BULLS PREDICTING A BIG RISE

Throughout the List Under the Leadership of the Coalers.

L & N. AND BURLINGTON DEPRESSED

NEW YORK, Sept. 21 .- The late liquidation on both sides of the account have once more narrowed the market, and again a few shares are specially prominent in the dealings. The Union Pacific developments continue to hang over the market, but sanguine bulls express the opinion that the rest of the list will soon break away from this depressing influence and resume the natural movement which suffered an interruption so lately. There were rumors of certain new combinations of bull operators on the street to-day, and the buying of Erie, which undoubtedly was more conspicuous in the market than for some time. was for the account of one of these pools. Considerable was heard about the size of the short interest in Reading and the movement in that stock had appearance of a shy at the shorts. The liquidation in Distillers seems not to be complete and it fluctuated widely to-day without scoring any

widely to-day without scoring any material change in its quotation. Louisville and Nashville, however, was made the subject of special pressure, which although it came late, was sufficient to depress it 1 per cent. The drive was professional and was soon over and was followed by the usual partial recovery.

The general list was lower at the opening. No further progress was made until the last hour, when the Coal stocks were brought to the front and advanced sinarply under strong buying, and the final dealings were more active and stronger than those afany previous time of the day. The buils are predicting a considerable rise in the market with the Coal stocks as leaders, on the theory that no hostile legislative action can affect either earnings or the price of coal, which will be maintained whether the roads are operated as a combination or as inde-

J. S. Bache & Co. to Oakley & Co.: "Yes J. S. Bache & Co. to Oakley & Co.: "Yes-serday the Cammack party covered up and to-day they sold. During the forenoon nothing of interest developed and prices re-mained steady, but after that the bears again tried their hand and worked about quite a reaction. The coalers, on the other hand, were very strong and on the report; that something rood was going to come out coon Reading scored quite an advance. The soon Reading scored quite an advance. The bears lay stress on the fact that frost is again expected to night in the whole corn belt, and if this takes place, it will be a good noint for their side, but the fact remains, accertheless, that the sellling to day was entirely short stock. We think the market will be good for a little raily again to-morrow. The rate situation is not satisfactory, the Nickel Plate and Eric are cutting passenger rates and the freight rates out West, while not being openly cut, are not maintained, as rebates are Ireely offered."

CHICAGO 'CHANGE.

A Weak and Lower Opening and a Strong

Close on Advances. CHICAGO, Sept. 21.-About all of the leading articles dealt in on the Board of Trade were weak and lower this morning, and the tendency was downward during a good deal of the forenoon. Later, however, a better feeling prevailed and the early losses, especially in grain, were recovered, with something to spare. In the face of early demoralization in corn, and some pretty free offerings by bears, who hoped to induce Bloom to let go of his long stuff, the wheat market was firm and when the pressure was removed it soon reacted. There was not much in fact there was little of any kind, but trade was very slow and narrow. Cables were lower early, domestic market slow and allows all corn showed a very considerable slump. The distrust started prices off when a good deal of the wheat bought yesterday came out and short sellers took courage and dency was downward during a good deal of

COAL SHARES HIGHER

Service of a general cool wave to-morrow, an improved export demand to the seaboard, unsettled weather in Great Britain and a slightly better tone in late cables, together with bullish dispatches in regard to the yield, quality and prospective movement of the crop in the Northwest, caused a reaction which carried prices up about 1c, the market closing strong within 1/2c of the

top.
Corn was decidedly weak and lower, October selling off at one time fully le below yesterday's close, but may didn't showns much. On the decline shorts took hold freely and prices rose sharply with the close

AN UPWARD REACTION

In Philadelphia Company With Which a Few Shares Sympathize.

AIRBRAKE LEADS IN STRENGTH

Closely Followed by Citizens' Traction and Other Street Pailways.

LOÇAL AND GENERAL FINANCIAL NEWS WEDNESDAY, Sept. 21.

