AND EVERYTHING MOVES UP

Under the Lead of New England, Reading and the Industrials,

RAILROAD BONDS ACTIVE AND HIGHER

NEW YORK, Oct. 4.-Not in months has the New York Stock Exchange presented such a scene of activity and excitement as to-day. From the very opening to the close the dealings were animated. At times the market was positively buoyant and the orders executed for out-of-town account were responsible to an unusual extent for the strength that prevailed. There was a sharp upward turn in prices at the opening, owing to an attempt on the part of a large bear interest to cover a line of shorts in the grangers. The Rock Island statement for September, which was made public to-day, together with reports that the bulk of the corn crop was safe beyond peradventure from frost, induced the bears to change

front.

The buying of New York and New England was as pronounced as ever in the early part of the day. The reports connecting the company with the Boston and Maine and Reading were again put afloat. They were denied by persons in interest, but after the close of business hours it developed that a deal had been consumpted at least according to those it developed that a deal had been consummated, at least according to those having intimate relations with the Reading and New England roads. According to these statements, the New England has neither been absorbed nor leased, but has made a satisfactory traffic arrangement with the Reading and Boston and Maine which will incre to the benefit of all three companies. New England stock advanced 2½ per cent to 45½, but later dropped to 44½ and closed at 45½. Reading was prominent and on enormous purchases by Philadelphia houses supposed to have full knowledge of the new alliance with the New England sold up to within a fraction of 60.

New England sold up to within a fraction of 60.

Chicago Gas moved up 13%. The local pool appears to be marking up the price chiefly on the strength of the short interest created by the renewal of litigation against the company. General Electric jumped from 113% to 117% on the announcement that the United States Court of Appeals had affirmed the decision of the lower court in the incandescent vacuum lamp bulb suit. Distilling and Cattle Feeding and National Cordage were also higher on talk of enormous earnings and a probable increase in dividends on the last named.

About 1 o'clock the list was bnoyant, especially for Burlington and Quincy, Rock Island, Northern Pacific preferred and Reading. The sharp rise, however, brought out offerings to take profits. The room was quick to perceive this, and promptly took neasures calculated to force additional liquidation. The decline from the highest point of the day was equal to 2% in Distilling, 2 in New England, 13% in General Electric, 13% in Lake Shore and 3% and 1% in the remainder of the list. At the close the market was steadier again at a recovery of 1% to 3%.

Entiroad bonds were in brisk request

ket was steader again at a recovery of 24 to 34.
Railroad bonds were in brisk request throughout and prices generally were higher. The Richmond Terminal issues continued to advance on the improved prospects of the company. Northern Pacific 5s declined 3 to 74 on the formal dissolution of the syndicate in the bonds.

Government bonds were dull and firm. Close of the list;

aiming snares closed as follows:
Cholor

tAsked. Total sales of stocks to-day were 549,400 shares, including: Atchison, 14,800; Chicaro Gas, 45,600; Eric, 7,000; Hocking Valley, 5,400; Louisville and Nashville, 9,300; Missouri Pacific, 7,300; Northwestern, 3,490; Northern Pacific preferred, 30,300; New England, 87,200; Reading, 102,700; Richmond and West Point, 18,304; St. Paul, 25,800; Union Pacific, 8,600; Western Union, 4,600

A BULGE IN WHEAT.

Corn. Oats, Pork and Lard Also Rule Somewhat Higher.

CHICAGO, Oct. 4.-A cent bulge in wheat sustained to the finish was the feature on 'Change to-day. Corn gained %c. October pork and lard are up 12%c. The presumably cornered October ribs were stationary at last night's figures.

Decidedly more life was manifested in wheat than for some time past. The open-ing was about 1/26%c higher than the closing figures of yesterday, ruled strong and prices

celpts, too, in the Northwest showed some let up and operators expect a still greater falling off in the movement in that section. Reports from abroad said that the threshings in England were very disappointing. The wheat was of poor quality and English millers were in great need of dry foreign wheat. It was also reported on the floor that William Dunn had worked a cargo for Europe at is advance on former quotations. The amount of wheat and flour on passage showed a decrease during the week of 568,000 bushels.

