character. Another factor came in to limit the amount of trading, the exports of gold, and the advancing tendency which was displayed by most stocks at the opening soon gave way to weakness, though the losses suffered were generally insignificant. The favoring elements which gradually made themselves felt in the late dealings were the strength and activity in Missouri Pacific, which was regarded as indicating the attitude of the old interest in the market, and unde of the old interest in the market, and undoubted buying of many stocks, such as Book Island and Reading, by insiders, with the general belief that the short interest is still of large proportions in comparison with the size of the market. New England was to-day the only really weak point in the rall-road list. The grangers throughout the day were quiet, and the declining tendency in Burlington was more than offset by the strength in Rock Island and St. Paul, and the rest of the list were without special feature.

In the industrials Lead and later Dis-In the industrials Lead and later Dis-tillers and Sugar were specially strong. Among the specialties Colorado Coal and Oregon Short Line, and, to a less extent, Union Pacific, Denver and Gull, were conspicuous for the advance made. The market closed with considerable ani-mation, but only steady to firm under the pressure to realize, and a sudden drop in Lackawanns, which, like most of the list, showed a marked lack of support, left it ma-terially lower, while most of the list show small advances. all advances. Initroad bonds were again quiet, but the

Railroad bonds were again quiet, but the old favorites, Atchison incomes, were again brought to the front and, while advancing only slightly, led the list with sales of \$308,000 out of a total day's business of \$1,256,000. The market displayed a firm temper and prices are generally slightly higher this evening, but the important changes are few.

EVERYTHING CLOSES LOWER. A Bearish Sentiment Prevalls on the Chi cago Board of Trade.

CHICAGO, Aug. 24 .- A bearish sentiment prevailed in all of the trading pits on 'Change to-day, and everything closed lower than yesterday's last figures. Wheat was rather strong on the curb, before the bell apped for regular trading, and as a result of this fact transactions in a regular way were at a point above yesterday's close; but the situation was regarded as bearish and there was considerable selling pressure re-sulting soon in lower prices. The bearish points were the weak and lower English cables, the strike at Buffalo, the increase of cholers in Europe and the danger of its invasion of this country and the heavy re-ceipts of wheat at all points of accumulation. Bradstreet's reports the increase in stocks East of the Rockies last week at stocks East of the Rockies last week at 4,02,000 bushels, and 123,000 bushels on the Pacific coast, making a grand total of 4,174,000 bushels increase for the week. The Government crop bulletins were also favorable and reported big yields, while interior deliveries continued on a liberal scale. A good deal of long wheat was closed out and short selling was somewhat restricted and cautious. The weakness in corn and provisions also helped to cause depression in wheat and the market was heavy almost from the start. Corn was lower and weaker; early transac-

tions were at about yesterday's close, but reports of generous rains in the most im-portant sections of the corn belt started conreports of generous rains in the most important sections of the corn belt started considerable liquidation and lower prices. Later it was asserted that the rains had been light and local, and the Government weekly crop bulletin indicating that drought was very general, there was some recovery. Outs were quiet and easy, in sympathy with the course of corn and wheat, closing ke lower at 3ke for September.

Hog products were generally lower; the receipts of live hogs were some 3,000 more than expected, and there was less urgency in the comand and considerable realizing which resulted in lower prices. Pork closed as all the loss of secondaried with yesterday's said farms, September lard was an included and curing the early part of the

NUMBER OF GAINS.

The Boom in the Local Stock Market Still Unpunctured.

SLIGHT REACTION IN PHILLIE, And P. & B. and Puquesne Tractions Look a Little Less Buoyant.

THE INDUSTRIALS ALL HIGHER

WEDNESDAY, Aug. 24. There was only one weak spot to-day-Philadelphia Company. It is hardly the correct thing, either, to say that it was weak. It merely reacted a little. It may react further, but it is a safe purchase, according to people whose opinions are en-titled to respect, at anything below 25, and the optimists predict it will go to 30, possibly 35, before the 1st of January next. The basis of the upward movement has been potent to the street and public for some time past and it would be a waste of space, therefore, to thresh over the old mildewed straw in its behalf, if, indeed, it would not look like an effort to unduly advance it. The strength of the basis of the upward movement will be tested as soon as cold weather arrives, and until that time it may be the part of wisdom not to bank too heavily on the result of the test being favor-

beavily on the result of the test being favorable.

