NEW ENGLAND SPURTS

Reading, Missouri Pacific and Colorado Coal Rule Stronger

AND NIPPER SUFFERS A DECLINE.

Lackawanna Shows a Loss of One Per Cent at the Close.

RAILROAD BONDS DULL AND STRONG

NEW YORK, Sept. 27 .- The stock market displayed considerable irregularity in its movements to-day, but the changes of note were confined to a few stocks which the general list followed at a distance. The clique in Northern Pacific suffered the stock to drop heavily this morning, but Reading was stronger, the shorts in Missouri Pacific had their turn and Colorado Coal was moved up sharply for a time. There was a sudden and sharp upward spurt in New England, which rapidly rose from 37% to 38%. The effect was to check the buying, which had been liberal in the fore-noon on part of the speculators, and the market subsided into dullness throughout

In the late dealings there was an undoubted effort by the sellers of yesterday to recover the Reading stock put out, and the strength imparted by these purchases to the rest of the list rallied some of the more

prominent shares.

The general list, after a strong opening at fractional advances, further advanced in the early trading, but the declining tendency of the rest of the day effectually ency of the rest of the day electually neutralized these gains, and at the close prices were irregularly changed, but were generally within the smallest fractions of last night's figures. The close, however, notwithstanding the rally, was rather heavy notwithstanding the rang, was a loss of 1 per in tone. Lackswanna shows a loss of 1 per like and Readcent, but Colorado Coal is up ly and Re-ing I per cent, with large fractional gains al gains in

ther shares.
Reilroad bonds were again quiet within mairoad bonds were again quiet within narrow limits, and, while displaying a firm temper under the demand for the better class of bonds, developed no activity and small changes are the rule. Reading 3ds, however, rose 1½ to 6½. The sales were just \$1,000,000.

J. S. Baehe & Co. to Oakley & Co.: "The bulls had figured on a strong London mar-ket, but in this they were disappointed, as ket, but in this they were disappointed, as London sold about 8,000 shares of stock in this market to-day. At first L & N. felt the effect of this selling the most, but after that the publication of the Iowa State crop re-port, which makes the yield of corn about half as large as last year, was most influen-tial, the grangers leeling the effect of it the most

The best selling to-day was in C. B. & Q., in which about 4,000 shares of long stock were marketed. The report for August is expected to-morrow or next day, and if it shows up as well as the corresponding one of last year it may be considered as favorable. The bulls promise a couple of hundred thousand increase, but we think in this they

will be disappointed.

"New York and New England loomed again into prominence on the story of closer relation with the New Hayen road, but we think a misunderstanding arises from the inet that General Manager Mellon has resigned from the New England and will be one of the Vice Presidents of the New Hayen. He is a valuable man and his contract calls for \$20,000 a year.

"The general market is still highly professional and we think it advisable to sell on railies."

CHICAGO 'CHANGE,

Wheat and Corn Close Strong and Oats and

Provisions Weak. CHICAGO, Sept. 27 .- It was a see-saw or 'Change to-day. After weakening early the markets for wheat and corn became broad and strong at the windup. The closing firmness in wheat was due largely to the report of a very heavy export demand. Corn rallied chiefly on the poor showing of the Iowa crop report and the liberal freight engagements reported here, vessels having been chartered for 539,000 bushels. Compared with last night, wheat, notwithstanding the late recovery, shows 50 decline, corn has a gain of 50, and provisions are a

shade easier.
There were a few outside buying orders in wheat at the stert, and, with stronger cables and little for sale, the market showed some strength. But when these orders had been filled trade became sinck, and then the miled trade became sinck, and then the many bearish features of the situation began to be felt. The receipts in the Northwest were again large—1,077 cars, against 933 cars for the same day last year—and the amount received at the primary points 130,000 bushels. Shipments—Wheat, 330,000 bushels.

footed up 1,675,600 bushels, against 1,448,000 bushels a year ago. Liberal world's shinments last week, and the immense movement from Russia, with considerable realizing and short selling, resulted in the weakness noted. New York messages reported fresh cholera cases in quarantine, and the estimate of 650 cars for Wednesday increased the depression. During the last hour the market turned very strong on much higher cables and a report that French operators were buying wheat in this country. A Minneapolts message said wheat in the Northwest was not threshing out as expected. Attention was directed to-day to the small proportion of the contract grade in the daily receipts. The proportion deliverable upon contracts being received here daily is about a carloads in 100.

proportion of the contract grade in the daily receipts. The proportion deliverable upon contracts being received here daily is about a carloads in 100.

