"Persuaded by friends, but without much hope, I went to Drs. Copeland, Hall and Byers. I have been under their treatment a little over three months and am now a well man. I have no more pain; my head, nose, throat and chest give me no trouble; my stomach and bowels are all right again. I can eat anything. I am strong and hearty, and can attend to my duties as well as I ever could.

THERE IS SOMETHING WRONG

But the Wrong Does Not Lie With Drs. Copeland, Hall and Byers.

It Is in the Gross Overcharges and Absurdly Enormous Fees of Other Physiclans-The Good That "The People's Physicians" Are Doing in Placing First-Class Treatment Within the Beach of All Cannot Be Computed.

"Doctor," said a lady in Drs. Copeland Hall and Byers' office yesterday, "my sister says there must be something wrong about this, because you charge \$5 a month and the loctors we have been going to charge \$5 a visit. She says there surely must be some

thing wrong."

There is the wrong of it.

Do you understand? "But how can Drs. Do you understand? "But how can Drs. lopeland, Hail and Byers charge \$5 a month or medicines and treatment when other loctors can't?"

doctors can't?"

Because they are willing to work for far less compensation and consequently their practice is enormous. Every dollar that is due them is paid them. They don't have to charge up the bad debts of one patient to the open purse of another.

The public has given them unreservedly of their patronage and its confidence. They feel like dividing, so to speak, with the public the profits of the work; like making their charges so low that all may avail themselves of their skill.

Drs. Copeland, Hall and Byers are putting this in piain words, but they mean just what

Drs. Copeland, Hall and Byers are putting this in plain words, but they mean just what they say. They are sincere in it. They know they are doing good in this community. Expressions of gratitude, good will and encouragement come to them daily from the people, and it is the people whom they are trying to please, not the doctors, nor the druggists, nor the medical colleges.

It is for the public to reap the benefit of this, and for doubting Thomases and jealous critics in and out of the profession to realize after awhile that the vast majority of the public appreciate genuine skill, isirness and liberality.

publicappreciate genuine skill, fairness and liberality.

In treating diseases of the mucous membrane Drs. Copeland, Hall and Byers have no equals. Hence they have the bulk of the practice in catarrhal diseases in the city of Pittsburg. Their new lung treatment is giving relief and is curing hundreds of peopie who have for years suffered with a weight on the chest, tightness and wheezing, from coughing, hemorrhages and night sweats and the other manifestations of incipient consumption. The statements that they publish each week, given by patients who have been relieved and cured by them are irrefutable proof of their ability and success, being, as they are, unpurchased and unpurchasable, free and voluntary, and tendered solely for the purpose of enabling others to profit by the experience of those making them.

A Gripman's Statement. Drs. Copeland, Hall and Byers are compelled to select from an abundance of prof-fered testimony the statements to be published this week.

What can be more convincing than the statements given to day, for instance? Here is Mr. E. E. Mears, of Munhail, Pa., who has been a gripman on cable cars for the past few years. The exposure from the severe and cirilling wind, which constantly strikes a gripman in the face, throat and chest while on duty, brought on a bad catarrhal affection which finally settled in his stomach and bowels.

"During the past few months my stomach and bowels became affected. I finally became so bad that I wemited up everything. I ate, and my diarrhea became severe and persistent. I was losing strength and flosh daily.

"For ten days before consulting Drs. Copeland, Hall and Byers I could not retain any solid lood on my stomach—the only nourishment I could take was milk and it was with difficulty I could retain that.

"I became weak and nervons. My hands shook so I could scarcely hold anything in them. I couldn't sleep, only in little naps, and felt tired and sore in the merning. Every bone and muscle in my body seemed to ache.

"After two weeks' treatment with Drs. Copeland, Hall and Byers I could sit down and eat a big meal without any trouble, and in one month felt like a different person entirely. I can now eat well and have no distress afterward, am galving in flesh and strength, sleep well and awake in the morning greatly refreshed. The weak and nervous feeling has also entirely disappeared."

Few interviews printed in these columns better illustrate the progress and extension of aggravated catarrhal and bronchial troubles, extending to the stomach, permanently impairing the digestion, than that with Mr. Michael Schaffer, a mill worker, who resides on Penn street, Mr. Oliver.

"I had catarrin of the stomach in its most severe form for two years. During all that time it was impossible for me to eat anything without experiencing terrible agony.

