were out Radford got his base on balls and stele second. Then the "Little, Old Man" pilfered third and was cheered for his pluck. Dowd made a scratch single

and Radford scored.

In the second half the home players went the visitors one better. After Bierbauer was out Connie Mack got a fair whack at the ball and banged it down the right line for three bags. Baldwin struck out and things looked very squally indeed. Miller was next up and thinking there was an easy mark in a left handed batter like Donovan Killen gave Miller his base on balls amid the jeers and hootings of the crowd. But Patsy Donovan fooled Mr. Killen by knock ing the ball into right field for a single, Mack scoring and Miller going to third. Then Berger fumbled Farrell's grounder and Miller scored.

In the sixth inning, after Farrell had struck out, Kelly made a good single and got to third on Beckley's single to right field. Shugart made a splendid sacrifice hit to first base and Kelly got home with the last run in the same. The score:

FOR a good, general all-around player, and a heavy butter, Hallman, who covers second base for the Philadelphias, is a perfect jewel, says the Sporting Life. He covers considerable ground, is quick in handling grounders, and his work at the bat keeps him well up among the leaders. AND, by the way, did you ever notice Mr. Haddock pitch on a ladles' day. Did you ever notice the mixture of savoir faire and corned beer and cabbage in his air and attitude! Put wings on Haddock's heels and he would be an ange!. But how he can pitch. He has more hot and hard curves in his fingers than anybody in the business.

WHEN asked what was the matter with the St. Louis/Browns, Anson answered: "Everything that I know of. Chris has no base runners, nor hitters, nor pitchers, excepting Gleason. His players don't play together, and they don't care whether they do or not, evidently. Chris wants to get a good captain, and then he wants to hustle around and get a good ball team. He is a good, game, shrewd man, and you will see him with a winning team yet."

Young Trotters Go Very Fast at the Chicago Meeting.

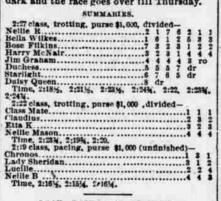

GENERAL SPORTING NEWS OF THE DAY

SPECIAL TELEGRAM TO THE DISPATCH. SPRINGFIELD, MASS., Aug. 17 .- Six of the thirteen heats at the grand circuit meeting here to-day were in 2:20 or better. Four trotters and pacers placing their records lower than before, they set out to battle for the supremacy at Hampden Park. The only thing to mar the plot of the racing drama was the suspicious work of S. B. Clark, the Philadelphia trainer, with Nellie R, in the 2:27 class. A change of drivers took place in the sixth heat, George Moore, of Troy, Pa., was the one selected and under his guidance Nellie R ended thecontest in two more heats.

Bella Wilkes looked pretty sure of victory in the early part of the struggle, especially when she landed the first heat in 2:1814. A break lost the Brooklyn mare the second heat. But she came home strong in the third after a brisk run with Rose Filkins and Harry McNair. By sending her away when she was not squarely on her stride, the starter helped to defeat Bella Wilkes, as the unsuccessful effort to overhaul Harry McNair was too much for her. When Nellie R made a break near the wire in the fifth heat Rose Filkins got home first in 2:22, but it only gave her third money. After Moore had driven Nellie R, out the judgee took no action against Clark and the latter stoutly asserts that he intended to win.

Chronos was a favorite at long odds for the 2:19 pace, and when he stepped off a heat in 2:16 no one would bet against him. In the second heat Lady Sheridan rushed away in the lead and Chronos made a tangled break in the effort to get near her on the upper turn. Lucilla also went to pieces and the stiff-legged mare was a dozen lengths ahead of her in 2:1514. Chronos had a close call for the third heat, and after a hot battle down the stretch managed to get Rose Filkins and Harry McNair. By send-

Axie, by Axtell, who also started, was too short of work to win, though he made a hot opening favorite. Ponce de Leon won in Straight heats at strong odds on first choice after the first heat. The club will open a sweepstakes for 3-year-olds, \$100 entrance and \$500 to start, with \$20,000 added, for a dash of one and three-eighths miles, at regular stake weights, with sex allowances. The stake will be open to all. With the horses on the ground after these dashes have been decided the club will offer a \$3,000 or \$5,000 stake for another race, the weights and distances to be fixed in accordance with the desires of the nominators. A Very Fast Youngster.

OAKLAND, CAL., Aug. 17.—An immense crowd attended the first day of the Golden Gate fair races to-day. The weather was glorious, and the racing a decided success. The sensation of the day was the fast time of the 3-year-old chestnut pacing stallion, Dia-blo, by Charles Derby out of Bertna by Alcantara. He took the \$800 pacing purse for the 2:25 class in three straight heats in 2:18%. the 2:25 class in three straight heats in 2:18%, 2:14% and 2:17%. The \$1,200 purse for the 2:17 class trotters was won in three straight heats by the A. W. Richmond gelding, Richmond, Jr., who is well known on eastern tracks. The time was 2:19%, 2:19%, and 2:18. M'AULIFFE AND SKELLY.

