THE PITTSBURG DISPATCH, WEDNESDAY, OCTOBER 12, 1892.

A MONSTER PARADE,

Twenty Thousand People to Be in Line in the Columbus Celebration.

MONEY IS BADLY NEEDED.

It Will Cost \$1,500 to Properly Observe the Occasion.

SCHOOL CHILDREN HAVE A DAY.

They Will Dedicate the Columbus Grove in Echenley Park.

THE PLANS ARE NEARLY ALL AERANGED

Arrangements for the Columbus celebration are fast being made. The plans are about all arranged, and now there is nothing to do but work up the details. If everything is favorable it will be the largest demonstration ever held in Pittsburg. Every part of the county will be represented, and man, woman and child, without regard to nationality, creed or color, will pay homage to America's discoverer.

Yesterday afternoon the General Committee met at City Hall. There was a misunders anding about the time of meeting and the attendance was small, but those present transacted considerable business. It was decided that it would take \$1,500 to rightly celebrate the occasion. Up to date there there has only been \$400 collected. One of the principal things done was to arrange for the soliciting of aid. This will be commenced at once. Chairman McDowell, of the Finance Committee. thinks there will be no trouble in getting the desired funds. The Finance Commit-

tee will meet to-morrow and divide the territory into districts, so that the collections can be made systematically. Mr. O'Donnell, of the Finance Committee, reported an increased interest in the affair by business men. He had collected, in addition to what he had previously reported, \$100 from the Iron City Brewing Company, \$25 from S. S. Maroni, \$10 from the Grocers' Supply Company, \$20 from T. D. Casey, \$5 from Philip Hoerr, \$10 from Harris' Theater and \$25 from Fred Gwinner. It any money is left over after the expenses of the celebration are paid, it will be given to the hospitals of the two cities.

Arranging for the Music.

The committee arranged for an orchestra of 23 pieces to be selected from the best talent of the citics for the entertainment on the night of October 21. Major Denniston said, in regard to a controversy about the engaging of bands, that there would be but four bands employed for the parrade. Three of the number have already been hired and it is not yet decided whether the fourth will be needed. The proposition to hire 10 carringes for the Judges of Allegheny county and the Justices of the Supreme Court was made. It was held open for further consideration. Mr. Meitershausen submitted a very neat bidge that his sub-committee had agreed on as the proper souvenir. It is a

the hill for the purpose of considering, the matter of holding an inde pendent demon-stration on Columbus Day. But a few were present and very little business was transacted. Another meeting will be held next Monday evening, at which it will be decided whether or not the hill organiza-tions will turn out with the Southside division. Speaking of the matter after last night's meeting, 'Squire Soffel said: "Our people think, the general parade will be too large. We think further that Mt. Oliver, Allentown, Beltzhoover, Mt. Washington and Duquesne Heights are entitled to a parade of their own. We have 16 or 18 different organization in the several hill wards that would make a very credit-able turn-out if we get up a parade of our own. The organizations will consider the matter this week and the representatives will be instructed how to vote at next WANT LOWER DUTIES. will be instructed how to vote at next Monday night's meeting."

THE HEATH ZOUAVES IN LINE.

The Old Company Reorganized and Will Parade on Columbus Day.

The "Heath Zouaves," of Allegheny, held a meeting in the Allegheny Common Council Chamber last night to make arrangements concerning the part they will take in the Columbus Day parade. This was the first meeting the organization has held for over four years, but there was a good turnout. L. K. White was elected good turnout. L. K. White was elected Chairman of the meeting and George N. Lacock Secretary, both of whom made short addresses on assuming the duties of their offices. Lieutenant John McGowan was elected commander of the zouaves, vice Captain Merritt Bachelor, who is too ill to attend to the duties of the office. There are 110 members of the "Heath Zouaves," of Allegheny, still living, but they are now scattered all over the coun-try. Reports from 60 members were re-ceived last night, all of whom say they will be present and take part in the Columbus

be present and take part in the Columbus Day parade, and on motion a resolution was passed that the organization would ac-cept the invitation of Chief Ehlers to parcept the invitation of Chief Enlers to par-ticipate in the parade, and be his escort. It was decided to adopt the cld regular "Heath Zouaves" uniform. The following committee was appointed to draft a set of resolutions regarding the illness of Captain Batchelor: Messrs Lacock, McLaughlin, McGowan, Reese and White.

