ON TRIAL FOR MURDER.

Joseph and Angelo Zappe Charged With Killing Helmstetter.

THE STORY OF THE STABBING TOLD.

Indictments Against Allegheny Politicians Ignored.

THE NEWS OF THE COUNTY COURTS

The trial of Joseph and Angelo Zappe for the murder of Frank Helmstetter in Bloomfield on July 4 was commenced in Criminal Court yesterday before Judge Kennedy. There are five other persons indicted with the two now on trial, but some of them have never been arrested. They are Annie and Mary Zappe, wives of the defendants on trial, Wm. Reardon, Hannah Reardon

and Joseph Mulvaney. District Attorney Burleigh is conducting the prosecution and J. R. Braddock and W. H. McGary are representing the defendants. Almost the entire morning session was consumed in selecting a jury and no testimony was taken until at the afternoon

Result of a Neighborly Quarrel. In his opening address to the jury, Mr. Burleigh stated the circumscances surrounding the killing. He said the murder was caused by a quarrel over Helmstetter's wife. Helmstetter lived in the house of Frederick Plohr, on Lims alley. The Reardons lived in a shanty nearby. About 6 o'clock in the evening of July 4 Mrs. Helmstetter and Mrs. Reardon got into a quarrel and a little later the two Italians put in an appearance. Helmstetter came out of the house to defend his wife and the Italians drew weapons. Augelo drew a razor and Joseph a butcher knife. During a tussle that followed, it is claimed, they stabbed him in the stomach and he died at

Death Was Inevitable. Dr. T. T. Kirk was the first witness examined. He examined Helmstetter after the stabbing but saw immediately that

nothing could be done. The wounds in the stomach were long and deep.

The principal witness for the Commonwealth was William Oxley. The witness was present when the fight took place, and

when Helmstetter was stabbed he reeled back and tell into Oxley's arms. Mrs. Plohr was the last witness exam-ined. She heard the quarrel between the

two women, but did not see the stabbing. Her attention was drawn to her own son, a cripple, whom she was trying to keep away from the fight.

The case will be finished to-day. The Commonwealth only has about three more

The suit of Eugene A. Maxwell against the Pleasant Valley Electric Railway Company, operating the Observatory Hill Railway, is on trial before Judge Magee. Maxwell was a passenger on a car coming down Perrysville avenue. The car got beyond control, and as it dashed down the steep grade it struck a curve and Maxwell was thrown from the platform. He was terribly injured and sued for damages. The case was tried and he received a ver-

die: for \$12,000. A motion was made for a new trial, and the court decided that if Maxwell would agree to accept \$6,000 the motion would be refused; if not, a new trial would be granted. Maxwell would not accept \$6,000, and a new trial was granted. It is now in progress.

AT THE EXPOSITION.

The Musical Attractions Delight All the Visitors.

Mme. Sisseretta Jones, the famous songstress, known as the Black Patti, and Levy's unrivaled band, were the principal one at both exhibitions in sition vesterday afternoon and last night. Everybody unites in the opinion that the musical combination is the finest ever premusical combination is the finest ever presented in Pittsburg, and the attendance at every performance tells the general appreciation of the efforts of the mana ement.

Levy's band, as well as Black Patti, will be at the Exposition until Saturday night only, and those who have not yet enjoyed these musical treats should visit the big show some time before the end of this week. Last night Mme. Jones sang "Suwanee River" in a delightful way, eliciting rounds of uproarrious appliance. or uproarious applause.

The Conroy, Prugh & Co.

Exhibit continues in great favor with the public, deservedly, too, for finer mirrors have never been seen anywhere. The firm's business has grown immensely and they have had to enlarge their facilities in order have had to enlarge their facilities in order to meet the demands made upon them for their superior work. They make mirrors from the largest to the smallest sizes in all possible forms; plain and fancy plate door lights, also window glass and glass for archi-tectural uses. A point is made in the very moderate prices asked for these superior classes of goods which are of the very high-est grades both in material and workman-ship. For particulars application should be made at the stores, 41 to 47 Western avenue, Allecheny. Allegheny.

