Of the play and of Katle Emmett, the New York critics have had nothing but good to say, and the hit made by the piece and the star in New York seems to have been unmistakable. The absence of those chestnutty characters which we expect to find in an Irish drama, namely, the wicked landlord, the scheming attorney, the English rake in a red uniform and the Irish colleen all virtue and red cheeks, is one of the recommendations of Killarney. Miss Emmett made a hit in New York by her clever acting, her sweet voice and her graceful figure. The scenery is said to be unusually beautiful and the costumes handsome and historically correct.

GOSSIP AT THE HEADQUARTERS.

New York's Reapportionment Now Attracting Attention.

CONVENTIONS HELD IN SEVERAL STATES

SPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, Sept. 14 .- A contingent of Indianians was the attraction yesterday at Republican headquarters. It included General Michener and J. N. Huston. Their testimony was that, while Illinois and Wisconsin doubtless needed attention, Indiana, New York, New Jersey and Connecticut would without doubt decide the battle. They deprecated all expenditures in Alubams, the Virginias and the Carolinas.

Mr. Carter for a week has been overrun with Southern Republicans, who have argued the possibilities of the Republicans carrying several States below Mason and Dixon's line. The Indianians, Daye Martin, Senator Quay's personal represenative, and R. C. Kerens, of Missouri, ex-Senator Thomas C. Plutt and others advise that the work be done in the four States mentioned. These advisers believe that things will right themselves for the Republicans in Illinois and Wisconsin in a Presidental year. The doubters even have great faith in the influence of Uncle Philetus Sawyer. Ready to Flil the Coffers.

The lumber king has already contributed \$20,000 to the coffers of National Treasurer Cornelius N. Bliss, and his intimate triends say that he stands ready to throw out \$100,-000 more to help elect ex-Senator John C. Spooner into the Governor's chair at Malison. "Spooner is one of my boys," is a favorite remark of the 80-year-old Wisconsin statesman

Mr. Carter's literary bureau is just now running heavy on documents against English free trade and its ally, the Democratic party. The Literary Bureau has also issued a book of campaign songs to popular tunes like "Ts-ra-ra" and so on.

Senator Hill bad many visitors at the Hotel Normandie to-day. At State Head-quarters Senator Charles P. McClelland and other up-country leaders were on hand. The fight against the reapportionment of the State is attracting attention, now that the General Term has sustained Judge Ramsey's decision. Should the General Term be sustained by the Court of Appeals, Governor Flower, it is intimated, will call an extra session of the Legislature for the mendment of the reapportionment act.

## COLORADO DEMOCRATS DISAGREE.

The Cleveland Faction Bolts and Holds Its Own Convention.

DENVER, Cot., Sept. 14. - The First Congressional District Democratic Convention was held here to-day, Senator Gunnell being chosen Chairman. Rev. Myron W. Reed, the People's party nominee for Congress from this district, was nominated by seclamation.

When the matter of appointing a Committee on Resolutions came up a split in the convention occurred, the Cleveland Democrats bolting. They desired the ap-pointment of such a committee while the Weaver Democrats would not permit it. The bolting faction immediately called an-other convention, of which John T. Bond was made Chairman, and after indorsing Reed's nomination adopted resolutions pledging fidelity to the Democratic faith and principles. They also indersed the platform and candidates of the Chicago Convention, proclaimed faith in the states-manship of Cleveland, and ratified the platform and nominations made at Pueblo

## INDORSED A DEMOCRAT.

Republicans in Texas Take Sides in the Fight Against Hogg.

FT. WORTH, TEX., Sept. 14.-The Republican State Convention convened here this morning. One of the incidents of the convention was the opening prayer of "Sin-Killer" Griffin, a negro preacher, who praved that God would bless George Clark, a Democratic candidate for Governor. This brought down the house and the convention

retired for a while. The report of the Resolution Committee will condemn the administration of Gov-ernor Hogg and indorse the candidacy of Clark, a Democrat. This will give to Clark at least 60,000 out of a possible 90,000 Re-publican votes. Clark has captured the Republican party, and he will have 75,000 Democratic votes besides, which almost ines his election, unless conditions change.

### GROVER'S TARIFF VIEWS.

He Cannot Stand One of the Platform Planks and Will Modify It.

NEW YORK, Sept. 14.-The Herald publishes the following: "Mr. Cleveland, in his letter of acceptance, intends, it is said, to depart from a strict interpretation of the tariff plank of the platform adopted at Chicago and to appeal to the country on a carefully prepared modification of it. I hear that much correspondence is going back and forth between the Democratic National headquarters and Grav Gables about the matter. What Mr. Cleveland is understood to object to particularly is the sentence in the platform: 'We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and control tariff except for purpose of revenue only, and we demand that collection of such taxes shall be limited to necessities of the Gov-ernment when honestly and economically administered.'

This utterance was not satisfactory to Mr. Cleveland at time of its adoption. It was a part of the substitute inserted by a combination of the extreme opponents of a tariff and Mr. Cleveland's ill wishers who wanted to weigh him down. He will meet it on the line of his speech in Madison Square Garden July 21, replying to the offi-cial notification of his nomination in which he complained of the inequality and unfairness of the tariff laws now in force. I was told at the National headquarters that Mr. Cleveland would discuss at length and compare differences between foreign and domestic wages, showing that they are not correspondingly as great as the differences in the prices of commodities. The letter will not be made public until the latter part of next week, and perhaps not until week following. In about two weeks Mr. Cleveland will close up Gray Gables and return to New York to stay till after the

### CONGRATULATING THEMSELVES.

The Democratic Nation: I Committee Issue an Address to the People, New YORK, Sept. 14.-The Democratic National Committee has issued the following address:

HEADQUARTERS
DEMOCRATIC NATIONAL COMMITTER,
NO. 139 FIFTH AVENUE,
NEW YORK, Sept. 14, 1891.

