From my infancy up to a few weeks ago. I have been troubled with a skin disease which caused sores to constantly break out on my face and the top of my head. My hair was very scanty, and constantly filled with dandruff. I have been treated by eminent specialists on skin diseases, also tried all the different remedies advertised, all to no purpose. At last I tried CUTICUTA. CUTICUTA SOLP, and CUTICUTA RESOLVENT. The result, after ten weeks' treatment, was wonderful, I am entirely cured. EVEN MR. ARTHUR IS INTERESTED NOW (SPECIAL TELEGRAM TO THE DISPATOR.) PHILADELPHIA, Sept. 10.-The expected has happened in the progress of the negotiation between the committee of the Federated Order of Resding Railway Employes and President McLeod, and it is more than probable now that there will be some trouble on the road or its leased lines this month. The mission of the committee, declared by its own members and by the rathroad officials to be of a peaceful and friendly nature, was possibly all of that at the start, but President McLeod's square stand against the existence of labor organizations among the company's employes has put an entirely new face on the matter, and the committee has temporarily abandoned all other matters which would have come before it at

Its annual meeting, and is grappling with the labor issue alone. To-day and yesterday telegrams were sent East and West summoning the leaders of the railroad men's brotherhoods to this city, and by this evening enough replies had been received by Chairman Clapp to indicate that a number of prominent labor enders will arrive in town to-morrow to take a hand in the controversy. The peo-ple sent for include Chief P. M. Arthur, of the Brotherhood of Locomotive Engineers; F. P. Sargent, of the firemen; P. H. Morrissey, of the brakemen; S. A. Wilkinson, of the trainmen; John Ramsey, of the telegraphers, and Chief Clark, of the

Three of the Chiefs on the Way. The only person who has thus far de-clined to come is Chief Sargent, who is detained in Cincinnati during the National Convention of Firemen, which opens there

on Monday. Chiefs Arthur, Ramsey and Clark are already on their way. The leaders in the big committee are very reticent, but Chairman Clapp said frankly to-night that the situation was so serious as to make necessary the presence of all the brotherhood officials who could get here. The actions of the committee have been very conservative so far and this has been due largely to the fact that they stirred up yesterday, during their call on President McLeod, a much bigger contest than they auticipated. They went there to Mr. McLeod to amend two of his rule affecting new employes on the road, and came away with the knowledge, emphatic-ally given them, that in future the Reading would recognize no labor organizatio whatsoever on its lines, and that it proposed to stamp them out altogether by pro-hibiting all new employes from becoming

members, in sense or sympathy, by an iron-The committee decided, after its visit to President McLeod, to issue a prompt call for assistance and advice, and the railroad labor leaders sent for to-day will accompany ing Railroad on Monday or possibly on Tuesday. They will make an earnest effort to induce President McLeod to change his attitude toward labor organizations, and, if they tail in this, there are good grounds to

predicting that they will issue an appeal to the stockholders. The committee is said to place much con fidence in this latter appeal. It is pretty well known that the Drexel and Vanderbilt interests are backing the Reading, and it is also known that these interests are by

no means opposed to organized labor. Such stockholders as Thomas Dolan, George W. Childs, W. W. Gibbs and others, who employ nundreds of workmen thomselves, will be appealed to, and the committee will go as far as possible in the effort to adjust the matter pesceably. If gressive tactics will be pursued, for the 23,000 employes, is flatfooted in saying that

they will not give up their existence without the sternest kind of a fight. The Organizations to Stick Together. Chairman Clapp said to-day that if this conflict should be precipitated by President McLeod's stand the Federation would have the assistance of every labor organization in the land, for the very principle of the whole labor system would be at stake, and

everything would be lost or won in the esuit.

