

WOMEN ARE WARLIKE.

They Make a Very Lively Little Demonstration at Homestead.

DISPERSED BY THE POLICE.

The Elba Iron Works to Abandon Its Puddling Department.

NEWS OF THE GREAT LABOR WORLD

Superintendent Newton, of the Coal and Iron police at Homestead, was suddenly called to disperse a crowd of women on Fifth avenue and City Farm Lane yesterday afternoon.

The trouble started early in the afternoon, when a number of men went to the house and began putting it into condition to be occupied.

Another Boarding House Leased. The Carnegie Steel Company yesterday leased the McKee property on Eighth avenue, and will turn it into a boarding house.

The Sheriff was on the ground all day yesterday. He is keeping a sharp watch on his 25 deputies, and they are performing their duties satisfactorily.

A New Foundry Chartered. The Kepp Gear Wheel and Foundry Company, of Allegheny City, was chartered at Harrisburg yesterday with a capital of \$50,000.

Part of Painter's Mill Resumes. A part of J. Painter & Son's finishing department is running double turn making cotton ties.

Work for a Large Number of Men. The two Isabella furnaces which will be blown in shortly give employment to 400 men.

The True Lavative Principle. Of the plants used in manufacturing the pleasant remedy, Syrup of Figs, has a permanently beneficial effect on the human system.

MILINERY opening to-day. FLEISHERMAN & Co., Market street.

It Will Pay You to Call at H. Kleber & Bro's, No. 506 Wood Street.

Being the oldest and most reliable music house in Western Pennsylvania, Kleber Brothers have the pick of the best pianos, organs, cornets, violins, guitars, etc., made.

Still Hunting for Pinkerton Guns. Another search for Pinkerton guns was made at Bradlock during the afternoon.

Considerable excitement was occasioned on Eighth avenue about 3 o'clock yesterday afternoon by the assault of a Coal and Iron policeman upon another who was drunk.

Still Hunting for Pinkerton Guns. Another search for Pinkerton guns was made at Bradlock during the afternoon.

Considerable excitement was occasioned on Eighth avenue about 3 o'clock yesterday afternoon by the assault of a Coal and Iron policeman upon another who was drunk.

striking puddler, having a set-to with William Whitney, a watchman at the mill, and James Connolly, a laborer. The three were arrested and locked up for disorderly conduct.

NO MORE IRON AT THE ELBA.

The Puddling Department at the Frankstown Mill Will Be Abandoned Soon—Competition in Steel Product the Cause for the Change—A Member of the Firm Talks.

Within a month or six weeks the Elba Iron Works will cease making iron and commence the manufacture of steel pipe. The puddling department will be abandoned and no more iron will be made in the works.

When asked about the situation yesterday a member of the firm said: "It is the puddlers who are making all the trouble at our works, and they will wake up some day and find their positions gone. We were losing a great deal of money in running only two heats a day. Our puddlers got through with their work in from 14 to 16 hours and we were obliged to keep up the fires in the furnaces, using enormous quantities of coal, for which we obtained no product. Our finishers are all anxious and willing to come back but are held from doing so by the moral side of the question. The age of iron is about past and steel is the coming monarch. We are sorry that there is any trouble at the works and think that if it was placed fairly before the Amalgamated officials the strike would be declared off by them."

Pittsburg's Largest Locomotive. The Pittsburg Locomotive Works have completed the largest locomotive ever built in this city. It is for the Vandalla line, and is now in the Union depot yards.

A New Inclined Plane. The West End Inclined Plane Company was chartered yesterday to run from a point on Greenleaf street, near West Carson, to the summit of the hill.

A New Foundry Chartered. The Kepp Gear Wheel and Foundry Company, of Allegheny City, was chartered at Harrisburg yesterday with a capital of \$50,000.

Part of Painter's Mill Resumes. A part of J. Painter & Son's finishing department is running double turn making cotton ties. The puddling department is still idle.

Work for a Large Number of Men. The two Isabella furnaces which will be blown in shortly give employment to 400 men.

The True Lavative Principle. Of the plants used in manufacturing the pleasant remedy, Syrup of Figs, has a permanently beneficial effect on the human system.

These shoes tell their own story, and it is a story worth listening to. We can tell you a good deal about shoes in general, but this time we want to say something about our Foot-Form Shoe in particular. It comes in different shapes of toes. Leather is low, and scientific methods have reduced the cost of production. You don't have to pay any more for it than you do for the ordinary shoe. It's far better because it FITS COMFORTABLY. This shoe is as easy on the foot as a slipper; it holds its shape; the material is the very best. Don't think of buying shoes until you have seen

NEW ADVERTISEMENTS

THE EARLY SEAL. Catches the cold and may save doctor's bills. You will surely save dollars at our early seal garment sale, because we are selling at wholesale prices. Our object is to make a good customer of you early in the season. That is about the only profit we get out of "these early seals." They were bought in July at mid-summer prices. You get the benefit of that. The quality of sealskin should be looked at sharply. There is a great difference in seals. As the oldest fur house in Pennsylvania, we have some advantages. People can rely on the genuineness of our furs and our statements. We seldom cry "bazaar," but the fact is, you will not find elsewhere in Pittsburgh our qualities at our prices. They will not be offered in winter. They are for now only. The prices speak for themselves.

FOR THE FALL TRADE.

Window Glass Manufacturers Will Advance Prices 10 Per Cent. The Window Glass Association will meet in Chicago to-day to advance the price of glass. Secretary William Loeffler and a number of other local manufacturers left on the limited last evening for the Windy City. Mr. Loeffler said rates would be raised from 10 to 15 per cent for the fall trade.

"We are entitled to the advance," he continued. "Present prices are from 10 to 15 per cent lower than they were a year ago, so that we are only going back to the old basis. We came down to help out the jobbers, and there is no reason now why the compliment should not be returned. The building operations this summer were extensive and stocks are greatly run down. The prospects for the fall trade are very good and little objection to the advance in prices is expected."

Fixing Southern Rates. A sub-committee of the Pittsburg Freight Committee, consisting of Messrs. Cronish, Woodside, Means and Seymour, met in the Pennsylvania offices yesterday and passed a resolution concerning the Southern rate question. The full committee will hear their report at the Erie office to-day. The members agreed not to be returned, declined to say what conclusion they reached. The chances are that through Southern rates a little lower than the sum of the locals will be adopted.

Trouble Out in Lawrenceville. There were several fights yesterday at Thirty-third street. The only serious disturbance was caused by William Reese, a
