A BUSY FALL SEASON IN VIEW.

Athletes Freparing for the Field Meetings in Feptember.

GATHERED ON HIGHWAY AND BYWAYS

Tennis in Pittsburg and vicinity is now at its most active pitch, in fact it is all the rage, and the organizations are hurrying up their tournaments with the evident purpose of getting them out of the way be fore the attention of the public is turned to football. During the past week one of the most interesting tournaments in the history of the game here was finished. The attention it received on all sides was due to the fact that it was the introduction of the handicap into the game in this vicinity. Heretofore the young players have had scarcely any show against the older men at the game, and they have had to take back seats without having had an exciting bout. The handicap, however, evens matters up, and the players on both sides of the net obtain an added excitement that makes both strive for points with greater energy.

In the near future the tournaments are thick and the spaces between them are short. One of them commences at Kiskiminetas on Tuesday, one on Wednesday at the "S A's" courts, another at Coraopolis on Thursday, still another at Sewickley on Tuesday, the 30th, and in Sentember the intation tournament of the Pittsburg Tennis Club and the mixed tourney of the East End Gyms, to say nothing of several minor fixtures, already loom up as affairs of considerable magnitude. The tennis enthusiast these events in prospect.

The handlenp is fast growing to be an ob jectionable feature in the events of the field and track in the amateur world. However just it may be to the participants to impose handleaps, there is always a feeling that the event would have been more interesting if the men had been entered in classes as in the case of horse racing. The matter of creating classes in bicycle races has been discussed at considerable length lately, and it is not unlikely that there will be more

class racing in the future than in the past.

Mr. J. W. McGowin, the official handicapper of the L. A. W. of this district,
thinks that if it were possible to divide the racers into classes, it would be much better han the present system of handicapping, but with a small field, as is the case ger erally in Pittsburg, the handicap must continue in use. When there are comparatively few entries, it would be almost impossible to divide them into classes, but with a large field, as in Buffalo yesterday or at the Washington meet, he thinks classes with time limits should govern

The same might be said of the runners. If the entry list is large and there are a sufficient number of entries the public and the runners themselves would be better satisfied with class limits. One of the scratch men of the vicinity in most of the dashes said during the week that he would much rather start even with men of his own class than to be forced to catch up and pass men placed 5, 10 and 15 yards in advance. His feeling is that of all the runners and at the open meet of the "3 A's" every objec-tionable feature in the handicap was brought to the front. In several instances the scratch man found it impossible to get through those placed in advance, even though he could have won with ease. The runners in front hedged in the scratch man

he extremely disliked the handicap system. There is scarcely a line in amateur sports where handicans are imposed that would not be improved by the division of the men into classes upon their records. It could be done in the jumps, hammer throwing, pole vaulting and hurdles, and the only bstacle is the paucity of the entries. Hand icaps among club members or in small sized meets are all right, but in big meets like that of the last "3 A's" and the East End Gyms to come, the sport would be vastly improved by the introduction of the class

templation a clubhouse, a sketch of which is published in these columns. It will be a very handsome building and most conveniently arranged. The first story is to be of grey stone, trimmed with red brick. The second story is to be of very handsome with red brick. The second story is to be of very handsome with red brick. The second story is to be of very handsome with red brick. The second story is to be of very handsome with red brick. The second story is to be of very handsome with red brick. The Coraopolis Tennis Club has in consecond story is to be of stained shingles. rooms, a gymnasium, baths, billiard room, smoking rooms and other departments necessary to a first-class clubhouse. On the ond floor there will be an auditorium, with stage appointments, dressing rooms, etc., and an elevator will run to the third floor, where a bowling alley is likely to be in operation. There will be dining rooms, and balconies conveniently arranged will be an attractive feature. The plans have been drawn by Mr. T. Ed Cornelius, one of the active members of the club, and he will supervise the construction of what, when finished, will be one of the best tennis clubhouses in the country.

