guarded by 12 detectives from New York. This morning Dr. Voight reported that the health of the passengers was excellent, there being only a few incidental troubles among the women and children. While there is some grumbling, a majority of the passengers express satisfaction with their accommodations. All opposition on the of the baymen has entirely disappart peared, and they are now willing to make money by taking off anyone allowed to leave the island The floating hotel pre-

sented by Mrs. W. Bayard Cutting is now being towed to this place. Dr. Jenkins has telegraphed here that he will likely release the Normannia's passen gers to-morrow. The customs officers will come here to examine and disinfect their baggage, and the passengers will then go to Babylon by boat and thence to their desti-nation by rail. The Thirteenth Regiment will remain at Babylon to prevent any interference with the landing of the passengers at that place.

CHOLERA IN MEXICO.

Although Government Officials Are Duing Their Best to Conceal the Fact.

SAN ANTONIO, TEX., Sept. 14 - According to the following letter received here today from Dr. J. C. W. Clove, dated Jalapa, Mex., cholera is raging at Vera Cruz, the denial of the Government officials to the contrary notwithstanding:

Apropos of the cholera excitement, I will ay that sea water anemas are being used in Vera Cruz and Mexican Gulf cities for yellow fever as well as cholera. Other treat-ment is used to some extent, but sea water, and sometimes salt added, has reduced the mortality of cholera in Vera Cruz very much.

Dr. Clove was formerly a resident of San Antonio, but has lived for several years in Mexico.

THE BARS UP AT CINCINNATL

Health Officer Prendergast Takes Promp Action on Hearing the News,

CINCINNATI, Sept. 14 .- The news genuine cholera in New York set the Health Officer of Cincinnati, Dr. Prendergast to devising a quarantine for Cincinnati. He immediately gave directions for the prepa-ration of a cholera hospital. The State Board of Health, he said, would make a close quarantine of Ohio, but, in addition, he proposes to send out sanitary inspectors to meet all in-coming trains and prevent the arrival of immigrants or of any infected material.

Sandy Hook Will be Ready Friday.

CAMP LOW, SANDY HOOK, N. J., Sept. 14.—The preparations of the camp seem to have made better progress yesterday than during any day since the work began. The officials are experiencing difficulty in get-ting help. Ex-Surgeon General Hamilton still thinks the camp will be ready for occupancy Friday morning.

CORRUPT CONSUL RYDER.

of Official Embezzlement.

from quarantine. Dr. Jenkins has not def. nitely determined when he will release them, but it will not be until ten full days have elapsed since the last case appeared on the

A Ten-Day Rule Adopted.

The Moravia's steerage passengers may be landed to-day or to-morrow, as ten full days have gone by since September 4, the date when cholera last showed itself on board. The Advisory Committee of Physiciens consider five days long enough when the passengers have been put in camp ashore or on a clean ship. Dr. Jenkins has decided, accordingly, to apply the ten-day rate only to passengers held on the steam-

ships on which cholera has developed, and to hold others who are removed from the infected ships five days after such removal, providing cholera does not show itself in that time among them. At 5 o'clock last night Dr. Walser re-

turned from a tour of the ships in the Lower Bay and drew up this statement:

Steamship Rugia-Only cabin passengers on board; all well. Ordered the bargage from Hamburg direct to be staamed and dis-infected; all other baggage washed with bi-chlorida. Passengers ordered to be re-moved to the New Hampshire, but impossi-

moved to the New Hampshire, but impossi-ble on account of the swell. Steamship Scandia-Examined again all the passengers and found Solomon Ellito-witch sick with cholers; taken sick this morning. Have had all the apartments fumigrated and washed with bi-chioride and over 5,000 pieces of the passengers' clothing washed and rinsed with a bi-chloride solu-tion. Passengers, in consequence, very His statement of the occurrence at the house is the same as telegraphed last night. deaths by gunshot wounds inflicted by Evans and Sontag. vented a disaster.

"The Pennsylvania Board of Health will not see cholera invade the State, even if the public treasury does not supply it with funds. If the order is issued and Governor Pattison does not respond with an appropriation the board Kazan, Samara, Saratoff and Orenburg and the Don territory is 400 new cases and 200 will go to work anyway. The citizens will be called on for aid and we will get plenty In the lieutenancy of of it. There are several reasons why the Caucasus the daily average is 1,550 new people of Pittsburg would respond readily cases and 750 deaths. It will be seen from these figures that there has been no diminuto a call for aid, One is that if cholera were to come into this city the loss would tion in the rate of mortality, the deaths still run up to thousands of dollars. reaching 50 per cent of persons attacked in

New York's Financial Loss,

"The loss New York will sustain can hardly be estimated. Already Pittsburg people are beginning to ask if it is safe to visit the metropolis. I had several of my patients ask me this question to-day. I was reliably informed to-day that Philadelphia was getting in readiness for a quarantine. The Quaker City is not waiting on the Governor to act, but has already subscribed \$39,000 toward a quarantine fund.

"If the quarantine is established it will be worked in this way: Inspectors will be appointed. It will be their duty to board every train entering the city from the East and examine every passenger. This will be done some distance out of the city, probably at Walls station. All trains will be made to carry hospital cars. When the inspector makes his examination he will compel those who are sick, or show symptoms of disease, to get into the hospital cars, which will be sidetracked. All trains will be held a reasonable length of time in quarantine-possibly a couple of days. We will not follow in the footsteps of the officials at New York and hold people who are well and healthy. I think such action unjust. All passengers from the East will be compelled to hold a certificate of health in addition to being quarantined."

Frepared for the Cholera.

J. O. Brown, Chief of the Department of Bob Dalton, Amy Dalton, Sam Wingo and Public Safety, was seen at his residence last night and when told that Dr. J. H. McClelland was hourly expecting a teletrain robberies in the Indian Territory, gram from Dr. Lee stating that quarantine had been ordered by the State Board against all trains coming from New York, said: "Well, we are fully prepared for this action, let it come when it may, from Pagosa Springs to Amargo was held Of course, we have no jurisdiction outside of the city, but we have made up a few miles from Pagosa yesterday by a preparations to take care of any cases which may develop in our district. We can care for from 12 to 20 cases to-morrow in the temporary hospital we have arranged in the gymnasium at Central station. have all the nurses ready that would be reautred, and 13 doctors have already signified in writing that they will volunteer their services in case of an rectly after the sale of seats had begun for outbreak here. To-morrow morning Mayor Gourley, Controller Morrow and myself Ebenhardt's circus at Malvera last night, a will-meet and decide on the plans for a temporary hospital to be erected on the Municipal Hospital lot. This will be made large enough to accommodate any number of cases which might develop here, but in case our quarters should prove unequal to the emergency we have made arrangements with the railroads to put on hospital cars, where the sick can be attended to until we can provide for them. "I do not think that we need fear an epi-

demic of the disease here; in fact, with the quarantine regulations strictly enforced, there is hardly a possibility of the scourge there is hardly a possibility of the scourge being carried here, except perhaps one or two isolated cases which might develop in this city. All trains coming from New York will be quarantined east of Philadel-phia, where a thorough examination will be made of the passengers who must have certificates signed by the New York health

New Cases and Deaths in Paris PARIS, Sept. 14 .- In Paris and suburbs there were reported yesterday 59 new cases of cholers and 44 deaths, including 14 new cases and 13 deaths in St. Ouen.

He Confesses to Theft and Further Acts

COPENHAGEN, Sept. 14.-H.
