THEY WILL WAIVE A HEARING AND FURNISH BAIL FOR COURT.

THE SHERIFF WATCHES HIS DEPUTIES

Hugh O'Donnell and Hugh Ross have communicated with their attorney, John F. Cox, and have agreed to come to the city...

It turns out that the two leaders have kept away from Homestead and Pittsburgh because they do not like the lodging and boarding furnished by Warden McAleese at the county jail.

Attorney Cox, for the defendants, and Attorney Breck, for the prosecution, have held several consultations concerning these defendants, and yesterday reached an agreement.

THE SHERIFF WATCHES HIS DEPUTIES. The two Hughs will appear at the office of Alderman McEasters about noon on Friday.

THE DISTRIBUTION OF THESE DODGERS created considerable excitement, and was denounced as a Democratic scheme to spoil the effects of the exercises of the day.

Mr. Cox said: "Your deputy sheriffs in Homestead are in small business if they can make examples out of arresting boys."

There was no other foundation for the report, but it caused great surprise and uneasiness in Homestead yesterday.

ALDERMAN McEASTERS' DEPUTIES were doing good duty for the past three or four days, and their vigilance had produced a marked change in the conduct of the locked-out men.

George Bennett, who was shot in the shoulder by A. E. Bourne last evening, is rapidly recovering. Only a flesh wound was inflicted.

Three arrests were made during the day. W. H. Williams, of the city, was charged with aggravated riot, and in default of bail was lodged in jail.

A POLITICAL TWIST

Being Given to the Employment of Convict Labor in Washington

ON THE CITY STREETS AND ALLEYS

CLEVELAND'S POCKET VETO OF A BILL THAT WOULD HAVE STOPPED IT.

REPUBLICAN CAPITAL, MADE OF IT ALL

WASHINGTON, Sept. 13.—In their desire to find some means to abolish the employment of convicts upon the public streets in the District of Columbia, the labor organizations have been successful in their attempt to secure a bill for the employment of convict labor by the Government.

THE BILL PROVIDED "that in all advertisements for the erection or construction of public buildings or other public works, or for materials to be used in their erection, construction or completion, and for all supplies of every description to be furnished for the use of any departments, and in all contracts made under or in pursuance of such advertisements there shall be inserted a condition that no convict or prison labor whatsoever, or the product thereof, shall be employed or used upon any public building or other public work, or in the manufacture of any articles, materials or supplies contracted to be furnished therefor, and there shall also be inserted in said contract the further condition that no person who is not a bona fide resident within the limits of the United States, and who has not declared his intention to become a citizen thereof in the manner provided by law, shall be employed in the erection, construction or completion of any public building or other public work; that any willful breach of any of said conditions by any contractor shall authorize and work as a forfeiture of the contract."

LOOKING FURTHER into the literature of the subject, it is found that President Cleveland was opposed to the abolition of convict labor on Government work, and declared in favor of such work in his message to Congress in December, 1886, in which he argued that the Government should possess prisons for its own criminals, instead of distributing them among the penitentiaries, as by that means considerable cost of maintaining them in State institutions would be saved.

IN THIS Mr. Cleveland, curiously enough, appears six years ago to have run counter to the views of Commissioner of Labor Peck, of New York, who has caused the free traders so much unhappiness by his declaration that the result of the tariff bill is an increase of wages. In the report by a committee of the Democratic House of the Forty-eighth Congress, on the bill above mentioned, it is stated that the bill was introduced by the people of the entire country, and by it raised a certain amount of money, \$1,000,000, for the benefit of the University League, which has been well received.

THE SPECIAL provision made by the league is that all the money it collects shall be used exclusively for the women's branch of the university, and with the distinct understanding that the money shall be put to use on precisely the same footing, either as professors or students, where women shall be found competent to fill the same positions. In the Boston University this plan obtained, but in practice is lamentably deficient. No woman yet has been elected to any professorship, although it has long been a desire of the students, and especially the women among them, that Mrs. Alice Freeman Palmer, of Wellesley College, be invited to fill a chair.

LABORERS OBJECT TO TEN HOURS' WORK. WHEELING, W. VA., Sept. 13.—[Special.]—Several hundred men employed by Jolly Brothers in laying the entire street railway system in Wheeling struck today. They were employed last week at \$1.50 for ten hours' work, and they want a nine-hour day at \$1.40, which is a considerable concession, they would prevent them finishing the big contract in the limit prescribed.

