THE PITTSBURG DISPATCH, FRIDAY AUGUST 19, 1892.

which it rested. The opening value of September was 32c. The market was very firm as the session approached its close. Sep-tember a vanced again to 525c. Fear of colder weather was the influence under which the market closed. Date opened a trifle easier, but buying or-ders proved to be plentiful and the execu-tion of them caused a gradual hardening of prices. September closed at 33% against Sig at the close yeaterday. The bog market, and the packers were free sellers. Dispatches from the stock yards and that prices for hogs were 5 to be lower. About 19,000 hogs were received and fully 14,000 were left over from yesterday. The Buffalo strike checks shipments of lives tock to the Eastern markets, and it also deters shippers from forwarding hog products, as they icer a freight blockade and destruction of property. There were also rumors of manipulation and sales by longs to break prices. September prover sold shortly after the opening at \$11.35, but it declined later to \$1.60, under active realizing by holders, closing at \$11.75. Lard and ribs were steady. Cash quotations were as follows: Flort, add, under active realizing by holders, bit 60, under active realizing by holders, closing at \$11.75. Lard and ribs were steady. Cash quotations were as follows: Flort, add, under active realizing by holders, bit 32, but it declined later to \$1.60, under active realizing by holders, closing at \$11.75. Lard and ribs were steady. Cash quotations were as follows: Flort, add, under active realizing by holders, bit 33, but it declined in the sole bit 34.84 Mess pork, per barrel, bit 35. Lard, per 100 by \$6.55. Short ribs sides (loose), \$5.0068 10. Dry asted shoulders (boxed), \$5.0068 10. Dry asted shoul obligations: the confidence of the people will quickly revive, wealth will go on accumu-latin, population will spread out over the surface of the Union. Looked back upon. SUGAR'S BIG ADVANCE which it rested. The opening value of Sep-tember was 52c. The market was very firm SHARP UPWARD TURNS THE HIGHLAND PARK PLAN Vill Be Placed on the Market About the surface of the Union. Looked back upon, the crisis will appear city a mere ripple upon the surface of the nation's progress. But all the same the crisis may come, and most certainly will come if the present sil-ver policy is persevered in. It is a pure cur-rency crisis that we are apprehensive of, and it is not the existence of wealth that will prevent it, but the adoption of a sound currency avatem." First of Next Month-A Number of New In the Westinghouse Electric Stocks Of Nearly Five Points the Bulging Houses Going Up on the Callery Plan-A and Philadelphia Company. Feature in Wall Street. New Hotel for the East End. The 12 acres of land situate near Highland Park, and fronting 400 feet on High-ACTIVE DEMAND EAST AND WEST. ALL THE OTHER TRUSTS HIGHER. land avenue, which was purchased by Mr. currency system, Financial Notes. John Fite from Mrs. Mary Denman about No Really Weak Foint Develops Anywhere Unlisted street railway securities closed three months ago for \$95,000, has been laid as tollows: Doquesne Traction, 29@30; P & B. Traction, 26@25%; Central Traction 5-, 105 Continued Covering in Furlington and All off into a plan of lots by the purchaser, and in the List. will be on the market about the first of September. This property is beautifully located, overlooking Highland Park, and is being improved by the owner. Great pains are being taken by Mr. Fite to have his property compare with its beautiful surroundings, and success will undoubtedly be the result, the tract originally being such a pretty piece of land. The plan is named the Luella place, and will contain 75 lots, having a frontane of from 56 to 60 feet, and will vary in denth from 110 to 185 feet. The laying of the flaxstone walks and the paving of Callow whill and several other streets in the vicinity of Luella place will be finished within a short while, as the work is being rushed through as quickly as possible. J. D. Callery & Co, will shortly commence the erection of several fine brick houses on their plan of lots located near the Central Traction car station. The houses will front on Bédiord avene and will ost about \$4,000 each. Mesars, Callery & Co, will increase the order of houses in their plan as rapidly as quickly as possible. Plans are being preared for a five-story brick hore to be erected on the source of Penn avenue and Beatty street, East End. This is a much needed improvement in this part of the city and will add greatly to the improvements in that section. asked. Westinghouse Electric second preferred closed at 31% bid here on 'Change, 32 on the street and 32% bid in the East. Westinghouse Electric was quoted at 90@ will be on the market about the first of Sep-LOCAL AND GENERAL FINANCIAL NOTES A DECLINE IN THE FINAL DEALINGS. 100. The directors of the P., A. & M. Traction Company have called a special meeting of the stockholders tor Thursday, October 20, at 2.30 p. M. to vote for or against an in-crease of the capital stock of the company for the purpose of acquiring additional franchises in the cities of Pittsburg and Al-legeneny and vicinity. THURSDAY, Aug. 18. NEW YORK, Aug. 18 .- The news from Trading in local securities was not very the striking switchmen, which the bears active, the volume of business on 'Change pretended made the slump in the last hour being the lightest recorded for some time vesterday, was more favorable this mornpast, but the market was strong and gening and the prompt action of the Governor erally interesting under the lead of the infused a little confidence into the stock Westinghouse stocks. Electric, second market, though its influence extended only preferred, was prominently strong, especito fractional gains among the railroad ally in the East, where it closed on rather a shares. There was a rather more widely sensational advance, and Philadelphia Comdistributed and larger business in the railpany moved up sharply, both closing buoyant at the best price of the day. Elecroad shares, while the manipulation of the industrials went on at an intrie (old) was also higher in sympathy with creased rate. The covering of shorts standard A. unchanged. Receipts-Flour, 30,000 barrels: wheat. 368. 000 bushels; corn. 223,000 bushels: oats, 277 000 bushels: ryc, 7,000 bushels; barley, 6,000 the second preferred. It sold at 1914 bewas still most prominent in Burlington and the other grangers and the fore the opening of business on 'Change, moved up to 20 bid at the sec-