Besides Philadelphia Company, neither P. & B. Traction nor Duquesne Traction showed the bnoyancy of the previous day. Everything else, however, was strong, and many good gains were scored. One of the features of the day was the demand for Chartiers Valley Gas and the advance in its price. The most noteworthy features after the Chartiers advance were the advances in Westinghouse Electric second preterred, Underground Cable, Switch and Signal, Wheeling Gas, People's Pipeage and New York and Cleveland Gas Coal. The demand for all of them was sharp, continuing right up to the close, which was generall ast the top prices of the day. Bull talk was about all that was heard, the most general argument being: "If the market is active and strong now, what will it be when the labor situation is not a factor and everything is moving along smoothly. We are going to have a big booming market this fall." Perhaps. We hope so. Money is abundant and we may have a big, booming market. It is possible, however, that the present movements may be the result of operations in the way of discounting the future.

Course of the Market.

Course of the Market,

The shares traded in on 'Change were Peoples Pipeage, P. & B. Traction, Philadel-phia Company, Westinghouse Electric sec-

The shares traded in on Change were
Peoples Pipeage, P. & B. Traction, Philadelphia Company, Westingbouse Electric second preferred, Wheeling Gas, Switch and Signal, Chartiers Valley Gas, Pittsburg Traction and Duquesne, Traction People's Pipeace soid at 169,616%, closing at 15%,628%; Philadelphia Company soid down to 23% on call, closing at 25%, c

E. E. Dennison, of Philadelphia, who is largely interested in P. & B. Traction and Chartiers Valley Gas, and who represents other interests in the same stocks, was in the city to-day, and some attributed the movements in the shares mentioned to movements in the shares mentioned to operations for his account. Mr. Dennison was seen at the Duquesne Club this afternoon, and while he talked very freely he said nothing particularly new regarding either P. & B. or Chartiers. He intimated, however, that P. & B. was in better shape than a good many people imagine, and that a dividend would come sooner than expected. The company is getting along finely, is free from floating debt, and at present is earning at the rate of \$365,000 gross per annum.

The P. R. R.'s Earnings. The following is a statement of the business of the Pennsylvania Railroad Company: All lines east of Pittsburg and Erie for July, 1892, as compared with the same month in

1	1891, 8110W;

follows: P. & B. Traction, 25%@25%; Duquesne Traction, 25%@30; P., A. & M. Trac tion, 44% asked. P. & B. 5s were quoted at 101% bid: P. V. & C. R. R. serip was quoted at 90@91: par was bid for \$10 worth of electric scrip and \$100 worth was offered at 90.

After the close P. & B. Traction was offered at 26%, with 26% bid.

Andrew Caster sold 50 shares Underground Cable at 77.

Trading off 'Change was active, especially in Electric, Switch and Signal, Cable and the in Electric, Switch and Signal, Cable and the gassers.

E. P. Long returned from the East yesterday. He was in New York most of the time and succeeded in placing the bulk of \$155,000 worth of bouds of a Pittsburg corporation there. The remainder will be placed shortly. Mr. Long also expects to place bonds to the extent of \$100,000 in the East for a local iron and steel company.

A small sale of Pittsburg and Castle Shannon Ratiroad is reported at 6½, and that price is bid for more.

The earnings of Wheeling and Lake Erie for the third week in August increased \$2,400.

\$2,490. The July net earnings of Baltimore and The July net earnings of Baltimore and Ohio show a talling off of \$168,000.

The Red Cloud Mining Company will tomorrow pay to stockholders of record August 20, the regular monthly dividend of 5 cents a share, aggregating \$10,000. The superintendent of the company reports ore in sight sufficient to pay expenses and dividends for 18 months to come.