"I consulted Drs. Copeland, Hall and Byers August 11, and no one can appreciate the difference between how I reit then and now. I becan to improve at once, and on September 2 just three weeks afterward, went to work again, and could have made full time each day if the work could have been given to me. I am able to work full time now. I cat well, sleep well, have no distressing coughing, or hawking or spitting, the racking pain and weight on chest are gone and I feel like a new man. The most remarkable part of it all is that I derived all this benefit from just one month's treatment, but, to make sure of a permanent cure, I have paid for another month's treatment and intend to keep on, so there will be no chance for a return of the trouble. I have often thought of how much money and suffering I might have saved if I had consulted Drs. Copeland, Hall and Byers a year ago, and put myself under a thorough course of treatment, instead of dilly-dallying along with cough syrups and prescriptions which did me no good."

DEMOCRATS MAKING THE NOISE.

While Republican Managers Are Watching Their Movements.

THE PROSPECTS PLEASE CLEVELAND

FBT ASSOCIATED PRESS. 1 NEW YORK, Oct. 1 .- The week politically oox manufacturer by occupation, has been patient of Drs. Copeland, Hall and Byers for a short time past, and, in speaking of his liness and recovery, made the following closes down here upon a situation which is congested with possibilities. What the tcome of the coming week may be is Statement:
"I was a sick man for four years," said
Mr. Ettien. "I did not know a well day in
all that time. My trouble was brought on roblematic. The foreground of the political field is at present occupied chiefly by the Democratic generals. The Republican forces lie back and watch and wait the movements of their adversaries. The gathing here of Democratic State and National Committeemen and the presence of Mr. Cleveland and Senator Hill all contribute to growing interest in the present Democratic movements here. The arriving of the Democratic clubmen for next week's meeting adds to the spectacle of a Demoeratic sortie.

Ex-President Cleveland has not vet de cided how long he will stay in New York City. His stay will be determined in a measure by the progress of the work on his new city residence. In any event he will remain here till next Tuesday or Wednesday and attend the convention of the Natienal Association of Democratic Clubs. Since his arrival in New York he has seen nearly all the Democratic leaders of the city and State and a large number of prominent politicians engaged in the work of the national campaign. His last caller left the Victoria Hotel shortly before midnight last night # Cleveland Pleased With the Outlook.

The political conditions in all parts of he country have been laid before Mr. Cleveland by the Democratic National ing pains, my nose and near were appearing and spitting. The catarrh finally extended to my bronchial tubes and stomach. I had terrible pains in the chest and in the right side.

"My stomach was in an awful condition. I had no appetite, and, when I forced myself to eat, my food lay like lead, causing a heavy, bloated up feeling with beloning of gas. My bowels were out of order, in fact, I was sick, all over, and my condition became so bad that I thought I could never be cured. I lost flesh and strength steadily.

"I went to a number of physicians and took treatment from them, but obtained no relief. Campaign Committee, and he is said to be well pleased with the outlook, especially in this State and the Northwestern States which the Democrats hope to carry. He told Don M. Dickinson yesterday that he considered Wisconsin, Michigan, Minnesota and Illinois debatable ground, and he expressed great pleasure with the work of the Chicago branch headquarters.

Mr. Cleveland has so far refused to inter-

fere with the work of the Syracuse Conven-tion men. His friends say that it is his intention to keep his hands off of local politics and leave the municipal fight to the men who are engaged in it. He is confident that the State will go Democratio whether there is a third local ticket or not. He has not even expressed an opinion on city politics. The talk about his being adverse to a ticket in opposition to Tammany is pure conjecture, based on the statement of Chairman Harrity and Mr. Dickinson, who are supposed to express Mr. Cleveland's

The Third Ticket Talk. It is not altogether certain yet that a third ticket will be put in the field. Last night the Syracuse Convention men continued the committee to confer with the National Democratic Committee, and instructed it to confer with other Democratic organizations.

This may or may not mean a combination with the county Democrats and Voorhis Democrats. The question will be decided during the coming week.

