WITHOUT ONE CLOUD.

That Is the State of the Commercial Sky, According to R. G. Dun.

PITTSBURG'S TRADE IS IMPROVED.

A Firmer Money Market Makes Slower Speculation in Stocks.

commercial sky is without a cloud. Money is everywhere in ample supply, and collec-tions have very rarely been more generally satisfactory. The outgo of money from Western centers for purchases in the country is larger than usual, and yet there is no embarrassment. Crop reports are uniformly favorable and the promise is distinctly better than it was a few weeks ago. In general, business is not only large and remarkably healthy, but the outlook for coming months is everywhere regarded with the utmost

Speculation in breadstuffs is lower, with small transactions. Wheat and oats are nearly a cent, and corn 1% cents lower.

Pork products are higher; pork 75 cents per barrel, lard 55 cents and hogs 25 cents per 100 pounds. Coffee is the stronger, but oil is about 2 cents lower. Western receipts of cattle are 175,000 head against 145,000 the same week last year.

Speculation in the share market has as-sumed narrower dimensions. The present week has not been without further evidence of underlying strength, but the improving tendencies have been confined to limited movements in particular stocks. The firmer feeling of the money market appears to ex-croise a restraining influence and checks the freedom with which manipulative interests have of late created advances in values. country banks in this city seems to be now in full progress.

Tangible evidence of the process is afforded by the stronger condition of rates for call money, which advanced to 5@6 per cent, and, though subject to variations, are more firmly held than has lately been the case. At the same time the advance of expenses are the which in the hearings of the case. At the same time the advance of ex-change rates, which in the beginning of the week seemed likely to lead to renewed gold exports, has been checked. Nevertheless, the stock market has been affected by the dubious financial outlook, outside participa-tion shrinking to still smaller dimensions, while the cliques of bull operators in various specialties have displayed a cautious and hesitating disposition. HELD FOR A HEARING.

other Lawrenceville Striker Up Threatening Charles Oleson's Life. Edward Humphries, one of the Lawren ville strikers, was prosecuted before Alder-man McMasters yesterday by Charles Oleson on a charge of surety of the peace. In his evidence Oleson said that on Thursday night two weeks ago he was in a saloon with two others who work with him in the Upper Union Mills. He claimed Humphries called him several names and asked him if his life was insured, as the towel which witness wore about his neck would be a very good thing to hang him

The witness was weak in his testimony The witness was weak in his testimony and stood the croos-examination of Lawyer Marron poorly. Mr. Breck, on the part of the Carnegie firm, examined Oleson. Another non-union man said Oleson was telling the truth, but on examination became confused and said Humphries had told Oleson that the towel would be a good thing to hang himself with. This changed the tone of the case. Mr. Breck asked that the prisoner be held for court, Mr. Marron con-senting. The hearing will occur on Satur-

TWO BOILERS EXPLODE

They Cause a Damage of \$7,000 to the

Carbon Iron Works. Two large boilers in the Carbon Iron Works, Thirty-second and Smallman streets, exploded yesterday morning. No one was killed, but property suffered considerably.

The explosion occurred just as the night and day forces were changing shifts. Had the mishap come ten minutes earlier or later 100 men would have been killed.
There are 16 boilers and they are located along the west side of the building. They are placed in batteries of four boilers each. The two which exploded were fired by natural gas. So terrific was the explosion that 400 agongre feet of sheet iron reafing was ural gas. So terrific was the explosion that 400 square feet of sheet iron roofing was blown off and considerable valuable machinery was wrecked. The natural gas pipes also exploded, but this caused no damage. The cause of the explosion is not exactly known yet. The loss will not exceed \$6,000 or \$7,000.

AN OLD SOLDIER.

Chat With a Colonel Who Fought Rioter Here in 1877.

Colonel Bonnoffon, of Philadelphia, is at the Seventh Avenue. He has been connected with the military nearly all the active years of his life. He was the captain of the improvised regiment that was mustered and put on the road from Philadelphia in 36 hours to engage in the sup-pression of the great strike in Pittsburg in 1877. He had charge of the supplies at the West Penn Hospital. He said that the punishment of Iams though severe was not half so severe as he might have received from other colonels. The colonel is still strong and vigorous for a man of his years and setting services. and active service.

Ohio Is Republican.

Louis Arrington, a prominent glass manufacturer of Massillon, registered at the Central yesterday. He says there is not the least doubt as to Ohio's Republicanism. "It will give a splendid majority for Harrison," continued he, "and at present that indication is very manifest. Our glass works are running full time, no break or jarring, and the men get the same wages as they got last year."

DEPARTMENT

"Something new for Portieres" has been the cry for the last 10 years. One of the latest arrivals is a new plain Chenille Portiere, in solid color, with choice of 30 shades. This new fabric is the heaviest and closest known to the trade. Its high lustre and closeness of texture give to it in perfection the play of light called sheen, and the quality of hanging in soft folds, both essential to successful decorative effect in door-hangings and window draperies.

In these respects the new fabric is superior to plain flax velour portieres, generally sold at \$13.50 per pair. Our price is only