It was called to the attention of Mr. Clapp that President McLeod had been quoted as saying that in case of a strike of ocomotive engineers he could replace them by firemen, and 200 of the latter were pertectly trained for the positions. The Chairman answered: "That is certainly untrue, for the closest sympathy exists between the engineers and firemen, and one would not under any circumstances take the place of the other. It may be presumptuous for me to say so, but in the conversation we had with President McLeod the other day, I discovered that I knew a great deal more

did. The two will always work together. Discharged for Being Union Men. To-day the committee talked only of the njustice which they say the Reading Company is trying to impose upon them in its effort to break up the labor organizations. They complain of the compulsion which the company intends to exercise in forcing them to become members of the Reading Relief Association. One of the committee-

men said: This relief fund gives us a death benefit of \$1,300, and only provides 52 weeks of disability resulting from accidents on the road. In the Brotherhood of Lecomotive Engineers we can get \$4,500 insurance and no limit of time during which we can draw accident benefits. In the relief association the withdrawal of a man from the company's service or his discharge therefrom deprives him absolutely from receiving any benefit from the tund. This is not only an injustice, but probably illegal.

John A. Bowman, who with William B. Schaeffer and William Craklow, were dis-charged from the Bound Brook Division of the Philadelphia and Reading Railroad on account of their membership, it is alleged, in the Brotherhood of Locomotive Engin-

I was one of the committee that visited I was one of the committee that visited General Manager Sweigard Thursday at the Reading office, and he told me that there was no complaint against anyone of us except that we were members of the Brothernood, and that he would cheerfully give us letters of recommendation at any time. He said we were three of the best engineers in the employ of the company, and he offered to reinstate us upon condition that we would leave the Brotherhood.

THE TROUBLE ON THE READING.

Chief Arthur Goes to l'hilade'phia to A tend a Conference of Engineers. Chief Arthur, of the Brotherhood of

Engineers, passed through the city last

evening bound for Philadelphia. He said

he had been called there to attend a con-

ference of engineers from the Lehigh Valley and Reading roads with President McLeod to-day. He claimed he didn't know what was the subject in dispute, but it is suspected to be a readjustment of wages. Since the Reading won the strike under Austin Corbin the This Fall in the City of Brooklyn. engineers have not been organized. Most of them drifted to the Burlington road

of them drifted to the Burlington road during the last trouble on that line and materially helped to break the strike.

The chief is a shrewd man and also declined to talk about the effects of the switchmen's defeat at Buffalo. He preferred to dilate on the World's Fair and the work it would create for the railroads. He gave it as his opinion that every line in the country would be taxed to its utmost capacity next summer, and that a number of firemen would be pressed into service as engineers.

The Chief added that before leaving Cleveland in the afternoon a report was cir-culated that the Homestead mill had been blown up with dynamite and a number of men killed. The people were highly excited, and eagerly scanned the bulletin boards for news. He was glad to hear that the rnmor was a canard and he wondered how it originated.

A VIGOROUS CAMPAIGN

FUND OF ABOUT \$80,000 Now Being Raised to Cut Down the Big

Democratic Majority. KEENAN TO RUN AGAINST HIEBER

PERCIAL TELEGRAM TO THE DISPATCH. NEW YORK, Sept. 10 .- All the indications point to a vigorous campaign in Kings county by the Republicans. The campaign ommittee has been quietly engaged for the past month in raising subscriptions, and it is said a substantial amount has been already raised. Chairman Francis H. Wilson to-day issued a call to the triends of the G. O. P. for subscriptions of "\$5, \$10 or more," urging speedy action in the matter, as the committee "needs money and needs it now." The intention is to have a fund of at least \$80,000 to aid in re-

ducing the usual overwhelming Democratic majority. The reception arranged for Whitelaw Reid at the Union League Club, next Saturday night, will be made the occasion for the first big demonstration in the campaign by the Republicans. Mr. Reid will dine at the Montauk Club before his visit to the the Union League Club, and his reception there will be interrupted while he is reviewing a score or more of the Repulican uni-

formed battalions. Dr. Depew to Stump the State, Dr. Chauncey M. Depew made a straight line for Hon. Tom Carter's National Republican Bazaar to-day. It was lunch time and Dr. Depew joined Mr. Carter and Treasurer Bliss at the board. . It came out at lunch that Dr. Depew will stump the at lunch that Dr. Depew will stump the State and that Chairman Carter won \$1,500 on Corbett. Mr. Carter is a Western man and his Eastern friends on the committee were all for Sullivan. They badgered him into betting and gave him long odds.

