Twelve Pages. AN INCISIVE LETTER.

The letter of President Harrison accepting the Republican nomination for a second term is the most complete and incisive discussion of the issues of the day made of late years.

The President shows judgment in taking up first of all the need of preserving a stable and uniform national currency. The sop thrown by the Democratic platform to the Southern hunger for inflation, by proposing to revive the old State bank issues, is too favorable a chance to be neglected.

From this point the President's letter naturally takes up the great controlling issue of protection versus free trade. Here again the President is not slow to take advantage of the opening afforded by the Democratic platform.

The flint business should have been stopped before it cost the enterprise \$70,000, but even that loss is better than starting it on the level of a circus parade or Velled Prophets show.

THE LIBERAL PROGRAMME. The programme to be adopted by the Liberal Cabinet has been the subject of much discussion in England.

Only those who have a very slovenly idea of the importance of impartially enforcing the law can see any necessity in this action. The safety of the whole country depends on maintaining the legal safeguards without fear or favor.

DEMANDS INVESTIGATION. The description of the state of affairs existing between railroad contractors and their colored laborers in Luzerne county, as given elsewhere, calls for a prompt and searching investigation.

under threats of violence, while the promised pay was not forthcoming at the end of the month. Attempts to escape were frustrated by a show of firearms and warrants for arrest of the would-be fugitives secured by false accusations.

CLIMAX OF FREE TRADE LOGIC. There is nothing like carrying your doctrine to its legitimate conclusion. For that reason we are disposed to rejoice over the energy of our ultra free trade cotemporary the Chicago Herald.

DISCRIMINATION. Between different classes is as much out of place in quarantine inspections as elsewhere, and it is dangerous, too.

LONG postponed though it has been, the arrival of President Harrison's letter of acceptance must have come as a great surprise to one or two of our wise cotemporaries.