STOCKHOLDERS' MEETING.

The Birmingham Traction Company Get

Together and Elect Directors. The stockholders of the Birmingham Trac tion Company met yesterday in the Superintendent's office at Carson and Thirtieth streets, Southside. Quite a large number of the shareholders were present, and a good deal of important business was disposed

Mr. Tener, Secretary of the company, read his report for the year ending on July 1. It showed the gross earnings on July 1. It showed the gross earnings for three months past to be \$89,132 71, expenses \$39,-585 20, leaving the net earnings at \$49,451-51. This the Secretary said was very much of an increase over that shown by previous statements, although it does not amount to any more than three per cent on the stock. It was decided by the meeting

o issue bonds on the Knoxville branch of the road. The following directors were elected to

serve during the ensuing year: H. Sellers McKee, President; D. Z. Brickell, M. A. Verner, T. H. Given, Thomas M. McKee, Thomas H. Bakewell, and E, E. Denniston. After the election a permanent organi

zation was periected.

DELEGATES ARE ARRIVING.

The Biennial Convention of Engineers an Firemen to Meet To-Day.

Delegates to the biennial convention of the Brotherhood of Engineers and Firemen were arriving in Pittsburg yesterday. medalion suspended from the United States They came from all parts of the country as shield of stars and stripes. The face displays a bust of Columbus in bas-relief in the Union. About 50 members atwearing a crown of laurel, his name and tended the informal meeting in the 1492 encircling the rim. On the hall at Twenty-sixth street and Penn the afternoon at 2 o'clock. No business was transacted, as no quorum was present. The first regu lar meeting of the convention will be called to-day. Chief Arthur, of the engineers, and Chief Sargeant, of the firemen, are expected in the city this morning in time for the opening of the convention. About 100 delegates are expected. The convention may last all week, as there is a great deal of business to be trans-acted. The intention is to form a firmer union and arrange for meetings to be held oftener. This closer uniting of their inter-ests is for their mutual benefit, and not to take a stand on the wage question.

An Oil Report Made by a Committee From the Chamber of Deputies

REJECTED BY THE GOVERNMENT. Paul-Emile Girodet Sent to Pittsburg to Do the Work Over Again.

LARGER FOREIGN MARKET IN SIGHT

Paul-Emile Girodet, Vice President of the French Chamber of Deputies, registered at the Schlosser yesterday. He is a prominent man in the republic, and holds his seat from La Loire district, which was once represented by the late notorious General Boulanger. Mr. Girodet's visit to Pittsburg is of great interest to the oil men who want higher prices for their product. While the American exports of the crude and refined are extensive, they are not nearly as large as they should be, and it is to the foreign market that the producers must look for help. The French levy very heavy duties on

Yankee oil, so that America is not the only country that believes in protection. The t ax, however, is so oppressive as to be al-most prohibitive. The oil is imported from Algiers, Russia and the United States. The bulk of it comes from this country.

A McKinley Bill Pointer. The French have finally discovered-probably they receive their pointers from the McKinley bill-that it doesn't pay to tax so heavily an article that is not produced in their land, and Mr. Girodet was sent to America to gather statistics about the grades of oil with a view of having the tariff greatly reduced. This is what the American oil men want. In connection with Mr. Girodet's visit there is an inter-

esting story. Last winter a committee was appointed by the Chamber of Deputies to do this work. Three members came to the States and spent considerable time in the oil fields around Pittsburg about six months ago. They were intelligent and one could speak English fairly well. They regis-tered at the Monongahela House and were interviewed by a DISPATCH man. When they made their report to the French Government it was rejected. The French

are a very suspicious people, and in some way they learned that the Standard officials had been hobnobbing with the committee. It was charged that the committee had been hoodwinked by the wily Standard people, and all the information they received came from agents of the great oil corporation. Then Mr. Girodet was ordered to go over the ground and verify the statements made by the committee. He was instructed not to avoid Standard agents, but to accept their information cum grano salis.

He Visited the Standard.

