An ignored bill was also returned in the case of Lucien Blair, charged with murder in shooting John Dougherty at Venitia, Pa., on August 7. The cases of M. WOULDN'T ACCEPT \$6,000.

Now Eugene A. Maxwell Gets a Verdict for \$10,125.

In the suit of Eugene A. Maxwell against the Pleasant Valley Electric Railway Company a verdict was given yesterday for \$10,125 for the plaintiff. The suit was for damages for injuries caused by having been thrown from a runaway car coming down Perrysville avenue. The brake on the car was defective, and the car got beyond control. Maxwell was on the platform, and attempted to set the brake. While he was doing so the car struck a curve and he was thrown off and severely injured.

The suit was tried once before and a verdict given for \$12,000 for the plaintiff. A motion for a new trial was made and the court said that if Maxwell would accept \$6,000 the motion would be refused; if not a new trial would be granted. Maxwell would not take the reduction and a new trial was granted. It resulted in the verdict yesterday of \$10,125 for the plaintiff.

A Murder Trial Postponed.

Edward McAllan was to have been placed on trial in the Criminal Court yesterday for murder, for the killing of Gabriel Moseby. Both men were colored. They quarreled in a restaurant on Webster avenue and it ended in McAllan cutting Moseby open with a bread knife. QUIET IN THE OIL FIELDS.

McDonald's Production Drops Off 500 Barrels, but the Old Wells Remain the Same—Many Gas Wells Being Drilled Throughout the Southwest—Other Field News.

There were no big wells developed yesterday. The McDonald field was very quiet and the operators who are in the sand in the Sistersville field were anxious to get their wells to pumping, and after they have exhausted the salt water they are sanguine of finding a pay streak in the sand which will yield a fine quality of oil.

There are still twenty wells even in the McDonald field which have neither been shot or drilled out, and in which their owners do not yet know whether there is oil or not.

Some of these outlying wells, especially those in the region lying west and north of McDonald and in the vicinity of some of the wells drilled by the Royal Gas Company and the Detroit Oil Company, will be thoroughly tested, and if they prove to be any good they will either be drilled deeper into the sand or be started to pump.

The firm of Fort & Greenlee expects to drill in its No. 1 on the Oak Ridge Coal Company's property next week.

There are many wells drilling for gas in many parts of the southwest just at present. Near Centerville, Washington county, the Philadelphia Company has started to put down a couple of wells. They expect to get the gas either in the sand or the 30-foot sand.

The Philadelphia Company has also started to drill four wells for gas. No. 1 on the Monongahela river, in the Elizabeth field, and within a short distance of where John A. Snow brought in his big well on the Howe farm.

The Gauges.

The production of McDonald was 20,000

yesterday, 800 less than the day before. The hourly gauges of the largest wells at McDonald yesterday were as follows: Florence Oil Company's No. 7, 300; Clark & Co.'s No. 3 Freeman, 25. The estimated production was 20,800; stock in field, 43,500.

POSTAL CLERKS WANT BETTER CARS.

They Ask That They Be Placed in a Less Dangerous Situation.

St. Louis, Oct. 3.—The railroad postal clerks are moving for the purpose of inducing the Government to give them safer cars than they are now obliged to work in, which are almost immediately broken into splinters when an accident of any moment occurs to the train.

The situation of the postal car next to the engine or baggage car exposes its inmates to the greatest danger of any person on the train.
