New YORK, Aug 22.-The stock market to-day was narrow, Reading, New England, Rock Island and Atchison monopolizing the greater part of the business among railroad shares, and Lead and Sugar that in the industrials, while all the important movements of the day were in these stocks. The market this morning showed considerable strength and confidence at the opening, which was made at prices a half per cent better than Saturday as a rule, while Sugar was up 1½ per cent. The bears were active and aggressive in New England, however, and a drop of % in that stock, aided by free realizing in Sugar and s corresponding fall, checked the advancing tendency in the general list, and small fractional concessions marked the trading of the first half hour. Then the urgent demand to cover shorts in the grangers sent Rock Island up about 1 per cent, and the manipulation of Lead, which sent its price up about 3 per cent before the close, turned the course of prices and an upward movement was inaugurated soon which met with no real setback during

soon which met with no real setback during the rest of the session.

All the coalers made substantia advances, though Reading was the only one showing any activity. The decision against the Texas Railroad Commissioners served to stimulate a sharp upward movement in the Texas Pacific securities in the last hour and

Texas Pacific securities in the last hour and aided the general advance at the same time. The market finally closed active and strong at about the top figures.
Railroad bonds were also stronger and more active, though except in the Reading issues and the Texas Pacific's there were no material changes. The Texas Pacific 1sts rose 2½ to 82½ and the 2ds 4½. The total sales were \$1,35,000.
Mining shares closed as follows:

ADVANCES IN GRAIN

In a Moderate Way and Further Decliner

in Hog Products. CHICAGO, Aug. 22 .- Dealings on the Board of Trade to-day resulted in moderate advances in the value of grains and further declines in the prices of hog products. While the receipts of wheat were larger than expected and foreign markets lower, trade seemed to favor higher prices at the opening. The crowd was evidently short and, as there was little for sale, the bears soon as there was little for sale, the bears soon showed considerable anxiety and bought ireely. Holders seemed to feel much confidence and the offerings were rather light, with domestic markets firm. Among the buillish items of news was report from London that the Mark Lane Express confirmed the previously reported deficiency in the Indian wheat crop, putting it at 52,000,000 bushels less than last year. Another buillish item was a report of the prospect of an early sattlement of the railroad troubles in the East. There was also a growing belief that the bearish cable news of the past few days had been manipulated. Trade was fair throughout the day, but could not be called active.

active.

Corn showed a good deal of strength, influenced chiefly by the firm feeling which ruled in wheat most of the time. The receipts exceeded expectations and there was a good speculative demand, and the trade a good speculative dentance, and the trace seemed to feel that the crop conditions are by no means promising. The market, how-ever, weakened with wheat during the last

ever, weakened with wheat during the last hour.

Oats ruled strong on good buying by shorts and the early strength in other grains. The offerings were moderate.

A hervous and unsettled feeling prevailed in hog products, with quite a good speculative business transacted. The receipts of hors were larger than generally anticipated, and though no marked changes in prices occurred operators regarded the increased supply as a weak feature, and there was a general inclination to sell during the early part of the session, while the demand was only fair, resulting in quite a sharp decline in prices for all the principal descriptions. At the decline there was a little more desire to purchase in sympathy with the strength developed in the grain markets, and prices railied to about medium figures. During the latter part of the session a decidedly weak feeling again prevailed, offerings from all sources being free. Prices receded to inside figures, and the market closed rather

Electric and Philadelphia Company Leading the Way Upward.

AIRBRAKE AND CABLE HIGHER And Union Switch and Signal Recovers a Part of Its Loss.