On his arrival in New York, Mr. Girodet visited the Standard office, and was given a letter of introduction to Mr. Young, of the letter of introduction to Mr. Young, of the Forest Oil Company, in this city. Mr. Girodet reached here yesterday morning, and fell into the hands of the independent producers. Through the courtesy of ex-Senator J. W. Lee, Messrs. Shannon, Barnsdall and others Mr. Girodet was driven through the McDonald oil field. Unfortunately the Vice President can't meak or understand a word of England Unfortunately the Vice President can't speak or understand a word of England. John B. Schlosser, who handles the French fluently, was called in, and the points of interest in the oil district were pointed out. Mr. Girodet, who by the way resembles Gambetta in the face, was delighted with what he saw, and marveled at the oil resources around Pitts-burg. He wished they had such attantisbarg. He wished they had such extensive deposits of oil in his country. The French-man spent the day in the McDonald field and returned to the hotel late last evening. He will start back for France this morning. The arranging of the oil duties will come up in the French cham-ber next month and this is why he is in

AFRAID OF DEPUTIES. sheriff McCleary's Officers Have More In-

fluence Than the Military-Troops Expected to Be Removed Thursday Morning-More Men Going to Work.

The militia will be taken away from Iomestead on Thursday morning-that order is reported to have been received yesterday. Colonel Hulings would not discuss the matter, but it was common talk among the soldiers, and the commissary in-formed a number of merchants in town that no supplies were to be delivered later than Wednesday night. In anticipation of the immediate withdrawal of troops Sheriff McCleary has begun to increase the number of deputy sheriffs. There were six new deputies brought up from Pittsburg and five of the old force were laid off. In the morning about a dozen additional deputies are to be added.

The deputies are really more feared, or at least more obeyed, than the soldiers, for they have been in town so long, and knowing everybody, have a certain influence which militiamen have not, for every wrong-doer knows if he creates disorder he will be arrested, because the deputies

would be certain to recognize him. It is currently reported in Homestead that Isaac Critchlow is to return to work this week and the charges against him are not to be pushed. Critchlow is a member of the Advisory Board. Thirty-two of the steel workers who

Thirty-two of the steel workers who started from Knoxville, Tenn., to work in the mill arrived yesterday and were placed at work. They were former Pennsylvan-ians who went South when the iron hoom began and were discouraged. Arnold Frank says 50 Slavs reported for work in the norming

Piant says of Slavs reported for work in the morning. Peter Johns, colored, 21 years of age, working at the Homestead Steel Works, had his skull badly fractured by the falling of a crane yesterday. He was taken to the West Penn Hospital. His injuries are very serious, if not fatal.

BOARD OF EDUCATION.

Chairman McKelvey Benders an Important Decision on a Minority Report.

At the meeting of the Board of Education last evening, the committee on the plan of examining candidates for admission to the High School, reported that it would have a statement ready for the next meeting. This committee was appointed last spring and presented majority and minority reports at the June meeting. After a bitter fight both reports were rejected. The fol-lowing day the Secretary notified President McKelvey that he had made a mistake in the roll, and that the minority report was really approved by a majority of one vote. The Secretary officially notified the board at its next meeting, but no action was taken on the matter on the matter.

At last night's meeting, when the com-mittee reported, President McKelvey said that the Sceretary having declared that the minority report of June had had a majority, he would rule that the minority report had been adopted, and its provisions would regulate admissions to the High School. There was some opposition to this, and it was plain that the minority report was not in general favor. A motion was made, however, to discharge the committee, but there were so many objections that the committee was continued. They will bring in another plan. In the meantime the minority report plan. In the meantime the minority report is in force. It is but very little different from the present plan, excepting that the pupils are examined in the sub-district schoolhouses instead of at the High School. The Committee on Evening Schools recommended that they open on November 4 for 40 nights under the usual rules. The report was adopted. The committee on the Fifth avenue market site reported that an ordinance giving that building to the Cen-tral Board had been presented in Councils and was referred to the Committee on Pub-lic Works. Superintendent Luckey re-ported an enrollment of 29,237 pupils for September. This is 759 more than in Sep-tember, 1891, and 613 more than in any pre-vious month of the school history.

HELPING THE CAUSE ALONG.

WORLD'S FAIR WOMEN.

They Meet and Confer With an Assistant Commissioner.

GLASS ROOM AT THE BIG SHOW.

An Allegheny Minister Protests Against a Proposed I xhibit.