Sewickley's Athletic Association has just issued its announcement of the annual tournament that is to take place there, commencing on Tuesday of next week. This tournament is especially interesting because the winners of the doubles will contest with Messrs. L. W. B. Moorhead and R. R. Reed, of Pittsburg, for the championship of Western Pennsylvania. The cups that accompany this honor were won in 1890 by Messrs. Moorhead and Reed, and again in 1891. This year, if they win them, they will hold them for good, and they in-

tend to hold them if they can. The event will be for gentlemen's doubles and singles, and will be governed by the rules of the U. S. National Lawn Tennis Association, and the decision of the referee will be final. Play will begin each day at two out of three sets, except in the finals, where the best three out of five sets will be played. Advantage games played in all sets. There will be two prizes in each event, first and second, the latter to the runner up. Messrs. Moorhead and Reed will not be allowed to contest for prizes in the doubles, but the winners will play them for the championship and the There will be a large list of entries cups. There will be a large list of entries, i robably as large as at the open tournament of the Pittsburg Tennis Club, and very likely very nearly the same players all around will be there, so that it will be quite a grand affair. The arrangements are in the hands of an active committee, Messra. W. A. Christy, C. A. Woods and John E. Porter, and they are working hard for the success of the tourney. The officers of the club are F. C. Osborn, President; E. R. Taylor, Vice President; C. A. Rice, Treas-

urer, and G. C. Whitesell, Secretary. The St. Thomas Catholic Total AbstiAugust 30 to Idlewild Park. The affair will be interesting, as it is to be more in the nature of a big athletic field day than anything else. All kinds of sports are down for the day, and the society will give medals and prizes.

Cornopolis is to the front with its tournsment this week. Last month it was postooned for a month for several reasons, but it will commence Thursday at 2 o'clock and continue through to Saturday. There will be singles and doubles with the U. S. N. L. T. A. rules governing, and first winner up and consolation prizes. Entries will be reecived up to noon on Wednesday by either W. T. Treadway, 110 Diamond street, Pittsburg; T. Ed Cornelius, 135 Fifth avenue, Pittsburg, or H. W. Burns, Cornopolis. Pittsburg, or H. W. Burns, Cornopolis.
Drawings for the preliminary round will be
made on Wednesday attl P. M., at the office
of T. Ed Cornelius. Invitations were extended to the following clubs of Western
Pennsylvania, most of which have promised
a representation of at least two members:
Washington, Mansfield, Crafton, Beaver,
Rochester, Beaver Falls, New Brighton,
Sharpsburg, Wilkinsburg, Blairsville, Latrobe, Greensburg and Jeannette.
The tournament will be decidedly interesting on account of the uncertainty that ex-

esting on account of the uncertainty that exists as to who will get first prize in singles and doubles. Wendt and Hoopes, of New Brighton; Dunn and Henderson, of Latrobe, and Garreston and Hargrave, of Greensburg, who won the runners-up prize in doubles at Latrobe tourney last week, will all be in it, and no one who knows the playing of these teams can predict with any certainty who will lead. In the singles, the chances are about equally divided be-tween John S. Wendt, of New Brighton; Dunn, the champion of Latrobe, and Gorman, of Jeannette. The Coraopolis Club has engaged an orchestra, and will give a reception on Thursday evening in honor of

The East End Gyms, soon to be known as the Pittsburg Athletic Club, are putting their track and grounds in shape for the meeting of September 3. The curves of the track have been improved, new seating ar-

ago, and, while there was a fair sized entry list, it was anticipated that that of this week will be 50 per cent larger, Entries close with E. Robinson, Chairman of the Tennis Committee, on Tuesday evening, and the first round in singles will commence promptly at 30 clock on Wednesday.

Upper St. Clair has a lawn tennis club called the Oak Grove Lawn Tennis Club. It has been in existence about two years, but this season it is more active than ever and some of its players are quite expert with the racket. It has a membership of about 30. During the past week a number of the players rode on horseback over to Beading, where they were entertained by A. G. Smith, who has an excellent court and is an Smith, who has an excellent court and is an enthusiastic player. In the party were Misses Sara Gilfillan, Georgia Fite, Ella Gilfillan, Jennie Johnston, Flora Gilfillan, Viola Whittaker, Annie Gilfillan and Maud Gilfillan, accompanied by Messra W. C. Johnston, S. J. S. Fife, J. B. Gilfillan, Boyd Gilfillan, Will Andrews and Robert Johnston.

