REPORTED COLONIZATION IN INDIANA

[SPECIAL TELEGRAM TO THE DISPATCH.] PETERSBURG, VA., Sept. 15.-A reconciliation between ex-Congressman James D. Brady and ex-Congressman John M. Langston, who have been political opponents for some time, was effected last night, when Langston met Colonel Brady and his friends at the Custom House in this city. Langston told THE DISPATCH correspondent, to-night, that he was treated with the utmost courtesy by all, and especially by

Colonel Brady himself. Langston said he would bring Cotonel Brady in full accord with him as to the plan on which certain Congressional conventions, nominations and campaigns, so far as the Republican party is concerned in this State, should be conducted, and the necessary arrangement for the earnest and vigorous management of the State campaign in order for the success of the Republican party in the State. Langston said that while it was true that his frinds, white and colored, seemed determined to put him in nom-ination for the Fifty-third Congress from this district, he was ready for any self-sac-rifice on his part which seemed to be nec-essary to secure the Republican party the full strength of the Republican vote of this district, in order to secure beyond peradventure the electoral vote of Virginia for Harrison and Reid.

Langston has a plan which he will sub-mit next week to the National Republican Committee, upon the adoption of which, he claims, four Republican Congressman can be elected and the electoral ticket of the State carried for the nominees of the Republican party. About the general character of this plan Langston declined to

MR. CARTER IS UNSENTIMENTAL He Wants New York and Says Brooklyn

Factions Mustn't Fight. NEW YORK, Sept. 15 .- [Special.]-All was not sunshine to-day for Hon. Tom Carter and his associates in charge of the Republican national campaign. The trouble is in the Kings county Republican camp. There is no sentiment in Mr. Carter's politics. He says the interminable and infernal rowing between the Brooklyn factions must be stopped right off. Mr. Willis followed up his defeat by the Nathan faction last evening, by being interviewed to-day in the Brooklyn Exple. The sentiments there expressed are not calculated to hasten the peace which Mr. Carter and his associates so much derire. Mr. Willis is supposed to speak the sentiments of Secretary Tracy. The President's attention has already been

called to the situation. The Republicans are determined to have New York if work, day and night, will accomplish that result, but just when thing began to look encouraging the Brook lyn Tracas outcropped again.

A Reputed Carnegie Agent Offering Jobs to

Democrats in Hoosierdo PRINCETON, IND., Sept. 15,-[Specia.]-Reliable information has been received by the Democratic County Central Committee that "G. E. Pearson, of Turtle Creek, Pa.," has been working in Southern Indiana for some days, employing young men from the farms to go with him to Homestead, Pa., to take the place of the strikers in the Carnegie mills. He was in Vanderburg county Tuesday and called on the Chairman of the Republican Central Committee and other leading Republicans. Yesterday he was at Owensville, this county. He is said to be a foreman for the Keystone Bridge Works, which is also part of the Carnegie plant.

His object is to get Democrats out of the State by promising to give them work. His promise is big wages, free transportates and board. His scheme is seemingly a good one, but the committee is onto his racket. He will in all probability visit many other counties in this State for the same purpose.

THE PORCE BILL DENOUNCED

By General Stevenson in a Speech Made at Asheville, N. C.

ASHEVILLE, N. C., Sept. 15.-At least 2,500 people assembled in the Farmers' Tobacco Warehouse at noon to-day to hear Hon. A. E. Stevenson's speech. He was escorted from his hotel by distinguished citizens of North Carolina in carriages and a large procession of mounted men from the country adjacent to Asheville. General Stevenson was introduced by Hon. C. T. Rawes as a distinguished grandson of North Carolina, and when he arose to speak there was loud applause, continuing several min-

General Stevenson began by paying a handsome tribute to North Carolina, saying that her history and traditions were as dear to him as anyone present. Most of his time was devoted to a denunciation of the force bill. General Stevenson left Asheville on a special train this afternoon for Raleigh, with F. M. Simmons, Chairman of the State Executive Committee, and S. S. Carr,

Please wire us as soon as possible whether we may count on your being there." Commissioner Peck, in view of his promise to be here all the week, felt justi-

fied in replying by wire as follows: "In view of assurances in my letter of the 12th to the effect that I will be ready to meet such committee as I have designated on Wednesday or any day thereafter of this week, I consider your dispatch an insult."
He still adheres to his resolution to allow no "Mugwump" to examine his report or tables, and says his war ery is, "No force bill and no Mugwump domination."

