A LOT OF NEW BUSINESS INTRODUCED

A temperance discussion, including a reference by John Lambie to the notorious "Yellow Dog Socials," which were once so numerous in this city, was a leature of yesterday's session of Councils. Chief Bigelow had presented a set of rules governing the city parks, which he desired adopted as an ordinance. No opposition was developed to any of the rules in committee, but when they were read in Select Council Mr. Robertson promptly discovered a defect in rule 10, which, among other things, prohibits "the introduction of any spirituous liquors within the limits of the park either for private use or for sale."

Mr. Robertson moved to have the words "either for his own use or," stricken out. "Whenever Mr. Bigelow wants an appropriation for parks or authority to buy more land," said Mr. Robertson, "the fact is impressed upon us that these beautiful parks are for the benefit of the workingman and his family, that he may go out there and lie down under the pretty shade trees and drink in the beauties of nature and the fresh, pure air which heaven has so abundantly provided for park purposes.

A Plea for Digestion.

"Now, why should not the workingman, if he chooses, take out with him a bottle of wine, or beer if you please, to drink in with his pure air and assist in the digestion of his picuie dinner. I think that provision an intrincement on the rights of our citizens. I don't believe the selling of liquor should be permitted, but a citizen should have the same right to drink a little beer there, if he wishes, as in his own home."

Mr. Lambie was quick to respond. "It you strike out those words," he exclaimed, "you might as well strike out the whole list of rules! In my opinion, rule 10 is the only one worth anything. Without it, in its entirety, there is nothing to prevent a Yellow Dog Social or any other similar organization from taking beer and whisky out to the parks and distributing it among its members, producing drunkenness and rowdyism, and rendering the parks unfit for decent people to go to."

Mr. Warmenstle followed, defending the original rule vigorously, "Public decency," said be, "demands that this change should not be made. Whenever you allow indiscriminate drinking in a place of this kind, you invite drunkenness and rowdyism. You make the park a place where a man of respectability won't care to take his family or to go himself."

A Liquor Dealer Augainst Liquor Mr. Donahoe, although a liquor dealer

himself, took the same view. "If you strike out this provision," said he, "you will kill the effect of the whole bill. No man wants to take his family out where several thousand people are congregated, every other man with a bottle of whisky in his hip pocket."

Mr. Robertson again took the floor and repeated what he had just said, adding: "The gentlemen who insist on making that restriction are worse than the men who, in 1794, passed the blue laws. In this day to prohibit a man from taking a drink is a worse intrusion on his freedom, his liberty, worse intrusion on his freedom, his liberty, than all the laws passed in 1794 were then. I claim rowdyism will not follow by strik-ing out this obnoxious clause. There has been no rowdyism in the past without it, and there is no reason to expect it in the

The vote on the amendment was carried by 15 to 12, but the ordinance as amended failed for want of a legal majority, the vote being 9 against and 18 for. Another tilt occurred in Select Council

over the resolution appropriating \$25,000 for the payment of damages incurred by the opening of McKee Piace. A communica-tion from the City Attorney stated that as the case stands the property holders on Mc-Kee Place have notion against the city, and the compromise offered would save the city Dr. Evans Asks a Question.

The resolution was finally called to a vote and passed by a vote of 17 to 7.

Object to Employing Extra Counsel. In Common Council a brisk fight occurred on W. A. Magee's resolution to employ additional counsel for fighting the livinga-tion on the last triennial assessment. Mr. Bigham asked why this was necessary with a city attorney and three assistants.

Mr. Magee said the question was very important. The department of law had a great deal of work to do. The city pays considerable for law, but not as much as the Lake Eric Railroad, with its little line from Pittsburg to Youngstown. The city never had an assessment thoroughly de-tended in court, and he wanted men engaged who had nothing else to look after except

the question.
Mr. Bigham had been looking after these tax suits and he thought the City Attorney was attending to them very well. He did not think the resolution should be passed, especially as the Clty Attorney had not asked for help. He moved to refer the resolution to the Committee on Finance.

Ordinances for sewers on Craig street Grafton street, Carver and Amanda streets, Dauphin street and Morningside road, Geneva alley and Matilda street; for grad-ing, paving and curbing Meadow street and Forty-third street; for opening Meadow street and Forty-third street; fixing a vehicle license of \$6 a year on one horse vehicles, \$10 for two horse vehicles and \$100 for each street car; petitions for water mains on Home street and kucild street; remodstrance against the change of grade on Craig street, against the improvement of Greenbush street and against grading Prospect street.

