MONEY AND STOCKS.

No Immediate Danger of a Scarcity of the Needful.

EASTERN MARKETS ARE BASIER

A Little Gossip About the Leaders of the Local List.

MOST CHANGES SLIGHT DECLINES

SATURDAY, September 17.

Less talk about stringent money has been heard during the past week. Exchange reached a point which practically prohibited gold exports; money was comparatively easy in New York and Boston; the Bank of England's minimum rate of discount was unchanged, and the rate in the open market continued low and weak on account of the great abundance of money; currency movements countryward and for erop marketing purposes were comparatively light, and all the authorities talked quite confidently of the immediate future of the market. The New York bank statement to-day was better than expected, showing for the first time in many weeks an increase in the reserves. It was slight, however, and there was a decrease in loans of \$6,808,900, a decrease of \$8,292,000 in deposits and a decrease in legal tenders of \$1,109,-400 though the actual loss shown is much less than anticipated. The Eastern money market is undoubtedly firm, though easier then a week or so ago, but there is no danger of very dear money. Rates may be manipulated somewhat in the interests of big ers and big speculators, but there is and will continue to be an abundance coney at normal rates for all legitimate

Leading August Exports.

It was remarked some weeks ago that the exports during the mouth of August must be expected to show a considerable decrease, in comparison with the extraordinary movement of last year. The preliminary stateduring that month therefore comes with some sense of surprise and relief, because he decrease in the larger classes of exports of on the whole as great as was expected does it extend to all the important es. It is true that a slight gain in the perts of action is of no significance, since the last month of the crop year the move-nut is always small and this year it was but 10 links greater than in the same month last year. But the price was some-at lower, so that the increase value is quite small. It appears also to the shipments from New York were isiderably smaller than a year ago, but we was an increase of about 10,000 bales in ports from New Orleans. As compared th a year ago, there has been an increase the exports of cattle and hogs, beef and produce s and cotton, but a decrease in ry products, breadstuffs and minera. The total value of the exports of e products in August last was \$40,272,831, nst \$48,063,204 for the corresponding The following is a sum many of the exports of these leading prod

Local Securities.

The transactions recorded at the Exchang the week ending to-day aggregated 3,633 shares of stock, against 3,890 shares for the five business days of the previous week, The tone of the market looking over the field at this time, cannot properly be decribed as otherwise than unsettled, with Strong points were not lacking however. and the closing bids to-day, compared with hose of last Saturday, show nearly as many gains as losses, as follows:

Altanear-Alranke, 2: Citizens traction,
4: Manufacturers Gas, 1: Putsburg and Casalso Simpnon Rullread, 4: Exchange National
Bank, 5: Westinghouse Electric unas-

sented. 4.

Define—Philadelphia Company, ½: People's Pipenge, ½: Pleasant Valley, ½: Luster Mining Company, 1; Union Switch and Signal, 3;: P. & B. traction, ½: Duquesue traction, ½: Electric second pre-erred, ½.

Aside from the cholera scare and the wildeyed romors circulated by the alarmists and the Wall street bears, the influences are required from the cholera scare and the wall street bears, the influences are provided from the cholera street periods from the cholera scare and the wall street bears, the influences are provided from the cholera scare and the wall street bears the influences. were mainly favorable. It was demonstrated that general business was improving: that the country's material interproving: that the country's material interests were in excellent shape; that gold exports were practically at an end, and that there was no likelihood of the money market becoming seriously stringent. The scare was divested of some of its terrors yesierday and to-day by encouraging reports from the Esst, but the disposition to lay low and watch which it en endered locally was quite as noticeable at the close to-day as at any time during the week, and industrons pointed to its eminuance for some says yet. It is believed, however, that barring any further uninvomble developments, the market will soon respond to the conditions which, despite the scare, tend to create confidence in the future.

Gas Shares.

In gas shares the surface movement of

In gas shares the surface movement of the week was confined to Philadelphia Company, People's Pipeage and Manufac mers ties with a little sub rosa business in threes tas, with a little sub rosa business in Aleghent Heating Company and Chartlers Valvey Gas. The eccine in Philadelphia Company was attributed in some quarters to the failure of the Board of Directors to increase the dividend rate, but best opinion inclined to the belief that it was the result of realighing sales for Eastern account and that the action of the Board would ultimately have a stimulating effect. The transfer books of the commany close next Tuesfer books of the company close next Tues-day, and the stock is likely to sag to the exthen of the lper cent dividend, but unless the signs are wrongly read, it will soon re-cover from any such a natural drop. If the statement o the condition of the company, to be sent to stackhold rs with the dividend checks October 1, is anywhere near as good as some of the more of thusiastic claim it will be, the stock will not only recover any less that may be shown at that time, but that may be shown at that time, but setting in addition. The gross enrings the squarter, which is the lightest in at of revenue for the year, will be, it is ught in well-informed circles, anywhere in \$400,00 to \$42000.

The state of the temptany's field operations of the concerned, it is stated that they have concerned, it is stated that they

the are conterned, it is stated that they we resulted satisfactorily. At present intest is conteined in the well that was rated several weeks are on the Howe on in the Edizabeth field. It is only 125 through the company looking for a big producer. It will reach sinteresting point the carly part of part interesting point the early part of next

People's Pipeage weakened on the intima-People's Pipeage weakened on the intimation that the dividend for the quarter would be 1½ per cent instead of 2 per cent. The company is a non-producer of gas, and it pursues the policy o paying according to its earnings. Like all others its earnings during the July-August-September quarter are lightest, and accordingly its dividend for that quarter should be smallest. However, there has been no confirmation of the report that the dividend would be 1½ per cent.