ond call, but was subsequently offered

first named rose 1 per cent. The upward movement, while confined to insignificant bushels. Shipments-Flour, 20,000 barrels: wheat, 250 000 bushels; corn, 55,000 bushels; oats, 180,000 bushels; rye, 4,000 bushels; barley, 1000 bushels. Jye, the bushels, barley, 1000 bushels. On the Produce Exchange to-day the butter market was firm and unchanged; eggs, 1634c.

for the purpose of acquiring additional franchises in the cities of Pittsburg and Al-legueny and vicinity. J. J. Campbell sold Philadelphia Conpany to Morris & Brown, Carothers sold it to Rea Bros and Hill & Co sold it to Caster. Hill & Co sold Electric second preferred to Lawrence & Co and later were bidding jor it % above the price at which they sold. Mr. Georra Westinghouse, Jr., in reply to a telegram from the Boston News Bureau as to the importance of the contract with the Philadelphia Traction Company, and also if he was reported correctly as asying that the Westin-house Electric Company is carning net nearly \$2,00,000 per annum, ays: "I re-gard the contract with the Philadelphia Traction Company of great importance, in view of the fact that they have been investi-gating the subject for the past year and have several thousand cars under their con-trol. The present order is for one line in Philadelphia only. I did not make the statement while in Bostom with reference to the earnings of the company which you re-fer to. Our busines, however, is satis-factory and larger than anticipated." It is stated that those who are banking on a stock dividend in Western Union Tele-graph are likely to be disappointed, as none is contemplated at this time. Many im-provements are contemplated in the near future. For instance the business of the chicago office has grown to such enormous magnitude that the present quarters are wholly inadequate to properly transact it. The company is in the market for another structure and if a desirable one can be found its cost including neces-ary allerations is estimated at at least \$150,000.