Corn was quiet. The absence of frost and the favorable weather for the crop started prices off some, but there was some reaction later on the good demand which sprang up, presumably to cover shorts. The lowa crop report which placed the yield of corn in that State at only 175,000,000 bushels against 350,000,000 bushels last year, turned prices up some during the last hour. The course of wheat probably helped corn some also. Another factor was the possibility of a freeze. The Burlington reports a greatly increased demand for cars. The withdrawals of corn are heavy. The inspection for the day was 480,000 bushels. This largely dounteracts the effect of the great receipts.

In cats the feature was the free selling of October by longs and the demand being light the price receded %c and closed at nearly the bottom.

Hog products were generally weak and lower. Closing prices show a decline of from 2½c to 5c in pork and from 2½c to 10c in ribs. Lard closed unchanged for October and 7½c lower for January.

Shippers were inquiring for vessel room more freely. Rates, 2½c for wheat and 2c for corn to Buffalo.

LOCAL AND GENERAL FINANCIAL NEWS

TUESDAY, Sept. 27. There was fair trading in local securities on 'Change and on the street to-day, but the market, while strong, lacked snap and was barren of specially noteworthy features. None of the brokers or traders, however, complained of dullness. On the contrary, all of them spoken to on the subject noted an increasing inquiry and a fair amount of business in hand. They admitted a lack of urgency in most directions and a disposition to hold off awhile in others, which gave the market a dull and lethargic look, but they offered no satisfac-tory explanation of the why and wherefore. The reason probably is that the market is in the shadow of the approaching quarter is in the snadow of the approaching quarterly settlement period, preparations for which have been in progress for a week past. After the turn of the month, when accounts have been evened up and dividends and interest paid, the market for stocks and bonds will undoubtedly take on new life and show more or less activity and strength throughout the remainder of the year.

The items traded in were P. & B. traction Luster Mining Company, Philadelphia Com-pany, Union Switch and Signal, Westinghouse Electric second preferred, Peoples house Electric second preferred, Peoples Pipeage, Pieasant Valley railway, Westinghouse Electric scrip and Citizens Insurance. P. & B. traction sold at 26 at the opening and closed at 25½226. Loster sold early at 3½ regular, at 5½ selier-10. After the last call, with 100 shares offered at 3½ seller-60. Philadelphia Company. The No. 1 Howe farm well of the above company, 125 feet or so from the big Snee gasser, which came in Sunday morning showing a minute pressure of 300 pounds, was turned into the company's main yesterday morning. Upon the bringing in of the well the Snee, which had previously shown well the Snee, which had previously shown something of a diminution of pressure, declined to about a 460-lb minute pressure well. The company's Howe No. 2, which is down 1,150 feet, will be in the mindle of next week. The howe No. 6 is down 200 feet and the Howe No. 7 reached a depth of 550 feet. The company's Bendell farm well, across the river from the Howe farm well, is down 975 feet, and the Bolander farm well, near Lock No. 3, is down 875 feet. The company's new well on the Aronson farm, in the Pinhook field, which came in Saturday showing a minute pressure of 160 pounds, was turned into the line Monday. The Kerr farm well, in the the same region, will be in Wednesday. Superintendent Benney says all the wells brought in by the company of late are good ones, and repeated former statements about an abundance of gas this fall and winter.

Monongahela Navigation Company. Pamors were current to-day to the effect that the Supreme Court's decision in the matter of the value of the Monongaheia Navigation Company's property and fran-chise had been, or would be, favorable to chise had been, or would be, involable to the company. Some color was given these rumors by the withdrawal of stock from the market and a sharp advance in the selling price set a short time since. Talk was also heard of a quiet inquiry for the stock and sales considerably above the last public

National Lead Company. The company has over \$1,000,000 in cash. more than \$7,500,000 worth of supplies on hand and bills receivable, and this with its real estate, machinery, patents, etc., make its total present cash value precious near \$25,000,000. Take the \$15,000,000 preferred at par and the \$15,000,000 common at \$60, the total valuation of the property would be \$24,000,000, while its power to earn interest would be on at least its full \$30,000,000 capital stock. The common stock will get a tal stock. The common stock will get a dividend before many months or else the cash will be employed in a way sure to give big returns. In industrials, more possibly, than in railroads, the profits of the business are due to the skill, integrity and ability of the management. It is not flattery to say that Colonel W. P. Thompson, who directs the Lead Company, and who is probably its largest stockholder, possesses all these qualities. We regard the preferred stock as safe beyond peradventure, and the common stock is steadily increasing in intrinsic value, which will tell upon its market price later—if not at once.—Watson & Gibson.

