NO FURTHER CHANGE IN PROVISIONS

SATURDAY, Sept. 17. The local commercial movement has not been so much under the spell caused by the cholera scare during the week as have investment and speculation in stocks and bonds and other lines where capital is ruled by fears and shadows. Staples have had a pretty free movement to all points embraced by Pittsburg's arms of commerce, and the character of the operations, particularly on country account, has been such as to cause increased cheerfulness among sellers. The course of prices has been against buyers, though here and there they have obtained some slight advantages. Breadstuffs have been steady, with a little tendency toward improvement; groceries have shown increased strength; provisions got through the week without another decline; dairy products were firmer, with cheese higher; and with the exceptions of fruits and vegetables, which were easy and lower, all other changes favored the seiling side. The trade influences peculiar to this section, notably the iron business, were in better shape, and so far as inquiries vere extended fairly easy collections were Accepting the bank exchanges as a barom-

west is not large, although the production in North Dakota, South bakota and Minne-stan aggre, ates 43,600,000 bashels. The corn is late, and it is feared if there is a killing slate, and it is feared if there is a killing rost it will materially injure the crop this ear. The amount of corn to be destroyed a these three States, of course, is not important, but if the frost sweeps down over he can belt it will cause serious disaster. It is acknowledged to be about two weeks behindhand, and, generally speaking, it will ake about October I to mature the crop, so but a frost ten days later than was seen in SI may cause relatively as serious mjury and disaster as it did then.

Regarding the hop crop, the New York humereid Bulletin says: "Local interest is 1 present centering chiefly upon the harest in this country and Europe. Opinions

The result as a sle is predicted on the ground that little will be sustained by frost, and if no cavy frests appear before September 20 the rep will be practically safe. In Iowa the cop is in very good condition except in the orthern part of the State. Indications which to 80 to 80 per cent of an average. In tobraska the crop has improved and the cobraska the crop has improved and the cold will probably be 70 to 55 per cent of an terage. In Kansas the reports are somethat conflicting, and indicate a very irregarity field. In some sections it will equal ast year and in other portions not ver half a crop. In Kentucky the crop is nearly matured—good acreage and fair field. In Virginia and West Virginia the rop is irregular and backward—not over ne-half to three-tourths of an average. In the the crop is mackward and firegular in the northern portion, rather good in the cartral and southern portion; estimates vary rom 60 to 50 per cent of last year. Reports rom Michigan are not very inversible. Crop quarters of last year's yield. In Indiana the reports indicate a very irregular crop, with the less in the southern portion of the State. Estimates vary from 50 to 39 per cent of an average crop. In Illinois the prospects are rither favorable, and prospects indicate 60 to 89 per cent of a full crop. In Missouri indications point to 50 to 80 per cent of an average crop, with the best reports from the western portion of the State.

onday morning local wholesale grocers will quote prices fixed by the American Sugar Refining Company, and, as will be Sugar Refining Company, and, as will be noticed in the list of quotations, they are somewhat lower than the highest of the week, the basis being 5.30c for granulated. Presistent Havemeyer, of the American Sugar Refining Company, says: "The margin between raw and refined sugar is less to-day than it has been at any time since the cholera chamity. Local raw sugar-speculators and Coban speculators have advanced raw sugar except beet, and the American consumer is naturally the sufferer. In no instance has price of refined been advanced beyond the corresponding advance in raw. and the corresponding advance in raw. operation of the A. S. R. Co. will be to operation of the A.S. K. Co. will be to the price available raws and give the fact to the American consumer at the edifference as has prevailed. How long plies will last depends only upon what several quarantine officers and health folds may determine. All the orders for a obtained lately are taken subject to finite delay."

This detention may necessitate the muning of refineries entirely on case sugars running of refineries entirely on case sugars for the time being, but the American Sugar Refining Co. are sufficiently well supplied with such to meet any ordinary demand for refined. Large receipts of Cuba cane sugars are noted at New Orleans this week for supplying the river districts with refined sugars. Enjopean markets are comparatively steady in view of the cessation of demand from America.

CHICAGO, Sept. 17 .- The scalping crowd practically all gunding for one man—Leopold Bloom—was the spectacle afforded to day on Bloom—was the spectacle afforded to day on 'Change. They were working on the theory that the 550,000 or 600,000 bought yesterday by Rumsey Lightner for Bloom was almost sure to come upon the market if it remained weak and they were inclined, so confident were they, to anticipate and help the realization of their helief. The scalpers were not quite certain whether 200,000 bushelm or of wheat which came through Council and the constant of the council and the c were not quite certain whether 200,000 bush-cisor so of wheat which came through Coun-selman Day was or was not part of the Bloom line they had been looking for. Aside from the Bloom episode all the mar-kets were very dull and prices to-night were at the bottom figures for the day. The de-clines amount to \(\)c in wheat, \(\)c in corn; oats, \(\) \(\

oats, 5/803/c; pork, luc; lard and ribs, 73/c for January.

Cxbles were easy, domestic markets weak, the weather fine, the cholera panic still on to a certain extent, the receipts in excess of expectations and the exports for the week comparatively light. The estimates of Beerbohn telegraphed yesterday that the world's wheat supply was 18,000,000 bushels in excess of its wants, also tended to discourage holders.

Changes of the Week and Closing Sales and Quotations The transactions recorded at the Exchange

for the week ending to-day aggregated 3,633 shares of stock, against 3,890 shares for the five business days of the previous week. The tone of the market, looking over the field at this time, cannot properly be de-scribed as otherwise than unsettled, with the tendency of most shares to decline, Strong points were not lacking, however, and the closing bids to-day, compared with those of last Saturday, show nearly as many gains as losses, as follows:

Advances—Airbrake, 2: Citizens traction, 3: Manufacturers Gas, 1: Pittsburg and Castle Shannon Railroad, 1: Exchange National Bank, 3: Westinghouse Electric unassented, 4.

Declines—Philadelphia Company, 3: People's Pieces and Castle Shannon Railroad, 1: Recompany, 3: People's Pieces and Recompany, 3: Pieces and 3: Pieces a and the closing bids to-day, compared with

Kitchen Extension.

University Extension is good, but Kitchen Extension is better. Wider knowledge of better cooking processes means better health and comfort for everybody. Science can never do us better service than by the multiplication of the cooking schools which make healthful means and methods available for even the most modest home.

COTTOLENE

The vegetable substitute for lard, is science's latest gift to the kitchens of the world. Every woman who has ever cooked a meal, knows that lard is disagreeable in use and unhealthy in its effects.

Cottolene is a most satisfactory substitute -- clean, delicate and far more economical. At your grocers.

WHAT NEWS? Why, the news about the magnificent fall suits at Jacksons'. They really cap the climax for elegance, style, makeup and fit. Now, Jacksons make up most all their own goods. They don't buy them of every traveling fakir that comes along with bankrupt stuff or last season's shelf-worn truck. No, as I said before, they make up their clothing and warrant you that they will keep them in repair for you free of charge for one year. Their stock now consists of the latest Fall Suits and Overcoats at prices below the lowest. From \$10 to \$15 you can buy either Suit or Overcoat, and you can depend on style, fit and quality. Try 'em.