Wheelmen's Whispers. A NUMBER of the East End boys are training at Homewood for the road race. A RELAY race between Pittsburg and Washington is likely to be run on September 2

W. H. Wilson will be one of the entries in the Keystone 15-mile open road race on Sep-tember 2.5

THE Keystones' club house is up to the second story and it won't be very long now before the roof is on. Gronge Banker won two firsts at Batavia, N. Y., during the week. He captured a \$175 safety and a \$75 kodlak. Rour street is 'ikely to be the ground se-lected for the hill-climbing contest of the Keystone Bicycle Club.

Last Sunday Messrs. Deb. McTirhe and Charles Gilbert accomplished their first cen-tury run, making the round trip to Kittan-THE McKeesport cyclers have invited the Allegheny cyclers to accompany them on a run to Jacktown during the week as their

ENTRIES for the Keystone road race will close about September 20. It will be over

CORAOPOLIS TENNIS CLUB HOUSE.

rangements have been added, and the assoiation will be ready to receive an enormous attendance. A meeting of the Board of Managers of the Atlantic Division of the Amateur Athletic Union has been called to be held on September 3 at the clubhouse of the Gyms. This will bring together some of the best known men in the amsteur ath-letic world. Harry McMilian, of the Athletic Club of the Schuylkili Navy, who will act as referee of the sports, was the first President of the A. A. U. of U. S. Howard Perry, of the Columbia Athletic Club of Washington, another officer, was the first Treasurer of the same and Mr. Kelly, the first freasurer of the same and Mr. Relly, the present President of the Atlantic Divi-sion, will be here. Many others will also assist in conducting the meeting in the afternoon of the 3d at the Gyms' grounds.

The promise of the Y. M. C. A., of Phila-delphia, to send Boyd and Morris is gratify-ing, as these men are the two best half and mile runners in the country. is colored, is the only colored man in the country who ran in the championship meeting of the A. A. U. of the United States and won a place. Two years ago he succeeded in beating Dohm, the present record holder of the half mile. Prof. Kirchner is more especially anxious to have Morris complete. as he was instrumental in bringing him out. The Wilmington Athletic Club promises to send a record breaker in the person of W. L. Conden, the great shot putter and hammer thrower. The above

mentioned are only a few of the entries that are given, as it is expected of them that they will lower the records in their respect-ive events for Western Pennsylvania. The committee is making every effort to secure the very best men in the country, and to that end have had the makers of the medals offer a
special prize to the athlete making
the largest number of points, firsts to count

five, seconds to count three and thirds to count one. This will also encourage a large list of entries. George Smith will act as referee. The prizes offered for the winners by the committee in making the arrange-ments to have the best of everything, so that they expect to have the largest crowd of the season. Entry blanks can be had of any member or at A. G. Pratt's store. En-tries close August 25 to Captain C. S. Miller at the club, Shady avenue, East End. All amateurs are requested to enter and are promised a fair show and a good handicap.

Tuesday Kiskiminetas will have a tennis tournament, singles and doubles, and the entries will close to-morrow at room 508, Ferguson block, on Fourth avenue, Pittsburg. There will be first and runner-up prizes and the rules will be U. S. N. L. T.

A. Pittsburg will be well represented there and for a few days the courts of the Pittsburg Tennis Club will miss some of the best players. Messrs, Moorhead and Pier will be there and try to run off with the prizes. Baird Reed, one of the moving spirits of the tournament, says that the event will be one of the greatest successes of the season, and players from many sections will be there. The courts are in excellent condition and nicely situated, and the resi-dents of the borough have prepared to entertain the visitors.

