SERMONS IN THE SERIAL FORM.

A Dancing Incident That Agitated Local Religious Circles.

THE TREMES CHOSEN FOR TO-MORROW

The tendency among the clergymen of the two cities to discuss topics of current Interest is on the increase. A number ar c, or have been, delivering a series of sermons upon topics which combine religious and social features, and this practice will probably be even more extensively adopted in the future. The theme of discussion in church circles during the past week were the charges of indulging in dancing preferred against a candidate for ministerial ordination in one of the strictest denominations. His prompt confession, censure and pardon had the effect of quickly terminating the unusual incident.

Coupling these facts with the indignation of the peo-ple in that section over the failure of the city to make some disposition of the prop-erty, Chief Brown makes an argument that will convince any Councilman that now is the time to do something, and that the High

School plan is the proper thing to do. No further steps are to be taken in the matter until the Central Beard meets next Tuesday night. Mr. Brown will then report for the committee appointed on the matter, and agree to do all in his power to secure the building if the board will so in-struct him. A \$100,000 building is

Friday, one of the largest stock-holders in the Florence Oli Company said last evening: "The drilf has only broken the shell into the sand proper, and a sbort time ago I received word that it was making 45 barrels an hour. It is one of the strongest gassers that has been developed in that locality and we believe it may run up to at locality and we believe it may run up to at ociated Press, has a beautiful child, Master How ard, whose aunt has written the following interesting letter from Asbury Park, N. J., which truly feet." J. M. Guffey's No. 3 on the Shane farm; answers the question:

Baby Howard Reilly cried morning, noon and night for ten months. Everyone pronounced him the most troublesome, crying young one ever born.

J. M. Guffey's No. 3 on the Shane farm-located in the southwestern part of the Meiss pool, was expected to get into the Gordon isst evening, but at a late hour nothing had been heard from it. The No. 2 John Robb, belonging to the Oakdale Gas Company and the Woodland Oil Company, and located a mile and a half north of Oakdale, will be drilled into the fifth sand to-day. Their No. 3 of the same farm will be finished up the first of next week. They are drilling their old No. 1 on this property deeper into the Gordon, with the expectation of increas-ing its supply of gas, and if they are disap-pointed in this they will drill it to the fifth sand for oil, as it is located on a line between the old Wetmore wells and their John Robb well. Poor little fellow, how he suffered from the day he saw the light of earth until 10 months old! No one could tell why he cried and seemed in such distress. Several doctors examined him, and every remedy was resorted to. His bowels never moved naturally. Convulsions and scarlet fever resulted. Pen cannot describe the distress he and everyone around him endured. His mother finally weaned

him; still the same trouble. At last his tired, discouraged mother happened

to read in a Boston paper an account of lactated food, and with no faith, but eager to grasp at any hope, commenced using this food. She had previously nursed him for six months, had tried cow's milk, barley water and every blessed food ever heard of, but only with increasing convulsions. Strange but true, in three days Howard began to improve. He actually began to crow and coo, and in a week there was a marvellous change for the better.

He has now been taking inctated food for fou nonths. He never cries, sleeps well in the day time and all night, something he never did before The child had evidently been suffering from im proper food and imperfect digestion.

tools running in this field, and the Pinhook I wish every mother could see this beautiful healthy, rosy boy, happy as a summer day.

Guffey & ueen have just finished up His mother happened to read the experience of light gasser on the Ritter farm, located a some mother, who was grateful enough for the food nile southwest of Milltown. The Chambers Gas Company struck a to tell about it in the papers, and every woman who has had her baby helped in any way should let the small gas vein in the third sand on the Logan farm yesterday. Gibson & Giles are down 1,950 feet on the Dempster farm, back world at large have the benefit of her experience.

The hot weather is at hand. Think of the in fants who will die from sheer ignorance of the blessings they know nothing about! Think of the number of children dying every month for want of the proper nourishment which lactated food will supply.

SISTERSVILLE-Friday, Keil & Co.'s well on the Schlever farm, three miles south of town, is 47 leet in the sand and putting out a large amount of sait water with considerable oil. Johnson & Duels' well at the Hog Wallow school house, three miles down the river, is pumping 40 barrels a day. Gillespie Bros.' well on the A. and S. Thistle farm, which was reported dry, has been put to pumping and they may yet make a well. The Buchheit Oil Company has started to drill No. 2 on the Buchheit farm on the Ohio side. No. 1 is a fair well. Jours & Tennant have finished up a light well on the Russell farm on the Ohio side of the river. The Gamers. I don't want anyone to read this and imagine i is an advertisement. I am writing it of my own free will and for the public benefit, not for th benefit of the manufacturers of the lactated food Let every mother who has seen the good it has done her baby write her experience. When you know a good thing for bables, don't keep it to yourself.

GOING DOWN THE HILL

Old Age Creeping on Shows Itself in Lack-Lustre Eyes and Trembling Hands-Many Who Are Old in Years are Vigorous and Healthy-How Such a Condition may be Encompassed by All.

How many elderly men and women we see who plainly show they are "going down the bfill. The trembling hand, the uncertain step, the lack of brightness in the eye, the shrunken features, all indicate that life is not at high tide, that the strength and vital forces are not what they once were, and in fact, that they are going down the hill. This, of course, is to be expected, for when one reaches later years, physical troubles are sure to come, but how many elderly people we see and healthy, happy and comparativa-ly vigorous. They always seem cheerful, bright, contented. Why should not all he equally fortunate? It certainly is possible. Every elderly man and woman needs to gently assist nature, all the while needs to gently assist nature, all the while needs to gently assist nature. gently assist nature, all the while needs to take some pure stimulant regularly. Every doctor in the land admits this, and its common sense must be manifest to all. It should not be understood, however, that any ordi-nary stimulant would be recommended. It nary stimulant would be recommended. It must be something pure, powerful, health-giving and strength-imparting. Such a stimulant can be found only in Duffy's Pure Nait Whiskey. It is the only medicinal whiskey in the market. Its wonderful popu-larity is due entirely to its power and what it has accomplished. Any elderly man or woman through its use may certainly pre-serve the health, and may reasonably expect to prolong the life. Do not be in-duced, however, to try any inferior article or any which the druggist or grocer may seek to put in its place. There is nothing which can accomplish the same object.

THE MAN WITHOUT A STOMACH

May exist as a museum freak, but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little trouble from this source occasionally, wrong action of the stomach causing dy-pepsia, etc., and oten the trouble extends, involving the liver and bowels, whence we find bilousness and constipation. We find find biliousness and constipation. Joseph Berringer is in the Allegheny Hospital and may die. He is a horseshoer and got work with Forepaugh's show last Tuesday. The first horse he tried to shoe kicked him. He was badly hurt and as he has no home he went to a deserted black-smith shop at Chartiers and Rebecca street. Here he was found yesterday and removed