THE SANTS FE ENGINEERS VICTORIOUS. CHICAGO, Sept. 13.—The conference between Vice President Robinson of the Santa Fe and the Grievance Committee of the engineers and firemen, terminated tonight in a partial victory for the men. They are promised an increase and the restoration of some discharged engineers and firemen, who were, the men claimed, unjustly dismissed.

PROSECUTING A CRUEL ANAT. HUNANE AGENT MORRISON has preferred charges against Michael Lehman, aunt of the little Hungarian girl who was found under the icehouse almost starved to death. The same agency will at once secure a home for the little one, in that the law severely deals with the woman.

HON. A. B. CLARK'S CASE DIDN'T HOLD. NEWARK, O., Sept. 13.—[Special.]—Hon. A. B. Clark, arrested on affidavit of A. D. Lee for appropriating to his own use the sum of \$10,000 placed in his hands for the public purpose of setting a man's name to a claim, was discharged by Justice Kees today.

THE HERO OF HOMESTEAD. A Man Who Ministered to the Injured, Regardless of Danger. Some of the wounded Pinkerton men engaged in the recent riot at Homestead told to their physician, says the Youth's Companion, an incident which has not before been published.

"We were fastened in like rats in a cage in the boats," said one. "It was not a time to consider who had the right on their side, or for the strikers to be killed or to be killed, and I fought for my life. The men that were dead in the boats were dragged to one side, and the wounded men lay on deck, trampled over, bleeding to death. If a man's head or any part of him was exposed, he was almost sure to be hit."

"Then the cry went up that they had turned the oil tanks upon the boats to burn us alive. Just then the captain cried out: 'Is there a doctor here to look after the wounded?' and a young fellow spoke up and said: 'I'm not a regular doctor, but I'm a medical student. I'll do what I can.'"

"So he did set to work, and as could be, trying and bandaging the men on deck. The bullets pinged past him, and he'd just dodged his head back through the window of the boat, and got through with the wounded on that boat, and got them under shelter, he crossed to the other to go to work there. He was the only man who crossed from one boat to the other that day."

"I did not hear his name, but I know his name, to give him the credit."

A GREAT SEAT OF LEARNING.

Plans Making for the National University at Washington Under the Auspices of the Methodist Episcopal Church—Women's Part in It.

TWO or three years ago a meeting was held at one of the churches of Washington, D. C., for the purpose of furthering the project of a great national university under the auspices of the Methodist Episcopal Church.

The meeting was an enthusiastic one, though there was a slight disagreement, scarcely noticeable, in regard to the real reason for the impulse toward building a university. Dr. Newman led the cat out of the bag when he said in a roundabout way that the project was to be a counter-irritant to the old Jesuit University at Georgetown, and the new Catholic University, whose buildings are just outside of the northeast entrance to the Soldiers' Home.

Well, the result of the meeting was a pledge of the people of Washington that they would at least raise a sum sufficient to purchase spacious grounds for the new Protestant ally, which should speedily become a counter-irritant to the old Jesuit University at Georgetown, and the new Catholic University, whose buildings are just outside of the northeast entrance to the Soldiers' Home.

NEARLY 100 acres of land were purchased in a beautiful situation out at Tenleytown, near Oak View, the former country residence of the late Senator Charles W. Smith, and which has since been greatly enhanced in value, and the property in the vicinity has had quite a boom on account of it. Little has been heard of the project for a long time, however, and many who did not believe in the project, who are at the head of the management, is not the man to let any such scheme fail, feared that it was found impossible to raise the large amount that is wanted to effect the establishment of the grand institution which it is intended to build up.

THE WORK of raising the funds has been progressing steadily, and it will not be long before ground will be broken for the first building. The most recent and lively interest in regard to the institution has been aroused by the announcement that the widow of Senator John A. Logan has enlisted herself in the work of raising the \$10,000,000, which is the sum aimed at in this particular, and which is to be devoted especially to the woman's branch of the institution.

AS THE UNIVERSITY is not to be denominational, the project was originated by Bishop Hurst and has been pushed most vigorously by the Methodist sect, it will interest every woman as well as every man to know that the same provision is to be made for the women's branch of the university.