Corn was stronger and higher, the receipte falling considerably below the estimates. The shipping demand remains active and the out-inspection continues heavy, 440,000 bushels being reported to-day. Another reason for the strength was found in the strong tone which ruled in the wheat and provision markets. The Liverpool market was quoted \(\frac{1}{2} \) lower, but it was said that stocks there and in other British ports are light, and that there is a likelihood of a good export demand this winter. The dry weather is reported as already affecting pastures in the West, and this would mean a more liberal feeding of corn to stock. Eastern markets are said to be poorly supplied with corn and there is a good demand from that source, as is evidenced by the liberal daily shipments from here.

Oats followed corn pretty closely throughout the session, and was finally quoted at from \(\frac{1}{2} \) to \(\frac{1}{2} \) cabove recent figures.

The provision market opened with only a light trade, and that was the condition of the market throughout the session. Firmness should perhaps be added to the day's market characteristics. The cliques in command of the ribs and lard deals still maintained their ascendancy and prevented any trading, except of the character which is ventile their ascendancy and prevented any trading, except of the character which is

market characteristics. The cliques in coumand of the ribs and lard deals still maintained their ascendancy and prevented any trading, except of the character which is usually described as having a string to it.

Freights were steady at the recent advance. A cood business was done at 2½c for wheat and 2½c for corn to Buffalo.

Cash quotations were as follows:
Flour quiet and unchanged. No. 2 spring wheat. 73½@73½c; No. 3 spring wheat. 73½@73½c; No. 2 sorn. 4½c; No. 2 corn. 4½c; No. 2 corn. 4½c; No. 2 corn. 4½c; No. 2 red. 73½@73½c; No. 2 barley, 62@63c; No. 2 red. 73½@73½c; No. 2 barley, 62@63c; No. 2 red. 73½@73½c; No. 2 barley, 62@63c; No. 2 f. 0. b. 36@50c; No. 1 flaxseed, \$1 07@1 08: prime timothy seed, \$1 57; mess pork, per barrel, \$11 00@1 10b; fard, per 100 lbs, \$6 35; short ribs sides (koose). \$7 70@10 15: dry saited shoulders (boxed), \$7 10@7 20; short clear sides (boxed), \$7 26@8 00; whisky, distillers' finished goods, per gallon, \$1 lb; sugars, out loaf, unchanged; granulated unchanged; standard "A" unchanged; No. 3 corn, 43½c.

bushels.

wheat than for some time past. The opening was about 1/4 % higher than the closing figures of yesterday, ruled strong and prices were advanced about 3/2 more, closing steady within 1/2 of top prices. The improvement was attributed to stronger English cables and to the decrease in the quantity or wheat and flour on occasing passage as reported by Beerbohm. Local receipts were under the estimate. The re-

SOME HEAVY TRADING

In a Number of the Leading Shares of the Local List.

P. & B. TRACTION MOST PROMINENT. Pollowed by Philadelphia Company and

THE LATTER WEAKENS AT THE CLOSE

Electric Second Preferred.

TUESDAY, Oct. 4. The calm was succeeded by a storm. The dullness yesterday was followed by marked animation to-day. Activity characterized the market, both on and off 'Ohange, but, as was the case yesterday, there were about as many weak points as strong ones, though the majority of changes were declines. The shares most prominent in the trading were Philadelphia Company, P. & B. traction, Westinghouse Electric first and second preferred and

Pleasant Valley Railway.

The feature of the day, perhaps, was The feature of the day, perhaps, was presented by P. & B. traction. One broker alone sold 750 shares of the stock on 'Change and considerable of it changed hands in the street and office transactions, the price not only holding its own but advancing and closing above 25. A little talk was heard about pairing orders, etc., but the buying orders executed were very evidently for inside account, the stock being wanted for voting purposes at the approaching annual meeting of the company. A good deal of this buying, it was said, was for the account of the Philadeiphia citique.

of the company. A good deal of this buying, it was said, was for the account of the Philadelphia clique.

Philadelphia company was rather freely offered, but it was well absorbed and the stock closed firm at about the opening price. There were sales after the close at 224, which was the official coosing bid, but it did not look as if it would go much, if any, below that price.

Electric closed weak and lower under the influence of the action of the Court of Appeals of New York in sustaining the Circuit Court's decision in the case of the Edison Electric Light Company against the United States Electric Light Company, one of the Westinghouse Electric's leased companies, and if the stock should sag further, as seems probable, Philadelphia Company may sympathize with it to a certain extent. Electric closed weakest in the East.

