

DIDN'T COME TO TERMS

Amalgamated Officials Object to Three Turns at the Elba.

NON-UNION MEN TO BE HIRED.

Reduction Refused in West Found Iron Freight Rates.

NEWS OF THE GREAT LABOR WORLD

At the Elba Iron Works everything was very quiet yesterday. An important conference was held during the afternoon before the Mill Committee, headed by President-elect Garland, of the Amalgamated Association, and T. B. Everson, as Manager of the works on behalf of the Oil Well Supply Company.

The question of prices was satisfactorily arranged between both parties and the "third turn" idea. After considerable discussion several of the committee came to the conclusion that the firm's argument was correct and a few of them wanted the trouble adjusted right there by accepting their terms.

To this proposition Mr. Garland objected, telling the committee that if such concessions as the company wanted, in putting on a third turn, were made, the Amalgamated Association could not have anything more to do with them. He said it was not possible for heaters to make three turns within 24 hours, and that the trial of such a scheme would be an injustice to the men.

Mr. Everson expresses his regrets. Before parting with the committee Mr. Everson expressed himself as being sorry that matters could not be satisfactorily arranged. He would like to get new men to fill the places in the mill. He informed Mr. Garland that it was the privilege of the union men not to accept the firm's terms, but would have that gentlemen thoroughly understand that the company would not tolerate any interference whatever with the men they proposed to employ in the mill.

NO REDUCTION IN RATES. The Wheeling and Lake Erie Road Books Down to Its Demand or a Cut on Westbound Iron Shipments—Question Settled for the Present.

At a meeting of the initial lines with the Wheeling and Lake Erie road yesterday in the offices of the Pennsylvania Company, it was decided not to change the westbound iron rates. Under the present system the Mahoning and Shenango Valley points have a discriminating rate in their favor on westbound iron shipments.

Under the present system the Mahoning and Shenango Valley points have a discriminating rate in their favor on westbound iron shipments.

Increased Use of Mineral Waters. The presence of visitors at Carlsbad this season is so great that drinkers at the favorite springs have to take their turn in lines numbering between 200 and 400.

From Miss F. Lauffman. It is now more than a year since I purchased a Converter piano of you, and I can say I am satisfied with the selection I then made, and am delighted more and more with the tone and quality of my Converter piano.

A Mother's Gratitude. Too great for tongue to tell is due Hood's Sarsaparilla for its cures of my daughter, 11 years of age.

THE ACCOUNTS DON'T AGREE. As Given by the Carnegie Strikers and the Officials.

"The situation remains about the same as it has been," said a member of the Thirty-third street mill Press Committee yesterday. "We held our regular meeting this morning and received the reports, which were very favorable. Three of our men who deserted our ranks and went to work in the mill, thinking the strike had been won by the firm, came out today saying that affairs were in bad shape. One was a heater, another a rougher and another a hot sawer. John Gephart, one of our men who returned to work, was put at hooking by the company. He had no experience at this work, having occupied the position of a piler. He was struck on the head last night with a hook and hurt severely. Another man was reported to have had his arm broken. Superintendent Dillon was in the mill from 9 last night to 5 this morning, so everything can't be going well."

SANGUINE AT SHOENBERGER'S. Expect to Have All Departments Reopening by Monday Next.

"We are getting the open hearth departments ready to start," said a member of the firm of Shoenberger & Co. yesterday. "We now have the Blooming and Bessemer on double turn; the horse shoe shop is running full; the bar mill is running nicely, leaving just three departments which have not been put in operation. We will have the entire mill running by next Monday. As for the quality and the amount of work produced, we have never done better since we started in the business."

Parbers Form a Union. Allegheny now has a Barbers' union. It was organized with John Herzberg, of Sedgwick street, as President. Early closing is said to be one of the main objects.

Sedgwick street, as President. Early closing is said to be one of the main objects.

FORGING STRONG LINKS.

Work Progressing Favorably at Carnegie's Twenty-Ninth Street Mill. The Carnegie Twenty-ninth street mills are getting down to solid work. The new men are said to be improving every day, but are not as expert yet as they could be. The link machine was working full, the only hitch being at the guide mills, where the men were not as quick as trained hands. The material turned out is as good as any heretofore manufactured by the mill. The tests of the links made this morning made a showing of 133,000 pounds, the ultimate minimum strength. The required test for these links is 95,000 pounds. The plate mill resumed work yesterday morning, and turned out a quantity of material.