The football sesson approaches rapidly and inside of another month the teams will be in the field ready to carry the leather to goal or meet glorious defeat in the attempt. During the week C. Aull has been elected Captain of the East End Gyms team and he is now busy selecting the men who are to battle under the colors of the association. Captain Aull was at one time captain of the State College team and has quite a reputa-tion in the East where he is well known for his good generalship. In the course of a few days he will have the team out for prac-tice and in the meantime the schedule of matches will be arranged. The scason promises to be extremely lively.

A right jolly party of Allegheny 'cyclers will start this morning for a century runthat is, they will go to East Liverpool and return, a distance of 110 miles—and they expect to make the trip in 15 or 16 hours. In the party were Messra. Miller, Bache, Petticord, Addy, Wilson, McNish, Taylor, Davis and Dippold.

A tournament for the championship of the Allegheny Athletic Association will commence on Wednesday at the courts that nence Union Society of Braddock, connected with St. Thomas' R. C. Church, is
to hold its sixth annual excursion on

nearly the same course as the club road race Moore, of the East End Gyms, is riding a new wheel. He will probably be in the Key-stone road race and is expected to make a good record.

MESSES, WISER, Whitesides and Searight have returned from their trip through the Shenandoah Valley. They say they had a very pleasant outing. THE Lytle brothers, Messrs, Eccles and Banker are home from Atlantic City after a tour through New York State. They report the roads uncomfortably sandy.

THE State meet at York on September 20 will be an interesting event, and Captain Petricord is arranging to collect a party of cyclers to charter a special train.

THE Allegheny cyclers have in prospect a club house. It is proposed to secure a suitable building, to furnish it and move in some time in November or December. There will be a regular old-fashioned house warming.

THERE was quite a crowd of scorchers out at the East End on Thursday evening. Among them were Messrs. Moore, Addy, Banker, Miller, Myler and Petticord, some of whom are off to-day for East Liverpool via Rochester. THE Keystones will enter several of their riders in the races at the East End Gym meet. Among them will be Paul Miller and Paul Nelson. This will be the first time the Keystones have done anything of this kind, but it will not be the last.

CAPTAIN NED FRIESELL, of the Allegheny Cyclers, on September 4 will start on a trip through the Shenandoah Valley, to Washin:ton, Baltimore and Philadelphia, where he will remain for three years at college. He will be accompanied on the road by J. Dippold.

MESSRS. ALBERT KIRK and Walter Kirk, of the McCalmont Oil Company, took a run to Butler county and back on their pneumatics last Wednesday. Their cyclometers showed a distance covered of nearly 50 miles upon their return. They found the roads in fine condition.

Tennis Tournalettes THE Misses Gill are among the best players at the East End.

The Coraopolis Tennis Club will give a dance Friday night for the benefit of the club. EDWARDS and Reed will be in the Kiskimin-eras Tournament with an eye on the

Miss Bessie Hall and Miss Nellie Crouch may be in the mixed doubles at the East End Gym tournament.

WENDT, of New Brighton, is playing a stronger game than he did a few weeks since, and is fast going into the upper classes. Miss Cora Wells, of the young ladies' physical culture class, has captured the Lawford stroke and uses it with success. Charles Woods, of Sewickley, has been neglecting the court lately for the dry law, in which he is interested just at present. CAPTAIN J. P. CULBERTSON is a frequent visitor to the tennis courts at the East End Gyms nowaduys. He is one the experts

MESSES. MOORHEAD and Pier will leave Tue-day morning for Kiskiminetas where they take part in the contest for singles and

FRIDAY afternoon the ladies turned out in large numbers at the East End Gym grounds. They are preparing for the tour-nament next month. MESSR«. TREADWAY, Motheral, McCabe, Dr. E. Stevenson, John Wilson and Dr. A. Stevenson will enter from the home club in the Coraopolis tournament this week. THE mixed doubles tournament of the Pitts-burg Tehnis Club will take place early in September, but not until the invitation tourney of September 5 is a thing of the past.

Found in the Field. C. M. LAUGHLIN, Jr., started to train this week for the Gyms open meeting. HERMANN SCOTT, another new man of the Gyms, will make his first effort at the Gyms meeting.