Pleasant Valley Railway closed looking a little soft, presumably because of the Maxwell verdict against the company, but H. M. Long bid 25 for 500 shares despite the verdict. During the last call, and after bidding 28% for a small lot of P. & B. traction, W. I. Mustin, of George B. Hill & Co., offered 500 shares of that stock at 28%. During the day he also offered all the Philadelphia Company the crowd would take at 23%, and A.J. Lawrence bid 23% for 500 shares.

The Market's Movements.

The Market's Movements. Westinghouse Electric second preferred sold at 38% at the first and second calls, and was offered down to 38% at the last board, with 37% btd. The closing bid on the New with 37% bid. The closing bid on the New York Stock Exchange was 38. The first sale of Philadelphia Company was at 22%. This was followed by a number at 22% and the close was at 22% 22%, with sales at 22% after the close. Central traction sold at 29, which was the only quotation made. The initial transaction in P. & B. traction was 500 shares at 26, Carothers to Sproul & Co. At the third call the same seller disposed of 250 shares more at 26% and the stock closed looking strong at 26% and closed at 25% 20%. Pleasant Valley Railway sold at 25% and closed at 25% 25%. Electric scrip sold at 23% per cent and the first preferred at 50%.

Among the shares not traded in United States Glass was steady to firm, Airbrake was quoted at 136@140 ex-dividend; Electric unassented was off to 28 bid, Citizens' traction was strong at 63% 23%, with a sale off 'Change at 63%; People's Natural Gas was higherat 28% bid, Luster was barely steady at 8% 26%. Duquesne traction was all but completely neglected and others were featureless.

Unlisted street railway securities closed as follows: P. & B. traction, 28% 25%; P. A. & M. traction, 44% 245; Duquesne traction, 296294; do. 5a. 101% bid.

Allegheny Valley preferred was offered at 14 and American Brake at 56.

Westinghouse Electric.

Westinghouse Electric.

A telegram from New York states that the United States Court of Appeals in the case of the Edison Electric Light Company against the United States Electric Light company, for an infringement of a patent on the incandescent vacuum lamp bulb and for damages and royalties, had affirmed the decision of the lower court, which was in favor of the Edison Company. The United States Company being leased by the West-inghouse Electric Company. decision of the Edison Company. The United States Company being leased by the Westinghouse Electric Company, the decision affects the latter, as it had been operating under the patent for the infringement of which the lessed company stands convicted. The decision was known on 'Change this afternoon, but, while Electric softened under its influence, it was thought to have been discounted more or less by the drop from close to 40. What the full effect will be remains to be seen in the course of the stock following a perfect understanding of the decision and to what extent the company will suffer by it. The popular impression seems to be that the Westinghouse Company will be compelled to pay a large sum of money in the way of royalty for past operations under the patent; but one of the officials of the company, while declining to talk much about the matter until he had read the decision, volunteered the statement that the Westinghouse Company would not be hurr by it.

The decision of to-day probably settles the matter, as, according to our understanding of it, the case is not one that can be carried to the United States Supreme Court. The Court of Appeals, which rendered the decision to-day, is the new court that was organized for the purpose of relieving the Supreme Court as much as possible of questions affecting patents and patent infringements, and its action, as a rule, is final.

The suit was first brought in 1885, and on July 17, 1891, Judge Wallace, of the United States Circuit Court, decided that the Edison Company was entitled to the patent on the incandescent lamp. An appeal was taken and Judge Wallace was sustained this morning in every particular. The patent has six years to run, and the decision, according to the attorneys of the Edison Company, is worth millions to that corporation.

Talking on this subject late this afternoon a sentleman well up in Electric affairs said-

Company, is worth minions to the corporation.

Talking on this subject late this afternoon
a gentleman well up in Electric affairs, said:
"The Westinghouse Electric people will not
cry over the matter. The new invention of
the company, which has been hinted at
lately, is nothing more nor less than a new
lamp, which, it is said, will revolutionize
the electric lighting business."

A Victory for Westinghouse.