Manufacturers Gas sold at 28, and some of the others sold at private terms, generally above, it is said, recent quotations made on Change.

Street Railways.

Street Railways.

There has been considerable trading in the tractions during the week, notably in Duquesne, P. & B. and Citizens. Sales of the latter aggregated fully 1,000 shares and were all from one source, the stock going into hands from which it is not likely to drap very soon. The expectation is that the price will so to 65 soon. Many believe the Citizens line will ultimately be purchased by the Pittsburg-Duquesne people, in which event buyers at present prices will realize and some profits.

realize tandsome profits.

P. & R. traction was strong at 25 carly in the week under the support of Sproul & to, who appeared to have some presty good laving orders, but there was so much oftering they withyrew, and the price sagged to 27%, at which point they resumed their haytog operations. Hill & Co. also bought, and the steck closed looking as if it had struck better. ruck bottom. The decline in Duquesne was a surprise.

at it was not considered significant. The nierests of those in control will be best abserved by an advance. It is bound to ner or later.

rigatificance.

(itizens traction 5s sold during the week at 110, a sale o \$10,000 being reported to-day at that price by Andrew Caster. Mr. Caster also sold \$1 000 P., C., C. & St. L. 45/s at 104/6 flat. Interest on the Citizens 5s is due Oc-

In the industrials Airbrake touched 140% bid, 140 sales and closed at 139 bid. It seems bid, 140 sales and closed at 139 bid. It seems to be pretty certain that the company will pay 10 per cent for the current quarter and that the dividends, one regular and one special, will soon be made. The general belief is that the stock will gradually move up to 150, at which price it would be none too high. Those who ought to know say stockholders will receive 30 per cent at least during the current fiscal year, and possibly 35 or 40.

very large hole in the company's indebted-ness would be made out of this year's earnings.

Electric second preferred seesawed con

Electric second preferred seesawed considerably, closing somewhat below the highest. The East made the market as usual. Some of the interested Boston people, who have been in Pittsburg the past formight, went home charged with enthusiasm and builtshness, and they fired some of it into the Boston papers. It was reproduced here, but its circulation, even at both ends, failed to produce any marked effect. New York and Boston, however, are again tipping it for another rise.

The only other features of the week were the advances in Westin-house Electric unassented, and Pittsburg and Castle Shannon Raitroad, and the decline in Luster Mining Company. The rise in the first was legitive.

Company. The rise in the first was legi-mate, because it was below a parity with t second preferred; the second continued to move "mystery on," and the break in Luster was due to statements made in these col-umns that the capital stock of the company

would be increased.

Regarding the increase in Luster, Secretary Miller stated to-day that whatever the increase was it would be distributed among the stockholders as a dividend. He also stated that, contrary to general belief, the company was nearly in a position to begin the payment of regular cash dividends.

A Broker's Comments and Opinions. A. J. Lawrence writes to the clientage of

A. J. Lawrence & Co. as follows: come unfavorable conditions from the out side; especially if the latter are at all wide this country favored unexampled prosper-ity, and yet the conditions here were neu-tralized by those abroad, and the results in all lines of business did not fulfill expecta-

intrinsic merit underlying the majority of local securities, however, will prove a sustaining factor and furnish the basis for a strong rally when there is a restoration of confidence.

"Aside from the hesitation indicated, there

"Aside from the hesitation indicated, there have been no pronounced features in the market during the past week. As forestiadowed two weeks ago, and again in our inst letter, the board of directors of the Philadelphia Company did not increase the rate of divdend at their meeting on Wednesday. The stock lost a fraction, but we believe this was due to selling by the East and not to disappointment at the action of the board, which is to be commended for its conservatism. Unless the reports of the supply of gas are greatly exa greated Philasupply of gas are greatly exaggerated Phila-delphia Company is cheap at current prices. Westinghouse Electric was also depressed by the course of events in the East, by the course of events in the East, but its net loss is comparatively slight. Airbrake is about the only stock that scored an important advance, and at 140, at which price it sold, it is \$3 per share higher than last week. Birminglam traction declined on sales by holders who tear threatened competition, and Duquesne traction receded on the withdrawal of buyers, who evidently be leve that it is not a propitious time to bull stocks.

"While we look for no advance, and win not be surprised to see a temporarily lower market, we have no hestation in saying that we feel builtsh for a long pull. We therefore believe tha purchases on a scale downward will show a handsome profit before the end of the year, for a market that could withstand the July riots and strikes as well as ours did, certainly has a good foundation."

Tips From Wall Street.

J. S. Bache & Co. to Oakley & Co.: "The market opened at a little advance, with Europe buying a few stocks and prices held fairly strong all day and closed a traction better than last night. Northern Pacific preferred was the only market exception and it closes lower on account of heavy selling for Philadelphia account. Chicago Gas, on the other hand, scored an advance of 2 per cent on the execution of a buying order of 69,000 shares, which was to cover short

sales made a short while ago.
"The cholera scare is abating quickly and

the immigrant business, which amounted to 600,000 people a year, will be greatly curtailed, if not altogether cut off. The feeling

"Outside the cholers scare and its bearing on business, conditions remain about where they have been; roads will from now on have to compare with the favorable exhibit of last year, and we do not see, with the diminished crops which they will have to haul, how the earnings can turn out to be but disappointing.

Financial Notes.

"Electricity has so intimately connected all the great centers of trade throughout the world that none can escape the good or bad influences that may develop in any one of the others. No matter if local conditions are of the very best, they cannot entirely overspread in their bearings. We had an illustration of this last year. The United States was blessed with abundance, while Europe was stricken with famine. Everything in

all lines of business did not fulfill expectations.