 W. Haler is training hard and expects to make the effort of the season at the Gyms meeting on September 3. THE medals for the Gyms meeting are on exhibition in the window of a prominent Chestnut street firm, of Philadelphia.

THE "3 As" club fall meeting will be an in-teresting affair. All of the members are training with an idea of lowering their · Kinnel who made such a good showing at Cleveland, is going to make a special effort in the quarter mile race at the Gyms open

meeting.

Mayor Govaley has promised to witness the sports at the Gyms meeting. The Mayor has been very much enthused by the Fourth of July sports.

The Gyms are making provisions for a great crowd on the 3d and deserve to have one, as the efforts put forth by the committee deserve success.

The West End Gyms, now that Schannessy has been reinstated, are working like beavers and will no doubt be heard from at the September meet.

The first signs of the football season were seen at the Gyms ground. C. Anil, G. S. Proctor, W. Martin, J. Anil and D. Barr were kicking the ball last Friday afternoon.

J. RUNBER, the Gyms new man, a Canadian by birth, is showing good form in the shot and hammer events. He is a general allaround man and expects to do some good work next season.

SPOOKS AT THE KEY

TELEGRAPHS SPIRIT MESSAGES.

Ludicrous and Fantastic Ferformance

Unbelievers at Lily Dale.

Cleveland Doctor Mystifying the

About a Flag and Sunflower. GRAND ARMY MEN DISAPPOINTED

[CORRESPONDENCE OF THE DISPATCH.] LILY DALE, Aug. 20.-The present age of psychic investigation and discovery has brought to light nothing more marvelous than the "Psycho-Electric Telegraph" that is now on exhibition at Lily Dale.

The fascinating instrument that is used to transmit mysterious and supposedly occult messages consists of a simple telegraph transmitter inclosed in a small box with slate top and bottom, and is attached to a battery and sounder. The magnetic sensitive who is able to produce the phenomenon of a telegram received without any visible agency is Dr. Rowley, of Cleveland. He simply places his finger tips upon the box and intelligent messages are immediately ticked out in the regular Morse alphabet that can be read by any operator that

happens to be present.

This subtle combination and application of electricity and magnetism was discovered. so the story goes, in the spring of 1884 in a surprising way. W. S. Rowley was at that time employed as traveling agent for a weathly manufacturing firm. He rejoiced in a comfortable salary, good health and excellent spirits. He was not haunted, either by the spirits of departed ancestors or by the ghosts of dead hopes or loves.

Taps on His Collars and Cuffs, Suddenly Mr. Rowley became aware that something unusual was occurring about him. He could hear tiny raps sounding upon his collars and cuffs. He was aston-ished and a little alarmed. He sought medical advice and was assured that he was sound physically and that his brain was in

a perfectly normal condition.

The raps were now heard distinctly and The raps were now heard distinctly and almost continuously. Mr. Rowley had been a telegraph operator in his youth, and atter a time it dawned upon him that the mysterious "tic-tac-toc's" were spelling out words by the Morse alphabet. The letters formed themselves into the name of a deceased friend, also a telegraph operator. To test the unseen intelligence he mentally requested the name of his former associate's mother and her present residence. This was done. Mr. Rowley had entirely lost sight of the family, but he verified the insight of the family, but he verified the information by correspondence.

All this time no one knew anything about the occult telegraph but himself and wife. Mr. Rowley was a member of the Methodist Church and an active worker in the Y. M. C. A. Spiritualism he knew knothing about, and he shrank from notoriety. Some of his early experiences are both singular

One evening at church the unseen force kept up a lively correspondence with Mr. Rowley upon the peculiarities of the con-gregation and the idiosyncrasics of the minister. Some of these remarks, which were rapped out upon the celluloid collar of a man who sat just in front of him, and upon the "stove pipe" of a dignified deacon were exceedingly characteristic, as when he said: "See that little old man over there with his hymn book upside down;" "the preacher's wife is nodding, and no wonder;" "it would take an encyclopedia to make head or tail out of that sermon;" "oh! do give us a