A Victory for Westinghouse. A special from Harrisburg to The Dis-PATCH says: It appears from a comparison of the records here with the decisions rendered in Pittsburg yesterday by the Surendered in Pittsburg yesterday by the Supreme Court that the general result is a very important victory for the Westinghouse companies. In the case of the Westinghouse Airbrake Company the State claimed \$39,788 40 tax on capital stock for 1895, \$44,841 15 for the year 1890, and \$52,314 67 for 1891. M. E. Olmsted, of this city, attorney for the company, appealed from these claims to the Dauphin county court, which reduced them to \$9,520 88, \$18,182 57 and \$14,-379 88, respectively, a total reduction of about \$95,000, and the Supreme Court has approved the action of the Dauphin county court.

proved the action of the Dauphin county court.

In the case of the Westinghouse Electric and Manufacturing Company the claim of the State was \$15,793 57, tax on stock for 1899, which, upon appeal, was reduced by the Dauphin county court to \$1,439 14, but is now increased by the Supreme Court to \$6,601 89, the company still saving about \$10,000, and it is proposed that the ruling will affect its future taxes to the extent of about that amount each year. amount each year.

The September Fire Loss. The fire loss of the United States and Canada for the month of September shows a marked reduction from the sum charged against the same month of the year 1891. Th September total this year was \$7,879,800, as against \$10,658,200 in September, 1891, and \$6,943,700 in September, 1890. The following statistics will exhibit the losses during the first nine months of 1890, 1891 and 1892:

	1890.	1591.	1992.

the end of June: while the pet gold fund is \$119,393,000, compared with \$114,342,000 on June 30. The increased balances have removed all trace of anxiety as to the condition of the Treasury for some months to come, and leave little room for doubt of its ability to meet the obligations imposed by the appropriations for the current fiscal year. The showing made for the month of September is also better than had been anticipated: the customs revenues being larger by \$3,000,000 than those of the same month last year, despite the restrictions on imports incidental to the precautions against cholers.

A statement issued by the Treasury Department to-day shows that during the month of September there was a net decrease of \$3,377,639 in money and builton in the Treasury. The circulation per capita October I, is stated at \$32.

Financial Notes. Off 'Change A. A. Adams sold to shares Citizens Traction at 63%.
Assistant Secretary Nettleton said to-day that out of an issue of 4,000 \$10,000 legal

Assistant Secretary Nettleton said to-day that out of an issue of 4,000 \$10,000 legal tender notes there is but one note now outstanding, and that there are but three \$5,000 notes outstanding out of a total issue of \$20,000,000.

The City Deposit Bank has declared a semi-annual dividend of 5 per cent, payable on demand.

James Carothers was the seller of P. & B. traction, and Sproul & Co., Kuhn Bros. and Hill & Co. were the buyers. The former took 500 shares in one lot. Mr. Carothers also sold Central traction to Lawrence & Co. J. J. Campbell was the chief seller of Philadelphia Company. H. M. Long and B. F. Arensberg also sold. The buying was pretty well distributed.

Lawrence & Co. sold Electric second preferred and the buying was done by Sproul & Co., J. B. Barbour and Carothers. Morris & Brown, Hill & Co. and J. T. Patterson sold Electric first preferred and J. D. Bailey and Thompson & Co. bought.

Ramsey was the buyer of Pleasant Valley and Sproul & Co., Kuhn Bros. and Stouey were the sellers.

The plan to establish a joint sales agency of of the product of bituminous coal companies Ohio, Illinois, Pennsylvania, and West Virginia is making good progress. The roads interested are the Pennsylvania, Baltimore and Ohio, Toledo and Ohio Central, Hocking Valley, Columbus, Shawnee and Hocking, and the Wheeling and Lake Erie. The new association would have been completed had it not been for the opposition in the anthractie trade, but the close of the fight will find the new association ready for business.

George C. Magoun, who has returned from Europe, says a decidedly better feeling prevails in Londou financial circles without any apparent activity. During the summer liquidation was going on in certain building and deposit banks. This liquidation is about over, as is also the cholera seare. A great many prominent financiers have not yet returned from their holidays. Foreign holders express decided confidence as to the condition and prospects of the Atchison Company.