Little More Than Six Acres of Thomas Whitman's Forbes Street Property Sells for \$35,000 - The Gross Estate on the Market Again-Gossip, Permits, Etc.

THESDAY, Sept. 27. Another sale of Squirrel Hill realty has been consummated. W. C. Stewart closed to-day for Mr. Thomas Whitman, to W. J. A. Kennedy, the sale of six acres and a fraction off the rear of his (Mr. Whitman's) Forbes street property, for \$35,000. This tract will be laid off in a plan of lots by tract will be laid off in a plan of lots by
the purchaser and placed on the market
immediately. The lots will have a
frontage of 50 feet each and will
be 170 feet in depth. The property
is situated near the main entrance to Schenley Park. The lots will be sold with building restrictions, and nothing but dwellings
that will compare with the surrounding
properties will be erected.

On the Market Again.

On the Market Again. After three years of litigation the property belonging to the Gross estate, a tract comprising about 40 acres located in the I wentieth ward, has been placed on the market again by Thomas MacConnell, Jr., in Grove and park and the Friendship Farm plans. The cause of the litigation and withdrawal from the market of the property was the discovery of a defect in the title which has been remedied by a late decision of the Supreme Court. Many new improvements will be made in the vicinity of this property. Several streets will be opened up through the tract, and the laying of sidewalks and grading of streets will be commenced in a few days.

Items of Gossip.

George W. Ache, the well-known agent, is erecting a fine residence on his property, corner of Stanton avenue and Mellon street.

corner of Stanton avenue and Mellon street.

A. D. Wilson, the Allegheny real estate agent, negotiated a loan yesterday of \$32,000 on Federal street property at 54-10 per cent to run for five years.

Negotiations are on between a local land company and a Chicago manufacturing concern for the purchase of a large tract of land located about 25 miles from the city. If the deal is closed a plan of about 600 large sized building lots will be placed on the market. The plan, which has already been laid off, adjoins the tract which the Western firm is after.

TUESDAY, Sept. 27. Operations in local wholesale mercantile lines are being conducted on a fairly liberal scale, the movement to dependent sections being particularly satisfactory; but, while merchants generally are satisfied with the business passing they assert that there is still a little room for improvement. The tendency of prices is in favor of sellers. There are exceptions, of course, but where prices are low the indications point to the fact that rock bottom has been touched. Collections are fair. Corn is selling at lower prices than a year ago despite the smaller crop. The crop is ate, but the weather recently has been splendid for the growing corn, and the bulk of the crop is now safe from frost. While the crop is not equal in size to last year, it the crop is now safe in those will be an abundance both for feeding stock and for marketing. Europeans are learning to use our corn for making various forms of bread and pudding, but as yet this consumption is hardly large enough to cut much of a figure. Outs are higher than a year ago, owing to the smaller crop and a good demand. In provisions the interest centers in the corner in short rib sides. Prices have advanced sharply, and the parties working the deal are making enormous profits.

A plant for a beet-sugar refinery that will turn out 5,000,000 pounds of granulated sugar annually is being erected at Leavenworth, Kan. The manufacturers will pay \$4.50 per ton for beets delivered at the factory.

Cheese is firmer and higher prices are probable. The September make of cheese will be on the market the last of this week or the first of next, and will command an advance of \$\frac{1}{2}\$ ere in the market at ions. New crop chestnuts are in the market at

Foultry is receiving more attention as the senson advances and the market is stendy to firm at quotations. Dressed stock is coming forward rather freely, but live still has the call.

Eggs are in better demand, but supplies re liberal and prices remain unchanged.
Vegetables are firmer, corn is lower, sweet
potatoes are higher, provisions are steady,
groceries are generally firm and others featureless.