RARE WOOD CARVING TO BE SECURED

An enthusiastic meeting of the Woman's Board of the World's Fair Commission for Allegheny county, was held in the committee's rooms yesterday afternoon. About 18 members were present, as well as Lowden W. Bichards, Asssistant Commissioner of Board of World's Fair manathe gers. After the reading of the minutes of the previous meeting, a report of the various committees was called for. The Committee on Art reported that they had made favorable progress, having obtained prom-

ises from four lady artists for specimens of their work. Art needle work will be represented by the Woman's Exchange, who have undertaken to make a lot of fancy work which will be sold as well as exhibited in the Woman's Building at the Fair. The convents in the county will also contribute largely to this branch. In the art of music, Mrs. Lippey has composed a chorus, with orchestrated parts, which she

fluence in having the composition placed may be rendered at the Fair.

LADIES' tion consisted chiefly of statistics of the FUR GARMENTS. public and private schools. It was not complete-not all of the private and none

of the parochial schools having sent in their returns. The Moral Reform Committee have had hard work in getting the material required.

One of the members said she did not believe popular priced to novthere was much of moral reform in Allecheny county. This committee has also been instructed to inquire into the miselties of the highest sionary work of the county.

Many Local Lady Inventors. Perhaps the most satisfactory report was the new styles of Jackthe one submitted by the Committee on Science and Invention. After a great deal ets, Mantles, Capes. of labor the committee found that there had been 21 women inventors who were granted patents in this county since 1790. In the State there have been 205 patents granted women, but these are mostly in Philadel-Storm Collars, includwomen, but these are mostly in Prinade-phia county, all other counties except Alle-gheny having but two or three female in-ventors. The articles patented range from a cosmetic and footpad for a sewing ma-chine to a rotary engine. One woman patented a compound propeller pump. The Public Health Committee reported ing the new Cleopatra and Princess styles, Muffs, Boas, etc., in 202 women engaged in hospitals as superin-tendents, matrons, nurses, etc., and two women physicians, two dentists and two pharmacists. There are 42 sisters engaged in relieving the sick in the various Catholic hospitals

Furs, Mink, Stone Martin, Persian and hospitals. The Social and Economic Science Com-mittee reported about 25,000 women engaged at work in Allegheny county, of whom 10,-000 work in factories. Here Mr. Richards

Russian Sable Neck suggested that the matter wanted by the commissioners regarding occupations for women was more the distinctive work than Scarfs.

commissioners regarding over the distinctive work than the general employments. After the various reports had been heard, Mr. Richards explained at length the points in the circular under which the committee has been acting, which were not fully un-derstood by the members. In the colonial and curios department the ladies found that the owners of relies did not care to risk them out of their possession, even if they should be fully covered by insurance. The matter of selecting an alternative to fill they should be fully covered by insurance. The matter of selecting an alternative to fill they should be fully covered by Mrs. Rutan mov-ing from the city, was not acted upon. The board is anxious to obtain pictures of celebrated women in the county, with short celebrated women in the county, with short

TWO MINNEAPOLIS VISITORS. General George H. Bracket Inspects the Local Exposit General George H. Bracket, President,

and W. G. Byron, Secretary of the Minne-apolis Exposition Society, were in the city yesterday. General Bracket is the most popular man in the Northwestern flour eity. Everybody who attended the Republican

Coverybody who altended the Republican Convention feels grateful to this hustler of the hustlers. The people of his city want to elect him Mayor, but he will not have the job under any conditions. He is one of the most public-spirited men in Minneapolis, and public-spirited men in Minneapolis, and much of the credit for securing the conven-tion is due to his efforts. He rented build-ings, hired beds and made all the Repub-lican visitors to the city comfortable. Mr. Byron served in the same battery during the Robellion with Colouel Hudson. They had not met since the war until yesterday. The visitors collect on the Coloural in the poetories and since the war until yesterday. The visitors called on the Colonel in the postoffice and he was delighted to see them. The Min-neapolis Exposition closed several weeks ago, and as soon as it was over the started East to get pointers for next year. Yester-day alternoon, chaperoned by Assistant Postmaster Edwards, they attended the Ex-position. They left for home last night.