It is stated that the lead company has over \$

It is stated that the lead company has over \$1,000,000 cash, more than \$7,500,000 worth of supplies on hand and bills receivable, and this, with its real estate, machinery patents, etc., make its total present cash value near \$25,000,000. With the \$15,000,000 preferred at par, and the \$15,000,000 common at 60, the whole valuation of the property would only be \$25,000,003, with a capacity to

	earn interest on its full \$30,000,000 capital	L.

BIG DEAL ON PENN AVENUE

Under Way Which May Result in a New Theater for the East End-Government Property Will Be Offered Again at Public Outcry—Gossip and Latest Sales. TUESDAY, Oct. 4.

It was reported to-day that the sale of the property situated on the corner of Penn and Negley avenues would be closed in a few days. The agents who are engineering the deal say that the sale will reach the point of settlement before the close of the present week. The property has a frontage on Penn avenue of 200 feet by 123 feet in depth, and the price asked, and which will in all probability be paid, is \$40,000. The intending purchasers are several local capitalists who are several local capitalists who are interested in one of our leading theaters, and they have intimated that their intention is to erect a magnificent playhouse on the premises. The names of the parties interested could not be ascertained, but the particulars of the deal will be given as soon as publicity is warranted.

Items of Gossin. By order of the Government the property on the corner of Penn avenue and Garrison alley will be offered for sale once more at public outery at the Chamber of Commerce on Wednesday morning, November 16. C. G. Weaver, Esq., who recently pur-chashed a lot fronting 108 feet on Marshall avenue, near Perrysville avenue, has com-menced the erection of a handsome dwelling on the premises.

avenue, near Ferrysville avenue, inc. commenced the erection of a handsome dwelling on the premises.

One of Pittsburg's prominent capitalists to-day expressed his intention of investing \$200,000 in city property, and notified a prominent broker to this effect.

One of the city hotels is likely to change, hands soon. A conference between the owner and intending purchasers will be held in the office of a well-known real estate agent to-morrow (Wednesday) morning at Il o'clock.

Building Permits.

Building Permits.

The following permits were issued to-day:
J. L. Tritschler, a three-story business and
dwelling house, No. 1210 Carson street, cost
5,600. F. J. Kellenberger, a brick addition,
108 Fulton street, cost \$3,000. J. G. Eckstein,
a two-story frame dwelling, O'Hara street,
act. \$5,000. John near Ellsworth avenue, cost \$5,000. John Clinton, a two-story frame store and dwelling, Penn avenue, between Forty-fifth and Forty-sixth streets, cost \$1,800. M. E. Black, a two-story frame dwelling. Wauen street, near Rebecca street, cost \$975. The Latest Sales.

Charles Schwan sold to John Braun lots Nos. 27 and 30, in the Highland Park plan, having a frontage of 100 feet on Stanton avenue, for \$3,000.

A. Z. Byers & Co. sold for John A. Roth :

new frame house of three rooms, hall, etc., with a lot 25x100 feet, on McIntyre street, Tenth ward, Allegheny, for \$1,400.

George Schmidt sold another lot on Lookout avenue, 20x131 feet, to an alley, being lot No. 148 in his Eureka place plan, Oakland, to Peter McGrath for \$600 cash.

Morris & Aisblit sold lots Nos. 24 and 25 in the Oakland place plan, 24x100 feet each, for \$1,500.

W. A. Herron & Sons sold a lot on Arabella street, East End, 20x100 feet with a frame dwelling of four rooms for \$1,400, on the easy payment plan. Also sold a lot 20x100 feet on Dauphin street, near Evaline

NO CHANGE IN CREAMERY.

Sales Made on the Elgin Butter Board at Last Week's Prices - Grain Generally Easier and Flour Firmer-Sugar Easy at the Decline-Revised Quotations.

TUESDAY, Oct. 4. Sales of creamery butter were made on the Elgin butter board yesterday at last week's prices, and in consequence present quotations here will remain unchanged this week. Production is running ahead of consumption, it is said, but it is being bought up and held in storage for an advance that is expected a little later on, which explains the steadiness with which prices are holding. Well-known makers of country butter are finding a free outlet at good prices. Cheese is holding its own, but the market does not appear to be quite so Eggs and poultry are having a free move-ment, with the latter showing a stiffening tendency despite liberal receipts. Live chickens still have the call.

ontokens still have the call.