The mill superintendent is well pleased with the progress they are making, and only wants a little time to bring the working to perfection.

A CHARTER APPLIED FOR.

River Operators Form a New Company to Ship Coal to Better Markets. Application for a charter for "The Southern Transportation Company" has been formally made. The application was filed by O. A. Blackburn, W. J. Wood, T. J. Wood, W. G. Wilcox, R. W. Wilcox, all well-known rivermen and large dealers in coal. The object of the new company is to ship coal to Southern ports, the principal one of which will be Havana, Cuba. The depressed price of coal in the lower Mississippi trade, resulting from a glutted market, is the cause of this new move on the part of the coal men. The move is looked upon with favor by disinterested coal operators. The coal is to be taken to New Orleans by towboats and from there shipped by steamers.

FOUR MAMMOTH FURNACES

To Be Added to the Edgar Thomson Works at Braddock. The Carnegie Company is contemplating great improvements in its Edgar Thomson Works. The old Union race track, which adjoins the works, will be filled up with slag and refuse from the furnaces, and upon this ground four mammoth blast furnaces will be erected. This will make this furnace plant by far the largest in the world. Besides this a large foundry will be erected. The average daily production from the furnaces now is 2,700 tons. The officials compute that it will require two years to fill up the race track as they propose, so work will not be begun before that time.

Want Higher Prices.

A meeting of the Sheet Iron Manufacturers' Association was held in the city yesterday. Secretary John Jarrett said the business transacted was strictly private. The trade is very fair. Senator N. E. Whitaker, of Wheeling, before going home last evening stated that the business was exceedingly good. What worries the makers is that the prices are not what they ought to be in comparison with the volume of trade.

The True Laxative Principle

Of the plants used in manufacturing the pleasant remedy, Syrup of Fig, is a potent, innocuous, and beneficial effect on the human system, while the cheap vegetable extracts and mineral solutions usually sold as medicines, are permanently injurious. Being well-informed, you will use the true remedy only. Manufactured by the California Fig Syrup Co.

NEW ADVERTISEMENTS.

THE DOUBLE-BREADED ERA!

This is nothing if not the double-breasted era in male fashions. From the little romping tot up to the stern, sober man of fifty—it's all the same. Slowly, but steadily the double-breasted coat has been pushing out and above other fashions for several years past, until now it has climbed to the pinnacle of popularity. The man or boy, without his double-breasted suit, will simply not be "in it" this Fall. In anticipation of this state of affairs,

KAUFMANN'S

Have laid in a truly immense, yet choice, variety of Men's, Boys' and Children's Double-Breasted Suits, in all materials and colors—made under their own careful supervision, and superior in every way to the usual run of ready-made clothing.

MEN'S DOUBLE-BREADED SUITS!

Over 500 Different Styles to Choose From.

\$12 \$15

This price buys your pick and fit from about 2,000 Men's Double-Breasted, Extra Long Cut Sack Suits, made of Scotch Cheviots, Homespun, Boucles, Niggerheads, Cassimeres, etc., in very latest pronounced, interwoven, subdued and broken plaids and checks, mixtures and solid colors. But for our present lack of room (caused by building these suits could not be bought below \$16. Indeed, other clothiers sell them at \$18.

BOYS' DOUBLE-BREADED SUITS!

Over 250 Different Styles to Choose From.

\$8 \$12

This price buys choice from about 1,000 Boys' Double-Breasted Suits (sizes 14 to 19), made of plain black and fancy Cheviots, Stout, Gray Meltons and Fine Cassimeres in Interwoven Plaids. They are cut, trimmed and finished according to the latest style, and, but for our absolute need of room, could not be bought for less than \$11.

CHILDREN'S DOUBLE-BREADED SUITS!

Almost 700 Different Styles to Choose From.

\$3.50 \$5

This figure takes choice from 2,500 Children's Short-Pant Suits (sizes 4 to 15), with Double-Breasted Coats; made of wear-resisting dark brown Meltons, light and dark broken Checks, subdued dark brown Plaids, etc.; first-class make and finish, and really worth \$5. But, being pushed for room, \$3.50 will buy them.

REMEMBER, THE FIRST PURCHASER WILL SECURE THE CREAM OF THE STYLES.

KAUFMANN'S FIFTH AVE. AND SMITHFIELD ST.