The general opinion to-day was that if Mr. Cleveland pursues his policy of nou-interference, Tammany will have a fight on its hands this year. Mr. Croker says he does not care whether there is a third ticket or not so far as Tammany is concerned, but he is apprehensive that a fight among the

Democrats might result in the loss of the Legislature and a United States Senator. The State Committee is apparently taking confined to the State above the Harlen river, and it has left New York city affairs to Tammany Hall. It is known, however, that Edward Murphy, Jr., and Lieutenant Governor Sheehan are opposed to putting up two Democratic tickets in this city.

Cleveland and Hill Expected. Preparations have been completed for the meeting of the State league of Demo day. It is expected that Mr. Cleveland and Senator Hill will be present, although and Senator Hill will be present, although
no promises have been received from them.
The following day the National Convention
of Democratic clubs will be held in the
Academy of Music. All the indications
point to a successful convention. Representatives of Democratic clubs in every
State in the Union will be present. It is
still hoped that Mr. Cleveland will deliver
an address.

The members of the National Demo-eratic Committee are expected to be in the city next week. The Western members, Congressmen Cable and E. C. Wilt, will probably come East to confer with their as-sociates and Mr. Cleveland. Senator Ransociates and Mr. Cleveland. Security som, who has been conducting the campaign in North Carolina, will have time to come in North Carolina, Will things considered, to headquarters. All things considered, next week will be the liveliest week of the

DEMOCRATIC SOCIETIES.

The Arrangements for the National Convention This Week Completed. NEW YORK, Oct. 1-All the arrangements for the National Convention of Demperatic clubs, to be held in the Academy of Music on Tuesday next are complete. Secnight making up the enormous batch of credentials received. The reports received indicate that every State and Territory will be fully represented. Chairman Black, of the National Association, will arrive on Sunday and establish his headquarters at the Albemarle Hotel. The North Carolina delegation, numbering about 100, will ardelegation, numbering about 100, will arrive on the same day. They have engaged quarters at the Hoffman House.

The delegations from the Western States are expected on Sunday night and Monday morning. A big club accompanying the Syracuse delegates will leave that city on Monday, and the Pennsylvania clubs, who will come with the delegates from that State, will arrive the same day.

SUPERVISORS IN ILLINOIS.

SPRINGFIELD, ILLS, Oct. 1.—Judge Walter Q. Gresham, of the United States Circuit Court, who is in the city has issued an order assigning Judge William J. Allen, of the District Court, to the duty imposed upon the judge of the Circuit Court by cerain sections of the election law relating to tain sections of the election law relating to
the selection or supervisors of elections. A
petition has been filed by representatives
of Republican League and County Committee asking for such appointments to be
made for this county, and as it is an
unusual proceeding here it is regarded by
the Democracy as a move tending to throw
discredit upon the conduct of elections in
this county and is arousing considerable
feeling.

The two candidates on the old tickets, Governor Fifer and Judge Altgeld, are making two to three speeches daily and are greeted by immense audiences wherever they go, showing the vast interest taken by the people of this State in the contest. Governor Fifer spoke on the school question at Rock Island yesterday. He acknowledged that the present school law bore harshly on that the present school law bore harshly on some citizens and, realizing this, had in his messages recommended that it be modified and the objectionable features eliminated, and that such action on his part was approved and favorably commented upon by nearly every morning paper in the State. He declared himself and party in favor of compulsory education as the foundation of the Republic, he depressed the disposition. the Republic; he deprecated the disposition to cast disfavor upon the law as a whole. Judge Altgeld, the Democratic candidate, spoke on the same subject at Edwardsville, holding the Republican party strictly accountable for the passage of the obnoxious

compulsory education law. The tariff is also receiving considerable attention from all local speakers.

At the meeting of the Republican Campaign Committee it was decided to arrange for meetings of workingmen at noontime in the vicinity of the manner attention earthlish. the vicinity of the manufacturing establish-ments or on the grounds of those establishments at which the issues of the day should be discussed by good speakers, briefly and to the point. GROWTH OF THE SCHOOLS.

Over 29,000 Names on the Rolls in Pit burg-Pay-Day With the Teachers-The elebration of Columbus Day-Odds and

For the first time in the history of the Pittsburg public schools the monthly enroll ment of pupils runs over 29,000. There are some districts to be heard from yet, but the reports already received indicate an increase of pupils over last year of more than 800, and the delayed reports will likely swell that figure considerably. course the suburban districts have the notable increases, the Hiland School leading in this respect, while at the Lincoln School there is a remarkable state of affairs, as the enrollment would entile them to 29 as the enrollment would entile them to 29 teachers while they have but 25 owing to lack of accommodations. However, the school directors propose to remedy this difficulty by at once erecting a school building on a property which has already been secured.

on a property which has already been secured.

