## LEAD MOVES UPWARD,

Accompanied by Western Union, Cotton Oil and Others.

READING SHOWS GREAT ACTIVITY

And the Coslers Generally Are Prominent in the Trading.

SUGAR HIGHER ON THE DIVIDEND.

NEW YORK, Sept. 7.-The stock market to-day showed rather more animation in the general list, but the comparative quietude of the industrials prevented any more business being done. The temper of the trading, however, showed a marked change for the better. There was but little new business. The market, therefore, even while more active in railroad shares was no wider than usual of late and as a rule the important fluctuations were confined to a few

The coalers were naturally the most prominent group in the trading, but only Reading displayed any real activity. The influence of the dividend on Sugar was seen in an opening advance of 114 per cent, but there was little demand at the advance and the whole rise was immediately lost. The buying of the coalers was induced by the circulation of rumors that there had been a settlement with the Pennsylvania, and later that the Pennsylvania would advance coal prices on the 14th of the month, but both were afterward denied without causing any material reaction. The gains in some of the specialties like Minteapolis & St. Lous preferred reached \$ per cent, but the improvement in the general list was confined to

ment in the general list was confined to small fractions.

The close, while affected somewhat by realizations to secure profits on the day's rise, was still firm, though quiet generally, at small fractional sains for the day. Lead, however, was up 2½; Western Union, 3½; Manhattan, 1½; Cotton oil, 1½, and Missouri Pacific 1 per cent.

Railroad bonds were still very quiet, and remained without feature of interest at any time of the day.

Government bonds were dull and steady, Close of the lists

The total sales of stocks to-day where 283,-927 shares, including: Atchison 14, 130; Chicago Gas 7,491; Delaware, Lackawanna & Western 4,000; Erie 4,315; Louisville and Nashville 7,410; Missouri Pacific 5,110; Reading 94,000; St. Paul 12,186; Western Union 18,762.

St. Paul 12,186; Western Union 13,762.

J. S. Bache & Co. to Oakiey & Co.: "The great feature in to-day's market was very active buying in stocks supposed to be for account of Mr. Cammack. We calculate the amount bought for this account to be 30,000 shares of different stocks, made up particularly of Rock Island, Atchison and Reading. There were a number of stories affoat to account for this buying and the boys said, as they have done every time that any big short line was covered, that Mr. Gould had given Mr. Cammack a tip to get out of the way. London was disposed to sell some stocks, but the selling for this account amounted to very little indeed.

"The report of the Board of Agriculture of the State of Kansas, issued to-day, showed that last month the condition of corn in that very important State decreased nine points and that the outlook is for only a two-thirds crop."

"Nothing definite can be said about exports of gold this week. If the German stemmer sails on Saturday, quite some gold will go out, but it is not expected that the

will go out, but it is not expected that the ship will sail as advertised."

From Sproul & Co.'s wire: "Money is steady with a tendency to become firmer, and bankers are confident that gold will go out to Europe on Saturday."

The following table shows the prices of active stocks on the New York Stock Exchange, corrected daily for THE PITTSBURG DY-PATCH by Whitney Stockson solder Pittsburg members of New

## CHICAGO 'CHANGE.

Grains Show Considerable Strength and

Provisions Weakness. CHICAGO, Sept. 7 .- Corn was the leader today, and as a result wheat, in the tace of news which could not be considered as fayoring higher prices, was very firm and made a gain for the day o \( \frac{1}{2}\circ\) per bushel. Corn had distinct encouragement from various sources, and the speculative condition of the sources, and the speculative condition of the market was in excellent shape to respond to builts influences, of which a net advance of 135c per bushel is sufficient evidence. Provisons were weak, more particularly as re-

visous were weak, more particularly as regards October contracts.

In corn the fear of frost was the principal strengthening factor at the start, but the advance was assisted later on by the Kansas State report, showing a decrease of nine points since the last month and placing the condition at 68 per cent. The reduction no coubt was caused by the hot, dry weather which did some damage last month. The advance brought out considerable long property and developed more or less excitement. The temperature was cool throughout the corn belt, ranging from 50° to 56°, and the indications were for lower temperature in Dakota and Nebraska Thursday. day. Vessel room was in good demand and rates

# IMPROVING TONE.

Leaders of the Local List Rule Strong Under a Better Demand.

GAS AND STREET RAILWAY SHARES

Most Prominent in the Trading and Upward Tendency.