Matthew Strugke, a music teacher from Mansfield, was enticed under the Tenth street bridge last evening by William Patton, a well-known crook, and another man, and relieved of \$60, after getting a severe beating. Officer Conway followed the men under the bridge and arrested both Strugke and Patton. The latter's companion got awav. desires to have placed for inspection and asked the General Committee for their in-

before the Committee on Music so that it The report of the Committee on Educa-

se is shown the middle group of the well-known picture of the discovery, and encircing the rim is the incription "400 Auniversary of the Discovery of America, October 12, 1892." The committee adopted it as the official hadre.

Foreign Fings Not Barred.

A false idea has gotten out concerning the flags which are to be carried in the parade. Many people think that none but the American stars and stripes will be allowed. This is a mistake. Every country on the face of the globe will be at liberty to display the colors in the parade. Banners of a political or advertising nature will be barred. This does not prevent trade displays, but just what will be done by the merchants in this line is not known yet. The jull committee will meet Friday afternoon at 4 o'clock in City Hall.

The celebration of Columbus' great achievement will cover two days. It will be started off by the school children of Pittsburg and Allegheny on Thursday, Oc-tober 20. It was first intended to have everything take place on one day, but it was soon found that there would be too much going on to do that. Last night the Central Board of Education decided to hold the school children's exercises on Thurs-

Grove to be Dedicated.

day.

The public schools will not be the only ones represented, but all pupils of all parochial and private institutions as well. The morning of the day will be devoted to patriotic exercises in the different schools, at which the veterans will be in attendance. The afternoon will be spent in schenley Park. The thousands of little school children of the tro cilles will gather there and dedicate Columbus grove. With touching services a border of trees will be planted around the grove. On each returning Columbus Day the memories of Christopher Columbus will be revived by the planting of a tree in his grove. The children will defray the expenses of their own exercises. They will

have a vacation from Thursday at noon until the following Monday. On Friday Pittsburg and Allegheny will cutdo themselves. In all their history there has never been such a grand parade as will grace the streets of these twin cities. Allegheny county is to be on the streets. Color, party and creed lines have been abandoned for the day. The one aim will be to properly commemorate this greatest day in American history.

20,000 Men Will Be in Line.

As nearly as can be judged now there will be 20,000 people in line. The parade will be divided in four divisions which are military, Pittsburg, Southside and Alle-gheny. The Fourteenth and Eighteenth Regiments and Battery B, will comprise the first division. The other three divisions will be made up of all kinds of crganizations and societies, political, social and beneficial. The Hibernian Rifles of the county have assured the committee that that will have at least 7,000 men in line. The parade will be formed about 10 o'clock in the morning. Its route has not been de-cided upon yet, but the principal streets of the cities will be paraded.

Some time during the day the United Italians of Pittsburg will lay the founda-tion for the Italian monument in Schenley Park. The services there will be pretty and impressive.

In the evening a meeting will be held in Old City Hall. Mayor Gourley will pre-side. The programme will consist of music and addresses by prominent people. H. P. Ecker will have charge of the musical pro-gramme. If Old City Hall will not accom-module all the more acrefor meetings will modate all the people overflow meetings will be held in different parts of the city.

AN INDEPENDENT CELEBRATION.

Sou thside Organizations Want to Celebrate Columbus Day Themselves.

There was a meeting in the Mt. Washington Mænnerchor Hall last night of representatives from various organizations on

MARY AND JOHN.

A Love Affair That Didn't Pan Out Ends in Court.

Mary Chenlousky will likely be married this atternoon to John Kezanark or it will not be her fault. Judge Succop will very possibly be the master of ceremonies. John was boarding at Mary's house for the past eight months, and for some time past was strongly attached to the young gi.l. Two weeks ago he proposed marriage to her and was accepted. The date of the celebration was set for Monday last. On Saturday Kezanark and Mary went to the Court

House and procured a license. At the appointed time on Monday John failed to materialize. Mary searched the Southside high and low for her intended without avail. The police, however, lo-cated him and brought him to the office of Judge Succop, who sent him to jail to await a hearing. The case will come up to-day, and the Judge expects to have to marry the tariff on his return home. pair.

Sweeney Has a Better Job. John Downey and John E. Wilson, of

Chicago, two officers of the Switchmen's Brotherhood, registered at the Schlosser last evening. Mr. Downey said they were in town to attend the convention but he had no news to offer. He stated that Sweeney as the editor of the Switchmen's organ had a much better job than being Grand Master of the order. He is free from responsibility. Mr. Downey added that the men generally are satisfied with their wages, but some are kicking. He consoles himself by saying that it is hard to please everybody.

Arrested for Peddling Blankets.

William Eckert, Charles Lambert and Robert Smith were arrested by Officer Cross on Wylie avenue yesterday afternoon on a charge of peddling without a license. The men had a lot of new blankets they were trying to sell from house to house. They were taken to the Central station, but later were released on \$100 bail each for a hearing to-day.

Fell Sixty Feet.

Oliver Hoffman, of 301 Ferry street, while putting up a building over an engine at Shoenberger's Sixteenth street mill yesterday, slipped and fell 60 feet to the ground, lighting on his back. His spine was injured, but not seriously, and he was more frightened than hurt. Hoffman is 30 vears of age.

Voting on the Southside.

The election board of the Second district of the Twenty-eighth ward had charge of the polls at the Conkling Club headquarters last night. During the evening 120 votes were polled.

Died of Typhoid Fever.

. 30

John Henin, who was taken to the West Penn Hospital on September 22 suffering from typhoid fever, died at 3 o'clock yes-terday atternoon. He was an Englishman, 19 years of age, and was unmarried.

The Allegheny General Republican Cinh The French Dissatisfied. Holds a Well Attended Meeting. It was learned from Mr. Girodet that the

French are much dissatisfied with their oil imports. The price is very excessive and the people are clamoring for lower duties. Refined oil, of a bad quality at that, is sold over there for 32 cents per gallon. Crude oil used to bring 6 cents per gallon in New York several years ago, but compe-tition brought it down to 2 cents. There are 28 oil refineries in France, but the French don't understand how to get all the valuable products out of petroleum. In America 98 per cent of the oil is utilized, while in France they can't get out of the crude more than 75 per cent. Such a thing as parafine from petroleum, which is more valuable in the markets than the oil itself, is unknown in the foreign republic. A Chemist Himself.

The refiners do not know how to distill it,

though the French enjoy the reputation of having the best chemists in the world. Mr. Girodet is a fine chemist himself, and is

paying particular attention to the Ameri-

can refining methods. He will visit several refineries in Philadelphia before he sails.

Mr. Girodet says they use 3,000,000 ton of crude and refined oil in France yearly.

He Only Fired in the Air.

named Throp, who lives on Grace street

Mt. Washington, on Monday, to collect a

Frightened by a Flying Brick.

Will Meet This Afternoon.

Had Both Legs Cut Off.

Adam Lang went to the house of a man

The hall of the Allegheny General Re-

publican Club was filled to overflowing last night by an enthusiastic audience. A numher of speakers were introduced who talked on the principles of the Republicsn party. Among those who spoke were: I. N. Patterson, Senator John N. Neeb, Colonel W. A. son, Senator John N. Neeb, Colonel W. A. Stone and Charles Irwin. Senator Neeb's speech was short and to the point. He said the Baker ballot law was unfit for use and he was glad that he had voted against it. "I don't antici-pate any trouble from the uneducated voters," Mr. Neeb said, "out from the man who knows it all. Why, I thought I understood it thoroughly, but after I had voted three times at the school and had each vote throw out I concluded I was not each vote thrown out I concluded I was not

in it, and my advice to you is to start a school on voting under the new law as soon as possible."

A WANDERING SCOTCH BOY.

He Came to America as a Stowaway and Sings for a Living.

Willie Stuart McLaughlin, a Scotch boy of crude and renned oil in France yearly. It is sold at 32 cents per gallon. He adds that the consumption ought to be 9,000,000 tons, and the extra product would be bought in America, if the prices were not so high. Refined oil is a luxury in France owing to the heavy duties and the bad methods of refining employed. Mr. Giradet said he was clead another wing line from Glasgow, who was proud that his mother descended from "Prince Charley Stuart," was at the Union depot last evening homeward bound. He is 11 years old, and came to America as a stowaway. He landed in Halifax four months ago, and has spent the time since earning a living by Girodet said he was glad another pipe line is being built to the seaboard, because he singing in the Canadian provinces. He is a bright little fellow, and says his parents are dead. After paying his fare to Phila-delphis, he had 50 cents left, but he hoped thinks it will make oil cheaper. He will no doubt recommend a reduction in the to increase it by singing sougs on the train.