The chairman read a communication from Chief Brown, in which he stated, in re-sponse to a request from Council, that the best method of disposing of garbage in the Lawrenceville district was the systematic collection at the public expense and its destruction in furnaces. The paper was filed. Under the head of Select Council

An ordinance granting the Second Avenue

An ordinance granting the Second Avenue Passenger Railway the right to lay a double track on Second avenue at Hazlewood was passed, as were the general ordinance regulating street paving by traction companies: the resolution directing the Chief of the Department of Public Works to require the Monengahela Water Companies comply with their contract relative to supplying water; the resolution requesting the Governor to place a sum of money at the disposal of the State Board of Health; the resolution for the purchase of a lot in the Thirty-first ward for an engine house. The ordinance to increase the police force by 50 men was opposed by Mr. O'Donnell, who moved to fix the increase at 25 men.

Mr. Flinn opposed the amendment. He was in avor of an increase of 150 men. "We have 75,000 people on the Southside," said Mr. Flina, "and our day police force is from 19 to 29 men. In the Twenty-seventh and other hill wards daylight robberies are common because some of the beats are from six to eight miles long. It is not because the police are inefficient. They have too much to do. We need 25 more men at least."

Mr. O'Donneli—In offering this amendment I understood that an increase of the Fire Department and an increase in the Fire Department and an increase of 25 men in the Police Department and an increase of the policemen a year would keep pace with the population. Personally, I would prefer a heavier increase in the Fire Department. The amendment was defeated and the ordinance passed by a vote of 33 ayes to 4 The amendment was defeated and the

Democrats of the Eleventh and Thirteenth Wards Meet.

THEIR CANDIDATES INDORSED.

Making Preparations for a Demonstration and Parade.

THOUSANDS WILL LISTEN TO M'KINLEY

Over 300 Democrats of the Eleventh and Thirteenth wards assembled last evening in the schoolhouse on Granville street between Webster and Wylle avenues. The gathering was very much in the nature of a ratification meeting to indorse the nomi-nation for the Legislature of O. K. Gardner and G. B. Acklin as Representatives from the Third Legislative district.

Richard Ennis was chosen temporary chairman and John A. Downey temporary secretary. Some short discussions arose on the subject of establishing a marching club. The project didn't find much favor among many of the older Democrats present. It was their idea that too much time was wasted in organizing and considerable unnecessary expense was attached to the sustenance of clubs. A quantity of the young blood present boiled for a time, and the subject was finally dropped until the next meeting. John J. Kane was elected chairman on permanent organization, and J. H. Boggeman secretary. Mr. Kane opened the meeting formally and introduced O. K. Gardner to the gathering.

A Campaign of Education. In a lengthy speech Mr. Gardner elo-quently dealt with the Democratic platform and the careers of that party's candidates. The campaign, he said, was one of education. He was with the voters of the Third district now as he was before, and in the tribe phrase of the distinguished Senator from New York, he proclaimed himself a Democrat. It was only a few days ago that he had received a letter which contained a caricature of D. B. Hill eating crow. On the exterior of the envelope, for the information likely of the carrier, was the word "politician." He failed to see the joker's idea altogether, for of all things possible he was not a poli-tician. The issues to be fought varied little from those of previous campaigns. The main interest rested in the Republican

platform of protection.

The speaker would not go into detail on The speaker would not go into detail of the immense harvest reaped by the workmen from the McKinley bill, but pointed to the little borough of Homestead on the picturesque bank of the Monongahela and let his hearers pass a verdict on protection's benefit to the iron and steel workers. The Democratic party was the party of the people and only for the people and the ple and only for the people.

Willing to Go to Harrisburg. George B. Acklin addressed the meeting George B. Ackin addressed the meeting briefly. It was the first time he had spoken to a Democratic assemblage. He would be glad to go to Harrisburg for the people of the Third district. "And, perhaps," he continued, "if we could by any means get a little majority in the House there might be a good chance to remedy the many evil laws

that now govern the State.
"It would be well to repeal the Blue law; if possible, to redistrict the State, and then send another Senator to Washington. Ring send another Senator to Washington. Ring rule in Pittsburg was something which should soon end if the people of the city would have absolute freedom. It was the duty of the Democratic party to help the workman at the present time and stop the manufacturing of millionaires."

F. W. Lordan had considerable to say about the time and enthusiasm wasted in

organizing marching clubs, while it could be put to better advantage.