LOCAL AND GENERAL FINANCIAL NEWS

WEDNESDAY, Sept. 7. The operations in local stocks to-day, both on and off 'Change, reflected a material improvement in the general tone of the market. The demand as a whole was not very urgent, but it covered the usually active shares pretty well and in a few of the leaders was persistent and strong, resulting in fractional gains over yesterday's closing quotations. Gas and street railway shares were most prominent in all respects, the leadership of the former being taken by Philadelphia Company and of the latter by Duquesne Traction. The demand for Philadelphia Com-

pany bore a resemblance to that which prevailed a fortnight ago, when the street was full of talk that insiders were buying, and while the stock failed to advance much, it appeared to be held down by those who are known to be operating with the expectat. In that prices are going to be materially higher. Fresh talk was heard on the probable dividend for the current quarter, which will be declared next Wednesday, the idea that it would be at the rate of either hor 6 per cent per annum being received with more respect than heratofore. People pretty close to the inside believe the dividend for the quarter will be lly or 1½ per cent, the majority naming the lower figure, but it would not surprise the conservative element if the regular 1 per cent was declared. There is little question of the company's ability to increase its dividend rate; whether the directors think an increase actisable remains to be seen.

Duquesne Traction was in general demand, but it failed to advance above 29 bid. The character of the demand, however, was high and justified predictions of higher prices. The bulk of the buying of the past week, it is said, was for the account of insiders. At present prices the stock has been shown to be high enough, but if the clique want it to go up it will go without regard to merit.

Pleasant Valley Railway, Pittsburg & Birthe street was full of talk that insiders

shown to be high enough, but if the clique want it to go up it will go without regard to merit.

Pleasant Valley Railway, Pittsburg & Birmingham Traction, Union Switch and Signal, La Noria Mining Company, Bridgewater Gas, Central Traction and People's Pipeage were all firmer and P. A. & M. Traction was a shade weaker, but others were featureless. The only fresh piece of gossip of the day was to the effect that the Pittsburg-Duquesne combine had succeeded in corraling the Citizens' Traction Company in their own peculiar style. The statement was positive in some quarters that the deal for the purchase of the Citizens' line had been closed, but the 'statement was emphatically denied by the officials of the companies concerned. Another statement was emphatically denied by the officials of the Citizens' and 85 asked, with a prospect of a deal somewhere between these extremes, which was also denied. There is evidently something up, but whatever it is it will probably have to leak out in the usual slow and piecemeal manner. An official announcement of the deal would surprise no one, as a consolidation of all the loads leading to the East End has for some time been considered a certainty. It would be right in line, also, with the idea always entertained by close observers of street railway affairs that the consolidation of all the lines of the two cities was only a question of time.

Course of the Market. The first sales of the day on 'Change were

in La Noria Company, two 100-share lots selling at 12c per share; subsequently the stock advanced to 14@15c, something above recent quotations established by sales. The stock advanced to 14@15c, something above recent quotations established by sales. The presumption was that the probability of the lense being surrendered by the Motolina Company strengthened the stock. As a bull card the surrendering of the lease would be open to suspicion, to say the least, as its surrender would justify the inference that it was worthless. If the Motolina leaders were satisfied the La Noria mines were valuable the money to develop them, or rather to redevelop them, would soon be forthcoming. Philadelphia Company opened at 23% sales, sold up to 23%, declined to 23%, closed at 23% 225% and was quoted at 25% 2023% after the closes. P. A. & M. traction sold 43% 204, and 43% was bid for more. Pleasant Valley sold at 25% and closed at 25% 2023%, with 25% bid for a small lot. Duquesne traction sold at 29 and considerable more could have been sold at the same price. It closed offered in a small way at 25% 10 in on Switch and Signal sold at 17% closing at 13% 2018; Chartiers Valley Gas sold at 12% closing at 15% 2018; closing at 15% 2018. Among the shares which did not figure in the trading, Westinghouse Electric unassented was quoted at 18 bid and the second preferred at 36 bid, despite the fact that the best old in the East was 35%; Bridgewater Gas was higher at 30% bid; Wheeling Gas was in better demand and Airbrake was steady at 133% 2014%.

- HOTEL FOR BEN AVON.

J. Palmer O'Netl Will Erect a Three-Story Building There-A Washington County Summer Resort About to Change Hands -Current Gossip and Sales.

WEDNESDAY, Sept. 7. The erection of a hotel at Ben Avon will shortly be commenced by J. Palmer O'Neil. The new attraction will be a three-story frame structure and will contain 54 rooms An annex to the hotel containing 26 rooms will also be erected, which will make in all 80 rooms. The estimated cost of the building cannot be given at present, as arrangements for the commencement of work are not completed, but will be in a few days. Mr. O'Neil claims that when completed his hotel and its surroundings will compare with any of a similar character in this sec-

ion.

Ben Avon is only six miles from the city, and a summer resort such as the one con-femplated by Mr. O'Neil will undoubtedly receive its share of patronage. It will also have a tendency to enhance realty values at Ben Avon.

A Noted Resort to Change Hands The sale of the summer resort located in Washington county will likely be consummated to-morrow (Thursday). Negotiations for the deal have been in hand for some time and arrangements have been made for a settlement. The transfer will in all probability occur on the day mentioued. Notes of Gossip.