ONE OF THE PLANS TO RAISE MONEY. Mrs. Logan is one of the trustees of the American University, and, with Mrs. Somers, of this city, another trustee, was asked by the board of trustees of the American University League, that would approach directly to the people of the entire country, and by it raise a certain amount of money, \$1,000,000, for the benefit of the University League, which has been well received.

EVERY town and hamlet by the establishment of such articles as were needed by the Government, quite a large pecuniary benefit would be realized in partial return for the outlay.

IN THIS Mr. Cleveland, curiously enough, appears six years ago to have run counter to the views of Commissioner of Labor Peck, of New York, who has caused the free traders so much unhappiness by his declaration that the result of the tariff bill is an increase of wages. In the report by a committee of the Democratic House of the Forty-eighth Congress, on the bill above mentioned, it is stated that the bill was introduced by the people of the entire country, and by it raised a certain amount of money, \$1,000,000, for the benefit of the University League, which has been well received.

REFERRED TO, MR. PECK IS QUOTED APPROVINGLY AS FOLLOWS:

Results of a Searching Investigation. "Hon. Charles F. Peck, Commissioner of the Bureau of Labor Statistics of the State of New York, in his report of January 10, 1888, says: 'Notwithstanding the fact that this order was made by the Attorney General of the United States (the order sending to the several penal institutions of the state its convicts) under a law of Congress, it was unable to reconcile the idea that there was not some more potent reason behind it, and pursued the line of inquiry till I discovered the disgraceful fact that both the officials of our State prisons and the county penitentiaries had openly bid for the privilege of maintaining United States convicts free of all expense to the National Government, and further, as the result of the contract between the Erie county penitentiary officials and the Department of Justice at Washington, the State of New York is to-day supporting United States criminals free of all expense to the National Government, and in their inhuman greed to make their penitentiary pay in dollars and cents, two convicts are crowded into one cell and the rights of honest free laborers outraged. The investigations of the Commissioner of the Bureau of Labor Statistics of the State of New York is: 'The contract system of prison labor is directly responsible, to a great extent, for the reduction of wages and loss of employment suffered by mechanics engaged in the same branches of industry which are carried on under the contract system in the prisons.'"

FODDER for a Campaign Committee. A committee of the combined labor organizations of the district will this week present the matter to the Commissioners and attempt to press on them that they are not bound under the law to employ the workhouse convicts on Government work, and also that they have no right to place the convict garb on persons committed for a few days for the smallest misdemeanor, and who are often convicted by the hard swearing of an officer who is unable to make a case.

AS THE REPUBLICAN COMMITTEE seems to have interested itself in the matter to some extent, it is probable the labor organizations may have such a strong backing that they will accomplish their purpose.

GROSS NEGLIGENCE CHARGED. The Contractor and Engineer Held Responsible for the Cambria Wreck. ALTOONA, PA., Sept. 13.—The jury impaneled to investigate the accident on the Cambria and Clearfield Branch of the Pennsylvania Railroad, by which C. W. Ferry, Raymond Parrish, W. S. Rowland, Alexander Gedulla, Edward Adler, Giuseppe Martini, Martin Martini, and Rich and Anton Dinello lost their lives on the 8th instant, met at Gallitzin, Cambria county, today.

AFTER examining 17 witnesses the jury rendered the verdict that the collision was caused by gross negligence and disobedience of rules governing the operation of the said railroad by Conductor G. E. E. Dunne and Engineer G. S. Yoder, of the construction train.

THE GREAT NORTHERN WITHDRAWAL. It Has No Use for the Traffic Association Since Hill Can't Be His Way. ST. PAUL, MINN., Sept. 13.—The Great Northern has filed notice of withdrawal from the Western Traffic Association. This is not unexpected, as President Hill's ultimate withdrawal, at a time when he was fully able to see his own way, was regarded as a matter of course. Private advice states that this action has been taken, but at the general office of the Great Northern in this city the officials refuse to confirm the report.

Over Niagara in a Barrel. CINCINNATI, Sept. 13.—The bridge-jumper, Meredith Stanley, of this city, proposes to float over Niagara Falls in a barrel of strong oak, well hooped and covered with copper. It is eight feet long and six feet in diameter, the inside being padded and is ready for use.
