CORN CLOSES LOWER

And the Other Cereals Bule Barely Steady -Provisions Firmer.

CHICAGO, Sept. 23 .- Wheat opened quiet at about yesterday's closing figures and held tolerably steady for a time, though finally developing considerable weakness and selling off %c below yesterday's close. The builtish feeling which was so rampant yes-terday was a good deal softened, although early cables showed considerable strength and some advance in English markets. The receipts in the Northwest were larger than cted-973 cars-and there was nothing expected-975 cars-and there was nothing of a builtsh nature in the way of crop in-formation. The most nervous shorts seemed to have covered on the excitement yester-day, and there was little demand from that interest, while the offerings were more

interest, while the offerings were more interest, while the offerings were more illeral. The advices had the effect of bringing out a good deal of long wheat which showed a good profit to the holders, which they were apparently anxious to secure. There was also more disposition on the part of the bear element to sell short. With these liberal offerings, and only a moderate demand, the market soon grew weak. At the bottom there was good buying on better cables and a raily of 3/2. Then in the afternoon the contingent togran to sell and prices broke 2.c, closing weak at nearly bottom figures. Corn was lower and influenced entirely by the continued fine weather. The cold wave which was feared yesterday is no longer in sight, and the crop is so rapidly reaching maturity that it begins to look as though one could not do much harm if it should come. The effect of this was to bring a large smount of long corn on the market, as were quiet within a narrow range and closed slightly under yesterday's final foures.

How products were quiet, but ribs gave mother evidence of the ease with which they could be manipulated by going up to \$5 80 for October, having closed yesterday at \$8 25. Cash quotations were as follows: Flour

State State - 52

Mining Company has declared its regular monthly dividend of 2 per cent, or 10c per share. It is said on excellent authority that for the first 25 days of August the "runs" of the latter company panned out 375,000, or \$25,000 more than sufficient to pay the divi-dend. An official report of the condition and prospects of the company will soon be made. As a rule the management of mining properties is much more economical and businesslike now than in days gone by, and in a general way the public is showing more interest in mining shares. Philadelphia Company.

Philadelphia Company. The talk on Philadelphia Company to-day was strongly bullish. Where the gas has

been turned into furnaces at points when operations have been resumed after a sea operations have been resumed after a sea-son of idleness it has shown a pressure never experienced since some of the mills had to be cut off the lines. At Mansfield the gauge showed a pressure of \$5 pounds yes-terday. A leading broker said: "Philadel-phia Company is better worth 25 to-day than it ever was. It has got more gas; it has more patrons; its getting a better price, and its receipts are larger than ever."

Baltimore and Ohio,

Information books on all markets mailed on application. fe7 CHICAGO, Sept. 23. - [Special.] - Rogers, Brown & Meacham say: A good buying Brown & Meacham say: A good buying movement, with inquiries on the increase, and a greater degree of firmness in price on the part of selicrs, is the situation at this point. Among the leading Southern manu-facturers offers are now being declined which were readily accepted last month, and a marked degree of firmness exists. This applies not only to mill grades, but also to foundry iron, and there are numer-ous indications pointing to the fact that the market has turned. Prominent buyers, however, are refusing to pay anything in the way of an advance and continue to maintain they will be able to purchase at the old figures within the next 30 to 600 days. Heavy consumption is still a marked feat-ure, and nearly all melters of iron are busy. WHITNEY & STEPHENSON, 57 Fourth Avenue. LOST MANHOOD RESTORED SPANISH NERVINE, ST. LOUIS, Sept. 22.-[Scecial.]-Rogers, Brown & Meacham say: If there is any per-ceptible change to note in the local market it is decidedly for the better. Iron has been
