Hogs Dull and Weak and Sheep and Cattle

builish speculation that has been maintained for some time past is in imminent danger of giving way. The strike and its threatened extension, and, more than anything, the serious teelings aroused by the interruption which has been caused in the progress of grain shipping and other extremely important times of business, are of course calculated to create nervousness and check the artificial and manipulative methods that have been used to maintain the steadiness of prices. An unfavorable bank statement, showing a loss of over \$5,000.000, increases the force of such sentiments, while there is still no assurance that the outflow of gold to Europe can be arrested. and unchanged; indications point to a big Hogs-Market dull and prices lower at \$5 75@5 85 for cornfed, and \$5 25@5 50 for grassers.

New York, Aug. 20.—Hubbard, Price & Co. say: Our market opened quiet at from 2 to 3 points advance, further improved 1 to 2 points making an extreme gain for the day of 5 points by 11:30. After this a resistion-set in, which, before the close, had carried prices down to hist evening's figures. The decline was largely the result of realizing sales on the part of those who feared that the labor troubles might develop unfavorably over Sunday and cause some financial disturbance. Receipts of new cotton to-day are 73 bales, against 1,840 last year. Total receipts of new cotton thus fir, 2,390, against 10,880 bales, against 1,840 last year. Total receipts of new cotton thus far, 2,330, against 10,680 last year. A rather more active inquiry from abroad has been felt, and some considerable sales for forward shipment to the continent have been made. The statistical position, as made up by this morning's Chronice, is as follows: Visible supply, 2,731,521 bales, or which 2,250,621 is American. Crop in sight, 2,666,335. The reduction in the visible supply shown by these figures is the largest we have had in many weeks.

ment bordered on stagnation. Altogether, however, sales of steples and seasonable goods were fair, especially on interior account, and aside from outside labor troubles, which caused more or less depression here, the influences exhibited an improving tendency. As a rule the course of prices favored sellers—staple groceries, dairy products, breadstuffs and provisions ruling strong, with coffee, sugar, canned goods and dairy products stronger and higher; but towards the close there was a softening in grain and provisions in sympathy with the declines on the Chicago Board of Trade. Collections were fair, excepting from sections where cash trade and regular payhowever, sales of staples and seasonable tions where each trade and regular payments of bills have been restricted on ac-

Sugar and Canned Goods. weekly sugar circular of Messsrs. Willett & Gray says: The total stock of suzar in four ports is 110,005 tone, against 155,-12 tons last week and 170 711 tons at the same time last year. The total stock in all the principal countries is 978,013 tons, against 977,753 tons last year. A firmer tendency in aw sugar has prevailed through the week suiting in an advance of 1-16c for centrifu-ls and Muscavadoes. The most notable ature of the week, however, and the one feature of the week, however, and the one having the greatest influence on the future, is the somewhat remarkable improvement taking place in the condition of the beet crops of Europe. Mr. Licht's tests of the growing beets this week is cabled as showing an average of 12 per cent of sugar contents, which is so much of an increase over a few weeks ago, and also so much of an increase over as tyear and the year previous, that with similar imprevements inother countries the total beet crops may an increase over ast year and they car previous, that with similar imprevements inother countries the total best crops may
easily exceed last year's by 100,000 tons or

Closing cables were weak, but the market had alreasy anticipated that and recovered some from the low point.

The corn market, considering the limpness in wheat, the disorganization in railroad transportation resulting from the switchmen's strike, and the absence of buying orders from the outside, held up remarkably. There was a short period of considerable weakness during the first half hour of the session, but there were lots of buyers who stood in wait for the offered chance. Trade was largely of a scalping character, but there was no period of actual dullness during the short session. There was a good deal of talk about the backward crop and drought in various sections. Light showers fell this morning, however, in some portions of Kansas and Nebraska. Corn was sold in Buffalo for shipmens, and this was regarded as an indication that the strike was weakening.
