Sugars Are Fractionally Lower.

A NEW DEAL IS CONSUMMATED

Between the American Sugar Refining Company and the Wholesalers.

CURRENT CROP AND BUSINESS GOSSIP

SATURDAY, Sept. 10. General business has been quite ani-mated during the week ending to-day. From all dependent sections the demand showed considerable force, and the operations on city and suburban account were more liberal than at any time since last spring. The comparatively heavy payrolls distributed among the mill men for the first time in several weeks had a good effect on the retail trade, and through it the wholesale and jobbing trades were favorably affected.

Collections were easy.

The course of prices favored sellers as a rule. Brendstuffs were easy, with a steadier tone toward the close; groceries were firm under the lead of coffee, which was advanced be per lb to-day, though high grade augurs closed fractionally lower; provisions suffered another decline to-day; dairy products, eggs and poultry were firmly held; vegetables were scarce and higher; fruits were easy under large supplies, and others were generally steady.

A New Deal in Sugar. NEW YORK, Sept. II.—[Special.]—A deal has been consummated between the American Sugar Refining Company and the Associated Wholesale Grocers by which the grocers bind themselves to maintain quotations made daily by the refining company. The refining comthe refining company. The refining company, on its part, agrees to allow an extra discount of one-eighth of 1 per cent, which will be \$50 on 103-barrel lots. On Monday all sales will be made under this agreement, and with each invoice the following letter, signed by the American Surar Refining Company, will be sent: "We inclose herewith invoice of surar of even date, on which a commission of \$\frac{1}{2}\text{c} a pound has been deducted in addition to our usual terms of 1 per cent cash in seven days and 1 per cent trade discounts on 100-barrel lots, the understanding being that with your remittance the certificate below is to be returned, duly signed by you as a voucher." duly signed by you as a voucher."
Following is the form of the certificate to be inclosed with the letter: "We hereby certify that we have not sold, nor will we sell, nor has any employe, salesman or agent of ours sold in any of the territory specified on the back of this certificate, either directly or indirectly, any of the sugars for which we are now remitting for less than your dally quotations, nor on more liberal terms as to credit or cash dis-counts."

Crop Gossip. Prime wired late in the week as follows: "This is a very poor corn week. The major-ity of the days are cool and cloudy and very

close to frost line at night, hence put corn as ripening very slowly and needing 15 days get for the earliest to get out of way of rost. Some reports from Southern Kansas show that corn would not be hurt by frost nd will be safe in ten days. Confirmatory reports have been received of statements made that late frost did quite a little damage in the North to late sown wheat. South Pakota wheat pretty well stacked. Receipts at Minneapolis are increasing every day, which shows that a good deal of threshing is being done. Receipts, however, are light for season of vear. Kansas reports show ground in splendid condition for seeding on account of leavy rains. Scarcity of cars has caused receipts of wheat to fall off greatly. Mills have taken all the wheat in good condition and are diling their elevators. Late corn will see out of danger by September 29. In Southern Illinois late threshing is about done. Cain is very much needed. The large movement of wheat is falling off. Late corn will see out of danger before October I.

Chapp & Co.'s weekly letter says the actid's clop of wheat is estimated at 2273, 2000,000 bushels in Seconds and one of enorts have been received of statements outs crop of 1,000,000,000 bushels; barley, be in the hands of all who are interested in

A substitute for lard? Upsetting the customs, habits, and prejudices of cen-turies? Yes, all this and more. Cottolene is a new cooking product-it is better than lard or butter for cooking, so say such noted housekeepers as

Marion Harland, Catharine Owen, Christine Terhune Herrick, Emma P. Ewing, Mrs. S. T. Rorer, Amy Barnes, Margaret Wister,

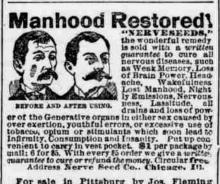

and many others; it is healthier - so says every thoughtful physician; and it is cheaper as every housekeeper knows when she finds that one-half the quantity answers every purpose.

COTTOLENE

is the purest clarified cottonseed oil mixed with pure beef fat. It is the best cooking material ever devised for frying anything and everything-easily digested and highly nutritious. Beware of imitations. Ask your

grocer for the genuine Cottolene. MADE BY

Isn't it queer how the Italian word for Clown, Panteleon, has given a name to what used to be worn instead of trousers? It's a fact, though, just the same, and it's also true that whatever your station in life may be you can't go without pantaloons, and not to look like a Panteleon you want to get your Pants at Jackson's. As for stylish, nobby suits, where else can you find the selection we show? Not in the Cheap John store, not among the pots and kettles of the job lot concerns. No, sir. Good, honest reliable clothing can only be had of the maker at the maker's price-no middleman's profit. Our \$10 suit is equal to any you'll buy elsewhere at \$12 or \$15. Our home-made \$12 Suit you can't duplicate for less than \$18, as for our \$15 suit you can't match at all at any price. See these exceptional values.