The Democratic campaign will soon be booming in Brooklyn. Hugh McLaughlin will heartily co-operate with Messra. Murphy, Sheehan and Croker in placing New York State in line for the ticket. No definite arrangements have been made for Sen-

nite arrangements have been made for Senator Hill's appearance, no reply having yet been received from the Senator to Mr. McLaughlin's invitation to make an address in Brooklyn. The utmost configures, however, is expressed at Democratic headquarters that the Senator will start the campaign in earnest with one of his ringing speeches. There is no doubt his ringing speeches. There is no doubt that Senator Hill will keep whatever assignments may be made for him by Mr. Murphy and the State Committee. He is

sure to be heard from. Millions to Be Spent in New York, The managers of Chairman Harrity's Democratic bureau had but one hope uppermost to-day. The gathering of Mr. Cleveland's friends in Hou. D. M. Dickinson's parlors at the Hoffman House the night before, for the purpose of raising "ways and means" by which Carter and the Republicans can be circumvented, was one of the most important events in the and the Republicans can be circumvented, was one of the most important events in the campaign up to date. It is uniformly admitted that New York State is to be the real battle ground. The Democratic managers admit it and the Republicans agree with them. It is the only point on which they do not disagree. Mr. Carter is prepared to distribute \$1,000,000 in the State, and if hard pushed he will have at his disposal \$2,000,000.

State, and if hard pushed he will have at his disposal \$2,000.000.

Mr. Dickinson presided at the gathering of Mr. Cleveland's friends last evening, and plans for raising tunds were discussed by Mr. Whitney and ex-Secretary Fairchild. No contributions were made at the time. To-day at National headquarters it was decided to make a personal appeals to the jewelers, the stock, produce, and cotton brokers, railroad men. steamboatmen, street car men, road men, steamboatmen, street car men, those engaged in river boat traffic, the drygoods men, and all who have the interest of the national ticket at heart. The work

will be begun immediately. Not less than \$300,000 is required. Tammany Sure'y in the Fight, Commander Gilroy was at headquarters in the morning, and said: "I have talked with all the Tammany leaders within the last day or so and I may say Tammany Hall never entered into a campaign more enthusiastically than she is entering this one. The appearance of Bourke Cockran, Mr. Gilroy and Thomas F. Grady at Democratic headquarters this morning is accepted by those in charge there as a gratifying assurance that Tammany Hall is now in Iuli accord with the party and will lend its aid toward the election of Mr. Cleveland.

These gentlemen called on the leaders and held a short consultation. Mr. Cockran will now enter actively into the campaign. He has arranged to speak at Detroit September 29, Indiapapolis September 30, Woodsdale Park, Cincinnati, October 1; in various parts of Indiana October 3, 4, 5 and

6, and Chicago October 7. LITTLE CHANCE FOR A CHANGE

The Present Form of Ballot More Tha Likely to Be Maintained. PPILADELPHIA, Sept. 10.-[Special.]-Chairman Reeder left the city at noon for Easton, and will not be back before Monday at noon. Democratic Chairman Wright is anxious for a change The informations read that Zimmer, as the form of the ballot, but wants an alteration radically different from the one sought by general Reeder. The parallel columns on the ballot are separated to the left by a halfinch space in the squares of which the cross-is marked indicating the choice of the voter. "It is the easiest kind of thing for a Democratic voter to mark at the left of a name his preferences instead of at the right, where the name ends," said Mr. Wright," and we have everything to lose and the Republicans everything to gain by the arrangement. Of course there is a remedy, and I propose to have it by an alteration that begins the Democratic column at least an inch lower down on the scale than the Bepublican. The party coming first on the ballot has a decided advant-

age, and inasmuch as our side is the minority one, we shall lose materially unless some such means as I propose shall be adopted to protect our voters."