The company is in the market for another structure and if a desirable one can be found its cost including necessary alterations is estimated at at least \$1,500,000. The IIIi old central Railway has declared a semi-annual dividend of 2% per cent in cash payable September L. The statement for the year to June 30 shows arcses arnings of \$19,291,760 an increase of \$1,410,205, and net earnings of \$5,221,740, an increase of \$101,231 over the previous fiscal year. The American Sugar Refineries Company will this week melt 35,001 tons more of surar than last week. Refined was advanced 1-16c in consequence of the immense demand. Discussing Western Union affairs Deacon White is reported as saying: "There is no hurry. Western Union affairs Deacon White is reported as saying: "There is no hurry. Western Union is on its way to 110, and it don't need any help to get there." The demand for gold for export at this season of the year keeps up a little later than usual. But this, Treasury officials say, is undoubtedly due to heavy importinga. Assistant Secretary Spaniding said yester-day afternoon that the Department viewed this situation with equanimity, and was not in the least disturbed over it. No evidence has as yet been given to the Department of a combination to force gold to a premium by tendering large amounts of silver Treas-ury notes for redemption in gold for export. But in the event of such combination, the secretary could, and no doubt would, put a ston to it speedily by relusing to redeem the notes in gold. notes in gold.

PIG IRON WARRANTS HIGHER.

But Steel, Fig Tin and Tin Plates Are Ruling Weak and Lower.

NEW YORK, Aug. 18-[Special.]-The special cable to the from Age reviews the foreign situation as follows: Prices for pig iron war-rants have averaged a shade higher, Scotch selling at 42s 1d, Cleveland at 39s 3d and hematite at 49s 3d @49s 6d. Business has been only fair and confined chiefly to operators identified with the "ring," who at least make a pretense of baving confidence in the future of the market. This interest is chiefly

in Scotch warrants, but the advance in prices has served to stiffen prices of other kinds. The market for some lines of steel is easier

The market for some lines of steel is easier and the general situation rather uncertain, and in ship plates hustness has been done as low as £5 15s f.o.b. Dealers have accumulated supplies of old iron, and that fact, together with a slow demand, gives the market a weaker appearance. The pig the market has been rather weak and unsettled. The break that took place at the close of last week has been followed oy a further decline of 7s 6d, due, it is claimed, to the absence of Ameri-can orders. In the market ior tin plates there has been rather more doing, but con-cessions from last weeks prices were neces-sary to stimulate business, and the market remains in poor shape.

Wool.

Wool. Bostor, Aug. 18.-The demand for wool is good. The sales of the week amount to 3, 855,000 pounds. The market is firm, and prices unchanged. Onio fleeces active at 270 for X, 26293 for XX and 33,3346 for No. 1 Michigan X. 256.55cc. No. 1 combing wool firm at 34935c. O. 10 fine delaine, 35,335c. Michigan fine delaine, 20336c. Unwasned combing wools are seiling at 3:627c for one-quarter and three-signibs bloou. Territory wool steady at 586,660 clean for fine, 546,550 for fine medium a.d. 506,356 for medium. Considerable Montana solutat 1924c. Terass and California wools are in fair request at 18623c. In pullet wool sales have been made of super at 336,35c and extras at 22,228c. Australian wool is in good demand. Foreign carpet wool sells more freely.

Sales and Final Prices. Transactions on 'Change were as follows: 10 shares Westinghouse Électric (old) ... 30 shares Philadelphia Company 19%