LITTLE DOING IN THE TRACTIONS

MONDAY, Aug. 22. Strength was the overshadowing feature of the local stock market to-day. Trading was light, mainly because orders could not be executed by the brokers at the prices set by principals. During the closing calls of last week something of a reactionary tendency was witnessed in a number of the leading specialties, and it was generally supposed that a continuance of it would be apparent to-day. The market gained strength over Sunday, however, and those who came to the first call this morning to take advantage of slumping prices were surprised to see the list open up above Saturday's close. Doubtless some of the belated bulls had made up their minds to get aboard the train before the fare was raised again, but they not only found that the cut rates of Friday and Saturday had been abolished, but that they would have to pay a little something extra to get into the swim. A few tardy shorts also manifested a little engerness to take their medicine, but

pay a little something extra to get into the swim. A few tardy shorts also manifested a little eagerness to take their medicine, but they found it difficult to get hold of. Stocks were too firmly held. In only a few instances did the bidding up process succeed in dislodging anything of consequence, and then only because the successful bids represented good round profits.

The ftems traded in on 'Change were Duquesne Traction stock and bonds, Philadelphia Company and Westinghouse Electric second preferred. Philadelphia Company was the most active and was also one of the strongest stocks of the list, scoring a good gain over Saturday's closing price. It opened at 21% sales, sold up to 22% at the last call, closed at 23% 22% and sold at 22% 22% and sold at 22% 22% after call, with 22% bid for more and none offered under 22%. Westinghouse Electric second preferred recovered to 33% sales and closed at 33% 23%. The last quotations sent from Boston were 33% 23%. The demand for Electric and Philadelphia Company was on Boston as well as local account. There was something like a reawakening of interest in Duquesne Traction, the stock selling at 23% and the bonds at 100% and interest. Besides Duquesne there was a little inquiry for Citizens Traction and Pleasant Valley that reflected a desire to do business, but in a general way the street railway group was featureless. People's Pipeage was higher at 15% bid: Airbrake was bid up to 12%; People's Pipeage was higher at 15% bid: Airbrake accepting on the presumption that the floating supply has been a little was offered at 130 Union Switch and Signal was higher at 17% bid and Standard Underground Cable. Moved up to 73% bid.

There is no accounting for the sharp advance in Airbrake excepting on the presumption that the floating supply has been absorbed and that it is being marked up to a point where it properly belongs.

There seems to be something up in Underground Cable. At least it is stronger, and indications point to highest holdings. At the time of its reorganized under

Westinghouse Electric. There has been quite a movement in Westinghouse stocks of late, says the Boston Bulletin, and the prospects are that they will sell much higher before the first frost. Westinghouse preferred has as much merit as any stock on the list; it pays dividends at the rate of 7 per cent, cumulative and is a lien on the property. It has in fact some features of a bond. Neither is it limited to 7 per cent, for both stocks share equally after 7 per cent on the common. A very important factor in Westinghouse affairs is the growing popularity of the company's street railway apparatus. During the past twelve months, old apparatus of some other manufacture, has frequently been replaced by the Westinghouse patterns. Another point of importance, is the small expense account as compared with the other large electrical companies. The Westinghouse people are thorough mechanics, and because of this mechanical knowledge, a vast amount of money has been saved to the concern. Our readers are more or less familiar with the brilliant record of the Westinghouse Airbrake Company, and the success of the latter is partly due to spiendid management in the mechanical department. The other his commanies have

the Westinghouse Airbrake Company, and the success of the latter is partly due to splendid management in the mechanical department. The other big companies have always had plenty of money and from the first contracted costly and extervagant nabits, and these have so grown upon them, that as yet, they have not been able to make any appreciable reformation. This is a factor which will ultimately make itself feit; has made itself apparent in Westinghouse affairs in one short year. There is talk that Westinghouse will get the Philadelphia street railway contract and possibly that of the Lynn and Boston.

Apropos, it is current in certain quarters that the Thomson-Houston Company is beginning to find out that it got the worst of the bargain with the Edison Company. At the time of the consolidation, the T-H, was in fine condition, whereas the Edison had a floating debt of about \$800,000, and was in other respects less strong. Then it is reported that both Messrs, Edison and Villard are practically out of the consolidated company. Some friction occurred, of which the world does not know. Elaborate offices were fitted up for Mr. Edison in the General Electric Company's offices, but he does not use them and has rented offices in another street. It is also understood that Villard's Milwaukee street railway will change from Edison to Westinghouse equipment.

