tired and sore all over in the morning as if I had been beaten with a club. "As bad as all these troubles were, my worst trouble was with my stomach. I had but little appetite and what little I ate caused a bloated and uncomfortable feel-ing. I got so I vomited almost every meal and toward the last I both

my head. I also had pains in my back, under shoulder blades. My nose stopped up, and I had some little dropping of mucus back into my throat, with cough. "My stomach was affected, had pain, and after eating felt heavy and bloated. I slept wil, but got up tired in morning and was tired all day. When I sat down I just felt as though I didn't want to get up again. "My mother and sister had taken treat-ment, and both were benefited, so I was en-ouraged. I beran first with Dr. Byers when be was located on Penn avenue, but quit too soon. This was over a year ago. Then I took a month's treatment with Dix. Gopeland, Hail and Byers, and felt so much better quit again too soon, as I thought I was far enough along to get well myself. Then found I would have to return again, and this time decided to take a thorough and systematic course, as I had been ad-vised in the first place. "After three months' continuous and per-sistent treatment I now feel like a new per-son. I feel better than for years, have no hendaches and feel first-class."

Vomited Up Blood and Passed Blood from the bowels. I lost flesh and strength steadily, night sweats came on, and alto-gether I was in an almost hopeless state when I went, as a last resort, to Drs. Cope-land, Hall and Byers. "They did not promise much, but said they howers cases usually seen by physicans, and if twould promise to give them a fair trial they would do their best for me. The re-sults of the eight months' treatment I vre-ceived at their hands has been, as I inti-mated, more than satisfactory, the troubles of which I then complained have entirely disappeared, I have no headaches, eat and sleop woil, neither vomit nor pass any more blood, am increasing in flesh and strength daily, and consider myself entirely cured. In fact, I can't realize how strong I am, as I am now on my feet all day long attending to my household duties with little or no failigue. I teel that I cannot speak too highly of the kind and careful attention give me by Drs. Copeland, Hall and Byers."

often had to get up at night and go out of doors for air, and even then failed to get relief. What little sleep I obtained at night I got while lying on my stomach-this is the only way I could keep from coughing. "I doctored and doctored, tried everything I heard of. I tried every "sure cure." and made the round of all the doctors, but with-out benefit until I consulted Drs. Copeland, Hall and Byers. After carefully examining my chest, they said my trouble was bron-chial asthma, the result of neglected catarrh, and that they believed they could cure me. The first week the suffocative feeling disap-peared and has never returned, and all the other symptoms have gradually yielded, ex-cepting a slight cough in the morning. I have no heart trouble, no shortness of breath, and sleep the whole night through without being disturbed."

conceivable discuse. Of late my neart gave me so much trouble I was treated for heart disease. I suffered severely from palpita-tion of the heart, pain over the eyes, dizzi-ness, shortness of breath and smothering sensation. These symptoms were always worse at night after retiring. In addition to these distressing symptoms I had a bad form of stomach trouble, which the doctors called dyspepsia. I had a strong desire for food, but each meal caused me so much dis-tress and bloating of the stomach that I was mable to eat the necessary amount of food to sustain life. I was tired all the time: my daily duties were a drag, and the least bod-lly exertion completely exhausted me. Life itself was a burden, and I looked to the fu-ture with gloom and despondency. "I had consulted a number of doctors and had taken nearly every remedy amounced to cure persons suffering from diseases, the symptoms of which resembled mine. All, however, was of no avail, and the more medicine I took the more agaravated my symptoms. Of course the reason for this was my disease was not properly under-stood by those whom I had consulted, and they falled to prescribe for me the right medicine. When I cause to Drs. Copeland, stood by these whom I had consulted, and they failed to prescribe for me the right medicine. When I came to Drs. Copeland. Hall and Byers I was suffering so from one of my smothering spells with my heart that the lady who accomnanied me had to sup-port me, and the bell boy, although accus-tomed to seeing some pretty sick people, made the remark that the doctor had taken a patient who was going to file with con-sumption. The doctors described my symp-toms more accurately than I could myself; told me that my symptoms arose, not from told me that my symptoms access, not from consumption, or heart disease, or dyspepsia, but from a cutarrhal inflammation of the stomach and bowels, which affected the heart and lungs, caused the shortness of breath and succhering sensation in the chest and the dyspentic symptoms of which cnest and the dyspeptic symptoms of which I complained. "Their diagnosis of my case being more careful and thorough than that of any physician I had before consulted, I decided to place myself under treatment, and I am now very glad I did. From the first I felt myself gaining in strength and health. The shortness of breath, the smothering sensa-tion, the heart palpitation, the distress in the stomach, the headacne, the languid, tired feeling and the exhaustion, of which I then complained and from which I suffered for so long, disappear-d, and to-day I feel like another person, strong and hopeful as I ever have felt." hest and the dyspeptic symptoms of which

would give me temporary relief until it would form again. "I tried everything I could hear of, but found no relief. Reading tiree months ago of the remarkable cure of Mrs. Lewis Zol-linger, whose symptoms were identical with mine, excepting the mouth trouble. I deter-mined to consult Drs. Copeland, Hall and Byers, and place myself under their treat-ment. I thought as they had cured her they could at least afford me some relief. My hopes were more than realized, for to-day I am a well woman and doing the housework for a family of eight, where three months ago someone had to wait on me. You cannot make this statement too strong, for the half has not been told, and cannot be realized. I will gladly tell any-one who may call upon me what Drs. Cope-

The inside of my mouth was all covered with ulcers, my appetite was poor and I had not eaten any solid food for weeks before consulting them, on account of my mouth and stomach. I vomited everything I ate, could not even retain beef tea or milk on my stomach. I was very much reduced in flesh. Indeed, had it not been for the re-lief Drs. CONTROLLER GRIER'S DISCOVERY.

A Long-Drawn-Out Election Contest Finally Fettled.

THE NEWS OF THE COUNTY COURTS

The far-famed "front office fund" of the Allegheny detective force, brought into prominence through the criminal suits against Mayors Wyman and Pearson, resulting from the investigations of the Auditing Committe, wife Yetta Browarsky, and George Amis no more. The corresponding fees which were paid to Pittsburg's police magistrates have also been stopped. At the same time Allegheny county will be the richer by about \$7,000 per year. These changes are the result of a move made by County Controller Grier.

This money was paid by the county to the mayors of Pittsburg and Allegheny as fees for making out commitments of prisoners to the jail and workhouse. In Allegheny this money was formerly turned into the "front office fund" and divided among ough for \$5,000 damages for false arrest. the detectives. In Pittsburg the fees were collected by the different police magis-trates and supposed to be turned into the city treasury.

The Controller Makes a Discovery.

Recently the Allegheny city officials wanted to know the exact status of their account with the county in this matter, and asked Controller Grier for the information. While he was investigating the subject he discovered an old act of Assembly which, he decided, knocks out these fees. The act in-law, Edward Leizkus. is that of May 1, 1861, and provides that in

The of any ites the Mayor of Pittsburg shall receive \$1,000 per year and the Mayor of Allegheny \$250 per year. The vection referring to this is as follows: "That from and after the 1st day of May, 1961, it shall not be lawful for any Mayor, Alderman or Justice of the Peace in the cities of Pittsburg and Aller eities of Pittsburg and Allegheny to charge or receive out of the County Treasury any ices or costs for trying or committing any person charged with vagrancy, drunkenness or disorderly conduct, but it shall be the duty of the constable or other officer arresting any person so charged in either of said cities to take him or her before the Mayor of the proper city, whose duty it shall be to hear and determine all such pases.

An Annual Salary to Be Faid,

"In lieu of all fees heretofore authorized

by law in such cases, the Mayor of the city of Pittsburg shall receive out of the County of Pittsburg shall receive out of the County Trensury \$1,000 per annum and the Mayor of the city of Allegheny \$250 per annum and no more, to be paid quarterly, and so much of any act of Assembly as is inconsistent herewith is hereby repealed." When he found this law the Controller at

once refused to pay either Pittsburg or Allegheny magistrases for such commit-ments. Last year the amounts paid for both Pittsburg and Allegheny aggregated \$7,168 39. The Controller propose next to look into the legality of paying the Mayors for tickets for prisoners and officers to Claremont. This amounts to about \$1,000 a vear.

PRIEST AND EDITOR LOCKED UP.

Rev. Father Joseph Kossalko and Frank Fucher Sent to Jai'.

The Rev. Father Joseph Kossalko and Frank Pucher, editors and proprietors of the Yednota, a Slavish newspaper published at Hazieton, Pa., were sentenced one month to jail and fined \$200 each yesterday for criminal libel. They were tried and convicted July 14 on information of Joseph' Rovianek, editor of an Hungarian paper yablished in Pittsburg. On their trial the accused acted as their own attorneys. Rovianek took an active part in Todt, Runok to save and Sabol, the Hungarians convicted of murder for the killing of Patrick Quinn during the riot at the Edgar Thomson Steel Works in Braddock. Money was raised for them and Rovianek was appointed treas-user. After the sentences of the men had h er commuted Kossalko and Pucher pubits, ed items reflecting on Rovianek and he sued them for libel. Judge Ewing pronounced the publica-tions as of a most incendiary character and tending to raise the worst passions of those people. The prisoners made a plea for elemency and tried to justify themselves. The Court, however, would not have it so and passed sentence on them. The sentence was livet to the workhouse, but was changed to the jail.

