READING ACTIVE AND WEAK. The Application for a Receiver for Chicago

RAILEOAD BONDS QUIET BUT FIRM

Gas Breaks the Stock.

NEW YORK, Sept. 30.-The stock market to-day was as narrow as usual, but the animation infused into a few stocks by buying for the account of outside speculators gave the market an active and strong appearance, and in the few stocks which were largely traded in substantial movements occurred. New England again assumed a commanding position in the market under heavy buying, which was believed to be partly for Boston and partly for Chicago account, and while there was nothing definite revealed to show the basis of this confident demand, it was rumored, that the buyers had intelligence of new developments which will act tavorably upon the stock. Another active stock was Chicago Gas, which was sold heavily in the early trading but equally heavy buying soon rallied it completely. Distillers also came in for a share of buying and improved materially. Another im-portant feature of the day was the strength exhibited by the Richmond and West Point

exhibited by the Richmond and West Point securities, especially the 5 per cents.

The meeting of the coal sales agents has had the effect of making a waiting attitude on the coalers, and while Reading was very notive, especially late in the day, when the

nctive, especially late in the day, when the efforts to get it down became most marked, it was held within a range of 1 per ceut all day long and closed within ½ noint of last night's prices. The other coalers were almost entirely neglected.

The effect of the application for a receiver for Chicago Gas at the close of the day was a loss of ½ per cent, with the stock firm at the decline, while the various rumors about different parties seeking control of New England resulted in a rise of 2½ for that stock. The only other important change for the day was in Distillers, which is taken care of by the insiders and a gain of 2½ per cent for the day was. scored. Other stocks were quite neglected, but a firm temper in the early dealing was followed by a general

Boston Stocks-Closing Prices.

GREAT WEAKNESS.

Hog Products Decline Sharply and the Cereals Close Lower.

CHICAGO, Sept. 30 .- Quick, slippery turns and a weak close marked to-day in the grain pits. Provisions were put on a decidedly lower shelf. Compared with last night wheat is 1/2 % lower. October corn is lo lower and May from 1/2 to 3/c lower. October pork is 47/4c lower, January has declined 27/4c and the following losses occurred in lard and ribs: Lard, 23/4c for October and lard and ribs: Lard, 2%c for October and 12%c for January; ribs, 5%c for October and 13%c for January.

The selling out of so much long corn yesterday left the general trade pretty well discouraged. Everything was against the market. The receipts were 70% cars. The contract corn for the day was 437 cars. The Satsurday estimate was 5% cars. The out inspection was light at 170,000 bushels. The weather was most perfect for September. There was nothing but the relatively lower prices to tempt buyers. spection was light at 170,000 bushels. The weather was most perfect for September.
There was nothing but the relatively lower prices to tempt buyers.
Another day of heavy trading was experiented by the oats crowd, the market fluor wheat, 800,000 bushels; corn, 36c. Receipts—Wheat, 180,000 bushels; corn, 36c. Receipts—Wheat, 180,000 bushels; corn, 36c. Receipts—Wheat, 180,000 bushels; corn, 36c. Receipts—Wheat, 800,000 bushels.

tuating with corn and closing from %0 to %0 lower.

The wheat trade had a stupid session. It was current gossip that 800,000 bushels or thereabouts of the wheat bought yesterday at 76c was taken by Leopold Bloom, and that Broker J. Q. Adams had absorbed as much as 2,500,000 bushels at about the same price. The Adams buying was said to be based upon the knowledge possessed by the buyer, who owns a large farm in the Northwest, of the inferiority of this year's spring wheat crop. The receipts from the country sontinue on an enormous 'scale. The outlook is for a 4,000,000 bushel increase in the visible supply statement next Monday, which, if realized, would bring the total close up to 80,000,000 bushels, with at least 18 weeks of further accumulation to look forward to. The total 'amount in the visible supply on January last was in the neighborhood of 43,000,000 bushels, or about what it amounts to now.

SHORT RIBS.

FRIDAY, Sept. 30. Trading in local securities on 'Change for the month ending to-day aggregated 16,406 shares of stock, \$33,000 bonds and \$5,452 serip, against 15,664 shares stock and \$96,-000 bonds for the month of August. For the month of September last year the business on 'Change covered only 5,421 shares of stock. According to the usual calculalations, the figures for the month just closed represent about half the actual volume of business, as transactions off 'Change are, as a rule, quite as numerous as those at the regular boards. The past month, however, regular boards. The past month, however, has been an exceptional one with regard to street and office business. The sales of street railway stocks and bonds on the quiet have been unusually heavy, particularly so with respect to bonds, and in the gassers, industrials, railroads, bridge and other shares private trading has been on a very liberal scale. A conservative estimate of the total business of the month is 35,000 shares of stock, \$400,000 bonds and \$10,000 scrip, and when it is considered that the course of prices has been upward throughout, with the usual complement of reactions, it must be admitted that the month has been a fairly satisfactory one. bushels: rye, 20,000 bushels: wheat, 351,000 bushels; corn, 278,000 bushels; oats, 130,000 bushels; rye, 7,000 bushels; barley, 39,000 bushels.