Treesury Officials Serene. Treasury officials state that the department has a balance of \$50,000,000 and the revenues, notwithstanding the loss of the \$60,000,000 on sugar, are increasing at the rate of \$1,000,000 a month from customs alone. This rate of increase has been going on since the ist of March. The increase of internal revenue for the year closed July 1 was \$3,000,000 over the year before, and this year there will be an increase of \$6,000,000 over the year just closed. It is estimated that the customs revenue this year will produce a surplus of \$15,000,000 over expenditures. Secretary Foster is not at all apprehensive that the Treasury Department will experience any trouble in the matter of the shipment of gold during the present year. He so expressed himself to-day. The Secretary believes that things are safe with the large amount of gold the government absolutely owns, viz: \$110,000,000, and thinks it will take many a demand to Seriously depicte this store, when constant accessions to it are being made. Nothing has been done looking to a prevention of the shipments of gold from this country, said the Secretary, and nothing will be done.

Financial Notes. the 1st of March. The increase of internal

against the introduction of the trolley sys-tem into the city of New York, and instruct-ing the Special Committee on Electricity to present such protest to the proper authori-

ing the Special Committee on Electricity to present such protest to the proper authorities.

The annual meeting of the stockholders of the American Natural Gas Company will be held Thursday, September 1.

The following charters were issued to-day: Pittsburg Novelty Company, capital stock, \$1,000. McMillan Sash Balance Company, of Pittsburg, capital stock, \$4,000.

An insider in National Lead says: "There is no news about Lead. The stock is going up because the people are finding out about the merits of the property. I don't know how high it is going. I merely know that if Sugar preferred is worth 107, that Lead preferred is worth some where near the same price. A sure 7 per cent dividend stock is cheap at par. I regard Lead preferred as sure to pay 7 per cent."

For the second week of August the earnings of the Buffalo, Rochester and Pittsburg show an increase of \$5,562.

The first Westinghouse electric plant in Brazil was erected at Juiz de Fora, 186 miles not thwast of Rio Janeiro, in the mountains. The difficulties in creeting the plant were very great on account of the nature of the country and the very inferior labor. The power plant consists of two double-discharge Leffei mining wheels, giving together about 300 horse-power, and three dynamos. No poles could be obtained from the native timber and the wires from the station to the town were strung on iron rails, set about five feet in the ground, with cross arms

town were strung on fron rails, set about five feet in the ground, with cross arms bolted to them, just as is done in parts of Russia and India. Sales and Closing Prices.

A FEW GOOD SALES

ALREADY COMPLETED AND A NUM-BER OF OTHERS UNDER WAY.

Iwo Recent Transactions on Fifth Avenu Beyond the Court House-A Demand for Larger Storeroom in That Section-Reports From the Inspector and the Agents.

There is considerable activity apparent in real estate circles, with the most interest manifested in city business property and improved and unimproved lots and tracts in the suburbs. Indeed, the realty market has evidently started in in earnest, as the business transacted within the past lew days has shown. The within the past lew days has shown. The absentees are fast returning, and with their return the many deals underway which have been pigeon-boled since their departure are being taken up again. The nest week has made a very good record and from present indications the present one will surpass it. A deal is reported as being on the hooks for the sale of a large tract of Squirrel Hill property, which will, if consummated, involve a great deal more than \$100,000. The agent, Mr. W. W. Burchfield, who is looking after the interests of his son, Ira M. Burchfield, during the latter gentleman's absence from the city, says that the deal will likely be closed in a short time. Many other transactions of great importance, which are not in shape for publication, are also known to be at the interesting point. In fact, the prospects for an unusually brisk week are very flattering.

Two More Fifth Avenue Sales.

Two More Fifth Avenue Sales, During the past week two important transactions were effected in Fifth avenue property beyond the Court House. A lot 41 property beyond the Court House. A lot 41 x112, corner of Fifth avenue and Old avenue—part of what was once the Rodman property—was sold for \$17,500, and soon afterward a lot of similar size farther out was sold for same amount. The sales were effected by J. C. Reilly, Diamond street. There is very little more vacant property for sale on eastern Fifth avenue. All recent purchasers have improvements on an extensive scale in view. The demand for stores of larger dimensions than are now on that part of the avenue is urgent. A great many purchases have been made with a view to supplying this want.