How the Light Weight and Feather Are Training for Their Fights. NEW ORLEANS, LA., Aug. 17.—President Noel and a committee of the Olympic Club visited Bay St. Louis yesterday to see McAuliffe and Skelly to find out their condition. Skelly now weighs 117 pounds and has improved in his boxing under training. His manager, Perusida who is staying at Bay St. Louis his boxing under training. His manager, Reynolds, who is staying at Bay St. Louis, seems well pleased with his condition. Skelly sparred in public and knocked out halt a dozen amateurs. McAuliffe, however, would give no public exhibitions. He is working quietly by himself and admits that he does not like training. His training consists of walking, running, bathing and a very little ball punching. He does no boxing, as he doesn't believe in it. In training there are a great many persons he doesn't know and docen't believe in showing his style. McAuliffe now weighs 144 and his face is a little fleshy, but he looks good and strong. He knows he can't afford to lose, and expects to get in about 20 hard rounds. He thinks if he can got Myer going in 20 rounds he can finish him.

he can got anyer going finish him.

The winner of the Myer-McAuliffe fight will have plefity of engagements to choose from. The latest announced is Dick Burge, the English light weight champion, who has telegraphed over here his desire to meet Myer or McAuliffe, whoever wins the fight. Texas has arranged for a special train to the puglistic carnival, to leave Houston Sept. 4 and return Sept. 9.

Done With Prize Fights. Sr. Louis, Aug. 17.—A New Orleans dispatch says: The Metropolitan Club, which was a rival of the Olympic, has decided to retire from the prize fighting business and organize merely as a social club. It will sell its arens and grounds.

MONTANA, is in his 4-year-old form, an exact du-plicate of what he was as a 2 and 3-year-old-an erratic and sensational but decidedty not a high class horse.

"OLD SPORT" CAMPANA has found a friend who will take him to New Oricans to see Sullivan and Corbett fight and defray his entire expense, Campana will be a feature of the fistic carnival. Young Bright called at this office last evening and stated that he will fight Beddy Mason under any rules at 128 pounds give or take two-pounds for 850 or \$500 a side. A match can be made next Saturday evening.

The Population of Berlin, The population of Berlin is about to receive an enormous increase. Indeed, it is calculated that its inhabitants will at one bound go up from 1,500,000 to 3,000,000. But the explanation is simple. The suburbs, which have hitherto been counted separately, are henceforth to be incorporated in Berlin. The new "Greater Berlin" will comprise a radius of about ten miles from the center of the city.

AVALANCHES OF Show.

Dangers During Mountain Climbing That May Result Fatally. If the traveler should be unfortunate

enough, owing to an error of judgment, to be caught in a snow avalanche, there is little else that he can do, says Mr. Dent in the Pall Mall Budget, beyond striving to the utmost, as he is carried down in the midst of the seething mass of loose snow, to keep on his face and keep his head up the slope. There is usually but little chance of using the ax in any way as an anchor. It has happened more than once that a party has been able by running to escape out of the line of a descending avalanche. If there is no chance of doing this, each man should anchor himself to the best of his

power, stretching himself to his full length with head up the slope. On fairly soft snow with ax driven well in, he may be able to withstand a small avalanche that has not come from far above him. If on ice he has next to no chance, and must trust to being carried to a safe place. This winter snow contains so much air that a party, even overwhelmed by enormous masses, are able to breathe in perfect com-fort, and can usually extricate themselves unless carried into a crevasse.

A more formidable avalanche that the mountaineer meets has already been men-tioned, that is the form of snow avalanche

which consists of a stratum of snow loosel

adherent to hard neve or clear ice inclined

at a steep angle. Here the avalanche is started by the party themselves, and no weight of falling snow has to be withstood.
The precarious foothold, and the impossibility of anchoring, constitute the difficulty.
Little or nothing can be done to arrest the progress; the whole mass of snow moves with the traveler.

Volcanic Eruptions at Sea That Are Very Much to Be Feared. Pearson's Weekly.] Occasionally there appears a great wave sweeping across the calm surface of the ocean in the fairest weather, and when no wind is blowing. There are few perils of the sea more to be dreaded than such a wave. Fortunately, they are very rare, yet ships sometimes encounter them. Only a short time ago the Etruria was met with a wave of this kind, which rolled on her like a wall of water, and breaking against her side swept the deck with irresistible force, killing one sailor and seriously injuring others. A smaller and less staunch vessel might

It is easy to see that an upheaval at the sea bottom may start a billow at the surface of the water when we remember that huge waves have been sent clear across the Pacific Ocean to San Francisco by volcanic shakings of the earth on the borders of Asia.