Course of To-Day's Market. Duliness and strength characterized the list to-day. Airbrake, Philadelphia Company, Pleasant Valley Railway, Westinghouse Electric unassented, first preferred and scrip and Duquesne traction bonds were the items traced in at the calls, with and scrip and Duquesne traction bonds were the items traded in at the calls, with the most activity and strength in Airbrake and Philadelphia Company. Airbrake sold at 143, the highest point yet touched on the prosent capitalization, and Philadelphia Company sold at 22/6022%, closing at 22/6023%. The close on the latter was a little below the highest of the day and somewhat lower than the previous close, but the stock had a strong look despite the fractional softening, which was due more to the presence of Boston selling orders in the market than to any other influence. Pleasant Valley railway was strong at 25% sales, and a close at 25% 256. Electric unassented sold at 24, and the first preferred at 50%, but the second preferred was neglected. At the close 39 was bid for 100 shares, but the closing bid on the New York stock exchange was only 77 per cent, or 35%. During the last call on the local board 35 was bid for any part of \$5,000 worth of the scrip atter a sale of \$1,000 at the same price.

Among the shares which figured in the trading Wheeling Gas was higher at 19% 19% on the strength of the strike of a 27-barrel oil well south of Laurel Hill, a little this side of the McDonald developments, and Union Switch and Signal was fractionally stronger, but the others were unchanged from Thursday's closing prices. Unlisted street railway's closing prices. Unlisted street railway securities closed as follows: Duquesne traction, 28% 22; do 5, 101% asked; r., A. & M. traction, 44% 945; P. & B. traction, 25% 26.

According to these figures accounts and bills payable have been reduced during; the past quarter \$25,005 49, and \$126,000 worth of bonds retired. The indeptedness of the company also shows a reduction from \$492,434 45 to \$25,005 49, and shows a reduction from \$492,434 45 to \$25,005 49, been seen accomplished by the reduction in the bills and accounts payable, the retirement of the bonds noted and the transfer of the security deposits item from the debtor to the creditor side of the statement. The cash on hand July 1 was \$180,210 56, but if the security deposits item had been treated in the July statement as it is now the cash on hand would have been little more than \$100,000. The security deposits item was rightly treated in the July statement, as it is nothing more nor less than a portion of the company's indebtedness. The cash on hand now, therefore, is \$167,694 41, or, in reality, a gain something more than \$70,000. The other prominent features shown by comparisen are an increase in the disputed account, and a large decrease in the disputed account, and a large decrease in the tisputed account, and a large decrease in the disputed account as in the disputed accounts receivable. So far as iffraishing a line on the company's ability to increase its dividend rate is concerned the statements are valueless, as there is no reason to suppose that the dividends paid are not included in the net cash on hand. The last statement, however, shows the company to be in an improved financial condition, with a slight increase in its earning power; but, without going into a close analysis, it is an-Rice in good demand and firm.

A PLAN AT INGRAM

Will Be Placed on the Market To-Day-A Big Deal in Coal Land About Closed -A West Virginia Coal and Coke Plant Gets a Big Loan in Pittsburg.

FRIDAY, Sept. 30. A new plan of lots situated at Ingram station will be placed on the market tomorrow (Saturday). The property contains 12 acres and is the tract recently purchased from the Plummer heirs by Mr. George Johnston, who sold the property to-George Johnston, who sold the property today to Dr. William H. Daly. The plan,
though comprising 12 acres, contains but 20
lots, being 85x370 feet each in
size and fronting on Gratton and
Andrew streets and Broadhead road,
having a frontage of 1,700 feet on Gratton
street, a 40-foot thoroughfare leading from
the station. All lots in the plan will be sold
subject to building restrictions. Subdivision will not be allowed, and all buildings
erected must be 50 feet back from the line.
The terms of this sale could not be ascertained, but it is reported that the price paid
was very large. Items of Gossip.

Items of Gossip.

J. E. Glass is negotiating for the purchase of land containing 20 acres, situated in Homewood, and expects to close the deal in a few days. Mr. Glass is also arranging for the erection of ten houses in the Riverview plan of lots, Twenty-third ward.