The course of Philadelphia Company today fully demonstrated that the market for the stock has been controlled by the speculators entirely for two or three days past. Always more or less of a gamble ever since the cut in the 12 per cent dividend rate, its movements have never been so completely the result of speculative operation as since the Board of Directors declared the regular dividend a week ago, and that, too, in spite of the fact that it has not been so close to a legitimate investment basis for three years as during the past week. It has been a very profitable play-thing for Boston and New York traders, and local scalpers between this and Eastern markets have also turned many a dollar in it. On the breaks that have occurred in regular order, however, considerable stock has fallen into strong investment hands, but the floating supply is very large and until this is absorbed by those who have faith in it as an investment, even at a much higher range of prices, it will probably be a favorite with the speculative element and will have to be classed as one of the gambles of the list. Yesterday it declined under short and realizing sales; to day it recovered on buying to cover a 'ew shorts. Operations were light compared with those of yesterday, and as there must still be quite a number desirous of recovering the stock sold yesterday the chances favor a continuance of the upward reaction.

ous of recovering the stock sold yesterday the chances favor a continuance of the upward reaction.

Aside from Philadelphia Company there was very little feature to the market. Airbrake sold at 183% on Chance and 140 on the street, and Citizens' traction continued to acquire strength without gaining any more ground: inteed, it was strong without fully minintaining the advance of the previous day. These two stocks are Al investments, though there may possibly be a little speculative buying of the latter based on the talk of the ultimate purchase of the line by the Pittsburg-Duquesne combine.

Luster Mining Company gained another small fraction. P. & B. traction was fractionally better, and in a general way the market displayed comparative strength.

Philadelphia Company opened at 22 sales, advanced to 22% sales and closed at 22.023%. Airbrake sold at 12.94, closing at 13.94, 244.

P. & B. traction sold at 25% Electric scrip at 22, and Luster at 3%, closing at 3.95%.

There was a fair inquiry for Union Switch and Signal, Central traction, Duquesne traction and Pleusant Vailey, with Central an eighth higher, and Hidalgo and Enterprise Mining Companies come in for more than the usual attention.

The unlisted street railway securities closed as follows: P. & B. traction, 23% 25% do 5s, 103.010%: Duquesne traction, 25% 25% do 5s, 103.010%: Duquesne traction, 25% 25% do 5s, 103.010%: At the last call 300 shares Motolina were offered at 45c per share.

Fear of Tight Money Removed. The weakening tendency of exchange, which has been quite decided during the past iew days, has been to the bulls in the stock market one of the most gratifying features of the financial situation. Higher rates for money in New York than in London and the continental cities are now attracting funds to this side—a circumstance which removes the fear felt recently about tight money—and bankers abroad with connections on this side are accumulating big balances in New York. Foreign exchange brokers yesterday characterized the exchange market as particularly weak. They reported that the supply of bills was more than ample to meet all requirements of remitters, and it was noticed that the higher rates of money on this side of the Atlantic were inducing sales of exchange because at this season of the year the natural tendency is toward lower prices. Cotton bills are coming forward freely, and grain and provision bills are also becoming more plenty, both for spot and future delivery. and the continental cities are now attract

The World's Wheat Supply. Following are the estimates of the wheat supply of the world, made by the Hungarian Minister of Agriculture, with such corrections as have been made since that report was issued. Taking the supplementary re-port received of the European crops, the following may be regarded as the approxi-mate wheat supply of the world for 1802 com-pared with the returns of 1891:

AGENTS ORGANIZE

To Fight the City in the Matter of the Business Tax-Will Take Their Grievance to the Supreme Court if Necessary-Gos-

W EDNESDAY, Sept. 21. The real estate agents are exercised over the latest development in their dispute with the city regarding what is known as a "business tax," the particulars of which will be found in another column. Delinquent Tax Collector Ford having served a notice on each agent who has not paid the assessment, reading: "Please remit and assessment, reading: "Please remit and save costs," the agents have organized and appointed Messra, Samuel W. Black & Co., Black & Baird, and S. A. Dickey & Co. a committee to act in their behalf. The matter was contested by the agents a year ago, and they defeated the city on a technicality, and the question will be fought, and if necessary, carried to the Supreme Court this trip by the brokers. There is plenty of cash in the hands of the Treasurer, Mr. Samuel W. Black, and the contest will undoubtedly be a spirited one. J. Scott Ferguson, Esq., is attorney for the agents. A test case is expected to be entered in a few days.

A Large Sale of Lots.