The following charters were issued to-day: The Morris Einstein Company, of Pittsburg, to manufacture medicines; capital stock, \$100,000. The incorporator are Morris Einstein, James F. McMorris, David McGowan, William C. Haelare, Adolph Heop and Nicholas Schenkel. The William Anderson, Company, of Pittsburg; capital, \$100,000. Incorporators, William Anderson, William D. Johnston, John Brinn, Silas W. Means and James H. Anderson. Evans City Natural Gas Company, of Butler county; capital, \$10,000.

It is not safe, says the New York Sen. to

dridge, the wealthy Chicago operator, who has been making a great deal of money on paper in the recent rise in street car railway paper in the recent to have the straight tip stocks.

Everyone seems to have the straight tip that Sugar Trust is to be put on a 10 per cent basis, with a quarterly dividend of 2% per cent. The trading in the industrials is steadily growing, despite the fact that many of them are not doing as well as they promised, and that the Thurber-Whyland Company has made a very serious cut in wages. Sales and Closing Prices. Transactions at the Exchange were as fol-

AFTER A HOTEL SITE,

astern Capitalists Again Looking Ove the Ground-Prices a Little Too High to Suit Them-1 Few Hints to Property Owners-Building Permits and Late Sales.

erty Owners—Building Permits and Late Sales.

Some time ago a party of Eastern capitalists were in the city looking for a site upon which to erect a hotel, the locality in which they appeared anxious to obtain property being between Third and Fifth avenues, on either Wood or Smithfield streets, as was noted in this column as the time. The matter very suddenly dropped from publicity, and the contemplated improvement had apparently been abandoned. Yesterday, however, it was discovered that the gentlemen hailing from the East have returned to the city and renewed their efforts to purchase a suitable site on which to erect a first-class modern hotel. A local real estate agent representing the syndicate has entered into negotiations with the owner of a piece of realty situate on the corner of Fourth avenue and Smithfield street, but it is safe to say that the deal will not go through, as an interview with the owner yesterday would indicate that the sale will not at least for the present, be closed. He said:

"Though these people are very anxious to purchase my property, they are not willing to pay the price I ask for it. I have submitted my lowest terms and you can say that if they are not accepted that I will not listen to any other proposition, and as I am not in the least anxious to sell, I feel unconcerned as to the result. If my terms are accepted, well and good; if not, ditto:

Sinali Improvements Pay.

The importance of small and comparatively inexpensive things is sometimes overlooked by property owners. Said a real estate agent.

Dairy Products. ceither Wood or Smithfield streets, as was noted in this column at the time. The matter very suddenly dropped from publicity, and the contemplated improvement had apparently been abandoned. Yesterday, however, it was discovered that the gentlemen halling from the East have returned to the city and renewed their efforts to purchase a suitable site on which to erect a first-class modern hotel. A local real estate agent representing the syndicate has entered into negotiations with the owner of a piece of reality situate on the corner of Fourth avenue and Smithfield street, but it is safe to say that the deal will not go through, as an interview with the owner yesterdag would indicate that the sale will not, at least for the present, be closed. He said: "Though these people are very anxious to purchase my property, they are not willing to pay the price! ask for it. I have submitted my lowest terms and you can say that if they are not accepted that I will not listen to any other proposition, and as I am not in the least anxions to sell, I feel unconcerned as to the resuit. If my terms are accepted, well and good; if not, ditto."

inexpensive things is sometimes overlooked by property owners. Said a real estate agent to-day: "You would hardly believe what a difference flagstone sidewalks and cellars difference flagstone sidewalks and cellars excavated the full way under the sidewalks make to many merchants when looking for stores. As against the slovenly brick sidewalk, the flagstone pays for itself in rent often in a single year, or in two. So with large and handsome plate-glass windows. Be the store little or big, it is the height of foily to have it present to the public a shabby and cheap appearance. I can name several streets in the city where the difference in lavor of flagstone pavements, plate-glass windows and other neat details, as against the slovenly brick pavement and poor show windows, is 25 per cent of the total rent. Not only that, but no one will rent the poorer sort of store at all, so long as there is a better one to be had in the neighborhood. People who get inferior rents from store property have usually but themselves to thank for it, because of their own closeness about little things to make their property more presentable."