A Little Gossip.

A Little Gossip. George Johnston, the agent who sold the Demmier property on Sixth avenue at \$2,500 per foot front, says the price was a fair one and shows a good advance in the valuation of Sixth avenue property since the last previous sale. of Sixth avenue property since the last previous sale.

Another new plan of lots beyond East Liberty is about ready for the market. Particulars will be given in this column in a day or two.

The Dispaton heard to-day of two good-sized transactions in city realty that will be closed up within a few days. One, involving \$35,000, will probably be reported to-morrow.

W. A. Herron & Sons placed a mortgage of \$50,000 at 4½ per cent on down town property, and say they have plenty more at the same rate for the same kind of realty.

Building Permits. The Building Inspector issued more permits to-day, some of them being very large ones, than in any one day for a long time. Among the most important permits issued was one to Mrs. John Harper for the build-

Among the most important permits issued was one to Mrs. John Harper for the building of a nine-story brick warehouse on the corner of Liberty avenue and Eighth street, the estimate cost being \$50,000. Mr. Charles Bickel is the architect and Messrs. William Kerr & Sons the contractors, and the one issued to Frank McCann for a six-story brick warehouse on Third avenue between Market and Ferry streets, cost \$25,000. J. F. Scott is the architect and Messrs. William Kerr & Sons the contractors.

The other permits issued, among which there are some very good sized ones, were: The city of Pittsburg, a two and three-story brick engine house. First and Second avenues, between Market and Ferry streets, cost \$20,500. Mr. Charles Bickel is the architect and Messrs. William Kerr & Sons the contractors. Also a one-story frame workshop, Second avenue, between Market and Ferry streets, cost \$1,100. Dr. William H. Winslow, a brick two-story dwelling, Morewood avenue, near Center avenue, cost \$9,000. Miss E. Shoup, a frame two-story dwelling, Herr street, near Morningside, cost \$700. Mary L. Graham, a Kame two-story dwelling, Herr street, near Wallace street, cost \$800. Griffith & Cadwallder, a brick one-story shop to be used for the manufacturing of tin plating, Elizabeth street, between Second and Lytle streets, cost \$75. John S. Holland, a frame two-story dwelling, Rebecca street near Breed's Hill; cost, \$1,500. John Lowry, a frame two-story dwelling, Arlmetton avenue near Patterson street; cost, \$700. Mrs. C. Ferhoest, three frame two-story dwellings, Webster avenue, corner Somers street; cost, \$3,000 to all. James Hoedle, & frame two-story storeroom and dwelling, Winebiddle Webster avenue, corner Somers street; cost, \$3,000 for all. James Hoedle, \$2 frame two-story storeroom and dwelling, Winebiddle avenue, corner Dolphin street; cost, \$2,100. C. H. Seidle, two frame two-story dwelling, Susquelianna street; cost, \$975. G. O. Landstrom, a frame two-story dwelling, rear Camelia street between Fifty-fifth and Fifty-sixth streets; cost, \$1,000. Rev. J. K. Mc-Clurkin, a brick two-story dwelling, Atlantic avenue between Harriet street and Linerty avenue; cost, \$5,500. Franze Zwingge, a brick three-story dwelling, Bingham street near Seventeenth street; cost, \$2,000. Mr. Buckley, a brick addition, Atlantic avenue; cost, \$500.

Reports From the Agents. C. H. Love sold two more lots in the Hun-ter plan at Wilkinsburg, No. 71 to Oliver W. Jackson and No. 2 to Virgin Jackson, at \$350

Black & Baird sold to J. M. McAfee, for Lewis F. Falck, lots Nos. 10 and 11 in the Faick plan, Eleventh ward, Allegheny, on the northerly side of Davis avenue, for raick plan, Eleventh ward, Allegheny, on the northerly side of Davis avenue, for \$2,000.