A Large Sale of Lots. J. E. Glass closed the sale to-day of 50 lots in a plot adjoining the Aliquippa Place plan, No. 2, Thirteenth ward. The purchaser, a local capitalist, will commence the erection of dwellings on the property immediately, and will improve the premises by the grading of streets, laying of new sidewarks, etc. The terms of the sale are withheld for the present.

A Little Gossip. Work on the extension of the Duquesne Traction Company's line to Wilkinsburg is progressing very rapidly. The laying of the road bed has been completed to within a very short distance from the terminus of the

IN MERCANTILE LINES.

Trade Is Satisfactory and the Demand Is Steadily Increasing-Staples Generally Ruling in Sellers' Favor-Current Market Features and Revised Onotations.

WEDNESDAY, Sept. 21. Business in wholesale mercantile lines is moving along satisfactority, the general demand showing a gradual increase as the season advances. The steady improvement in the industrial situation is one of the leading factors; the Exposition is helping trade somewhat and the decreased fear of a visitation of cholera is not without a stimulating effect. Prices of staples have not shown much change thus far this week, but in nearly all lines excepting provisions the advantages are with the sellers. As a rule

in nearly all lines excepting provisions the advantages are with the sellers. As a rule collections are fair.

Receipts of peaches to-day were about 10, 000 packages, which, with the accumulations of the previous day, made the day's supplies the largest of the season. Grapes, apples, plums and pears were also in heavy supply. Cold storage eggs are coming out and masquerading as strictly fresh. The abundance of such stock has a tendency to keep the price of fresh laid from advancing.

Local merchandise brokers were advised from New York to-day of the arrival of new crop currants. Opening quotations, 4c per lb f. o. b. New York.

There has been a serious impairment of the condition of the potatoes, the general average declining from 86.6 August 1 to 74.8 for the September return. This is a better showing than in 1887 and 1890, and slightly better than in 1887 and 1890, and slightly better than in 1887 and 1890, and slightly better than the September condition of the crop was never before reported as low as 80. A drop of 12 points in a single month is indicative of widespread unfavorable conditions.

The market for grain, feed and hay showed

tions.

The market for grain, feed and hay showed an improving tendency to-day under the influence of light receipts, but the proceedings on call at the Exchange were exceedingly tame and featureless. Too much business is transacted by the members in the various freight yards every morning before 'Change to make the daily call of any special interest or value. Of late they have been little more than farce comedies.

Grain, Flour and Feed. The only transaction on call at the exchange to-day was in No. 2 timothy hay, one car, ten days delivery, at \$12 50. Bids and orders: FIVE DAYS.

CATTLE CLOSE LOWER

At the Central Yards, Hogs Steady to Strong and Sheep Heavy. WEDNESDAY, Sept. 21.

Receipts of stock at the East Liberty yards this week were comparatively light, but with the exception of hogs, which ruled heavy, with cattle 10@15c lower at the close favored a further decline in common and medium grades of cattle and steadiness in top cattle and sheep and cornied hogs. CATTLE

The supply on sale Monday was 110 loads, against 130 loads last Monday. The supply consisted mostly of common and medium grades, and, although the receipts were lighter, the market ruled slow at a decline of loc per cwt on these grades, while prime cattle, of which there was a light supply, were about steady at last week's prices. Tuesday's receipts were 9 loads; market slow at Monday's prices. Quotations:

A YOUNG MOTHER'S CRIME.

Infanticide, Mary Anderson, of Calamity, a little town above East Elizabeth, was yesterday arrested for infanticide by order of Coroner's Clerk Miller. Harvey Jester was also arrested for complicity and Joseph Matthes will be as soon as the officers can overtake him. The first two parties are now in jail. Last Sunday Miss Anderson's mother died and on Monday she was buried. The neighbors then commenced asking the girl neighbors then commenced asking the girl some searching questions concerning her life and she admitted her guilt. She also told how the two men were implicated in it. Together they had gotten medicine in a Pittsburg drug store which was harmful for her. The Coroner will hold an inquest.

She Was Adjudged Insane.

Fannie Kim, aged 60 years, was arrested on Ohio street, Allegheny, yesterday morning. She had been wandering around the city since the night before, telling people she had been poisoned, and that some one was plotting to murder her. She was adjudged insane, and taken to the city home.