moved up to 20 bid at the sec-ond call, but was subsequently offered at 20, with 19½ bid. The second preferred opened with a sale at 31, was bid up to 31½ at the last call and to 32 on the street atter the close. In Boston quotations were higher than here, the close there being at 32½ sales and bid. With the second pre erred at 32 and the old, or unassented, at 19½, the two stocks are about on a parity. What stimu-lated the sharp advance was not known. The General Electric and Westinghouse shares have been moving up steadily of late, the tormer a little the most rapidly, perhaps, and the basis of the movements nave been the same in each case-reports of big earnings, etc. There has probably been a little more manipulation back of General Electric than Westing-house, but the sharp advance in the latter today seemed to indicate that it was a ques-tion in which stock the market workers were doing the most business. To many the movements in these shares give color to the talk about the consolidation of the two big companies. It is argued that the Gen-erni Electric people, in order to dicate terms to the Westinghouse people, decided to have the market value of their stock placed so high above that of the Westing-house that the latter would look cheap and insignificant, and that as soon as the Westinghouse crowd saw through the scneme they immediately proceeded to have their own stock moved upward. This is the ex-planation given in certain quarters, and it looks plausible enough. At the same time they insignificant, and that as soon as the westing of the scock of the home company is advancing solely on its merics; that there will be no consolidation; that there is and will be enough business for both companies, and that electric stocks will be the leading investments of the future. Puiladelphia Company's strength was due Philadelphia Company's strength was due to a continuance of the demand for both home and Boston account, under the influ-ence of which it sold up to 21% and closed broyant at 21% 221%. People's Natural Gas was inquer at 23% bid; Pipeage closed iractionally lower and the other urembers of the group were neglected. An odd lot of Pleasant Valley Railway sold at 25% and a 10-share lot of Underground Cable sold at 7%, which was the extent of the features developed by the trading. Air-brake was firm at 15% bid; Monongabela Water was in demand and firmer; Union Storage was up to 59660; switch and Signal was steady at 17017% and others were feat-ureless. The Street railway shares out no figure whatever in the day's operations. The Short Line.

GRAIN ADVANCES

But Provisions Decline on Lower-Priced Hogs and the Strike.

CHICAGO, Aug. 18 .- The wheat market reacted under the influence of the better tone to the first callegrams. Beerbolum's dispatch read: "More disposition to buy." Another read: "Dull, not quotably lower," and the public message from Liverpool noted an ad-vance of 3/d per cental for American red winter. The Cincinnati Price Current's remarks confirming private reports of disappointing yields of wheat from the thrashing in South Dakots were likewise a mild assistance to the buils. The traders paid a good ance to the buils. The traders paid a good deal of attention to the dispatches which came in from Buffalo during the session con-ocraing the labor troubles. The effect of the strike is, of course, bearish on values while it continues. Some rose-colored re-ports of the crop of spring wheat in North and South Dakota were re-celved, but as they emanated from the milroad interest they were not received with the credence which the names at-tached to them would otherwise command. The buils were fortified in maintaining for-mer holdings and in adding to them on slight breaks by the appearance of the weather map, which was regarded by the weather map, which was regarded by the weather the run c in the thermometer in the British wise as threatening frosts in the Northwest. The ran c in the thermomener in the British Northwestern possessions was from 4 to 46, following very heavy rain. The weak closing of the Berlin and Paris markets did not appear to weaken the faith of holder. The price clung tenacionsly close to 70 for September. There were sales at 77c at the end. The corn market started at a point lower than it left off at yesterday afternoon, weak ened a trific, then became very strong, had a tumble back to the opening point, following

Receipts-Flour 30 bar-rels: wheat, 253.765 bushels; corn, 5,312 bushels; onts, 506 bushels; tye, 3,738 bushels; Shipment; -Flour, 4,630 barrels; wheat, 330,309 bushels; corn, 1,060 bushels.

ening tendency, but as yet it has not at-tained very much force and probably will not before the middle of next month. Rates giass on hand, probably some \$400,000 worth, and it takes money to carry them, especially if some of the patterns happen to become unattractive" The treasurer's report showed that for the six months ended De-cember \$1, 1801, the set arnings were \$74,000, and for the six months ended June 30, 1892, they were \$181,000, making the total net \$255,000, which was given as the net in this column yesterday. President Eipley re-gards this as a pretty good showing, but intimates that twice as good a one will be made at the net annual meeting, or earnings at the rate of 10 per cent on the entire capitalization, which, as stated at the recent meeting, is \$540,000 pre-ferred stock and about \$3,500,000 common. At 10 per cent, however, the company would not be making as good a showing as the variare steady at 506 per cent, and currency and Eastern exchange are trading even. NEW YORK, Aug. 18 .- Money on call easy, ranging from 3/02 per cent: last loan close offered at 2. Prime mercantile paper, 35,6 55. average earnin s of 11 per cent per annum. The ex-director quoted above says the stock is tree of water, but the triends of the company claim that, while there was about \$300,000 worth of water injected into it, the common stock at 69_{5} indicates that the water has been pretty well squeezed out.