An offer of \$25 per foot front was submitted and refused to-day for property on Mar-shall avenue, Allegheny. A year ago this property could have been purchased for lit-tle more than one-half the amount offered

tle more than one-half the amount offered to-day.

Max Shamberg has completed two elegant dwellings on Hemlock street, Allegheny. Negotiations for their sale are on and will likely be closed in a few days.

Walter Morris, of the real estate firm of Morris & Aisoitt, has been appointed a notary public and also a commissioner of deeds for the States of New York, Illinois, Missouri, Ohio, West Virginia. Colorado, California, Michigan, Texas and New Jersey. Building Permits,

The following permits were issued to-day: St. Mary of Mercy R. C. Church, a brick onestory church, Third avenue, corner Ferry street; cost, \$10,500. Elizabeth Coxan, two brick two-story dwellings, Sidney street, between Twenty-fourth and Twenty-fifth streets; cost, \$2,150 for both. William Graham, a frame two-story dwelling, Dyke street; cost, \$1,500. W. G. Biack, a frame twostory dwelling, John street, between Junilla and Watt streets; cost, \$2,000 for both. Mrs. and Watt streets; cost, \$2,000 for both. Mrs. Kallock, a frame two-story dwelling, Fairmount street above Broad street; cost, \$2,000. GOOD TRADE REPORTS And a Bright Outlook-Breadstuffs and Provisions Weak and Groceries and

Crop Gossip-Revised Quotations. WEDNESDAY, Sept. 7. As a rule general mercantile and manufacturing reports are encouraging, the vol-ume of business is gradually swelling and the outlook for all branches of business is satisfactory. The Exposition of 1892 is open, and it is expected that from now until Its close the visits of interior merchants will be more frequent and orders for fall and winter supplies more numerous and comprehensive.

As to the tone of the markets, grain and

As to the tone of the markets, grain and flour continue weak, provisions heavy at the recent declines, groceries and dairy products firm and active and other staple articles generally steady under a good demand. The decline in wheat on the Chicago Board of Trade for this month's delivery to a fraction below 75c, says a Chicago paper, carried the price to a lower point than it had been in more than four years. The cholera talk was only one factor, for the general tendency of the market was bearish before there was any scare regarding that plague. The weakness extended to flour, and the demand was extremely light at further reductions in prices. Spring wheat receipts are much smaller than a year ago, but the weekly increases in the visible supply of wheat exert a powerful influence. Oats also sold at lower prices, but the greatest reductions were in prices for rye and corn. The last-named cereal was weakened by the continued liberal receipts, good grading, poor shipping demand and good crop reports. There were no frosts in the corn belt, and farmers have been offering corn freely throughout the West. For some time past the price of corn was regarded by good authorities as too high, but it has now touched a point where many regard it as a safe purchase.

The latest Prime bulletin says in sub-

a point where many regard it as a safe purchase.

The latest Prime bulletin says in substance: "Usually at this time of year 25 to 50 per cent of corn is safe. Now there is no corn safe, and frost up to September 15 in any State will catch all corn. Spring wheat threshing has progressed far enough to say that the estimates will have to be reduced."

### LIVE STOCK.

-Corn Hogs a Little Higher - Sheep Lower for Common and Barely Strauy for Good - Common and Medium Grades of Cattle Only Stendy. WEDNESDAY, Sept. 7.

Receipts of stock at the East Liberty yards were not excessive and with a good demand and a better condition of affairs East and West everything attractive ruled a steady to strong.

Monday's supply covered 114 loads, against about 130 last Monday. Best beeves strong and loe higher, but common and medium stuff was only steady at last week's prices. Receipts since Monday were light and the market closed fairly firm at Monday's prices, as follows: Fair, 900 to 1,000 ib.
Common, 700 to 900 ibs.
Bough fat, 1,000 to 1,300 ibs.
Common to good fat oxen.
Common to good fat bulls.
Common to good fat cows.
Heifers, 700 to 1,000 ibs.

Receipts Monday were 25 double-deck oads. Demand was good, outside markets were better, and an advance of 10c per cwt was established on corn hogs. Quotations:

Receipts since Monday were light and the market closed strong on a little improve-Receipts Monday, 24 double-deck loads.
Owing to unfavorable reports from other
points the market ruled barely steady on
good at last week's prices, while common and medium grades were very slow at a de-cline of 10c to 15c. Tuesday's receipts were five loads and the market was slow at quo-tations.

Prime, 95 to 110 lbs... Good, 85 to 97 lbs... Fair, 75 to 80 lbs... Common, 65 to 70 lbs. Lambs. CALVES. SOME OF THE SALES.

Following are a portion of the transact tions of Monday, Tuesday and to-day:
