TANKS FOR BOTTLES.

Flint and Green Glass Manufacturers Considering New Methods.

TALK OF A PITTSBURG SYNDICATE.

Nothing New in the Situation Among the lawrenceville Men.

ROUGHERS TO HOLD A MASS MEETING

Most if not all glass manufacturers have made extensive improvements in their plants since July 1, the beginning of the annual shut-down of the present year. Among the firms who are trying new machinery with a view to economy of production is the West Virginia Flint Bottle Company. The latter concern is owned and operated by practically the same firm who put the plant of the Central City Window

Glass Company into operation. The Central City Company will not op-erate their window glass works during the coming season. Steps have already been taken to demolish the furnace as well as the one in the works of the West Virginia Bottle Company. In place of these furnaces a tank will be erected, the dimensions of which have not yet been decided upon. The tank will be employed in manufacturing bottles entirely and no more window glass will be manufactured by the concern.

Bettle-Blowing Machines on Trial, Of all the changes made in the various glass factories since July none are exciting more interest in glass circles than the future operations of the plant belonging to the West Virginia Company. The most interest-ing feature of the changes is that which refers to the mode employed in making their bottles. The company has decided to introduce the "iron man."
They will employ a number of bottle-blowing machines of a new pattern and the contents of the tank will be worked for the machine-made bottles. The company claims to have full confidence in the ability of the machines to do the work and are willing to

risk some capital in the effort.

Other bottle manufacturers are rather skeptical concerning the advantage of the machines and are afraid to make the venture. If the machines introduced by the West Virginia Company prove a success it is stated that other manufacturers will follow their lead. The American Glass Com-pany, of Woodbury, N. J., have had two years' experience with the machines in two of their plants and have the utmost confi-Talk of a Green Glass Syndicate.

Outside of the new departure of the West Virginia Company there is little if any-thing out of the ordinary occurring in glass circles. Some months ago the green glass manufacturers took steps to form a syndicate, but up until the present time nothing definite has been accomplished. They have not yet given up the notion, and it is pretty certain that the green glass men of this city will form a large combination and build a large tank outside of the city. The younger Mr. Wightman, who is now in Europe inspecting the different systems of bottle tanks, is said to be there in the interest of the proposed syndicate. The Wightmans will build a large tank on their own account, even if the syndicate plan never reaches a decided issue. The Wight-mans intend to remove both of their plants from this city and Parker's Landing, but they have not yet accepted any offer, al-though numerous inducements have been proffered them of land and other concessions.

ROUGHERS UP IN ARMS.

They Are Anxiously Awaiting the Meeting To-Morrow Evening.

The roughers employed upon guide mills in the various iron and steel works of this city are still up in arms over the reduction. tagonistic, and take advantage of every opportunity to discuss the question, with a view to adopting some course to remedy the so-called evil. Almost nightly they gather in the vicinity of their hall on Fourteenth street, and unite in denouncing the action of the Conference Committee in granting the concessions they did to the

All of the roughers are awaiting with much anxiety for the mass meeting which takes place to-morrow evening. At this meeting they say it will be decided whether they shall accept the terms of the rollers or not. If they agree to go to work this meet-ing will end all controversies for the future. If the majority vote against the acceptance of the scale there will in all probability be a strike. The roughers employed in Kimberly's Greeneville mill have made no concessions as reported, and will demand their pay according to the scale of the Amalgated Association

QUIET AT LAWRENCEVILLE.

Little if Any Signs of Activity Among the Amaigamated Men.

Since the strike was inaugurated in Lawrenceville, two months ago, at no time was it so quiet in that vicinity as yesterday. At the Thirty-third street mill every piece of machinery was in operation, but it is reported that the management are laboring to considerable disadvantage. Never have they been so short handed. Every day the strikers induce some of their best non-union workmen to leave.

At 3 o'clock yesterday afternoon the

patrol committees had induced an even dozen skilled workmen to desert the Carnegie Company's employ, and had secured the promises of at least ten more. At the Twenty-ninth street mill not a wheel is turning The only signs of activity come from a few men who are busily engaged repairing the furnaces. The trial made upon the 72-inch plate mill on Thursday night was satisfactory.

WILL COMMENCE WORK.

Everything Arranged for the New Steel Plant at McKeesport.

On Monday next work will be commence on the new steel mill for the National Tube Works Company. The new building will adjoin the firm's blast furnace plant. The contract has been awarded to Jutte & Foley, general contractors, of this city.

b price is about \$73,000. This amount see not include the equipments of the

When the mill is finished, probably early in the summer of 1893, it will employ from

500 to 1,000 men.

For Immigrant Inspector. The Window Glass Workers' Association will in all probability recommend another one of their members for the appointment of Immigrant Inspector. The members of the organization express considerable surprise over the retusal of Secretary Foster to appoint George L. Cake. It is under stood that the names of several of the best known members are being discussed for the place, but President Eberhardt will not say at present whom he thought the Association would recommend.

A New Street Car Line. At the State Capitol yesterday a charter was issued to the Aspinwall Street Railway Company, of Pittsburg. The capital is \$12,000. The company are to build an electric line two miles long, beginning at a con-venient point on the Freeport road and ending at Ross' Grove.

AN irritated throat is soothingly treated by Dr. D. Jayne's Expectorant, an old-established curative for coughs and colds and all broughtal and lung troubles.

CATARRHAL TROUBLES RESULTING IN NERVOUS PROSTRATION AND

The Form of Catarrh That Affects Coal Miners, Stonecutters, Brassworkers, Nailers, Sawmakers, Etc.-Mr. John Horan's Case.

Although chronic catarrh in this climate is nearly always caused by neglected colds, occasionally the exciting cause is traced to irritating particles of dust and exposure to foul air, as of coal mines, factories, etc. This foul air, as of coal mines, factories, etc. This form of catarrh is due to particles of fine dust being carried in the air, inspired, in-baled from the mote-laden atmosphere in shops, mines, factories, etc., and to which stonecutters, cutlers, coal miners, brassworkers, nallers, anwankers, etc., are liable. This at times so affects the system that the patient, before he is aware of it, suffers from almost total nervous prostration and debility, due to depleted and vitiated blood, as well as the local trouble caused by the irritating particles of dust flying in the air, and needs careful and general constitutional treatment as well as treatment directed to the local allment.

A COAL MINER'S STATEMENT,

illustrating the Effects of Irritating Particles of Dust and Exposure to the Damp

and Foul Air of the Mines. That one's occupation often has considerable influence over his health is shown in the case of Mr. John Horan, a coal miner, who lives at Woodville P. O., a little hamlet ten miles distant, on the Washington branch of the Panhandle Railway. Mr. Horan says: "I had been troubled off and on for several years, and doctored from

Mr. John Horan, Woodville P. O. would have to have immediate relief or give up my work. I ached all over nearly all the time, and my body felt as sore as if it had been pounded with a club. I had a constant pain over my eyes and through my temples, and my eye-balls ached and pained me away back into my head. I also had shooting pains through my chest to each shoulder blade, pain and soreness in the small of my back, over the region of my kidneys, and pain shooting down the legs to the knees, with at times a numbness and pricking sensation, as of needles jarging me.

"My nose and throat were constantly stopped up with a sticky texacious mucus and I would often hawk out little clunks of hard stuff as black as coal. My ears were also affected by roaring and hissing sounds.

"The appetite became affected and nothing I ate seemed to agree with me. After eating, my stomach would swell up like a drum, and I was troubled with belching of gas, palpitation of heart, dizzy and smothering sensations, etc.

"Although I siept sound, my sleep was troubled with horrid dreams, and I worked all night in these dreams, and a woke in the morning tired, unrefreshed, sore and aching all over.

"I shall always bless the day I was directed.

morning tired, unrefreshed, sore and aching all over.