There is no end of talk among Chicago brokers and others regarding the intentions of the Philadelphia crowd. Most people do not believe that any consolidation of the North and West Chicago street railway lines will be formed. They think the scheme is to "cut a melou" for the benefit of North Chicago and to cut another juicy melon for the owners of West Side stock. The North Side company could easily issue \$1,000,000 of new stock to be subscribed for at par by stockholders. The company could pay 10 per cent dividends annually on the par by stockholders. The company could nay 10 per cent dividends annually on the new capitalization and still have left a good sum to add to the surplus, besides retiring some of the bonds every year. This course has been adopted by the Southside Street Railway Company several times, and even on its present capital stock of \$7,000,000 it pays yearly dividends of 12 per cent, and shares sell at the enormous price of 425. Friences of North Chicago do not hesitate to assert that that company can in the future make as much money as the Southside line, and they predict that in a few years shares will sell just as high, even if the capital stock be made \$5,000,000, an increase of \$1,000,000 over the present capitalization. The Chicago City Railway's bonds out-tanding are only a trifle less than those of the Northside Company, and the Northside line's entire capital stock, including the old \$300,000, or \$1,500,000 less than that of the Chicago City. The least named company holds a controlling interest in the Southside elevated, but wh ether this is to be a source of profit is as yet doubtful. A Foreign Opinion of Us.

States is one of the very greatest countries in the world, and with a most magnificent future before it. In both population and consequently capital is accumulating very rapidly. But the accumulating very does not in the least avail to avert a crisis such as the silver pelicy of the Government is calculated to produce if it is persevere in. We have shown just now that immense stocks of gold in the banks and in the hands of private persons cannot, in the nature of things, ward off a crisis should there be a run upon the treasury still less can mere wealth, in the jorn of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it will be a mere temporary check in the orm of it sold there of the country. The Govern-ment, as a matter of course, will fulfillial its

MONETARY. The demand for discounts shows a broad

wire to-day from a Baltimore canning firm offering a carload (500 cases) of standard Harford county tomatoes, new pack, at 850 i. o. b. Baltimore. He also received a mes-sage from the Chicago branch o a California firm, stating that peaches (this season's pack) «ere active, recent sales aggregating 15 carloads. The supply of California honey has been nearly all cleaned out of the Pacific Coast market, and holders now ask 7c f. o. b. there for light amber. market, and holders now ask 7c L o. D. there for light amber. Choice brands of new crop New York State gallon canned apples have been sold at \$2 50. That price was subsequently refused, and canners now ask \$2 60 for the same brands. The following were the foreign exports of the articles named from the Atlantic sea-board ports for the weeks ending on the dates named: Aug. 13, Aug. 6, Aug. 15, Aug. 18, Aug. 6, Aug. 15, 625, 844 1

OWL GANG AT WORK AGAIN.

Two Young Fellows Arrested While Trying to Rob a Stor ..

Daniel McGinley and William McCann, said to be members of the notorious owl gang, suppressed by Inspector McAleese four years ago, were caught in the act of robing S. T. Isett's grocery store on Rob-erts street Tuesday night by Officer Dow-ney. They ran at the officer's approach, he fired two shots at them and finally caught McCann. McGiuley was captured later by Lieutenant Scott. The burglars were held for court vesterday. Both men have done time in the penitentiary.

A Pensioner Deserts His Daughter.

The Allegheny Department of Charities yesterday sent to the City Home Mary Walters, a demented girl, who has been living with her father, on Main street. He recently secured a pension and deserted his daughter. The girl has a demented brother at the home.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria
