CABLE MESSAGES FROM ALL OF EUROPE

LONDON, Oct. 3.-The labor outlook in the large manufacturing and ship building centers of Great Britain is very threatening. A crisis is probable in the cotton trade that promises to have more widespread results than any of the previous troubles that have courred between masters and operatives. And in the ship building trade of the Clyde omly one-third of the berths are occupied nd no new orders are in hand. It is said t hat 15,000 hands who were employed in rarious capacities about the yards are idle, and those who are still at work are working on short time. To make matters worse for the employes, the masters have now decided to make a general reduc-ion in wages and have announced that engineers, fron founders and ship builders will henceforth receive 10 per cent less money for their labor than heretofore. This reduction is to take effect on October 10. The Clyde miners have also been notified that their wages will be reduced six pence per day on and after the 10th of the current

Rumors have been in circulation for several days past that a large drapery house in the West End of London is hopelessly involved. Commenting upon these rumors to-day, the St. James Gazette says that several great drapery firms are totter-ing under the severe general depression which has affected all ranks of society. This depression was badly felt last Christmas time, when some of the largest drapery shops in the West End did not for days receive a single customer. Many firms, in despair, dismantled their windows and packed their fancy goods away with a view to holding them over until next December. The brother of Duke Clarence and Avon-sinle and Princess May created a demand for a new style of goods, which were no sconer produced than all demand for them was blasted by the death of the Duke, and the dealers were left with thousands of miles of inery on their hands. The absence of a long season added to the troubles. The greater houses found it necessary to extend the credits of the smaller dealers in order to prevent them from becoming bankrupt. This extension of credit was overdone, and unless trade revives by Christmas a collapse will be inevitable. If one big house goes it will take others with it. It is to be hoped that Royalty will set the ball of prosperity rolling. An announcement that the Duke agical effect upon trade.

#### THE POPE AND GERMANY.

'e Does Not Favor an Increase in the Strength of Its Army.

ROME, Oct. 3.-The Pope to-day gave an dience to Herr von Bulow, the new ussian Minister to the Vaticau, who was cently appointed to succeed Herr bloezer. After the formal audience His diness had a private conversation with se Minister. They were closeted together

far two hours. The results of Herr von Bulow's appointment are watched with much interest. There is no doubt that he is persona grata at the Vatican. His position is a peculiar one, in view of the alliance that has just been formed between the Con-servative and Centrist, or Catholic members

of the German Reichstag.
It is upon this new party that the German Government depends for the passage of its bill to increase the strength of the army. The Pope holding the views he does to ward France does not desire an increase in the German army, and it is thought highly probable in official circles in Rome that he will endeavor to prevent the Catholic members of the Reichstag from voting for the measure. It he does not, it is pretty cer-tain that the German Government will have to grant wide concessions to the Catholics Germany in return for the support of the Center party. Dispatches received here from Berlin state, however, that in the formation of the new party the advice of the Pope was not asked as to the policy to

#### SCANDAL IN CASTLES.

Her Majesty the Empress of Germany to Be Called Into Court-The Alleged Daughter of Duke Charles Makes a Demand for Schloss Glucksbourg.

BERLIN, Oct. 3 .- A suit which involves to less a person than Her Majesty, the Em press Augusta Victoria, and her near relatives of Slesvig-Glucksbourg will be called in the common law courts within a few days, and is interesting to Americans from the fact that the Countess of Waldersee, Neelee, whose first husband was the late Prince Frederick of Slesvig and Noer, will They Need a Royal Wedding to Revive probably be called as a witness for either

ontestants or the prosecution.
It appears that the late Emperor William, after taking possession of Slesvig-Holstien in 1866, tried his utmost to be-friend the deposed dynasty. In this spirit he sanctioned the marriage of his grandson, the present Kaiser William, with the pov-erty-stricken Princess of Angustenbourg, erty-stricken Princess of Angustenbourg, reviled by Bismarck's agents at one time as the "Countess Pretender" of Slesvig, and that of Prince Frederick Leopold, of Prussia, to her sister. He did more. He distributed the eastles and crown estates of the Holstein family among its various homeless members, and thus put them on their feet again. They are all comfortably well-fixed at the present time.

at the present time.

Among the castles Emperor William gave away was the Glucksbourg schloss, which he turned over to Duke Charles of Slesvig, husband of Duchess Wilhemine, the daugh-ter of the late Prelate VI. of Denmark. Both the Duke and Duchess are dead, and the present incumbent of the title and heir of the estates has up to a few weeks ago considered himself the undisputed pro-prietor of Schloss Gucksbourg. Then the specter of a scandal was dashed before his eves—a letter of a lady belonging to the eyes—a letter of a lady belonging to the highest nobility in the country who showed him deeds and other legal instruments to prove that her daughter is the child of the late Dake Charles, who, she claims, left her all her personal property, and selected Schloss Glucksbourg for her residence.

Duke Frederick Ferdinand, who, like the rest of the family, always considered his late uncle a model of propriety, refuses to believe the lady's statement, and save the documents are not sufficient legal evidence. The lady therefore appealed to the Kaiser, who, however, refused to interfere in family affairs. All hopes of an amicable arrangement being ended, the case will now be tried in the open courts, and a good deal of dirty linen will be washed.

Her Cornet Solos at the Exposition Enraptured Everybody-Were Encored to the Echo-Ellis Brooks' Band Scores an Instantaneous Success.

Miss Alice Raymond, the talented cornet virtuoso, made her debut before a Pittsburg audience at the Exposition last evening. Her success was instantaneous and lasting. The appearance of the lady the keynote of her great was hit, and her figure encased in a rich garb of white satin helped to win her sympathy. When the first notes of Rossini's "Inflammatus" rang out in the sweetest harmony from her silver cornet the vast audience was When she had finished and Eilis Brooks' baton had fallen on the last chord of

Brooks' baton had fallen on the last chord of the accompaniment it was easy to see what the people's verdict was.

Levey had come and gone, and so had the colored diva who so amazed the visitors with her phenomenal voice. Both had captured the hearts of the music lovers who had seen and heard them. The triumph achieved last evening by Miss Alice Raymond soared high above all that came before her. No such cheers or applanse were ever heard within the Exposition walls, and so her debut ended. Brooks and his famous band scored a merited welcome. His music deserved it. There was nothing half and half about the reception accorded him.

half and half about the reception accorded him.

It was a great day and a brilliant night at the Exposition. Society was out in full force, and the perfume of a million roses flooded the warm atmosphere with its fragrance. Away off in the corner of the vast crowd could be seen Manager Johnson looking engerly for the initial success of the handsome virtuoso.

During the day about 70 orphans from the Home of the Friendless, Allegheny, were entertained. They were chaperoned by several nuns connected with the institution. They had a joily time in the "carousel" and made a couple of trips in the steamboat. A splendid musical programme has been arranged for to-day, when Brooks, his band and Miss Raymond will appear during the afternoon and evening.

PASSED ONE BRANCH.

Allegheny Select Council in Favor of Voting to Increase

CITY'S INDEBTEDNESS.

\$2,250,000 Is the Fum Peing Asked for by the Departments.

PUBLIC WORKS COMMITTEE DOINGS

Allegheny Select Council last night passed the ordinances submitting to a vote of the citizens at the general election the proposition to increase the city indebtedness \$2,250,000. Of this amount \$1,000,000 is to be spent in streets, sewers and lighting. The remainder is to be used in extending the water supply.

Discussion on both sides of the question was general. During the talk Mayor Kennedy referred to the progressive policy of Pittsburg. In concluding his remarks he mentioned the fact that Allegheny had twice voted on an increase of her indebtedness and was unsuccessful. If this time proved the same there would be a frightful exodus of Allegheny people over into Pitts-

The ordinance for the improvements was taken up first. The \$1,000,000 is divided into \$600,000 for street improvements, \$300, 000 for sewers, and \$100,000 for lighting. Mr. Henricks offered an amendment to make the ordinance read \$600,000 for "streets and roads." He contended that the rural districts should be looked after, and about \$100,000 set aside for the condemnation and improvement of the Brightor, Perrysville, and Sawmill Run roads. The rural districts got nothing as it

President Lindsay asked how about the \$300,000 for sewers. Mr. Henricks admitted that most of that went to the rural districts.

The Fitness of the Day Discussed. Mr. Kennedy said\_if the ordinance was amended it would have to lay over and could not be considered at the November election. He called attention to the fact that in addition to the \$300,000 for sewers the lighting appropriation would go largely to the outlying wards. It the people in the rural wards wanted the cifv to help on their roads they must first do something themselves, as the people in the old wards did when they originally paid for opening and paving their streets.

Mr. Lowe thought the election should be held on a special day; twice the waters had

and paying their streets.

Mr. Lowe thought the election should be held on a special day; twice the voters had rejected such propositions on a regular day. Mr. Henricks also wanted a special election.

Mr. Kennedy said the only objection to the regular election day lay in the fact that all the people would be out. Let the idea get out among the people that there was a scheme to have a special election and put the thing through with political machinery, the affair would be dead. He wanted the question settled when all the people would be at the polls. In the course of his remarks he said: "I am aware the people have twice voted down such propositions, but I believe there is a change of sentibut I believe there is a change of sentiment. Across the river there is a far more thriving city. It is spending money for public improvements and it is drawing Allegheny's life blood. If this city does not do something there will be an exodus to Pittsburg in the spring that will be frightful."

The Ordinance Passed Unanimously.

Mr. Henricks' motion failed, the vote standing 5 ayes to 5 noes, and then the ordinance passed unanimously.

The water extension proposition of \$1,250,000 came next. Mr. Henricks opposed it on the ground that it was not enough. Mr. Kennedy outlined the plans as had been given to him, and Mayor Kennedy spoke in layor of it. The Mayor said that no matter what system was finally adopted, whether it was a reservoir further up the river, driven wells or the Indian Run scheme, the pipe must be laid up the river. The money asked for was sufficient to get a better supply of water for five years to come and not a cent would be thrown away. In the course of his remarks he said Chief Bigelow, of Pittsburg, had asked him to have Allegheny join in baving a preliminary survey made of the Indian Run Valley.

Allegheny's share would be about \$5,000.

The ordinance was passed unanimously.

Mr. Kennedy then introduced a resolution orizing the Finance Committee to join

authorizing the Finance Committee to join with Pittsburg in having the Indian Run survey made. The resolution was referred to the committee.

Mr. Kennedy also presented from the Finance Committee ordinances creating a sanitary fund of \$10,000 to be expended by the Mayor and the Chiefs of the Department. ments of Works and Satety in cleaning up the city; adding \$3,000 to the health appro-priation; directing the Mayor to file the bond of the city to cover damages caused by a change of grade on California avenue; to refund assessments for opening a street from Verner avenue to Verner station; all of which were passed.

Some Minor Ordinances Passed. The ordinances giving the city the use of the two top cross bars on all telegraph and telephone poles for the police and fire alarm wires; giving the contract for removal of dead animals to E. O. Czarnecki at \$2,000 a year, and for locating engine houses in the Seventh and Eleventh wards, were called

up and passed finally.
In the Public Safety Committee meeting permission was given to a number of people to erect wooden buildings. The petition of A. H. Kaunofsky to erect a stone and wooden building in the rear of 74 and 76 Taggart street was referred to a sub-committee, as there were remonstances against

Osterling, architect, stating the tower on the Columbia engine house could be torn down and a new one something on the style of the Eifel Tower erected in its place for

about \$5,000.

Mr. Robinson thought that Allegheny should follow the example of Pittsburg and other large cities and do away with the sounding of fire alarms on the big bell. Chief Murphy said something would have to be done, as the old tower is in a dangerous condition and the men in the engine house were in danger of their lives. The matter was referred to a sub-committee.

Mr. Daniel Arnhein has shipped from Ottawa, Canada, 36 head of horses, 20 of which are extra heavy Canadian draught horses; 16 head of hacking cobs and English coach horses. They were noted as the best lot of horses that have left Canada this year, and will arrive at the Arnheim Live Stock Company's, Limited, stable, 52 Second avenue, on Wednesday morning. We invite all lovers of horses, whether wishing to purchase or not, to call and see them. The Canadian horse is noted for his hardy constitution and is considered far superior ior all purposes to any breed of horses we have in this country. Trey will be sold at low margins.

A ROYAL ROAD TO LEARNING

burg School.

The public schools of Wilkinsburg enjoy the advantages of a method of study of spelling and reading that has never been seen in this part of the country until this year. It is common in Western cities, and is slowly making its way East. It is circle, and thereby enrich themselves by

yesterday, where Miss Mae Swanson is engaged in teaching a large class of small children to read by the Pollard method. Her pupils were all under 7 years of age, and all were deeply interested in the lesson apparently. On a large blackboard were marked words of two syllables, which the children learned by sound. For example, "a-t," "at," was shown, and the teacher gave the sounds of the two letters as they are uttered in the word "at." The same principle was followed in other words, and it was worderful to see how quickly the principle was followed in other words, and it was wonderful to see how quickly the little ones grasped the idea. From the word "at" the teacher built up other words, putting a "e" at the beginning, and making it "cat," and so on.

Miss Swanson says that the synthetic method is the best that was ever invented for teaching the common branches of reading and spelling. The children are so interested in their lesson that the school hour expires before they know it. There are

expires before they know it. There are never any signs of impatience or fatigue, and it is a fact that children can study by this method for a much longer time than by this method for a much longer time than by any other yet invented. It affords the teacher abundant opportunity to impart instruction in a pretty way, so that the lesson becomes a sort of round game, in which everyone takes an equal part.

Prof. Anderson, the principal, is enthusiastic over the success of the experiment. He brought Miss Swanson to Wilkinsburg with the firm conviction that her system of teaching would be beneficial, and he says it is more than equal to his ex-

ne says it is more than equal to his expectations.

Some Geographical Facts.

Hindoostan is about 25 times as large as the State of New York, and the Sahara Desert has almost the same number of square miles as the whole of the United States. The Mediterranean Sea would cut breadth, making an ocean sea from New York to Vancouver. Great Britian and Ireland have about the same number of square miles as Arizona.

Medical Men's Meeting.

The Southside Medical Society held its first meeting of the season at the office of Dr. Duff on Carson street last evening. There was a full attendance. The society tarted in this year with 28 members, having lost two members during the past 12 months. Dr. Werder, of the West End, read a paper at the meeting. The society will assemble weekly from now on.

Against Masquerade Balls. The Terrence Murphy Camping Club, Half Moon Camping Club and the Friendship Independent Martial Band, all of the Southside, were refused permits by Chief Brown yesterday to hold masquerade balls. It is the intention of the department to put a stop to many of these entertainments.

Improvement, the Promise of Cure. No array of words can give a dyspeptic one-half the hope that comes from the re-lief which always follows the use of Bur-dock Blood Bitters, and the promise of cure

dock Blood Bitters, and the promise of cure is never broken.

"Having suffered from dyspensin for two or three years, I decided to try B. B. and after taking one bottle I found myself so much better I got another bottle and after taking that I had no more need of medicine.

"MRS. G. C. WHITE.

Taberg, N. Y."

Don't pay for daily bread and then groan with dyspepsia when a bottle of B. B. B. will give you relief. Repeated tests with uniform success prove that dyspepsia cannot withstand B. B. B.

"I have taken the second bottle of Burdock Blood Bitters, and it has cured me of dyspepsia with which I suffered for six years.

Now being made to our building for the easy handling of a large stock of wall paper will not be completed until October 15, until which time we will offer the same low prices made during our remnant saie. On account of being so upset we must offer extra inducements to buyers, otherwise a great part of our stock will be ruined if not sold. Next year the prices of wall paper will be higher. Buy now—you will save money. We pay 8c postage on samples of wall paper, which we send FREE to any address. If the samples were not the best and our prices the lowest this money would be wasted. We pay freights on all orders of 33 or over. When you come to the Exposition call and see our stock.