Here is the increase in the various schools as far as is reported: Allen, 88: Bedford, 33: Birmingham, 28: Colfax, 37: Duquesue, 20: Franklin, 99; Grant, 16; Hancock, 3; Hiland, 229: Homewood, 46: Howard, 18: Humboldt, 1: Knox, 29: Lawrence, 2: Liberty, 117; Luckey, 70; Minersville, 58; Monongahela, 1: Moorhead, 32: St. Clair, 30: Thad Stevens, 22: Washington, 72: Wickersham, 9: Oakland, 100: Lincoln, 83. The High School report is not yet in but will likely be over 100.

The Grammar Room's Roll of Honor.

The following are the names of the pupils who stand first in the highest grammar rooms of the ward schools: St. Clair school, Bell Phillips; Mt. Albion, Ada Santz; Mt. Washington, Mamie Whaley; Lawrence, Gertrude Crick: Minersville, Louisa Saling; Gertrude Crick: Minersville, Louisa Saling; Colfax, Susie Longeay; Hancock, Nellie McRoberts; Forbes, Edith Schwarm; Knox, Jennie Williamson; Thad Stevens, Harry Rhine; North, Grace Thompson; Peebles, Nellie Cottrell; Raiston, Cora Letters; South, Blanche Spees; Riverside, James Glynn; Bedford, Mazie Cuddy; Hiland, Charles Ellis: Birmingham, Callie Fisher; Lincoln, Christina Miller and Frederick Henrici; Wickersham, Stella Jay; Monougahela, Lester Dougherty; Howard, Lena Litschge and Edward Ambell; Humboldt, John Hoffman; Springfield, Robert W. A Luncheon for a Teacher. Mrs. M. E. Johnston, of the North School, has been elected a member of the teaching staff of the Osceola School, Twentieth ward. Friday the teachers of the North School, not Friday the teachers of the North School, not the directors, who have erronecusly received the credit, served at noon at the school a tasty luncheon, which was a complete surprise to the departing lady. The condiments accompanying the luncheon were the best wishes of her associates in the teachers' profession and the many friends of the North School. Mrs. M. E. Strickier, of the Osceola School, will be floating teacher at this school hereafter.

The Teachers' Guild Election.

At a meeting of the Executive Committee of the Teachers' Guild held yesterday Prof. S. A. Andrews was chosen President, Prof. J. M. Logan, Secretary, and Miss M. J. Gra-ham, Treasurer. A number of names were presented for eligibility to become mem-bers. The regular meeting of the Guild will be on Saturday, October 15.

Celebration of Columbus Day.

Superintendents Luckey, Morrow, of 'Alletheny, Hamilton, of the Allegheny county schools, and a dozen other prominent county and city educators formulated a pro-gramme yesterday for Columbus Day ex-ercises on the 21st of October, which will be uniform throughout the county. The pro-gramme is in the hands of the printer.

The Pay of the Pedagogues. To-morrow, for the first time in three months, the pedagogic element will have its first pay day. This year it is welcomed with exceeding complacency, as the teachers receive a \$5 increase all around. The pay roll amounts to \$45,305 47. That is greater by \$3,500 than last year.

NEW WINTER DANCES

Adopted at the Annual Meeting of Terpsichorean Experts.

EVOLUTION OF THE POLONAISE

Pittsburger Introduces the American Waltz-Quadrille.

HOW TO DANCE WITH EASE AND GRACE

The American Society of Professors of Dancing has held its annual meeting in New York and decided on a number of new dances for the coming season. The votaries of Terpsichere who sat in judgment expect one of these, the Majestic Polonaise, to captivate the dancing public.

"It is the prettiest dance of all," said Prof. Brooks. "The idea is taken from the polonaise as used in Paris, and indeed all over France, as the opening dance. It differs in time and movement from the German polonaise. The last named is slower and all balls are opened by marching to it through the house in order to view the different rooms. The originator of the Majestic Polonaise has started out with the time as given in the French polonaise and added a 6-8 movement in order to make it quicker and more acceptable to an American public. It begins with the old polonaise step and finishes with the minuet step; the figures are done in slow time and majestic movement. The partner and vis-a-vis is first secured, the march follows, after which the music stops till all get in position. The various evolutions consist of balancing, raising hands, posing, changing and re-changing partners, all of which are repeated several times."