MICHIGAN'S CAMPAIGN OPENS

With Speeches at Detroit by Judge Morse

and Congress DETROIT, Sept. 15.-To-night the Demo crate of this city opened the Michigan campaign with a rousing meeting at the Auditorium Hall. The hall, which has a seating capacity of 8,000, was comfortably filled by an enthusiastic audience which cheered itself hoarse before the evening was over. Judge Allen B. Morse, nomines of the Michigan Democracy for Governor, was the first speaker. It was some time before he could commence his speech because of the intense enthusiasm. He touched at length upon the leading political questions of the campaign, both State and national, and arraigned the Republican party for what it had and what it had not done. In closing he advised the young Democrats at the com-ing election to choose between the parties which are representative of Alexander Hamilton and Thomas Jefferson, and vote the ticket put up by that of Jefferson.

The next speaker was Congressman Asher G. Caruth, of Kentucky. He spoke elo-quently and kept the audience in an uproar with the witty stories and sallies with which he punctuated his address. It was in

part as follows:

I don't know the local issues which divide you people, but I am no stranger to the important issues that are now presented before the American nation. The question of the hour is, shall Grover Cleveland be elected? Shall the next President be Grover Cleveland, whose record is clean, or Benjamin Harrison, Irom the beginning of whose administration scandal has reigned supreme in all departments? When Cleveland went out of the White House there was a surplus in the United States Treasury of \$100,000,000, Where is that surplus now? It is gone, and in its place is a deficit. Do you think the administration of Benjamin Harrison is worth \$85,000,000 a year? If so, continue it, When you come to view the records of the two men, you will say that of Grover Cleveland was the purer and the better.

GOV. BOIES MAKES HIS BOW.

He Opens the Campaign in Iowa With an Anti-Tariff Speech.

CARROLL, IA., Sept. 15. - Governor Horace Boies, whose Presidental chances were temporarily postponed at the Chicago Convention, opened the national campaign in Iowa to-day in the most vigorous fashion for Cleveland and Stevenson. The Governor had an immense audience, and his appearance on the speakers' stand was the signal for a remarkable outburst of cheer-

In the course of his speech, which was enthusiastically punctuated with cheers, the Governor said: "Why was the surplus of \$83,000,000 in the Treasury dissipated as it has been done? Because it stood in the way of protective tariff. The two could not exist together. One or the other must disappear. But our friends say this protective tariff is made for the benefit of the laboring men. All that the tax is intended to do is to equalize the difference between the wages of American workmen and the pauper labor of Europe. When it was under considera-tion it was not the laboring man who ap-peared at the Capital of this nation and asked to have it passed. Hundreds, if not thousands of manufacturers, with the ablest attorneys they could employ, did so appear. It has now been in force for two whole years. Has it allayed the struggle or lessened the contest between capital and labor? Let Homestead answer."

MANY PETITIONS FOR IMPROVEMENTS

Allegheny Councils held a meeting last evening. The cholers and city improvements figured extensively in the discus-

In the Select branch the most important matter before the meeting was the consideration of the water question. Mayor Kennedy was present and addressed the Council. He said the great thing was how to do the work quickly, and he thought they had solved the question. There were two ways. One was to lay a number of lines of small pipe up the river bed, as are laid for oil lines. This could be done in three weeks. The other is to build a five-foot steel pipe following the line of the Butler road. By fall this line would be at Willow Grove and good water could be furnished. Either plan would cost \$150,-000. The five-foot pipe would be in the line of a permanent improvement and could be extended in the future of the pumps being moved as the line was built

further up the river. If Councils would ay the word he was ready to go ahead and have good water for the city in two weeks. Councilman Kennedy asked if the work could be prosecuted without the formality of advertising, etc. He was anxious to give the Mayor all the power possible, but there was a legal question to consider.

Mayor Kennedy said that if cast iron pipe was used the city has a contract that will cover the ground; he didn't know about the steel pipe. If Councils would indicate what was wanted he would go ahead with the work. Providing Ways and Means. Councilman Kennedy thought it proper

to present an ordinance covering the work and pass a resolution pledging Councils to appropriate the money required. The work could then be pushed, and in the meantime the ordinance could be rushed through comnittee and Council. There was considerable discussion as to the method of giving the Mayor power to act, and finally Councilman Kennedy offered

the following: WHEREAS, The city of Allegheny is threatened with a cholera visitation; and
Whereas, It is necessary to at once obtain our water supply from a source further up the Allegheny river: therefore, be it
Resolved, By the Select and Common Council of the City of Allegheny that it is the sense of Councils, upon the suggestion of the Mayor of the city, that an expenditure of \$150,000 should be incurred to obtain at once a better supply of water by laying the mains further up the river.