John K. Ewing & Co. sold for William Ittel to James Murray Lucey a lot fronting 40 feet on Wylie avenue and extending back 130 feet to an alley, being lot No. 12 in Ittel's plan, Eleventh ward, Allegheny, for \$1,400.

S. J. Fleming sold a brick house and a lot 24x50 feet, on Granville street to George N. Monroe, the attorney, for a price close to \$1,300 cash. Also two houses with a lot 22x122 on Forty-second street for \$8,500.

Morris & Alsolit sold to Walter Morris lot No. 17 in the Fairmont Place plan, 25x140, for \$1,600 cash.

A. Z. Byers & Co. sold for William A. Black, Eso., to Gustavus Noble, lot No. 57 in his plan, Tenth ward, Allegheny, 20x100, corner of Sheridan and South End avenues, for \$335 on monthly payments. corner of Sheridan and South End avenues, for \$325 on monthly payments.

Charles Somers & Co, sold to Mrs. Louisa Zeumer lots Nos. 4 and 5 in the Swan plan, Tenth ward, Allegheny, each fronting 25 feet on Broadway, and extending 230 feet in denth for \$800.

CREAMERY BUTTER BOOMING.

The Elgin Butter Board Again Advances Prices-An Improving Demand for Country Butter-Higher-Priced Eggs Expected Soon-Sugar and Canned Goods Still Strong. MONDAY, Aug. 22.

Sales of creamery butter were made on the Elgin butter board to-day at an advance of 1c per pound over last Monday's quotations, which means that the present range here will be advanced le as soon as this week's consignments of Elgin butter are received. The market is very strong at the advance and attractive goods are hard to get in anything like the quantities desired. Chicago is an active competitor for Elgin goods, and as produccompetitor for Eigin goods, and as produc-tion is light prices are bound to be higher. A 40-cent local market for choice creamery is expected by some within a month. The recent advances in Eigin makes has stimu-lated the demand for lower grades and choice country makes are in better demand at advancing prices. If creamery does go to 40 cents, or anywhere near it, the consumption of country butter will be very materially increased.

cents, or anywhere will be very materially increased.

The general merchandise markets opened tamely to-day, as usual to Monday, but reports indicated that the demand was steadtly improving. As to prices, no radical changes were reported.

Mr. David Whitmyre, President of the Iron City Milling Company, has just returned from his farm in Mahoning county, O., and says the country thereabouts is plagued with grasshoppers, They injured outs considerably before cutting, and are now working on the corn.

A gentleman from Washington county, Pn., says the wheat and outs crops of the county are unusually good this year. Thirty acres yielded 800 bushels of wheat, which is high above the average, and 300 bushels of outs weighed more than 400 bushels did last year.

Grain, Flour and Feed. Sales on call at the Grain and Flour Exchange to-day: One car part winter wheat bran and part No. 2 white middlings, at \$15 50 and 17 50: one car winter wheat bran 10 days, \$15 00. Bids and offers: SPOT.

Berries, Fruits and Vegetables Supplies in these lines to-day were heavy and the market favored buyers.

Huckleberries sold at \$1 00@1 25 per pail and 75@85c per basket, and blackberries at

and 75@55c per basket, and blackberries at 8@9c per quart.

Apples were quoted at \$1 50@3 50 per barrel, with no fancy stock on sale; peaches sold at \$1 50@2 50 per bushel crate, according to condition and quality of fruit; Bartlett pears at \$6 00@6 50 per barrel; damson plums at \$3 50@3 75 per bushel; green gages at \$2 00@2 50; California plums at \$2 00@2 50; Der crase and do. peaches at \$1 50@1 75.

Lemons were firm at \$6 00@7 00 per box, and bananss were easier at \$1 50@1 75 for firsts.

Grapes, Ives and Concords, were quoted at \$5 00@5 50 per stand and 40@50c per small basket.

basket.