To the People of the United States: The Democratic National Committee congratulates the country on the result of the recent State elections in Maine, Vermont and Arkansas. In Arkansas the combined opposition, after so many extravagant claims, fell short by over 30,000 of the vote of the Democracy alone. This has brought dismay to the combination in the South and ts manipulators in the North. In Maine and Vermont the contest was conducted distinctly on national issues. The Republican managers appealed for votes in these States on the ground that "the size of the pluralities would exert a great moral influence on the campaign in other States," and that the poll would be "practically our vote for President." Similar appeals summoned to their aid all the potent resources of their national organization, with its exhaustless iteasury and its splendid equipment of orators of national fame.

With every favoring force at their command except public opinion, with no organization opposed save those made up within the States by a minority party which has been out of power for a generation and and Vermont the contest was conducted

has been out of power for a generation and which was unaided from without, the camwhich was unaided from without, the campain of our adversaries for a triumphant lest vote in these States, so carefully planmed, and so thoroughly and forcefully executed, has ended in a conspicuous disaster. Our friends everywhere are entitled to take fresh courage from these results. They mean that the strong tendency of public sentiment is with the Democracy, and that the people of the country are prepared to enforce, rather than reverse, the verdict which they rendered in 1893.

## NEW JERSEY DEMOCRATS.

They Nominate Judge Werts as Their Candidate for Governor.

TRENTON N. J. Sent 14 -The Demoeratic State Convention was called to-day. Permanent Chairman McDonald made a speech, and the Committee on Resolutious reported, indorsing Cleveland and Stevenson, and approving the administration of Governor Abbett. The platform then takes up the Republican charges of reckless creation of offices, and gives a list of those created under the present administration at an annual expenditure of less than \$115,000. Reference is also made to the abolition of the State tax by the Democratic Government, thus lightening the public burden, Mention is made of various acts beneficial to labor which have been enacted, including Labor Day, Saturday half-holiday, for the arbitration of labor disputes, etc. All alleged partisan legislation is defended in

Nominations for candidates for Governor resulted in the naming of Senator George Werts and Edward F. C. Young, of Hud-son. Balloting resulted in the nomination of Werts. Judge Werts is about 45. He served as Mayor of Morristown during several terms, and for six years he was a mem-ber of the State Senate, where he dratted the present ballot reform law. He was born in Hackettstown, Warren county, was raised and schooled in Bordentown, and was admitted to the bar and began the practice of his profession in Morristown. He is admittedly about the most popular Democrat in New Jersey at the present time. He is now a Justice of the Supreme Court.

BOSTON, Sept. 14. - The Republican State Convention assembled this forenoon. Hon. Charles H. Allen was chosen Permanent Chairman. ## FLOWERS AT THE GRAVE

No Death-Reminding Designs Should Be

Used in Their Arrangement, Until cremation becomes the accepted means of disposing of our dead there will be graves, writes H. H. Battles in the September Ladies' Home Journal. If the women of the family go to the grave much of the danger to their health can be lessened by placing carpet, matting or boards on the ground where they walk or stand. If it storms there should be an awning placed that may protect them. Death has often been traced to exposure at the grave. The family are frequently in a low physical condition caused by long and auxious watching, and are particularly susceptible

to cold.

Much of the horror of death may be avoided by lining the grave with greens of various kinds, also covering the mound of soil with green. The flowers that were sent to the house can be taken to the grave by a special carriage and may be arranged before the family arrives. It is here where well-chosen flowers and designs are appreciated, and see to it that there are none that will leave an unhappy impression, such as a clock pointing to the "tatal hour," or a broken ladder, which suggests climbing, struggling, but at last falling, or a "setting sun" with the rays two or three inches wide, or words of poorly-shaped letters. Let there be none of these, but in their place let there be an abundance of greens and flowers sent by loving friends.

#### THE HEIGHT OF WAVES.

They Do Not Rise Quits so Much in Open Sea as on the Rocky Coust.

Fouth's Companion.] That ocean waves run "mountain high" no one ever believed unless he was very credulous indeed. The phrase is a highly exaggerated figure of speech. But the observations of keepers of lighthouses in exposed situations have proved that waves run high enough, in great storms, to make very respectable hills. Some time ago the steamer which carries supplies to the lighthouse on Tillamook Rock, on the coast of Oregon, was able to make a landing and establish communication with the light-keepers for the first time in six weeks.

The Tillamook Light has on previous occasions been washed completely over by waves. The same thing has happened to the Eddystone Light, off the coast of England and to the light at Fleux-de-Breenot, off the coast of France, both of which are

upward of 150 feet in height. It seems well established, therefore, that waves may mount to a height of 150 feet above the general level, where there are rocks or other obstructions to cause them to break. On the open ocean they would hardly rise so high above the general level; but as each wave is accompanied by a depression of corresponding depth, the vessel which is carried through the trough of the sea to the summit of the wave may truly be said to climb a great hill of water.
