hand and alto eral Clarkson also took gether Mr. Featherson had a rather uncomfortable time. Featherston was a member of the Fifty-first Congress from the First Arkansas district, and was defeated two years ago for re-election, by Henderson Cate. He was a union labor man, and has cast his lines with the Farmers' Alliance, and has been renominated by the Third party and the Republicans this year. Mr. Featherston had been called to New

York to confer with the Republican cam paign managers, with reference to a plan for electing some Republican Presidental electors in the Southern States, and is expected to assist in the making up of com-posite electoral tickets to be voted by the Republicans and the Third party men. Featherston's presence in the city and the character of his mission were to have been kept a secret, but a Republican paper made both public to-day, and Featherston was accused of having leaked. He assured Chairman Carter and General Clarkson that he was innocent.

Senator Bishop W. Perkins, of Kansas, Senator Bishop W. Perkins, of Kansav, was one of the callers at headquarters. He told the managers that the hope of Chair-man Harrity's committee to carry Kansas would never be fulfilled.

General Clarkson, President of the Re-publican League of Clubs, said to-day that at the meeting of the League at Buffalo, September 15 and 16, more than 2,000 delegates will be present. Whitelaw Reid, Thomas R Reed, Governor McKinley and Congressman Dolliver are among those who are to deliver addresses.

A Peep at Democratic Headquarters. [] Senators Randall Gibson, of Louisiana, and George Gray of Delaware, were among the numerous callers on Chairman Harrity SDO Chairman Dickinson at Democratic Na tional headquarters to-day. The former called to assure the managers of the Cleve land and Stevenson campaign that there need be no fear of the Democracy losing the electoral vote of Iowa, and that the Republican pretentions that they have even the slightest chance in that stronghold of Democracy are most ridiculous.

Senator Gray, one of the most brilliant orators of the Democracy, called to confer with B. B. Smalley regarding the work which he is expected to do on the stump, but Mr. Smalley was out of the city and Senator Gray will see him to-morrow.

Chairman Thomas Taggert, of the Demo cratic State Committee of Indiana, arrived this evening, to consult with the campaign managers regarding the work necessary to be done among the Hoosiers to wrest the State from the Republicans.

E. P. Speer, of the Atlantic Journal, who paid his respects to Messra. Harrity and Dickinson, said, regarding the Georgia situation: "I do not regard the Presidental situation. I do not regard the Presidental situation in Georgia with any sort of dis-trust. The Third party people are counting on the colored Republican vote to help along their ticket in the October State election, but they won't poll half of it. North-ern, the present Governor, has a most act ceptable record, and the colored people re-spect him and will vote for him. My judg-ment is that he will beat Peek, the Third party candidate, 40,000 votes, and that the State will give the Democratic national ticket an equally large majority.

One of the rumors which was set affoat to-day was to the effect that Richard Watson Gilder, the poet, is preparing a cam-paign life of the Democratic Presidental candidate, which will be circulated by the

Secretary Demming's Calamity Cry.

During this time every feature of the During this time every leature of the existing order of things had been denounced in a most vigorous, not to say frantic manner, and the audience was certainly amused if not convinced. After these amused if not convinced. After these antics came to a close, N. A. Demming, of Washington, made the political speech of the day. Mr. Demming stands high in the councils of the People's party. In begin-ning his address he said

"The discontent throughout the country is increasing daily and hourly, and a change of conditions is absolutely necessary. Poli-tics of a certain line is not right now be cause it was right 40 years ago. Citizenship means something more than blind devotion to a party name. The People's party is an outgrowth of the Farmers' Alliance, and outgrowth of the Farmers' Alliance, and was made necessary because there were no longer two parties in the country. If you read the Republican and Democratic plat-forms you will find them alike on the bankfrom that city.

ing, silver, financial and railroad ques-tions. The only distinction is on the tariff, and there is practically no tariff, and there is practically no difference between the old partice there. The Democratic Morrison bill only reduced the tariff 10 per cent, thereby ad-mitting that 90 per cent of it was right, and the much-talked-of Mills bill only made a reduction of 51% per cent, admitting that the other 94% per cent was correct. The present Democratic House tried to take the ariff off wool and leave it off clothing, and in 30 minutes gave away millions of dollars to a Chicago syndicate to run a fair.

The Talk About the Force Bill.

"There is some talk of the force bill. Look at the returns from Alabama . week

York mortgaging the incoming administra-tion, no matter which wins. All this crestes a demand for a second party, which the People's party supplies. In Weaver and Field we have an ideal ticket, and one which shows that there is one party which recognizes that the war is over. One of our candidates was in the Northern and the other in the Southern army. The People's party is now organized in 41 of the 44 States of the Union, and is in a position to dictate terms in the South and West. We have eliminated Republicaniam in four silver States, and forced the barons of the gulf to acknowledge our power.

Mortgages on Western Farms.

"They tell us the mortgages in the West are being paid off. Here is one Nebraska paper with advertisements of 34 mortgage sales. That is the way they are paid. Every man, woman and child in Kansas is mortgaged for \$165, or over \$800 for an average family. Debt and distress prevail through

out all that region," Mr. Demming then read the platform of his party and proceeded to discuss its de-mands in detail. In reference to the rail mands in detail. In reference to the rail-roads, he said: "The railways are capital-ized and bonded at \$8,000,000,000, about half of which is pure water, fictions and frand, upon which we have to pay dividends. The net profit on these railways is \$405,000,000 per year. If the Government would take them at their actual value under the never-urrandared right of subject to domain. surrendered right of eminent domain, it could issue bonds at 3 or 4 per cent for the amount, reduce freight rates one-half, and clear the entire cost in 20 years. Govern-ment control of railroads is not a crushing ides, but based on good, sound business principles. The Government should own and operate these lines instead of them

All the testimony against Chief Eldridge was given with the exception of that of the Legal Prosecutions Possible. Upon a technical point involved in the operation of the license law he tound he could legally prosecute all of the liquor sellers who had not paid their license tax, or placed it in the hands of the commis-sioners, and he proceeded to do so when he was sharply called to a halt by his superior two principal witnesses, one the signer of the affidavit, and the other, S. Wootsen, who, it is said, went after the money. The case for the city and defendant was summed up. The matter was then turned over to the City Councils, which will render a de-cision to-morrow evening.