should take any account of: We rather think not. The truth is a majority of the cases com-ing under Drs. Copeland, Hall and Byers' observation are old chronic cases, given up as incurable by their family physicians, who had exhausted their skill and patience and pre-cribed every article in the materia medica ever known of for the cure of such diseases. Not only has the regular family physician failed to work a cure, but every physician for miles around has been con-sulted and tailed; besides this, the patient has gone the rounds of all the patent medi-cines, etc., etc. The method of treatment pursued by Drs. Copeland, Hall and Byers is the result of many years' experience, and

cines, etc., etc. The method of treatment pursued by Drs. Copeland, Hall and Byers is the result of many years' experience, and the number of cases they see every day has made them familiar with the worst forms of complicated chronic aliments, so they know just what to do for such affections. They do not have to experiment with pa-tients to ascertain what medicines will be a benefit, but they know at once just what remedies to apply for each disease. Experi-ence has taught them that these long stand-ing affections cannot be cured any other way than by a thorough, systematic and continuous course of treatment, running through three or four months, and the large measure of success met with proves the cor-rectness of their assumption. They surely cure the disease of their specialty, but it is by patient, painstaking and continuous treatment, and unless patients are willing to submit to a thorough and systematic course of treatment they might as well not begin, for they will only be wasting their money and time and injuring the hard-earned repu-tation of these physicians.

ley's Wonderful Cure. It has often been said by some physicians, envious of the great success of Drs. Cope-land, Hall and Byers, that the statements

published every week are merely newspaper exaggerations of mild catarrhal affections that any ordinary physician could treat successfully. Indeed! Then why do not that any ordinary physician could treat successfully. Indeed! Then why do not these ordinary (?) physicians cure these cases before they come to Drs. Copeland, Hall and Byers' office! The story of nearly every patient who comes to their office is that they have doctored and doctored with all the best physicians in their neighbor-hood until they have grown discouraged and despair of ever being any better. Would Mrs. Lewis Zoilinger, of Brashon, East End, who suffered for years the utmost agony with her stomach and other compli-cated affections, and who was cured away last winter and who remains cured, agree with these physicians that her trouble was of such a slight nature? Would Mr. Conrad Apel, of 342 North avenue, Allegheny, agod 72 years, who was also cured last winter of a bad case of asthma, which had kept him out of his bed nearly every night for years, be-lieve that the agonizing hours that he put in were due to some simple little allment that could so casily be relieved? Mr. Apel cailed at Drs. Copeland, Hall & Byers' office a few days ago to again thank them for the relief which they had afforded him, and for the days of confort and enjoyment he is now experiencing. Again, would Mrs. Mary forman, of Sawyer street, subscribe to the statement that her ulcerated mouth and de-ranged stomach, which caused her so much trouble that she was reduced almost to a skeleton, were merely trifles, which no one should take any account of? We rather think not.

HAZLETT WAS ELECTED.

Declared Entitled to a Seat in Pittsburg's Select Council.

J. M. Caldwell, Esq., yesterday filed his r-port as commissioner in the case of the contested election of James Foster as Select Councilmaa for the Tenth ward, Pittsburg. The case is an old one and has been long delayed. The election was held in February, 1890. The return of the election boards showed that Foster had received 241 votes, and his to, and nowhere could he do as well opponent, R. J. Hazlett, 240 votes. Hazlett contested the election and in April, 1890, the case was referred to the commissioner. He completed his work yesterday. Sixty-four meetings were held, the parties of fine home-made suits for the fall to the contract delaying the matter, and the

commissioner now finds that Hazlett was rightfully elected. The commissioner haves in his report that the facts showed great carelessness or fraud in the election. There was no evidence, however, to connect first instance there was an error in the count and the vote should have been 241 for 53 illegal votes were cast for Hazlett and 85 illegal votes for Foster. This would make you money. Foster, rightfully electing Hazlett by a majority of 32.

The Commissioner asks a fee of \$1,000 The costs will have to be paid by the city.

BETTER BREAD FOR PRISONERS.

The County Prison Board Annuls the Jai Contract.

The regular meeting of the County Prison Board was held yesterday. The only business of importance was the annulling of the contract for furnishing the jail with bread. Warden McAleese had entered a vigorous protest against the quality of the bread furnished by the baker having the contract. It was no good, he declared, and the Quar-terly Committee agreed with him. The board annulled the contract and directed the committee to make other arrangements for supplying the prison with bread.