Wire Works Exhibit. Taylor & Dean, of 203-5 Market street, have marvelous display of beautiful articles a marvelous display of beautiful articles made of wire and light iron. It is astonishing to see how graceful and attractive they are. The manufactures from heavy iron are even more surprising and include fire escapes, fencings, railings, doors, shutters, bank vaults, garden and porch furniture, etc. For these latter you must visit the establishment on Market street.

Striking Pickle Exhibit.

This, of course, belongs to the H. J. Heinz Company, and well repays the visitor to south gallery. The crowd continues, with unabated energy, to sample the sauces, pickles, etc., which are given freely to all comers. The firm have their own farms, where they grow the finest products, the only kind permitted in their delicious, hunger-inspiring delicacies.

A New Manufacturing Establishment.

The Trethewey Manufacturing Company, of Pittsburg, has purchased from the East Pittsburg Improvement Company a beautiful tract of eight acres or land at Brinton, Pa., on which they will at once proceed to erect large and substantial buildings prior to the removal of their rapidly growing plant to the Turtle Creek Valley. It is to be hoped that a share of the remarkable success that has followed the removal of the Westinghouse Air Brake Company to Wilmerding will attend this later enterprise. When it became generally known that the Trethewey Manu acturing Company has far outgrown its present quarters and would be forced to seek wider fields of usefulness many flattering offers of free land, with a substantial bonus, were made by outlying towns, but a careful investigation of the many advantages to be secured by locating at Brinton, in the way of freight facilities, cheap fuel, a pure and never-failing water supply, and the like, turned the scale as against the seeming, but often deceptive, benefit of a free site. To Brinton, therefore, the prize goes, and in this connection it is not out of place to say that with the advantages referred to it is only a question of a short time until the entire valley at Brinton will be filled with industrial establishments of various kinds and Braddock and Wilmerding bound together by a chain of manufactories unequaled in Western Pennsylvania. Of the First Magnitude Were Drilled Into the Pay Yesterday.

GUSHERS FOUND ON BOTH BANKS.

Light Developments the Rule in McDonald and Local Fields.

WORKING A MYSTERY AT TIFFIN, O.

The developments of consequence in the southwestern oil fields yesterday were all in the Sistersville pool, on the Ohio river. 47 miles below Wheeling. Some of the biggest producers which have so far been developed in that recently discovered region were brought to light yesterday, and on

both sides of the river.

The Sistersville field has now a daily production which hovers in the neighborhood of the 12,000-barrel mark, and from the latest developments it is very likely that this pool may have a daily output of 18,000 or 20,000 barrels before the limit is

reached.

The No. 4 well of Captain Jones & Co., on the J. P. McCoy farm, reached the pay yesterday and startled the natives when it began to toss out petroleum at the rate of 50 barrels an hour. This well is on the West Virginia side, and is located about a mile up the river in a northeast direction

from Sistersville. The other well brought in on the West Virginia shore belongs to the Island Oil Company, and is on the Jacob Tuel property almost in the town. It tapped the pay at an early hour, and according to a late report last evening it was making oil at the

rate of 25 barrels every 60 minutes. The operators on the Ohio side also took a whirl at the sand, and two good wells re-sulted. Although their combined production is only 70 barrels an hour, five less than the two on the West Virginia side, one of them is making 60 barrels an bour. It is Twitchell & Hershberger's No. 5 on the Stewart farm, and is located almost directly northwest of Jones & Co.'s well on the McCoy property in West Virginia.

The Millers Run Oil Company, which was recently bought out by G. W. Henry, of Chicago, not to be behind hand in developments, hit the pay in its No. 7 on the Stewart farm, adjoining Twitchell & Hershberger's well, and it started off at 20 barrels

It was one of the biggest days in the Sistersville field for good developments, and although these wells cannot be said to open up any new territory, or extend the field, they show that the operators who predicted a paying field in that locality knew what they were talking about.