"These observations bring us to consider
local stock market conditions. We would
like to be bullish for the immediate future,
but present conditions do not warrant that
position. Whether or not there is actual
danger of an epidemic of cholera the fear of
it has an unsettling effect, and words are
wasted in taying to convince the public to
the contrary. The feverish state of the
Eastern markets is proof of this, and in a
modified degree has an influence here. The
intrinsic merit underlying the majority of

haul, how the earnings can turn out to be but disappointing.

"The bank statement was better than expected, and, although showing no change in the reserve, showed a decrease of cash on hand of \$2,000,000. On account of the delay in reporting goods less money has been psid into the Treasury on account of duty.

"We think the market will rally a little more the earlier part of next week, but on rallies people should take profits. We do do not see how any big rise can ensue for some time to come."

Considerable Philadelphia Company and P. & Rtraction changed hands on the street after the close at about Exchange quotations. P. & B. traction closed at 254@25%, Duquesne traction at 29@23% and P., A. & M. traction at 44 asked.

stockholders have approved an increase of the capital stock from \$1,000,000 to \$2,000,000, and voted to make a new contract with the general company, which controls the Edison patents. The new capital is to enlarge the plant and field of operations.

Building Permits.

street (in the Highland Park pian), near its intersection with the park, to a prominent merchant of Lawrenceville.

Jonette street is the main thoroughfare into, and through the eastern side of Highland Park, and is now being graded through the park to the paved portion of East Stanton avenue. This street when completed will rival in beauty and picturesqueness any of the noted driveways of the Eastern parks.

Reed B. Coyle & Co. sold for Mrs. Amanda Scully, to Trichtinger Bros., the prominent Second avenue and Ruthergien street, fronting 40 feet on Secondavenue by 140 feet in depth, for 83.630. The purchasers intend erecting a building to be occupied by themselves.

Larkin & Kennedy sold for the Biair Land Company, Blair station, to Philip Koegler, lot No. 269, for \$425. Also sold to Elizabeth M. Koegler lot No. 279, for \$425.

J. C. Reilly sold for Patrick Madican to Mrs. Mary Powers, the property No. 733 Fifth avenue, consisting of a three-story frame dwelling, for \$3,500. Also sold for James Boyle, of the McCue Coal Company, a two-story brick dwelling, No. 78 Chatham street, to Wilson Shannon, for \$3,800.

Baxter, Thompson & Co. sold lots Nos. 347 and 348 in the Villa Park plan, Brushton station, fronting 100 feet on Mohler street, by 150 feet to a 20-foot alley, to H. H. Underleigh, for \$900.

John K. Ewing & Co. sold for Henry

150 feet to a 20-foot alley, to H. H. Underleigh, for \$900.

John K. Ewing & Co. sold for Henry
Wheeler, a frame house of four rooms with
a lot 20x100, at Jack's Run station, for\$1.000.

S. A. Dickie & Co., sold for M. E. Cain to
J. E. Wills, a lot on Frankstown avenue
near Lang avenue, 30x135 feet for \$1,650.

A. Z. Byers & Co. sold through R. Robinson for the Ridgeview Sand Company, lot
No. 18, in their plan, Eleventh ward, Allegheny, fronting 25 feet on Fleming avenue
and extending through 120 feet to a 20-foot
alley, for \$725.

and extending through 120 feet to a 20-foot alloy, for \$725.

Black & Baird sold for the Linden avenue syndicate, to D. O. Hutchinson and J. Harry Letsche, lot No. 2 in the Grantors plan, on Revnolds street, near Linden avenue, for \$4,453.

A. M. Tressel & Co. sold for Geo. Zorkman, a lot in West Believue, fronting 40 feet on Locust street and extending back 120 feet, to Elmer E. Gordon, for \$800 cash.

Morris & Alsbitt sold lot No. 30 in the Oakland Place plan to Mrs. I. B. McComb, for \$1,000. the usual good supply and the demand fair. Eastern exchange and currency traded even

Morris & Aisbitt sold lot No. 30 in the Oak-land Place plan to Mrs. I. B. McComb, for \$1,000.

Charles Somers & Co. sold for Mrs. Mary Balliet to Philip Smith, of Allerheny, a residence property situated at Glenfield station, comprising a lot 90 by about 150 feet, with a two-story frame dwelling and other improvements, for a price approximating \$3,500.

M. F. Hippie & Co. sold for B. E. C. Beck, for \$5,000, a lot 50x142 feet on the west side of Craig street, near Bayard street, Fourteenth ward. The purchaser, a well-known business man, will erect a fine dwelling thereon. Denniston, Elderkin & Co. limited, report the following sales: For Miss E. J. Parkinson to James C. Dick, house and lot on Frankstown avenue, being lot No. 16 in Mellon's Station plan, having a frontage of 26 feet on Frankstown avenue and extending back 100 feet, having erected thereon a frame store room and dwelling; for William A. Altman to W. W. Elderkin, a house and lot on Dauphin street, being lot No. 7, in J. C. Dick's plan, having a frontage of 22½ feet on Dauphin street and extending back 100 feet, containing a new two-story frame house; for Mrs. Ann Gallagher to Pasquale F. Dematty, a house and lot situate on Winslow street, said lot has a frontage of 22 feet on Winslow street and extends back 150 feet to an alley; also placed a mortrage on improved East End property for \$12,000 for three years at 5½ per cent.

A STRONG CLOSE

A STRUMU CLUSE

No. 2 John Robb into the fifth sand yesterday, but at a late hour last evening nothing had been heard from it at the Woodland's office. The well is located about a mile and a half north of Oakdale.

Sisters Murphy Bros.' well on the Salisbury farm, east of town, is making 90 barrels a day.