"I shall always bless the day I was directed to Drs. Copeland, Hall and Byers, for they have done for me what no other doctors could do, they have cured mesafe and sound and now I feel like a new person. I have no aches or pains, eat and sleep well, and awaken in the morning rested and anxious for my daily work. I shall never forget what they have done for me."

It just cost Mr. Horan \$20 to be cured of his nervous more traiten and general de-

of his nervous prostration and general de \$5 A MONTH FOR ALL DISEASES.

CATABRH OF STOMACH.

The Many Distressing Symptoms Which Follow This Disease, Together With a Striking Example of the Efficacy of the Treatment of Drs. Copeland, Ball and

No one who has not suffered from catarrh of the stomach can understand the terrible condition to which that disease brings its victim, nor can one read the following statement and remain unconvinced of the fact that Drs. Copeland, Hall and Byers can and do cure this trouble in all its manifold

Here, for instance, is the case of Mr. Michael Schaffer, a mill worker, who re-sides on Penn street, Mt. Oliver. "I had catarrh of the stomach in its most severe form for two years. During all that time it was impossible for me to est anything without experiencing terrible agony.
"I not only had no desire to eat, but the sight of food made me ill, and I used to starve myself rather than face the ordeal of taking a meal. Especially was this the case for breakfast.

or breakfast.
"The result was that I grew weak and emaciated, and was utterly unfit for the performance of any duty. In fact I did not care "I lost flesh and strength, and was slowly wasting away. My sleep was disturbed by horrid dreams, and I awoke in the morning more tired than going to bed.

"At last I decided to try Drs. Copeland, Hall and Byers. When I went to their office I was teeling very badly indeed. I began their treatment and now feel as if I had never been sick a day. It, seems wonderful."

85 a month, all diseases. It just cost Mr. Schaffer \$10 to be cured of his distressing

stomach trouble.

THROAT AND EYES AFFECTED,

Statement of Miss Annie E. Burgess, of

Wilkinsburg. The statement of Miss Burgess, as given elow, resubstantiates Drs. Copeland, Hall and Byers' claims that the catarrhal inflam-mation often extends downwards, invading the throat, bronchial tubes, lungs, etc., and also upward to the eye and its appendages the ear, back portion of the nose, etc., and also the beneficial results of their superior method of treatment.

"I had been troubled with catarrh and its kindred allments for quite awhile," says kindred aliments for quite awhile," says Miss Burgess, "but the most serious complications were my throat and eyes. After a course of treatment with Dra. Copeland, Hail and Byers I can state that I am feeling better than I ever have in my life. I don't think I ever had as good health as I have now. My throat does not bother me in any way, and my eyes are as well as any persons who have well eyes. I am sure I cannot thank these physicians enough for what they have done for me."

35 a month, all diseases. It just cost Miss surgess \$10 to be cured of her severe throat and eye trouble.

Drs. Copeland, Hall and Byers treat successfully all curable cases at 65 Sixth avenue, Pittsburg, Pa. Office hours, 9 to 11 A. M., 2 to 5 P. M. and 7 to 9 P. M. Sundays, 10 A. M. to 4 P. M. NEW ADVERTISEMENTS.

pany, Pittsburg, Pa.:

GENTLEMEN—I have been a sufferer from rheumatism the past three years for months at a time, and for the past year I have been afflicted with the articular rheumatism. I was five months in bed, most of the time unable to move, and over four months I have been going around on crutches.

I tried doctors and different medicines without success. When I was advised to try your medicine I thought it was only throwing away more money and I was about discouraged, but after using one bottle I got a great deal of relief, and after using about 3½ bottles I put away the crutches and have not used them since. I now get around on my feet in pretty good shape and am now on my fifth bottle; hope soon to be as well as ever.

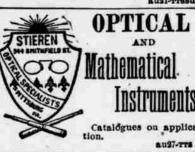

Your medicine has done for me what doc-