The following building permits were ssued yesterday: Jacob Boobyer,a brick twostory addition, 705 Liberty avenue; cost, 1500. M. Kirch, a frame two-story addition, Apple alfey, near Morgan street; cost, \$350. Pennsylvania Railroad Company, a onestory brick passenger station, Fifth avenue, Twenty-first ward; cost, \$3,950.

Reported by the Agents. S. J. Fleming sold a piece of property on St. Clair street, Nineteenth ward, for \$10,500. The papers are now in the hands of an attor-

ney for examination.

Black & Baird sold for Matthias Goetz a property on Charlotte street, Fifteenth ward, lot 21x100, through to Lafayette alley, having a large brick house, with storeroom, of nine rooms in front and a small frame building in rear, for \$9,500.

John K. Ewing & Co. sold for the Ridgeview Land Company, of Allegheny, to J. R. Mahaffey a lot fronting 50 feet on Westminster street and extending back 120 feet to an alley, being lot No. 42 in the Grande Pointe plan, Eleventh ward, Allegheny, for \$1,200 cash.

cash.

Peter Shields reports the following sales in the Scheuley Park Land Company's plan, Twenty-third ward: Lot No. 1, 22x125 feet to a 15-toot alley, located on Gertrude street, or \$500 cash, and lot No. 67, 25x100 feet, to a 20-foot alley, located on Lydia street, for \$400. Charles Somers & Co. sold for W. C. Nixon to D. C. Stewart a property situated on Woodland avenue, Ninth ward, Allegheny, consisting of a lot 30 feet front by 140 feet deep to a street in the rear, with a two-story deep to a street in the rear, with a two-story brick dwelling of five rooms, for \$3,000.

MERCHANDISE FAIRLY ACTIVE

And the Demand Is Steadily Improving-Merchants Satisfi d With the Outlook for the Fall Trade-Current Business Gossip and Revised Prices. WEDNESDAY, Aug. 24.

A fairly satisfactory demand is noted in most lines of general merchandise, with the tendency in the direction of enlargement, and merchants generally appear to be very well satisfied with the outlook for the fall and winter trade. It is expected that the labor situation will present few depressing features by the time the autumn movement gets under way and that trade will be helped materially by the Exposition and comparative activity and prosperity in the iron business. Collections are fair.

A business man of Piedras Negras, Mexico, is quoted by a Chicago paper as saying that Mexico will purchase \$15,000,000 worth of corn from the United States this year wing to the complete failure of the cron owing to the complete failure of the crop in Mexico. The Government has ordered all the import duties on corn taken off until September. The import duty on corn is 1 cent on each kilo or two and one-tenth

pounds.

The Chicago Grocer says: "Quite an advance has taken place in sugar strup during the last week, the Franklin refinery having put their figures up in some cases 80 per gallon. It is currently reported that a certain New York house has recently disposed of a large block of sirup on this market. There is little or no demand for direct consumption, but dealers are confident that with the advent of cooler weather the demand that will then materialize will at once send prices much higher than at present. mand that will then materialize will at once send prices much higher than at present.

"The supply of choice corn-led cattle is much less than usual throughout the Central and Western part of Hilmois and the Central and Eastern part of Missouri. The number of good hogs is also less than in former years.

"Michigan, Indiana and Ohio will furnish Eastern markets with what hegs they need for some time to come, consequently shipments from here will probably be light. The packers are bearish on the market and the inture markets will doubtless be unsered.

LIVE STOCK CLOSES SLOW And Draggy at Monday's Decline in Cattle

WEDNESDAY, Aug. 24. The run of live stock at the Central Drove Yards, East Liberty, this week was large, and prices suffered somewhat, those for common and medium grades of cattle and sheep in particular. The weakness was due mainly to the slumpy condition of outside markets. The close to-day was dull and heavy at Monday's decline. CATTLE

The supply on sale Monday was 157 loads, sgainst 101 loads last Monday. The attendance of Buyers was good, but owing to the unfavorable reports from other points the market ruled very slow at a decline of 15c to 25c per 160 pounds on common and medium grades, while prime grades were only 10c lower than last week's prices. Tuesday's receipts were light and the market was slow at Monday's prices. Extrs, 1,450 to 1,600 lbs.

Prime, 1,800 to 1,400 lbs.