Russell & McMullen's well, on the Thistle farm, was reported to have made 150 barrels. In Wall Street Under the Influences of

NEW YORK, Sept. 17 .- The operations in Wall street to-day reflected the clearing up of accounts over the end of the week, and indicate that many operators who have been successful on the short side have either covered their contracts and withdrawn from the market or have taken the long side for a turn. Many professionals who have been prominent in the decline were conspicuous in bidding stocks up, but the forces at present are so evenly balanced that there was very little progress made in either firection, though the continued covering of horts gave the market a firm appearance and the final changes were generally small gains. To this result the bank statement gains. To this result the bank statement contributed materially, as it was the first one in many weeks which showed a gain in the surplus reserve, and even though this was accomplished by a heavy withdrawal of deposits, supplemented by a decrease in loans nearly as great, the feeling in Wall street is that there is more money to loan on stock collateral and a distinctly easier tone was noted in the money market.

The strong features were the industrials, especially Chicago Gas and Cordage, the first named being specially active. No other feature marked the dealings and the close was quiet and firm to strong at about the best figures of the day.

Railroad bonds were still dull, no interest

Railroad bonds were still dull, no interest whatever attaching to the dealings, and while a fairly stendy tone was maintained, the changes of note among the inactive issues were generally losses. Among these Manitoba 2nds lost 2½ at 11½. The transactions were only \$455,000 bonds and 116,118

THE WEEK IN OILDOM.

More Territory Opened and McDonald's Output Increased-Two New Wells in the Sand-Some Possibilities of the Mannington Fifth Sand Pool-News From Sistersville Wells.

The week closed with McDonald putting out 23,000 barrels a day, and it has been everal weeks since the field has been able to show as big an increase as during the last six days.

This advance in production is almost entirely due to the well which Greenlee & Forst drilled into the fifth sand on the Noble farm, when it started off at 300 barrels an hour for the first few hours and is still making 100 barrels an hour.

During the week ending September 10

During the week ending September 10
Fitzgibbons & Co. brought in a 100-barrel an
hour well at their No. 6 walker in the old
Fife pool, on the western side of the McDonald field, and Greenlee & Forst's Noble
gusher is only about 300 feet southwest of
the Walker well.

The Noble well has opened a large scope
of territory, and already new rigs are going
up southwest of it, and Greenlee & Forst are
starting a couple of new ones on the same
property.

property.

The Gordon sand pool in the Meise hollow, located about a mile southwest of Willow Grove, has somewhat surprised the trade by looming up once more with a 40-barrel an hour well. bour well.

It belongs to the Florence Oil Company, formerly Friday, Kell & Co., and is their No. 7 on the Robb lears' farm. It came in late Thursday evening and is only on top of the sand. It is gassing very strongly and the owners will not drill it in until they get a line to the well and plenty of tankage, as they are confident that it will go from 200 to 300 barrels an hour when drilled in.

Showing for a Gordon Well. The No. 3 on the Shane farm, in the lower or southwest side of the Meise pool, belonging to J. M. Guffey, was reported last even-ing to be six feet in the sand and showing

Ing to be six feet in the sand and showing for a well. If it proves to be a producer it will isrgely increase the extent of this pool, which has already produced thousands of barrels of oil.

The Forest Oil Company's No. 6 on the John McEwen farm, and located about 300 feet softhwest of the Florence Oil Company's No. 7 Robb, may get the and the last of this week. It is the only well drilling on the McEwen property.

At 3 o'clock yesterday afternoon a telegram was received from the McCurdy

At 3 o'clock yesterday afternoon a telegram was received from the McCurdy field to the effect that the Philiadelphia Company's test well on the Leech farm was showing for a strong gasser in the ourth sand, but little or no oil had been developed. They were still driling and will continue until they get through the sand, unless the well turns into an oil producer.

In Greenlee & Forst's office last evening they reported that after a little agitation their No. 2 on the Noble farm had increased its production from 100 to 150 barrels.

Fitzgibbons & Co.'s well No. 6 on the J. Walker farm, which had dropped to 25 bar rels an hour, was stirred up and increased its output to 48 barrels an hour.

The Oakdale Gas Company and the Woodland Oil Company were to have drilled their Vo. 2 bar and heart and reserved and reserved the sand reserved. land Oil Company were to have drilled their No. 2 John Robb into the fifth sand yester-

farm, was reported to have made 150 barrels from 9 o'clock Friday morning until noon yesterday, which is at the rate of 130 barrels

a day. The West Virginia Fifth Sand.

Another startling feature of the week was the development of Montgomery & Co.'s big fifth sand well, on the Straight farm, 2% fifth sand well, on the Straight farm, 2½ miles southwest of Mannington, W. Va. According to all authorities it is making from 700 to 900 barrels a day, and the owners expect to increase its output deeper drilling. Speaking of this new leature yesterday, the well-known President of a large oil company said: "I believe that the whole production for the month of September will be greater than it has been for many months. Out in Ohlo they have been industriously digging away in the Woodville pool, which has ron up an enormous production; in Indiana they have a production of several thou-and barrels a day; McDonald is making over 20,000; Sistersville is averaging over

thou-and barrels a day McDonald is making over 20,000; Sistersville is averaging over 20,000 Sistersville is averaging over 10,000 barrels, while all around we have old pools that are still producing, and on top of all this comes the Mannington fifth sand pool with one well doing from 700 to 900 barrels a day, and nobody knows what it may develop into.

"It is from a sand that we know very little about, and have had no experience with except at McDonald, and here we find it away down in West Virginia. It is just possible that the Straight farm well is located on the edge of another McDonald pool, and if it is, it will make little difference whether they have to go 2,000 or 4,000 feet, there are plenty of men in the oil business who will bring it to the surface. All you have to do is to show them the goods and they will get them out, no difference what the price of the product."