A Grand Opportunity for Coquettes Prof. Brooks went through some of the evolutions of the dance, thus giving a better idea of it than any mere description could possibly do, and it certainly is beautiful. The poses are especially artistic, one in particular, in which with hand clasped in the partner's, the arm describes a half circle around the head; looking upward and from under a pretty arm there is an excellent opportunity to cast coquettish glances at the helpless partner and the maiden who is so inclined will find, if she executes this dance gracefully, that it is in her power to crush

the masculine heart completely.
"The dance we think stands next in merit to the Polonaise," said the professor, "is the Royal Gavotte. It starts off with an open movement forward and back, followed by two pirouettes, finishing with salute to partner. To finish the movement step forposition, do galop movement at side, turn half around and repeat the same, change to deuxtemps step and finish with a forward movement, Another accepted was the National Park Quadrille, which is unique, in that it requires eight ladies and four gentlemen. I have doubts as to its popularity or account of this unless the star summer. on account of this, unless it be at a summer resort where men are scarce, as one man can hardly bestow his attention on two ladies at

the same time.
"They form tries at each head and sides, each man having two ladies, and he changes each man having two ladies, and he changes partners constantly, sometimes taking two ladies with hin, sometimes one. Another was the Academy Waltz, which starts out with balancing movements, partners come together and finish with the regular waltz movement. The Columbian Lancers, in which the figures are new and entirely dif-

ferent, was accepted. The Creation of a Pittsburger.

"Three dances receiving favor were the Wentworth, Manitou and Delmonte, the last named being in pazurka time; the first is the prettiest. Another new one is Aurora, which is most graceful, starting out in Spanish movement, changing to sliding waltz movement and ending with the waltz. A new quadrille accepted is the posed of three figures, and the introductory music for each figure is an arrangement of national airs. It is a rearrangement of the old figures and more fascinating than the

plain figures."

This quadrille was Prof. Brooks', and so pleased was the association by it that he already has orders from distant cities for the music. The waltz is to remain un-

the music. The waltz is to remain un-changed, having in the smooth glide reached a state of perfection toward which it has been tending for the the last 20 years. The professor gave the following guides to correct dancing, which may be new to many: "Most people believe that if they learn to keep time with their feet, that is all that is necessary, while the great secrets of graceful dancing is to know how to control the body. In taking steps, the movement should only be from the hips down. The body should be immovable. It seems if correctly used, is to preserve the equ librium. The slightest deviation from this rule causes the dancer to appear stiff and ungraceful. Obey it perfectly, with feet trained to keep time and tune, and you have the secret of the 'poetry of motion.'"

HOW I SAVED A FORTUNE.

A Lady's Experience With a Dru

Ma. EDITOR—I saw in your valuable paper, last week what one of your subscribers had to tell about a "Cure for Drunkennesa." My experience is different. I feel it my duty to the many wives and daughters a hose loved ones are troubled with this disease to say how happy I now am. My husband inherited a nice farm and tlates in cash from an uncle who lived in Michigan, and I thought we would be happy and comfortable for the rest of our lives, but my husband took to drinking and I was afraid that I would have the common let of a drunkard's wife, so I sent to the Golden Specific Co., Cincinnati, O., Stand got a package of Dr. Haines' medicine and gave it to my husband in his coffee every morning for breakfast. He did not know he was taking any medicine, and one day he said he did not think he would ge around to Jim's saloon any more, that whisky did not taste good and he thought he would guit drinking entirely. That was two years ago, and I have never smelt whisky on his breath since. Anyone can get the circular by writing the above firm, or get the medicine for the price. If other people would do as I did there would not be any drunkards' wives in this world.

"Whenever I would go to work the stooping over would cause such a severe pain through my stomach it would start me to vomiting and finally I became so bad I had to give up my work entirely. My appetite failed me and I couldn't sleep. I got up in the morning tired and unrefreshed. I became so weak I could hardly walk around and stargered on the street like a drunken man. I had worked only nine days from last fall and this only by piece-meal. I felt so miserable and became so cross and peevish my wife hated to see me around the house.