It is generally accepted that the form of ballot as now printed in the specimen sheets will stand. Neither Attorney General Hensel nor General Reeder would speak on the matter to-day, declining to express an oninion

CAPTAIN KEENAN CHOSEN To Bun Against D. B. Heiner, in the Twenty-First District.

KITTANNING, Sept. 10 .- [Special]-The Democratic Congressional conference re-convened here to-day. Captain Freeman Gay was again elected Chairman, Five ballots were taken, each resulting as before, McCullough, 3; Keenan, 3, and Sloan 6. At the end of the sixth ballot Mr. Me-Cullough was tendered the nomination, but inasmuch as the Republicans had chosen Mr. Heiner, he thought that for the chosen Mr. Heiner, he thought that for the success of the ticket it would be better not to have both candidates from the same county, and so refused the nomination. The sixth ballot was then taken, which resulted in the nomination of Captain John B. Keenan, of Westmoreland. The nomination was then made unanimous. Captain Keenan called upon Mr. Heiner, the Republican candidate, last evening and congratulated him upon his victory at Saltaburg. This afternoon Mr. Heiner returned the compliment, and the gentlemen exchanged friendly opinions on matters non-political.

A special from Greensburg, says: Cap-Keenan arrived home late to-night, and was tendered an enthusiastic reception by the citizens of Greensburg. He was met at the depot by a brass band and about 2,000 people who marched through the principal streets of the city. He talked to hundreds of people on the public square. Mr. Keenan is a graduate tice. He is the son of the late General James Keenan, who was appointed Consul to China by President James Buchanan, 33 years ago, and while at Hong Kong James B. Keenan was born. He was brought to Greensburg two years after, and has lived

here ever since. CLEVELAND BACK AT THE BAY. His Return Not Expected and He Was Not

BUZZARD'S BAY, MASS., Sept. 10.— [Special.]—The arrival of Hon. Grover Cleveland on the 10:24 train this morning was hardly expected. A few minutes later Mrs. Cleve-land drove up to the station, and learning that her husband had walked "across lots" home, speeded away down the road home-

ward.

It is understood here that the bay is to see less and less of Mr. Cleveland during the next three weeks, probably until his final removal to his Madison avenue home, about the first week in October, as he is expected to make frequent trips now to New York until he closes Gray Gables, and, with Mrs. Cleveland, returns to the city for

Summit, Cal.—Fire broke out in the snow sheds at 10 o'clock Friday night. The Summit fire train, while fighting the flames, ignited and had to be abandoned. The engine and water cars burned up. The Blue Canon water train was rushed to the front, and while battling the flames a new fire started west of the train, and for a time there was imminent danger that this train also would burn. Fires were started at four different points, evidently by an incendiary. The water train from Rocklin was sent up early yesterday morning. The flames are now under control. Over 2,000 feet of sheds and track were destroyed.

Mr. Schwartz divined that Brant's scheme Mr. Schwartz divined that Brant's scheme was simply one to rob anyone willing to confide in him, but to make sure, offered him the use of the company's laboratory and all the gold and silver bullion bars he could use in the process. Von Brant promptly fell into the trap, saying his plan would only work with coin. After being melted he proposed to send the mass to the mint to be molded into new gold pieces. He produced a jewelers' crucible, scales and other instruments to show that he meant business and declared he could demonstrate his ability to do all he claimed and to make Mr. Schwatz odging houses. Comfort the Patients, ST. PETERSBURG, Sept. 10.-Again the hopes that the cholera had spent its strength have been dashed to the ground and the people are asking when the end will be. The official returns for Tuesday showed a decrease of 843 new cases throughout Russia and 1,109 deaths, and this led to the belief that the disease was decreasing in virulence. This morning, when Wednesday's returns for the whole empire were issued, it was seen that a comparison with Tuesday's returns showed an increase of 918 new cases and 927 deaths. The figures for Wednesday stood: New cases, 6,679; deaths, 2,358. In St. Petersburg, however, the returns still show a decrease. Yesterday 100 new cases and aix deaths have been reported.