The Story of a Seance. Public attention was finally directed toward the phenomenon and Mr. Rowley, gave himself up to scientific investigation. J. H. Wade, a prominent citizen of Cleve-land, and E. P. Wright, at that time gen-eral superintendent of the Western Union Telegraph Company, met Mr. Rowley by appointment and proceeded to open up a communication with the mysterious operator who was so determined to be recognize The three men seated themselves around

a bare table, and to their intense astonishment, directions for applying the unseen ment, directions for applying the unseen force to a telegraph instrument was immediately ticked out upon its surface. After various and varied experiments with the hidden intelligent something, Mr. Wade and Mr. Wright became convinced of its genuineness and psychological importance. They carried out the given instructions to the letter and the "Psycho-Electric Telegraph" we the result. granh" we the result.
Your core spondent stepped into his of-

fice this morning with a skeptical telegraph operator within easy hearing distance. The instrument ticked "good morning" with the doctor ten feet away from it. It then faltered and became faint. The doctor sat down and placed his finger tips upon the outside of the box. It immediately began a communication of a personal nature, in-formed the doctor that his visitor was "clear headed and not inclined to waste time on trash" and ended with a flattering compliment that made the reporter blush. "Ask some question of general interest," suggested the doctor.

Experience of an Operator

"What do you opine for the future of medicine and surgery?"

"The coming practitioner will be a teacher of hygienic laws instead of an administerer of drugs. Hypnotism in the future will render surgery painless and bloodless." "Will the demand for professional me-

diums increase? "No! The spiritual nature of mankind will unfold until every person will be his or her own medium. They will intuitively seek the field of action for which they are suited and will be paid for their work in-stead of their mediumship." "Have you anything to say upon the labor

question?"

"Yes! We are on the eve, as our pessimistic friends declare, of a great war. But
it is of words and ideas rather than swords
and bullets. Labor and capital cannot long

array themselves against each other any more than the right hand can battle with the left. Both are right and both are wrong. Capital defrauds labor and labor defrauds capital. When a man sells his time and does not interest himself in his employer's interests he is defrauding cap

ital.

"If a laborer earns \$2 and gets but \$1, espital defrauds labor. Strikes mean labor vs laborand not labor vs capital. Capital is a symbol. Labor is real. A hundred thousand dollar bridge destroyed by rioters means a hundred thousand days' work at \$1 per day. Capital cannot suffer. It is a name; labor is an entity. It means bone, muscle and sinew. Labor must pay every. name; labor is an entity. It means bone, muscle and sinew. Labor must pay everything; even to the last farthing.
"Now goodby. I've been as long-winded as the editor-in-chief would have been.

A Humpus Under a Flag. There was a funny performance witnessed at one of the morning pow-wows lately. It was Grand Army Day and it was given out that hundreds of spirits of departed heroes

of at the last two last to be and the last the last to be a last to be at the last t

Colonel was as pleased as a boy with a new top and evidently believed every word of

she shricked. "Let its gold mingle with your blue freedom! Freedom forever!" She nurrahed berself hoarse and fell back A big-fisted man gave a guttural grunt and announced himself as "big chief." He exhausted.

The male spiritist is nothing if not chivalrous. One of them stepped forward and planted the sunflower by the side of the flag, and proposed three cheers for woman suffrage. The little woman was jubilant and everybody laughed. and announced himself as "big chief." He spoke a complicated jargon something as follows: "Me hire. Me like white squaws heap. No like pale braves! My medie no good talk. Ugh! Me tum 'gan, ugh!" He gave an unearthly warwhoop and sat down. The high priestess of the occult circle then arose and said that she could see thousands of soldiers around her. Some of her audience shuddered, and others wished they could see them. She then improvined around the sheet of the statement of the statem A message was then read which had been received at a scance the night before. It was in rhyme, something as follows: them. She then improvised some verse, the like of which was never heard before. One couplet was as follows:

Your messmates now are up on high Singing with harp and powder dry. The power by this time was getting pretty weak, and the meeting broke up.