Vegetables were dull and easy. Tomatoes were slow at 25@40c per bu, cabbage at 75@ \$100 per bbl, onions at \$25@275, celery at 25@30c per dozen and egg plants at 75@8100 Pontoes were dull and weak. Jerrey Rese, \$150@175 per bbl on track and \$175@ 200 from store: Jersey sweets, \$475@500; Baltimore, do \$325@375.

Watermelons showed a further decline at \$1000@200 to per 100. Canteloupes were good stock at \$200@400 per bbl for Maryland and \$225@3 00 for Jenny Linds.

The British Grain Trade.

London, Aug. 22.—The Mark Lane Express, in its weekly review of the British grain trade, says: The crops have been benefited by the rain that has islien during the past week. This is especially the case with oats in the middle and north of England. The new wheat crop has commenced selling at 32s per quarter, which is 8s below the first sales of 1891. Foreign wheat has dropped is, except Indian, which has been steadied by a diminution of the shipments. The total supply of wheat held in Great Britain is 6,821,000 quarters, against 3,906,000 quarters at the corresponding period in 1891. Barley, oats and beans are firm. Corn is 3d cheaper. At to-day's market there was a fair attendance. New and old English wheats sold at an average of 30s 11d. Many new samples were of unexpectedly light weight. Foreign wheat was neglected and 6d lower. Flour declined 6d. Peas were 6d dearer. Beans advanced is. Barley was strong. Corn and oats were unchanged.

Cotton. New York, Aug. 22.—Cotton futures closed quiet and steady: August, 7.13c: September, 7.12c; October, 7.22c; November, 7.32c; December, 7.42c; January, 7.52c; February, 7.61c; March, 7.71c; April, 7.89c.
Cotton contracts closed steady at 2@3 noints advance on freer buying orders and light selling; business very duil.
Galveston, Aug. 22.—Cotton steady: middling, 6 15-16c; low middling, 6 7-16c; good ordinary, 5 15 16c; net and gross receipts, 299 bales, all new crop; exports constwise, 47 bales; sales, 18 bales; stock (actual), 17,220 bales. bales.

NEW ORLEANS, Aug. 22.—Cotton steady:
middling, 7c: low middling, 6½c; good ordinury, 6c; net and gross receipts, 1,033 bales;
exports to Great Brilain, 2,950 bales; to the
Continent, 50 bales; sales, 150 bales; stock, 65,176 bales.

And Cattle and Hogs Barnly Steady at the

SHEEP LOWER

Local Yards. MONDAY, Aug. 22. The run of live stock was pretty heavy all around to-day and while buyers were out in fair force the tendency was in the direction of lower prices excepting on prime grades. Best corn-fed beeves and hogs were firmly held, but common grassers and stubblers were dull and week. Sheep were lower on all grades, though there was no decline on top stuff at the Central yards.

CATTLE. Receipts were heavy, between 150 and 160 loads, and the market opened slow, notwithstanding the presence of large numbers of buyers. Good butcher grades were held steady at about last week's closing prices, and prime beeves and exporters were firmer, with a prospect of a slight advance being established; but common and medium grades were dull and indications pointed to a decline. Following are a lew of the early transactions.

John Hesket & Co. sold 16 head, weighing 16,220 lb, at \$3.50; 17 head, 18,770 lb, at \$3.70; 20 head, 23,330 lb, \$4.00; 19 head, 19,580 lb, \$3.60; 22 head, 20,750 lb, \$3.30; 18 head, 20,450 lb, \$4.25; 14 head, 18,970 lb, \$4.70; 23 head, 24,220 lb, \$3.50; 8 heifers, 6,10 lb, \$3.50; 8 head, 24,420 lb, \$3.50; 8 heifers, 6,10 lb, \$3.50; 8 head, 24,550 lb, \$3.50; 2 cows, 2,680 lb, \$2.25; 20 head, 22,650 lb, \$3.50; 2 cows, 2,680 lb, \$2.25; 20 head, 22,650 lb, \$3.50. Receipts were heavy, between 150 and 160

\$3 45.