Operations at McDonald. There were no new wells reported in the McDonald field yesterday, aithough several are on top of the sand. Greenlee & lars in Errst's No. 7 Marshall was reported to be two bits in the fifth and gassing strongly. They expected to get the pay late last night. It is located south of Noblestown.

The Woodland Oil Company's No. 1, on the Gladden farm, south of McDonald and just west of the Cubbage farm, has been drilled through the third sand. They had about a 75-barrel well from the Gordon and about a 75-barrel well from the Gordon and fourth sands, but got no increase in the fifth. Yesterday afternoon they were preparing to shoot it in the fourth sand.

Their No. 3, on the Crawford farm, two miles southwest of McDonald, is due to get

the fith sand to-morrow or Saturday. Greenland & Forst have started to drill No. 3 Kirk, which is located in the Messe

No. 3 Kirk, which is located in the Meise hollow, south of Willow Grove.

The Forest Oil Company's No. 6, on the John McEwen farm, southwest of Willow Grove, is due to reach the Gordon sand this morning, in which they expect to find the oil. They will start to spud at No. 5, on the McClelland farm, east of Oakdale, to-day, and they are building a rig for No. 2 on the Stirling, in the same locality.

The Devonian Oil Company's No. 4, on The Devonian Oil Company's No. 4, on the W. B. Moorhead farm, south of Mc-Donald, is due in the sand to-day. The Forest Oil Company yesterday suc-ceded in getting the tools out of the Rob-ert Wallace well in the Meise hollow

ert Wallace well, in the Meise hollow, where they have been fishing for weeks. The hole is 2,050 feet, but they were delayed by a cave at 1,300 feet. There was only one well reported to be

field yesterday. It is Greenlee & Forst's No. 6 Marshall, their No. 2 Noble heirs having been dropped from the list. The estimated production was given as 20,000 barrels, the same as the day before. The No. 3 Freeman of Malarkey & Co., just southwest of Oakdale, has stopped flowing

making 20 barrels an hour in the McDonald

entirely. Light Showing in the Garvin Pool.

CALLERY JUNCTION-The Forest Oil Company's No. 2 on the F. & F. C. Maeder tarm, in the Garvin pool and four miles west of south from this place, was reported last night to be ten feet in the pay and to have made only one flow. Their No. 2 on the Fred Maeder farm is due in the pay the

first of next week.

The Snyder Oil Company's well on the Lucy farm, which adjoins the Fred Maeder farm, was reported to be 60 feet in the sand without a showing of oil.

Work in the Pinhook Anticlinal.

MILLTOWN-The Forest Oil Company was putting in the last casing in its No. 1 Caldwell farm yesterday. Their No. 1 on the Colgan was cased Saturday at 1,900 feet. No. 1 Hamill, belonging to the same com-pany, is in the 100-foot, and their No. 1 Ryan and No. 1 Suively are between 1,600 and 1,700 feet deep.

An Ohio Mystery. TIFFIN, O.—Considerable activity is springing up in this new field. The Sun Oil Company's No. 1, L. Michael tract, section 20, Clinton township, Seneca county, is in the sand and showing some crude. The rig is enclosed by a high board tence and no one is allowed inside.

There have been 19 wells completed in this part of Seneca county, and the sand is found on an average of about 1,460 feet. Two years ago a well was drilled on the Strausbaugh farm, in section 13, Eden town-ship, where the sand was struck at 1,850 with a slight showing of both oil and No. 2, Sawmill lot, section 24, Hopewell township, will make a good producer. The Wenner lot well and the Agricultural well on the bank of the river are the best producers here, doing about 100 barrels each; in these two wells the sand was struck at 1,449 and 1,448 feet.

The Gauges. The production of McDonald was 20,000 resterday, the same as the day before. The nourly gauges of the largest wells at Mc-Donald yesterday were as follows: Greenlee & Forst's No. 6 Marshall, 20. The estimated production was 20,000; stock in field, 46,000.