The Gauges.

The production of McDonald was 23,000 yeserday, 500 more than the day before. The hourly gauges of the larger wells at McDonaid yesterday were as follows: Fitzgib-bons & Co. No. 6 J. Walker, 48 Greeniee & Forst's No. 6 Marshall, 25. No. 2 Noble heirs, 100. Florence Oil Company's No. 7 Robb heirs, 40. The estimated production was 23,000; stock in field, 48,000.

Runs and Shipments Friday. The National Transit runs were 31,536; shipments, 31,13L. Runs of Southwest Pennshipments, 31,131. Runs of Southwest Pennsylvania from McDonald, 20,300; outside of McDonald, 11,850; total, 32,163. Backeye runs of Macksburg oil, 4,540; shipments, none. Buckeye runs of Lima oil, not in; shipments, 43,824. Eureka runs, not in; shipments, 1,673. New York Transit shipments, 44,930. Southern Pipe Line shipments, 14,209. W. L. McHon Pipe line runs, 6,890; shipments, 6,689. w. L. Melion Pipe line runs, 6,385; ship-ments, 6,569.

The Tidewater Pipe Line runs for Thurs-day were, 3,155; total for month, 41,054; aver-age, 3,185; shipments none: total, 115,913; av-erage, 7,727 barrels.

The Oil Market.

Sales of the October option were made at 55% c and the market closed at 53% c bid. Refined oil—New York, 6.10c; London, 43,44; Antwerp, 14;.

GRAND ARMY GOSSIP.

Thousands of comrades and their friends have been pouring into Washington for a few days. Thousands more will arrive o-day and to-morrow. The indications are that the twenty-sixth annual encampment will be one of the most notable ever held. Many of the local comrades, many with their wives, and their friends have already

their wives, and their friends have already gone, but many more will go to-day and to-morrow. Thousands more would have gene from this vicinity had the rates not been so high.

The grand parade on Tuesday will be probably the mest notable since the grand review in 1865. It will be the sight of a lifetime. The column will move at 2:30 a. M. and the line of march will be on Pennsylvania avenue from the Capitol grounds to Washington circle. The length of march will be two miles and the column will pass in about an hour. Commander in Chief Palmer has decided that no other than Grand Army organizations will be permitted Grand Army organizations will be permitted in the line. The parade will be in double

The business session of the encampment will be held Wednesday in Albaugh's Opera. House, beginning at 10 A. M. The Council of Administration will meet in the pariors of the Ebbett House at 7 P. M. to-morrow.

The fireworks will bean attractive feature at Washington. A square of ground on North Capitol street has been selected as the site for the display. Among the set pieces North Capitol street has been selected as the site for the display. Among the set pleces will be the following: "The Blue and the Gray," the Capitol building and the three Generals, Grant, Sherman and Sheridan; sixty-six large bombs will disclose showers of beaturinul and clorious designs.

A full-sized model of the famous Kearsarge, which sunk the Alabama, will be a feature of Grand Army Place in Washington. Three hops will be given upon it in compliment, first, to the naval officers, their wives and daughters; the Association of Naval Veterans, and third, to the Citizens' Committee in charge of the arrangements of the great reunion.

reunion.

There will be reunions, campfires and re-ceptions galore, and a general good time for everybody.

Natrona's New Post. The new post at Natrona was mustered in uesday night by Commander John D. Mc-Fariand, of Post 3, and a provisional post composed as follows: J. D. McFarland, Post 3, Commander: D. H. Speer, 155, Senior Vice Commander; J. H. Haines, 32, Junior Vice Commander; J. Walince, 3, Surgeon; John C. Sias, 151, Officer of the Day; A. Hughes, 3, Chaplain; A. C. Frank, 151, Officer of the Guard: W. H. Lambert, 3, Adjutant; J. Duganey, 360, Quartermaster.

The following comrades rendered valuable

The following comrades rendered valuable assistance on the occasion: John S. Lambie, P. N. Guthrie, H. O. Shay, Ed. Fisher, J. Poerstel and J. Shultz.

The following comrades were installed as officers of the post: J. H. Galbraith, Commander; P. O. Cleves, Senior Vice Commander; R. T. McCord, Quartermaster; E. L. Powell, Officer of the Day; S. Wallace, Officer of the Guard; A. Herth, Adjutant; W. Walthour, Quartermaster Sergeant; R. T. McCord, J. Barker and W. Washington, Trustees. Trustees.

There were 31 applications for membership and 19 presented themselves for muster, The name and number of the new post are General Thomas A. Rowley No. 435.

Short Topics.

THE sick of Post 162 are improving. COMRADE X. S. REES, of Post 157, is reported etter.

COMRADE THOMAS R. Boss, of Post 155, is improving steadily. MRS ARMIGER, wife of Comrade Armiger, of Post 155, is no better. Post MT's mir closed friday night. It was

a complete success. The relief fund will be greatly benefited. COMRADE SAMUEL SCOTT, of Post 88, left on his vacation last Sunday. He will attend the National Encampment. Post 162 mustered Comrade Stedeford Inst

night a week and received a new application from Comrade Davis, of the Ninth Reserves. Ar the meeting Tuesday evening Post 151's trustees were ordered to go ahead and make all necessary arrangements for a fair to be held soon. COMRADE D. A. JONES, of Post 151, leaves on his vacation this morning. He will take in the National Encampment and the Virginia

battlefields. Post 259's committee on the memorial on the death of Comrade Carleton C. Cable re-ported last Tuesday evening. The memorial was adopted unanimously. COMRADE JUDGE SLAGLE, of Post 259, will shortly give an address before his post con-

cerning his trip to Alaska, whence he returned about three weeks ago. COMRADE A. C. FRANK, of Post 162, speedily Sunday. He advises all comrades who think they have the choiera to take his cure. MRS. SALLIE E. LINHART, wife of W. P. Linhari, of rost loo, will go to Washington with Post 88. She is a delegate to the National Convention of the Ladles of the G. A. R. JAMES SMITH, of 133 Queen street, Norfolk, Va., wants to know to what company of the