George Johnston expects to close within the next few days the sale of a large tract of oral land located in the Connellsville district. The deal involves \$190,000, Mr. Johnston negotiated a loan of \$125,000 at 6 per cent on a West Virginia coal and coke plant.

A local agent departed from the city today and it is expected that before his return a very large deal will have been consummated, the particulars of which will be published in this column in due time.

Building Permits. Building Permits.

The following permits were issued to-day: John Merriman, a two-story brick store and dwelling, Fortieth street, near Butler street: cost \$4,300. Frederick W. Miller, a two-story frame dwelling, Southern avenue, near Cowan street; cost \$1,500. H. F. Oinhausen, a prick addition, No. 75 South Thirteenth street; cost \$1,600. A. H. Leslie, three two-story brick dwellings, Pacific avenue, near Liberty avenue; cost \$6,500 for all. Eliza D. Lucas, a two-story frame dwelling, Enterprise street; cost \$1,700. John Merriman, two two-story brick dwellings, rear Forty-first street, below Butler street; cost \$1,900 for both. Mrs. Slates, two two-story frame dwellings, Harvard street, between Beatty and Euclid; cost \$2,000 each. John Harding, a two-story frame dwelling, Spencer plan, near Lincoln avenue; cost, \$900. J. Mahon, a two-story frame dwelling, Spencer plan, near Lincoln avenue; cost, \$000. Patrick Dobin, a two-story frame dwelling, Dolphin street, between Penn avenue and Baker street; cost, \$2,000. ost \$4,300. Frederick W. Miller, a two-story

The Brokers' Reports. J. E. Glass sold for A. C. Watkins to Her-mann Hohmeyer Jot No. 31 in the Aliquippa Piace plan No. 2 for \$350. E. T. Schaffner, the Hill Top real estate E. T. Schaffner, the Hill Top real estate agent, reports the following sales for the Birmingham Land Improvement Company in their Southview plan: Lot No. 162 for \$500, fronting 50 feet on Birmingham avenue; also sold for same company lot No. 165 to Thomas Brewer for \$350, said lot being 38%x 135 feet. Also sold a small frame house and lot for August Reheis in the Thirty-second ward for \$950 to William Becker, said property being on Mulberry street near Ruth street.

Sale is reported for the Squirrel Hill Land Company of lots 23 and 24 in their plan, Twenty-third ward, fronting 30 feet on Haldane street by 100 feet in depth, for \$1,000.

W. A. Herron & Sons sold lot No. 92 in Wilkins' estate third plan in Edgewood, adjoining the borough of Wilkinsburg, 52x120 feet on Savannah street, for \$550, Also sold lot No. 28 in A. Kennedy's plan, Nunnery Hill, Allegheny, 22x100 feet on River View arenne, for \$450.

A LIGHT MOVEMENT

Quietly in Wholesale Circles, With Few Fresh Features Apparent-Low Grade Sugar Weak-Corn, Feed and Hay

FRIDAY, Sept. 30. September closed quietly in local com mercial circles, the movement in most lines being considerably below the usual Friday average. In grain, flour and feed the features were continued strength in wheat and flour, further weakness in corn, steadiness in oats and slight declines in millfeed and hay, the latter article being in largely increased supply. With the exception of sugar, low grades of which were lower, groceries were steady and unchanged. Provisions were barely steady and dull. Dairy products barely steady and dull. Dairy products were without change, with a continued good demand noted. Poultry was active and at unchanged prices. Vegetables were slightly easier, potatoes being lower, and with the exception of apples, grapes and quinces, fruit was in light supply and higher, peaches advancing to \$2 50@5 60 per crate. The market was glutted with grapes and prices were lower than yesterday. In some quarters it was intimated that butter and cheese would be higher next week. e higher next week.

Grain, Flour and Feed. Sales on call at the Grain and Flour Exchange to-day: One car No. 2 yellow shelled corn, spot, 51c; one car No. 2 white oats, five days at 88c; two cars No. 1 timothy hay, five days, \$13 50; one car mixed clover timothy hay, ten days, \$13 50. Bids and offers:

BESSEMER IS

But an Excellent Demand Prevails for All Grades of Pig.

SKELP IRON AND STEEL ACTIVE. crap and Old Iron Rails in Good Request

MUCK BAR AND SPELTER ARE FIRMER

and Advancing.