Walter Brown, the colored orator of the Thirteenth ward, made a stirring speech in which the English vocabularly was choicely used. It was the chief effort of the meeting and every man in the hall cheered the and every man in the hall cheered the speaker to the echo when he finished. He reviewed the history of the colored man in the South, and the effects of the masters dictation at the polling booth. Several other speakers followed and the meeting adjourned subject to the call of the chair

Attorney Loughbridge Says Iowa Is Going Republican

J. M. Loughbridge, a Republican lawyer of Oskaloosa, Ia., registered at the St. James last evening. Mr. Loughbridge formerly lived here, and taught in the same schoolhouse on the Southside with Andrew Burt, the grammarian. He went West 40 years ago, and visited the city in 1877. He is a cousin of Mrs. John Chalfant. Mr. Loughbridge says the city has grown won-derfully, and it makes him feel sad in inquiring about old friends to learn that they

died years since.

Speaking of politics, he said: "Iowa is going Republican this fall. Its majority used to be as high as 90,000, but prohibition used to be as high as 30,000, but pronintion gave Boies a chance to be elected Governor by catering to the whisky element. Scott county, in which Davenport is located, was Republican by 2,000 before the temperance issue was passed, but now it is as many votes Democratic. The Republicans have wisely dropped the prohibition plank from their platform, and the Germans are coming back to the party. I look for a great Re, publican victory in Iowa."

"No, I am not the author of the famous hymn 'Lead Kindly Light,'" the Bishop began to a DISPATCH reporter. "That hymn, the grandest in the language, was written by Cardinal Newman, a Catholic. A grand hymn and a grand man," the Bishop went on. He then told of conferences held throughout Ohio and Northwestern Pennsylvania. He said the most importan natters considered were the advan-

and improvement of the educational stand ard of the ministry. "Our ministers are not broad enough. They need travel and contact with people to broaden them out to the proper size. I found as much sympathy and feeling among the Chinamen as I find here. I found the Arabs willing to fight as viciously and a seriously for me when we were attacked by highwaymen as an American would fight to save a friend. We can really only distinguish the difference in people by the clothes they wear.

Then I would turn him into the world. I would have him go into every country to familiarize himself with every people. That, I think, would make him a complete man. Our ministers now graduate at some school and then settle down with some small congrega-tion, and are too narrow for the advanced

age.
"The Blairsville Conference may take up the woman question, in the event of which a lively debate will occur. Several matters may come up, but the elevation of the ministry is sure to be considered. them from voting.

WILLIAM THAW, JR'S WILL

Disposition of the Estate of the Dead Millionaire-Liberal Provision Made for His Wife and Children-Bequests to His Wife's Relatives.

The will of the late William Thaw, Jr., has been filed with Register Conner for probate. The instrument is dated August 11, 1892, just before Mr. Thaw sailed for Europe. It is witnessed by Will Darsie, H. C. Irwin and William Scott. The ex-ecutors and trustees are Mrs. Elizabeth Thaw, the wife of the testator; his brother, Benjamin Thaw, and his friend James Darsie.

The will provides that as soon after his death as possible his executors shall pay all his debts, etc., and pay to his wife, Elizabeth Dohrman Thaw, \$5,000 in cash, this to be in addition to any other provision made for her. To his sister-in-law, Rachel Dohr-man, he bequeathes bonds to the par value of \$10,000, and to his brother-in-law, Frank Dohrman, \$10,000. His residence and grounds and the personal property thereon on Lincoln avenue, Allegheny, are given to

his wife.

All the residue of his estate, including the estate in respect to which, under the will of his father, William Thaw, deceased, he had the right of testamentary disposition, he gave to his executors in trust. They are to have it appraised by three disinter-sted and competent persons and shell disare to have it appraised by three disinterested and competent persons, and shall divide it into four equal parts. Two of these parts are to go to his wife, Elizabeth, absolutely. The two remaining parts are to be held by the trustees during the minority of his son, William, and his daughter, Elizabeth B., respectively. Upon their arrival at their majority each is to receive one-half of the one part. The other halves of the shares of the two children are to be managed by the trustees or their successors duraged by the trustees or their successors dur-ing the lives of the children, the income to be paid them quarterly. Upon their deaths the principal is to be disposed of as they by will direct. If one dies before reaching

Detective Mupphy, who lives at Coulters-ville, had just arrived home on a midnight train and was attracted by the uproar. He hurried to the house where the fight was in progress. He caught the assailant as he was endeavoring to leave the place through a rear door. The officer was told that the victim of the cutting had rushed out of the house and had plunged into the river. Mur-phy placed Powoka under arrest and then compelled the prisoner to accompany him to hunt the injured man, who was finally found on the river bank with his entrails hanging from the wound. A physician was called and the wound was dressed, but Dr. J. B. Block the attending above here little Block, the attending physician, has little hope of the Hungarian's recovery. 'Squire