The resolution was passed, as was a resolution directing, the Chief of the Department of Public Works to advertise for proposals for doing the work. Mr. Ken-nedy also offered a resolution directing the Finance Committee to prepare an ordinance submitting to a vote of the peo-ple the question of issuing bonds for water, street and sewer im-provements and a resolution directing the Committee on Legislation to prepare an act of Assembly empowering the city to condemn land for park purposes. These last were referred. Later in the evening Select Council accepted the Common Council amendment relating to the expenditure of the \$150,000 for extending the main up the

Then it was discovered that there was a little more business and the Council "reconvened" and passed a resolution vacating part of Balkan street and an ordinance for the purchase of a site on Haslage street, Seventh ward, for an

Mr. Born, from the Committee on Representation in the Common branch, presented a report as previously published. Mr. Einstein said that there are now enough taxa-bles in the Twelfth ward to entitle that ward to two Common Councilmen instead of one, as fixed by this report. He asked if a change could not be made. President Lind-say said that the law provided for an ap-pointment on July 1, and the Twelfth ward at that time did not have enough taxables

o secure two Councilmen. Mr. Kennedy, from the Finance Committee, presented resolutions for paying John Bradley, Prothonotary, \$593 50 costs in city cases; providing for temporary clerks in the Treasurer's office at \$60 a month each; authorizing the City Solicitor to appoint an assistant at \$100 a month; all of which were passed. Mr. Lowe objected to the ordinance for an Assistant City Solicitor and moved to indefinitely postpone action, but no one would second his motion.

Street Improvements. Mr. Lowe, from the Committee on Works, presented ordinances for the improving of Ridge avenue, Mortgomery avenue, Lowrie street, Gardner street, and Troy Hill road; for sewers on Charles street, Cedar alley, Wolf alley, Fremont alley, East street, Ashton street, Saw Mill alley, Magnolia street, and Lewest street, enthorising the street, and Lamont street; authorizing the purchase of a lot on Villa street to lay a water main to the reservoir; for laying a 24water main to the reservoir, for laying a 24-inch rising main to the Montgomery Hill tank; for erecting additional pumps at the Howard street pumping station; for new boilers at the Howard street pumping station; all of which were passed The ordinance giving the contract for mast arms to the Keystone Company was

In the Common Branch. In Allegheny Common Council last night a quantity of business was disposed of. Upon the call of wards the following papers were presented and referred to the proper committees: Petitions for grading and paving the west end of Washington avenue,

Juniata street, Franklin street, Locust street and Osceola street; resolution for a sewer on North street; petition to change the name of Hopkins alley to Hopkins street; to pave Locust street, for a switch on Beaver and Washington avenues; switch on Beaver and Washington avenues; for a boardwalk and light on Island avenue; for water on Spring Garden avenue; to open Tustin street; resolution for removal of bodies in the First German Evangelical Lutheran graveyard to Troy Hill; petitions for water on and regrading of California avenue; to improve Shady avenue and to open and widen School avenue; ordinance to repave East street, and resolution for the purchase of site for an engine house in

the Tenth ward. Mr. Rudolph presented a resolution for the appointment of a committee to ascertain the cost of replacing the present electric lights and replacing them with are lights, which was adopted. A Better Water Supply.

The resolution authorizing the expenditure of \$150,000 to obtain at once a better supply of water temporarily in laying mains up the river was read and adopted. The resolution read next authorized the Chief of the Department of Public Works to pre-pare plans and advertise for proposals for an extension of the water works system. The following measures were then passed:

Ordinances for sewer on Franklin street; granting Oliver Iron and Steel Company right to lay switch across Preble avenue; prohibiting use of city's water as a motive

A freight wreck occurred on the Allegheny Valley Railroad last evening at Twenty-ninth street. The brake bar on a car loaded with pig metal fell down and three oars were thrown from the track, crashing in to a signal tower and demolishing it. No person was injured, but the track was blocked for two hours and about \$2,000 worth of property destroyed.

He was brought to the West Penn Hospital. regulations holding the vessels ladened with the raw material the sugar refiners in New York, Philadelphia and Boston withdrew their better products from the market. The refiners have enough raw material on hand to work up for the contracts which have been placed with them, but now refuse to take orders for the higher grades, making no promises as to when they will again be able to furnish the trade. As yet the trust has not put up the price on sugar, but if the quarantine should be kept up for any length of time, and the indications are that it will, there is bound, it is said, to be a sugar famine.

The daily production of the Sugar Trust s 50,000 barrels. At this time of the year the trade is the brightest and it requires all this enormous production to supply the demand. The refiners being compelled to wait 20 days for the raw material, under the President's order relating to quarantine, it will make the sugar production fall behind 1,000,000 barrels in that period. It is evi-dent that this will have a very material effect upon the price of the commodity.
A gentleman closely connected with the
American Sugar Refining Company said
yesterday: "There is no doubt that every
vessel loaded with the raw material for the which is due here from the East at 10 o'clock A. M., was 5 hours and 30 minutes late, and train No. 11, due to arrive at 9:45 A.