One Hundred and Forty-fifth Regiment Lieutenants Snell and Ferguson belonged. Can you tell him? COMRADE MICHAEL TRAXLER, who served in Company I, One Hundred and Forty-ninth Pennsylvania Volunteers, is requested to call at the United States Pension Office any time after Thursday next,

W. R. C. No. 22, auxiliary to Post 155, will give an entertainment Thursday and Friday evenings, November 3 and 4. They are mak-ing elaborate preparations. Music and elo-cution will be the leatures. Post 162's party consisting of about 80 persons left for Washington yesterday

morning. While there the party will be located at Comrade Francis A. Flannagan's, 2:8 Eighth street N. E. On the return trip the party will visit Gettysburg. COMPADE WILLIAM R. THOMPSON, of Post and histories that were the property of the late Comrade William Mc lelland, and presented them to the post with a bookers.

sented them to the post with a bookcase.
This will be the nucleus of a war library that the post hopes will be a large one before long. THE Fourth Pennsylvania Veteran Cavalry Association will hold their sixth reunion at Washington during the National Encampment. Headquarters will be at Den-nison Hall, 923 F street, where comrades are requested to report and register immedi-ately on arrival. A campfire will be held at 12:30 r. M. Thursday.

Union Veteran Legion.

ARRANGEMENTS are being made by Colonei J. H. Stevenson, of No. 8, to organize an en-campment of the U. V. L. at McKeesport and one at Mendville. MEMBERS of No. 6 will regret to hear of the serious accident to Comrade J. A. Cutchali. He had his left hand out off in some ma COLONEL MCKENNA has received a ver-

pleasant note from General Fitz John Porter thanking him for a copy of the roster of Encampment No. 1, Tur delegates from No. 6 to the Indian apolis Encampment, (October 12, prox) decided to go along with No. 1 division for safety, good company and so as "to be in it" generally.

NOT EXAGGERATIONS.

The Half Had Not Been Told-So Says Mr. Houston in an Interview-Drs. Copeland, Hall and Byers Court Investigation of Their Published Statements-Read This Week's Statement of Mr. Mo-

A gentleman who called at the office of Drs. Copeland, Hall and Byers this week stated that he had read of the remarkable cure of Mr. Houston in last Saturday's Times and as he had doctored and doctored for so any years without receiving any benefit and had become disgusted with doctors and medicines, he determined to ascertain for himself the truthfulness of the statements published each week and especially as far as related to Mr. Houston.

Accordingly, he called upon that gentle-

man and requested an interview. In the course of that interview Mr. Houston took occasion to say that instead of Drs. Copeland, Hall and Byers exaggerating his dis-tressing symptoms they did not dwell upon them sufficiently, and did not make the language strong enough to express his recent sufferings and present relief. He stated that, poor man as he was, he would not take \$1,000 and go back to the condition he was in one year ago. He has not now an ache or a pain about him, sleeps well, eats well and is only weak, but gaining in strength every day. His case, the gentleman further stated, has created widespread interest in the neighborhood, and he was receiving many calls from people suffering with long standing allments. Two ladies called while he was in conversation with him.

Investigation Courted. them sufficiently, and did not make the lan-Investigation Courted.

Drs. Copeland, Hall and Byers court the strictest investigation of the statements of cures reported every week—this is what they are published for. They desire those interested to investigate carefully every statement published, and note if any exaggerations are made. They desire this because many who have a selfish interest in
maintaining that they do exagerate, attempt from time to time to belittle their
professional ability. They also desire that
when these parties have satisfied themselves
that they are telling the truth in their advertisements, that they will be honorable
enough to come out frankly and say so, as
the gentleman did who is quoted above.
The truth is Drs. Copelani, Hall and Byers
do not publish one-hundredth part of the
number of cures they actually make, as
many are kept from furnishing statements
for publication for various reasons. Some
of their best cures never reach the public.
Good Results Shown in Catarrhal Deafness. gerations are made. They desire this be-Good Results Shown in Catarrhal Deafness

For instance, a young lady who had been visiting in Franklin, Pa., this summer re cently called at the office of Drs. Copeland. Hall and Byers and stated that she wished to take a course of treatment for her ear to take a course of treatment for her ear trouble, roaring in the ears with partial deafness. During the conversation she said that she had met an elderly lady while at Franklin, who had been treated by their "home treatment," and that when she first began, those who communicated with her had to do so in writing she was so hard of hearing, while now, after three months' treatment, she could hear ordinary conversation.

treatment, she could hear ordinary conversation.

Upon writing to this lady and inquiring if
she would like to make a statement for
publication she replied that she would like
very much to let the public know what had
been done for her, as no one could ever
understand how much benefit she had derived from the treatment, but that her
iamily physician had been so very kind and
had done everything he could for her, she
was afraid it would hurt his feelings; however, she would like to have any one interested referred to her and would cheerfully
state the beneficial results of her treatment.
Her address will accordingly be furnished to
anyone desiring to assure themselves of the
results to be obtained from a thorough
course of treatment for partial or complete results to be obtained from a thorough course of treatment for partial or complete deafness.

MR. M'CUE'S CATE. Unable to Work Since Last Fall, but Under

Drs. Copeland, Hall and Byers' Treatment He Resumes Work in Three

ment He Resumes Work in Three
Weeks' Time and Is Now Working
Steadily.