WHY PROGRESSIVE BRICKMAKERS USE **Ohio Brick Machines**

Ohio Brick Machines. MANUPACTURED BY E. M. FREPSE & Co., GALION, OHIO. They are most economical and practical, are noted for simplicity and ease of operation, mechanical excellence, massivences, liberal distribution of metal where greatest strains are exerted; long ex-perience working the varieties of clay suit-able dus to meet the requirements of our patrons whose name is legion. Practical men representing leading works in the United States, say the Ohio brick machines have no equal, superior to all others because they press successfully all standard shapes in fire, paving and building bricks, terra cotta and drain tiles where others failed. It is the future brick machine for profit; its du-ratifity and merits are well known in one-half the brickyards in Ohio Brick Ma-bines and are endeavoring to mislead the public. All parties interested can see our methines in operation in Machinery Hall, Exposition Building, Pittsburg. For fur-ther futures brick not in the sector. bill, and on being driven away sought to get even by smashing the windows. The officers were sent lor, and when they reached the place Lang had retired to his own house, where he fired three shots into the air. He was arrested last night on Mr. Thorp's information before Alderman The clerks in the office of the Board of Assessors were startled yesterday in the midst of their duties by a brick flying through the window facing the new building in course of erection in the rear of City Hall. The missile toppled off the seventh floor of the new building and striking a scaffold caromed off through the window in the office. Broken glass was scattered all

They Surely Come,

The meeting of the County Commission-They surely come, They wintry blasts, and probably find you poorly prepared—as to your furs, I mean. Look them over now; do not tarry until I mm so overrun with business that it will take weeks to fill your order. Now is the time to reshape, re-dye and generally over-haul and clean your furs, sacque, muff, boa, cape, or whatever else they may consist of. I do it well, promptly and at little expense to you. ers which was to have been held yesterday afternoon to settle final action on the ballot to be used under the Baker system of voting did not take place. The Commissioners will, however, meet this alternoon to de-cide the matter. The Commissioners have prepared a ballot 26x20 inches which they will adopt.

by herself, was among the first mentioned as being desirable. A copy of Mrs. Swiss-heim's "Advice to Country Girls" will also be on exhibitiop.

A Museum Will Result.

All the materials used in the decoration All the materials used in the decoration of the ladies' parlors of Pennsylvania State building will be bought by the State and removed to Harrisburg after the Fair, where they will be placed as a nucleus for a State art museum which is to be estab-

I state art indecan which is to be caudy lished. An appropriation will be made for the building next year. The colored women of the country wanted to make some display. They decided upon a bust of Avery, and wanted Edmonia, a colored sculptress of some note, to execute is for them. We come access or other they

colored sculptress of some note, to execute it for them. For some reason or other they were unable to obtain the sculptress' ad-dress, so the matter fell through. The project of erecting a glass building for Allegheny county women's exhibit in the woman's building had to be abandoned on account of the committee being unable on account of the committee being unable to obtain space. It was the intention to erect a Temple of Vesta, and the exhibit would have undoubtedly been a feature of the fair. Not being able to carry out this idea the committee did the next best thing and decided to make a glass room. This will be composed entirely of plate mirrors, and will be decorated with cut and etched class of avery description. The prominent glass of every description. The prominent glass of every description. The prominent glass manufacturers were seen yesterday by Mr. Richards, and each one said he would furnish whatever the ladies wanted. With tiffs assistance the ladies will doubtless make a creditable display. A letter was read before the board yester-

day from Rev. S. Collins, a U. P. minister of Allegheny, which said he had noted the intention of the women to erect a Temple of Vesta, and wanted to know if they were going back to heathen worship. "As an American and a Christian and a minister of the gospel," he continued, "I protest against this as an affront to the true God, and ask that you give up the project.'

Some Rare Wood Carving.

Mr. Richards says that Franklin county will have a novel exhibit from a convent near Chambersburg. There is a large estate there which belongs to a religious order. There are only two of the nuns left, and they being the last of the order the question has arisen as to whom the estate will go upon their demise. It will be a matter for the courts to decide. The furnishment of the convent is all from the hands of the nuns. The wood earving is something grand It is the intention to obtain a number of specimens of this carving, as well as the other samples of the nuns' handiwork, and display them at the Fair. The altar, it is said, is perhaps the most magnificent speci-men of wood carving in the United States. It is a question whether the indies will suc-

ceed in securing the articles they wish.