FRIDAY, Sent. 30. Trade in raw iron and steel has shown a further improvement. For most descriptions there is a larger inquiry; buyers appear to have made up their mind that further postponement may be dangerous. The situation as regards Bessemer and gray forge pig iron looks more promising, the advantage having been transferred from the buyer to the seller. The statistics of the trade present tangible evidence that the current production is all being taken and more besides, and this circumstance has made buyers a little more anxious. In fact, buyers now have to do most of the traveling,

buyers now have to do most of the traveling, but at the same time the increase has not been sufficient to justify the starting up of new furnaces.

A gentleman west of this city was in town the other duy inquiring the lowest terms for a block of 10,000 tons Bessemer. As the figures did not meet his views he left without purchasing. The undertone of the market is certainly more favorable to makers. The inquiry for iron for prompt delivery is decidedly more frequent, indicating beyond question that consumers have little stock on hand, as their arrangements about deliveries are generally quite close. We hear of certain producers declining to accept orders for late delivery at present prices and some Southern makers have raised their prices a little for certain grades, but this is about the only change on the part of the seller.

An Eastern dealer remarks: "Some good oncerns talk very hopefully in regard to the situation. They have a demand at full current rates for every ton of iron they own, and in some instances have sold their entire output for the balance of the year. Others output for the balance of the year. Others who control large quantities of iron say it requires hard work to prevent accumulation, and that inside prices are the most they can realize on large lots. Both these reports are doubtless actual experiences, and between the two it is probably fair to assume that the market is in moderately good shape among active or favorite brands, but somewhat heavy on medium and low qualities."

Temper of the Market.

Structural material is in active demand and prices are firm with an upward ten-dency. Muck bar is in improving demand and holders firm. In steel billets prices are governed by time of delivery, with the mills well sold up. Mill fron is steady and un-changed. Bessemer sold at \$13 75@14 00. In skelp fron and steel the demand is active and prices are well maintained. Old fron and steel rails are scarce and wanted. Scrap material is active and advancing. Spelte is active and prices are fully maintained. Foundry irons are steady at last week's prices. Taken as a whole the outlook is favorable. Late News and Gossip.

The Bellaire Works have sold all the The Beliate works have sold all the billets they can make to January 1, 1893. The Riverside Iron Works are putting all their steel into skelp for use at their own pipe mill and for end to other pipe mills. pipe mill and for etc. to other pipe mills. Laughlins and the Junction Steel Company are sold up to December 1, 1892. Shoen-berger & Co. cannot spare any of their stock for love or money during October. Jones & Laughlin are running 9 out of 14 of their own mills on steel, and are behind on orders; their main trouble is to deliver enough to parties whose orders they have to keep satisfied. Carnegie & Co. are buyers of steel and not sellers. The Homestead mill is sold up entirely for October and part of November.

Healthy Conditions at Chicago.

Chicago, Sept. 30.—[Special.]—Rogers, Brown and Merwin say: The healthy conditions reported a week ago still continue in this district. The Southern manufacturers are maintaining their position of firmness and are now getting 25c per ton more on nearly all grades than was the case last month. On certain numbers the have advanced prices a trifle more than this on account of heavy contracts booked. Inquiries continue active and are on the increase, yet for the most part consumers are still unwilling to pay any advance in price over figures which were offered during July and Angust. Many of them would now gladly buy at such figures but are unable. Meanwhile manufacturers both North and South are occupying an independent position. Healthy Conditions at Chicago.

Demand Widely Distributed CINCINNATI, Sept. 30.—[Special.]—Rogers, Brown & Co. say: The demand has been widely distributed, coke irons, charcoal irons and softeners sharing in the movement, Bessemer, however, lags. A close eye is kept on the statistics of stocks. It is believed that the report of October I will show another heavy decline. It is certain that some districts are reducing stocks. Personal observation at many plants in the South the past week shows that current shipments are in every case beyond current product. Money is working easier in the West. Foundries and mills find the demand for finished forms maintained even beyond their expectations, Final agency arrangements for the new Tennessee De Bardeleben combination were confirmed during the week. They give to Rogers, Brown & Co., the Ensley, South Pittaburg and Sewance Drands, eight stacks, in all territory west of the Alleghenies, and to the same firm all territory east of the Alleghenies for the De Eardeleben and Allog brands, nine stacks.

No Change at Chicago.

Chicago, Sept. 30. — [Special.] — Rogers, Brown and Meacham say: The same condi-tions exist in the local market as reported. last week. The advance of 25 cents per ton on all grades of Southern coke from is being maintained, and furnaces decline to accept orders at prices ruling last month.

New York Metal Market.

New York, Sept. 30.—Piz iron dull and; steady: American, \$13 00@15 50 Copper quiete lake, \$10 90@11 05. Lead steady: domestia \$4 00@4 05. Tin firm; straits, \$20 35@20 45.