As of late Drs. Copeland, Ha'l and Byers
have been reporting cases of such an aggravated nature that they require from four to
eight months to cure, they take pleasure
this week in publishing the statement of
Mr. William McCue, showing what quick results are sometimes noticed by their method
of treatment.

Mr. McCue is a bricklayer by occupation,
at present in the employ of Messrs A. MoDonaid & Son, contractors, corner Third
avenue and Market street, and resides
at No. 109 Dawson street, Alleghenv. He
states: "I had been ailing for four years. I
had a continual pain in my head with a fullness over my eyes and through my temples.
My nostrils were stopped up all the time
with a tough mucus, which also dropped
down into my throat, causing bawking and

Mr. Wm. McCue, No. 109 Dawson st., Allegheny spitting to raise. I coughed up great clots of terrible looking stuff. I had sharp,

of terrible looking stuff. I had sharp, shooting pains through my chest, with a heavy bearing down pain as if a big weight had been placed on my chest, which made it difficult to draw a full breath.

"Whenever I would go to work the stooping over would cause such a severe pain through my stomach it would start me to vomiting and finally I became so bad I had to give up my work entirely. My appetite falled me and I couldn't sleep. I got up in the morning tired and unrefreshed. I became so weak I could hardly walk around and staggered on the street like a drunken man. I had worked only nine days from last fall and this only by piece-meal. I felt so miserable and became so cross and peevish my wife hated to see me around the house.

so miserable and became so cross and peevish my wife hated to see me around the house.

"I consulted Drs. Copeland, Hall and Byers August II, and no one can appreciate the difference between how I felt then and now. I began to improve at once, and on September 2, just three weeks afterward, went to work again, and could have made full time each day if the work could have been given to me. I am able to work full time now, I cat well, sieep well, have no distressing coughing, or hawking or spitting, the racking pain and weight on chest is gone and I feel like a new man. The most remarkable part of it all is that I derived all this benefit from just one month's treatment, but, to make sure of a permanent cure I have paid for another month's treatment and intend to keep on, so there will be no chance for a return of the trouble. I have often thought of how much money and suffering I might have saved if I had consulted Drs. Copeland, Hall and Byers a year ago, and put myself under a thorough course of treatment, instead of dilly-dallying along with cough syrups and prescriptions which did me no good."

TREATMENT-\$5 A MONTH FOR ALL DISEASES WITH MEDICINES FUR-NISHED FREE.

BRONCHIAL CATARREL

The Above Case of Mr. McCue Shows the Wonderful Efficacy of Drs. Copeland, Hall and Byers' Method of Treatmen in Bronchial and Gastrie Catarrh.

Bronchial Catarrh-the extension of the catarrhal process down those passages known as the bronchial tubes, which convey the air to the lungs. How often is it pronunced consumption and incurable.

How grateful is the skill of the physician

who arrests the disease before it reaches who arrests the disease before it reaches and fatally impairs the lung tissues.

Do Drs. Copeland, Hall and Byers cure chisumption?

No, not in its advanced and necessarily incurable stages.

Do they cure inciplent consumption?

Yes, and more in thousands of cases by arresting the progress of catarrhal Bronchitis, saving the lungs from invasion and curing the disease, they have reserved to

health the patient whose so-called "con-sumptive tendencies" had been marked with neath the patient whose so-called con-sumptive tendencies" had been marked with despair by other doctors.

The case of Mr. McCue cited above is 57 no means an unusual one. Hundreds like it have appeared in these columns.

Note its peculiarities, and mark how like it is to many that have preceded it.

ANOTHER WOSDERFUL CURE.

Mr. James Houston's Statement of His Suffering, Careless and Bungling Treatment and Final Relief by a Simple and Easily Applied Method by Drs. Cope-

land, Hall and Byers, "I used to work in the pipe mill of the Penusylvania Tube Works," says Mr. Houston, "but over a year and a half ago had to give up on account of my disease getting so bad. I had pain all over my head, through my chest, stomach, back and legs. My throat was filled with mucus, which kept me hawking and splitting constantly, and my nose was stopped up so that I could not breathe through either nostril. This kept my throat, tongue and more dry and parched all the time.

Mr. James Hous'on, Tustin St., near Seneca, City. couldn't eat, couldn't sleep and at times could scarcely get my breath. I never went to bed at all, because when I laid down I smothered up so I couldn't get my breath. I had to sit up all night coughing and gasping for breath. Great beads of sweat stood out on my forehead from my strenuous efforts of trying to get air, till I fell back in my chair utterly exhausted, where I lay

cut on my forehead from my stremuous efforts of trying to get air, till I fell back in my chair utterly exhausted, where I lay until another spasm would come on, when I had to go through the same thing, hour aiter hour and night a ter night. No one but my wife and myseif knew what I suffered.

"Finally, I became so bad I was confined to my house. It was just at this time that I read of the wonderful cure of Mr. Conrad Apel, of North avenue, Allegheny, who was about my age and who-e symptoms resembled mine, and I wrote out a description of my symptoms and sent it to Drs. Copeland, Hall and Byers' office. They sent me medicine which gave me so much relief that in-ix weeks' time I was able to be taken to their office. Dr. Byers, who was in the consultation room at the time, gave me a careful examination, and said my trouble was bronchial asthma, and that it was no wonder I could not breathe through my nostrill as they were filled with relatinous polypit. He seemed surprised when I cold him that, though I had been treated by several physicians, none had ever looked into my nostrills to see the cause of my not being able to breathe through them before. He told me the polypit was the cause of my asthms, and that they would have to be removed before I could hope to obtain relief.