Sugar is reported easy at the decline, with
which exception grocery staples are ruling
strong, with rice, molasses and syrups more
active.

The first Jamaica oranges of the season The first Jamaica oranges of the season put in an appearance to-day at \$8 per barrel. Corn touched a lower point on 'Change to-day and the rain market generally was weak. Flour, however, was reported in good demand and it was stated that winter wheat patents could not be purchased now at the prices prevalent last week.

Supplies of grapes to-day were the beaviest of the season. Receipts now are mainly from the grape growing sections of New York State.

The crop of potatoes this season is esti.

York State.

The crop of potatoes this season is estimated at 177,000,000 bushels against 225,000,000 bushels the year before and 135,000,000 bushels in 1899. Michigan is going to have a beter crop than was generally expected early in the seasoh. There will be a lair crop of late potatoes in Minnesota, Wisconsin and Michigan, the quality of which, however, is still uncertain.

still uncertain.

In many portions of the country a new class of dealers representing the Farmers' Alliance has come into existence, and is taking much of the trade from those formerly engaged in distribution.

There is quite a scarcity of peaches in the There is quite a scarcity of peaches in the market at present, and but poor prospects for much fruit after this time. Michigan is the only section in the West that can be looked to now for supplies.

Imports of woolens, linens, silks and raw şilk have been greater than last year, and this increase still continues, notwithstanding increased duties.

The applie supply in some sections appears to have exceeded early estimates. Evaporated stock is consequently offered at somewhat modified prices.

Information for Iron Men.

The following table of sales of raw iron and steel for the past six months will be valuable for reference. It is compiled from the sales published weekly in The DISPATCH. Taking the labor troubles into consideration they show up fairly well, being only 25,988 tons less than the same time in 1891, during which occurred the largest volume of sales which occurred the largest volume of sales on record for any previous year. The sales of six months, 1892, exceed all previous years except last year. Had it not been for the misunderstanding between capital and labor the present year would unquestionably have beaten all previous records:

Weekly sales of raw iron, six months, past five years: five years:

Foreign Financial.

LONDON, Oct. 4.—Amount of builtion with-drawn from the Bank of England to-day, £50,000.

Paris, Oct. 4.—Three per cent rentes, 99f 57½ centimes for the account.

PHILADELPIA, Oct. 4.—Wool in improved demand at unchanged prices.

New York, Oct. 4.—Wool in good demand and firm: domestic fieece, 25@35c; pulled, 20@33c; Texas, 15@21c.

St. Louis, Oct. 4.—Wool—Receipts, 90,000 pounds; shipments, 126,000 pounds; market unchanged; bright wools in fair demand and steady, but lower grades demand very slow.

London, Oct. 4.—At the wool sales to-day 14,575 bales of average quality were offered. There was a large attendance. The competition was active for secured, crossbreds and greasy merino. There was little demand for faulty parcels.

General Markets.

General Markets.

Minneapoils—There was good buying for some time until wants were supplied, then there was a break, but the continued receipt of bull news from various sources led to buying, and the market advanced to a strong close. December made a net advance on the session of about ½c; May did a little better than that; December opened at 71%0 71% c and closed at 71%0, after selling up to 71% c and closed at 71%0, after selling up to 71% c and closed at that figure. The cash market was slow; No. 1 Northern was the only line that received anything like prompt attention. Receipts of wheat here 392 cars, and at Duluth and Superior 294 cars.

Baltimore—Wheat firm; No. 2 red spot and Baltimore—Wheat firm; No. 2 red spot and October, 74%: December, 78c. Corn stendy; mixed spot, 33@53%c; October, 59%c. Oats firm; No. 2 white Western, 38@38%c. Rye steady and firm; No. 2, 84c bid. Hay easies at \$14 75@15 53. Grain freights quiet and unchanged. Provisions firm. Butter steady; oreamery fancy, 25c. Eggs quiet; Western, 20c. Coffee—Rio, fair, 17%c; No. 7, 155%c. Buffalo - Wheat - No. 1 hard, 894-6844/ce No. 1 Northern. 754/ce No. 2 red, 79c; No. 2 corn, 49c. Receipts - Wheat, 550,000 bushels, corn, 150,000 bushels. Shipments - Wheat, 235,000 bushels; corn, 230,000 bushels.