"At different times he removed almost a

CALLED DYSPEPSIA. A Common Name for the Condition Caused

by Extension of Catarrh to the Ston Catarrh of the head, throat and stomach Difficult breathing Difficult breathing.
Severe headaches and occasional bleeding Duliness of hearing. Dimness of sight,

Pains in the upper part of the chest.

The stomach affected, apparently beyond

Dimness of sight.
Pains in the upper part of the chest.
The stomach affected, apparently beyond cure.
Nausea after eating, belching of gas and bloating, drowsiness after meals, no ambition, no energy.

A gnawing sensation at the pit of the stomach, a craving for food disappearing after a few mouthruls, are the symptoms of chronic dyspepsia.

Few interviews printed in these columns better illustrate the progress and extension of agaravated catarrhal and bronchial troubles, extending to the stomach, permanently impairing the digession, than that with Mr. Michael Schaffer, a mill worker, who resides on Penn street, Mt. Oliver.

"I had catarrh of the stomach in its most severe form for two years. During all thas time it was impossible for me to cat anything without experiencing terrible agony.

"I not only had no desire to eat, but the sight of food made me ill, and I used to starve myself rather than face the ordeal of taking a meal. Especially was this the case for breakfast.

"The result was that I grew weak and emaciated, and was utterly unfit for the performance of any duty. In fact, I did not care to live.

"In addition to catarrh of the stomach I had also catarrh of the head and throat There was a continual buzzing and roaring in my ears; my head and nose were stopped up and my throat was so sore I could hardly swallow. I had violent headsches and the inflammation in my throat seemed to set my whole head aftre.

"I lost flesh and strength, and was slowly wasting away. My sleep was disturbed by horrid dreams, and I awoke in the morning more tired than going to bed.

"At last I decided to try Drs. Copeland, Hall and Byers. When I went to their office I was iceling very badly, indeed. I began their treatment and now feel as if I had never been sick a day. It seems wonderful. Not only has the Liarrh disappeared, but my stomach has regained its former strength and tone. I have an excellent appetite and relish my food, and can eat heartily all the time without the slightees discomfort. Eathing has become once more

TREATMENT-\$5 a Month for All Diseases With Medicines Furnished

Free. Drs. Copeland, Hall and Byers treat successfully all curable cases at 65 Sixth ave.
nue, Pittsburg, Pa. Office hours, 9 to 11 L K.,

stocks.
"While we look for no advance, and will "While we look for no advance, and will be a few norarily lower

"The cholera scare is abating quickly and people are beginning to look at it in a more sensible light. Surely with a population of nearly 2,000,000 we cannot complain if one or two cases occur a day. Our Health Board is able to cope with any increase. The sanitary condition of this city is as good as can be wished for.

"This week has been an important one in Wall street, and has shown what we have been saying recently that the quotations for stocks which were made two weeks ago were merely nominal, as stocks could not be sold but at a concession. It was curious to see the best stocks suffer the most, and the Vanderbilt group particularly made the worst showing. St. Paul also scored a large decline, as the short interest in this stock was very small. It is hard to rauge the possible loss to commerce on account of the appearance of choicra in this country, but the railroads are sure to suffer somewhat, as the immigrant business, which amounted to

here is that immigration ought to cease attogether, as the class of people that we have
been getting over lately have not been of
the right kind. In fact, Mayor Grant has
asked the President to issue a proclamation
closing our doors against the immigrant
class.

"Outside the cholera scare and its bearing
on business, conditions remain about where

TEN THOUSAND AN ACRE Paid for a Small Tract Near Stanton Avenue by Some Speculators-It Adjoins Property Owned by the City-Record of the Week and Day. SATURDAY, Sept. 17. The sale of 21/2 acres of land, located near Stanton avenue, East End, is reported by

chased by several well-known investors for \$25,000. This property is separated by a ravine from the tract of 48 acres recently ravine from the tract of 48 acres recently purchased by the city at a price approximating \$250,000, and it is rumored that a magnificent iron bridge will be erected over the ravine for the purpose of making a flue drive and shorter route to Highland Park from this direction. The names of the purchasers are witheld from publication for the present, but it is understood that the spurchase was made with a view to speculation. The property is in close proximity to Highland Park, being separated only by a tract of about one and a half acres, known as the Whiteman property.

George W. Ache. The property was pur-

property.

The Week's Record. The realty marker has not shown any special animation during the week ending o-day; neither has it taken a backward turn. It merely halted for a definite under standing of the cholera situation, in common with many other lines of business, and the halt flattened out a few deals and postponed others. The undertone was strong and promising, and with the passing away of abnormal conditions created by the cholers scare a sharp revival of interest will follow. The following table shows an increase in transiers, building permits and purchase money mortgages over the previous week, which are encouraging features, but it also shows a large increase in judgments and executions. With the exception of a mortgage of \$100,000 given by the Suburban Rapid Transit Rallway Company, the mortgages filed were generally small. Mortgage payments decreased, as did also building and loan association mortgages.

Week ending Week ending Sept. 17. Sept. 10. mon with many other lines of business, and

who recently purchased the Wainwright, O'Donnell and Young properties, comprising in all about 40 acres, located near the Morningside road, Nineteenth ward, at a price approximating \$2,000 per acre, have closed the sale of the tract, it is said, at closed the sale of the tract, it is said, at \$3,500 per acre.

George S. Cotton & Co., the Federal street (Allegneny) agents, have closed the sale of a large acreage tract located near Believue. The particulars of the deal are not in shape for publication at present.

A sale of East End acreage, involving about \$70,000, has been closed and the property has been iaid off in a plan of lots. Full details of the deal will be made known the early part of next week.
